

# Aberdeen Standard SICAV I - North American Smaller Companies Fund

A Acc USD

Performance Data and Analytics to 30 June 2020

Important Information

- The Fund invests in equities and equity-related securities of companies registered in or conducting the bulk of their business activities in the United States of America. Smaller Companies are defined as companies with a market capitalisation of under US\$5 billion.
- The Fund's exposure to a single country market increases potential volatility.
- Smaller companies are subject to the risk of greater vulnerability, and are generally of lower liquidity and greater volatility than larger companies.
- The Fund's net derivative exposure may be up to 50% of the Fund's net asset value and subject to counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk.
- Investment in this fund may involve a high degree of risk and may not be suitable for all investors. It is possible that the entire value of the investment could be lost.
- Investors are responsible for their investment decisions and should ensure that the intermediary has advised on fund's suitability and consistency with their investment objective. If in doubt, please seek independent financial and professional advice.
- Investors should not invest in this Fund based solely on this document and should read the relevant offering documents (particularly the investment policies and risk factors) for more details before investing.

Investment objective

To achieve long-term total return by investing at least two-thirds of the Fund's assets in equities and equity-related securities of Smaller Companies with their registered office in the United States of America; and/or Smaller Companies which have the preponderance of their business activities in the United States of America; and/or holding companies that have the preponderance of their assets in Smaller Companies with their registered office in the United States of America.

For the purpose of this Fund, Smaller Companies are defined as companies with a market capitalisation in the base currency of the Fund, as at the date of investment, of under US\$5 billion.
