Annuity contract values, death benefits and other values fluctuate based on the performance of the investment options and may be worth more or less than your total purchase payment when surrendered. For performance results current to the most recent month-end, please contact your financial professional or visit the Variable Annuity Reference Center at thrivent.com.

Disclosure

This report shows performance for the most recent month- and quarter-end for the investment options (subaccounts) in the Thrivent Retirement Choice Variable Annuity, currently available for purchase. Performance data for one year or greater are annualized; periods less than one year are not annualized.

All data represents past performance and does not guarantee future results. The past performance shown is based on the change in unit values of the Portfolios and effects of compounding. The performance returns are based solely on the increase or decrease in the value of these units. Both the investment return and the principal value of an investment fluctuate so that units, when redeemed, may be worth more or less than the original investment.

Annualized total returns are based on the change in unit values at the subaccount level for the time period mentioned. Values do not include surrender charges or the deduction of the current mortality and expense risk charge or any other contract charges. All values reflect the annual net operating expenses which are subject to change. Total returns are calculated from the date the subaccount was made available through the separate account used with this contract.

If the administrative charge or any optional living or death benefits had been included, the total returns figures shown would be lower. Subaccount total return calculations assume an initial investment of \$1,000. See the Retirement Choice Variable Annuity product prospectus, portfolios' prospectuses and summary prospectuses for more information.

¹Blackrock: The returns for Class III Shares prior to August 14, 2012, the recommencement of operations of Class III Shares, are based upon performance of the Predecessor Fund's Class I Shares, as adjusted to reflect the distribution and/or service (12b-1) fees applicable to Class III Shares. This information may be considered when assessing the performance of Class III Shares, but does not represent the actual performance of Class III Shares.

²Fidelity: Fidelity is a service mark of FMR LLC

You could lose money by investing in the Thrivent Money Market Portfolio. Although the Portfolio seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Portfolio is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Portfolio's sponsor has no legal obligation to provide financial support to the Portfolio, and you should not expect that the sponsor will provide financial support to the Portfolio at any time. These and other risks are described in the prospectus.

Investing involves risk, including the possible loss of principal. The product prospectus, portfolios' prospectuses and summary prospectuses contain more complete information on investment objectives, risks, charges and expenses along with other information, which investors should read carefully and consider before investing. Available at thrivent.com.

Thrivent is the marketing name for Thrivent Financial for Lutherans. Insurance products issued by Thrivent. Not available in all states. The principal underwriter and distributor of variable insurance products is Thrivent Investment Management Inc., member FINRA and SIPC and a subsidiary of Thrivent. Thrivent.com/disclosures.
