- The Fund primarily invests at least 80% in equity or and equity related instruments of Japanese companies.
- Investments involve varying degree of investment risks (e.g. liquidity, market, economic, political, regulatory, taxation, financial, interest rate, hedging and currency risks). In extreme market conditions, you may lose your entire investment.
- Investments in financial derivatives instruments ("FDIs") (such as futures, options, forwards and warrants) involve specific risks (e.g. counterparty, liquidity, leverage, volatility, valuation and over-the-counter transaction risk). The Fund may use FDIs to reduce risk and to manage the Fund more efficiently.
- The Fund's investments are concentrated in Japan and may subject to higher concentration risk.
- The investment decision is yours. If you are in any doubt about the contents of this document, you should seek independent professional financial advice.
- Investors should not only base on this document alone to make investment decisions and should read the offering documents including the risk factors for further details.

Investment Objective and Strategy

The Fund aims to provide capital growth over the long term. The Fund invests at least 80% of its assets in a concentrated portfolio of shares (equities) and equity-related securities of Japanese companies, of any size, in any industry.
