

FTF Martin Currie UK Mid Cap Fund W (acc)

Blend GB00B7BXT545 Factsheet as of 31 March 2024

This is a marketing communication.

Investment Overview

The Fund aims to grow in value by more than the FTSE 250 (ex-Investment Trusts) Index, from a combination of income and investment growth over a three to five-year period after all fees and costs are deducted. There is no guarantee that the Fund will achieve its objective over this or any other time period. Capital invested is at risk and you may get back less than you paid in.

Past performance does not predict future returns.

Performance details are in the fund's base currency, include the reinvested dividends gross of basic rate UK tax and are net of management fees. Sales charges and other commissions, other taxes and relevant costs to be paid by an investor are not included in the calculations. Performance may also be affected by currency fluctuations. Up to date performance figures can be found on our local website.

The W (acc) share class launched on 2012-05-31. Performance data prior to that date is for the A (inc) GBP share class launched on 1999-07-12 which had higher annual charges.

Fund performance is based on the mid price of the Rensburg UK Mid Cap Growth Trust from its launch on 12/07/1999 to 30/09/2011 and the net asset value of the FTF Martin Currie UK Mid Cap Fund A(inc) shares thereafter.

Charges

Maximum Initial Charge	0.00%
Exit Charge	—
Ongoing Charges Figure	0.81%
Performance Fee	—

The Ongoing Charges Figure (OCF) is an amount representing all operating charges and expenses of the Fund in the prior 12 months as a percentage of the Fund's average net assets for the period. Where that figure would not be a fair representation of future costs or if 12 months data is not available, an estimated figure will be shown.

Portfolio Data Information

Holdings are provided for information purposes only and should not be deemed a recommendation to buy or sell the securities mentioned.

What are the Risks?

The value of shares in the Fund and income received from it can go down as well as up and investors may not get back the full amount invested. Performance may also be affected by currency fluctuations. Currency fluctuations may affect the value of overseas investments. There is no guarantee that the Fund will meet its objective. The Fund invests mainly in equity securities of mid-sized UK companies that are included in the FTSE 250 ex-Investment Trusts Index. Such securities have historically been subject to price movements, sometimes to a greater extent than securities of large UK companies, due to company-specific factors or movements in the UK equity markets generally. As a result, the performance of the Fund can fluctuate significantly over relatively short time periods. Risks materially relevant not adequately captured by the indicator: **Concentration risk:** the risk that arises when a fund invests in relatively few holdings, few sectors or a restricted geographic area. Performance may be more volatile than a fund with a greater number of securities. **Equity risk:** prices of equities may be affected by factors such as economic, political, market, and issuer-specific changes. Such changes may adversely affect the value of the equities regardless of company-specific performance. **Investment in smaller company shares:** The fund buys shares in smaller companies. It may be difficult to sell these shares, in which case the fund may not be able to minimise a loss on such shares. **Liquidity risk:** the risk that arises when adverse market conditions affect the ability to sell assets when necessary. Such risk may be triggered by (but not limited to) unexpected events such as environmental disasters or pandemics. Reduced liquidity may have a negative impact on the price of the assets. For a full discussion of all the risks applicable to this Fund, please refer to the "Risk Factors" section of the current prospectus of Franklin Templeton Funds.

Glossary

Target: The benchmark is defined in the objective as a target the Fund intends to meet or beat. **RSMR Rating Source:** Rayner Spencer Mills Research Limited ("RSMR"). RSMR does not and cannot provide advice to investors on the suitability or appropriateness of any funds or investments. **IA Sector Peer Group:** The ACD considers that the Investment Association (IA) Sectors provide an appropriate comparison for performance purposes given the fund's investment objective and policy. Please refer to the Prospectus for further information. Source for sector average (mean) performance: Copyright - © 2024 Morningstar, Inc. All Rights Reserved. The information contained herein: (1) is proprietary to Morningstar; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. For more information, visit www.morningstar.co.uk. **Return on Equity:** A measure of a corporation's profitability that reveals how much profit a company generates with the money shareholders have invested. For a portfolio, the value represents a weighted average of the stocks it holds. **Historical 3 Yr Sales Growth:** The rate at which sales have increased for the fund's underlying holdings over the last three years. **Historical 3 Yr EPS Growth:** A measure of the growth of earnings per share over a trailing 3 year period. For a portfolio, the value represents a weighted average of the stocks it holds. **P/E to Growth:** A ratio used to determine a stock's value while taking into account earnings growth. For a portfolio, the value represents a weighted average of the stocks it holds.

Important Information
