What is this product?

Type:

This product is a type of collective investment scheme, specifically, a sub-fund of an Irish authorised undertaking for collective investment in transferable securities (or "UCITS") constituted as an investment company under Irish company law. Your investment will take the form of shares in the Fund.

Term:

The Fund, unless dissolved pursuant to any specific cause set forth in a mandatory law or in accordance with the prospectus of the Fund, is established for an unlimited duration.

Objectives:

The Fund's investment objective is to generate long-term capital appreciation on your investment while maintaining a high level of risk control.

The Fund will achieve this objective by investing predominantly (being at least 80% of its assets) in other regulated collective investment schemes ("CIS"), including exchange traded funds, where it is considered consistent with the investment objective.

By investing in CIS and other debt instruments, the Fund indirectly invests in the equities of companies, bonds and alternative asset classes (being asset classes other than equities and bonds), as well as cash.

Approximately 35% of the Fund's assets will be invested in growth assets.

The Fund may invest up to 10% of its assets in listed or unlisted transferable securities such as investments similar to equities, bonds and other debt instruments (including mortgage and asset backed securities).

By diversifying across asset classes, companies and industry sectors, the Fund aims to reduce risk whilst providing capital growth.

The Fund may gain market exposure indirectly through the use of specialist financial techniques (known as derivatives). Derivatives may also be used to reduce the Fund's exposures to risk or to manage the Fund more efficiently.

The Fund is actively managed and may measure its performance with reference to the Morningstar USD Cautious Median (the "Index") and may

reference this relative performance data in its investor communications. Russell Investments does not factor the Index into the investment process and the Fund is not managed with reference to an index.

Income of the Fund will be re-invested to increase the value of your investment.

You may sell your shares in the Fund on any day on which banks are normally open for business in Ireland. For further information please refer to the "Repurchases of Shares" section of the prospectus.

The Fund may be terminated at the discretion of the directors of the Company, provided that a minimum of twenty-one days' written notice has been provided to Shareholders. The Fund may also be terminated by the Shareholders in the Fund, if voted for by at least 75% of the Shareholders in the Fund.

The Fund's depository is State Street Custodial Services (Ireland) Limited (the "Depository").

The share price is published on each business day and is available online at www.bloomberg.com.

Further information about the Fund, copies of the English and Swiss French prospectus and the latest annual and semi-annual reports in English may be obtained free of charge by writing to Russell Investments, Rex House, 10 Regent Street, London SW1Y 4PE, England. They are also available online at <https://microsite.fundassist.com/RussellEMEA/Home/RegulatorView>.

Intended retail investor:

The Fund is designed primarily for investors seeking to maintain capital value and modest capital growth while maintaining a high level of risk control. It should form part of a broader portfolio of investments but may also be suitable as a significant component of an investor's overall portfolio. The Fund is intended for investors with a medium to long term investment horizon, who are prepared to take on a relatively high level of risk of loss to their original capital. For a basic investor, the Fund should be purchased with advice or on an execution only basis.

What are the risks and what could I get in return?

Risk Indicator

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level and poor market conditions are very unlikely to impact the value of your investment.

The summary risk indicator only takes market and credit risk into account. For a full list of the risks materially relevant to the Fund, please see the Prospectus at: <https://microsite.fundassist.com/RussellEMEA/Home/RegulatorView>.

This product does not include any protection from future market performance so you could lose some or all of your investment, however, your liability will be limited to the amount invested and you will not be liable for any additional financial commitments beyond the amount you have invested.

Performance scenarios

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last 10 years.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended Holding Period: 5 years			
Investment: USD 10,000			
Scenarios		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Minimum: There is no minimum guaranteed return if you exit before 5 years

Favourable³	What you might get back after costs Average return each year	11,670 USD 16.70%	13,110 USD 5.56%

¹ This type of scenario occurred for an investment between August 2021 and December 2023.

² This type of scenario occurred for an investment between June 2015 and June 2020.

³ This type of scenario occurred for an investment between February 2016 and February 2021.

What happens if Carne Global Fund Managers (Ireland) Limited is unable to pay out?

The assets and liabilities of the Fund are segregated from those of the other sub-funds and from those of PRIIP Manufacturer and the Depository. The assets of the Fund are held in safekeeping by its Depository. In the event of the insolvency of the PRIIPs Manufacturer, the Fund's assets in the safekeeping of the Depository will not be affected. In the event of the insolvency of the Depository, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario and the investment is USD 10,000.

Investment: USD 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	144 USD	801 USD
Annual cost impact (*)	1.4%	1.5%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.5% before costs and 3.0% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this product.	0 USD
Exit costs	We do not charge an exit fee for this product.	0 USD
Ongoing costs taken each year		If you exit after 1 year
Management fees and other administrative or operating costs	1.3% of the value of your investment per year. This is an estimate based on actual costs over the last year.	130 USD
Transaction costs	0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	14 USD
Incidental costs taken under specific conditions		If you exit after 1 year
Performance fees	None	0 USD

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The Fund is designed to be held over the medium to long term.

You can request to take out some or all of your money at any time.

If you sell your shares at an early stage, this will increase the risk of lower investment returns or a loss.

You may exchange shares of one sub-fund for shares in another sub-fund by selling the shares of the first sub-fund and purchasing shares of the other sub-fund as further described in the Prospectus.

How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person advising on the product, complaints can be lodged via the following methods:

- i. E-mail: complaints@carnegroup.com
- ii. Mail: 3rd Floor, 55 Charlemont Place, Dublin, D02 F985 – Ireland

In the event that you are not satisfied with our response to your complaint you can refer the matter to the Irish Financial Services and Pensions Ombudsman by writing to the Financial Services Ombudsman's Bureau at 3rd Floor, Lincoln House, Lincoln Place, Dublin 2, Ireland who may be able to provide an independent assessment of your complaint.
