## What is this product?

### Type

This is a securities fund (UCITS) under regulation of Swedish law.

### Term

The fund does not have a maturity date. The fund management company has the right to close the fund and redeem the fund units as described in the information included in the fund prospectus.

### Objectives

The fund is an index fund and its objective is to track the performance of the Solactive ISS ESG Screened Paris Aligned Global Markets Index NTR as closely as possible. The fund is passively managed.

Fund returns are determined by how the fund's investments in equities increase or decrease in value. The index will be replicated through optimized physical replication, which means that the fund invests directly in a larger selection of the equities included in the index. Tracking error is expected to be less than 0.25% under normal market conditions. The management fee, as well as customer flows, index rebalancing and corporate events result in transaction costs for the fund, which are not present in the index. These are the main factors that impact the fund's ability to replicate the index. The index is reinvested, i.e., distributions paid for equities included in the index are reinvested in the index after tax adjustments. The index reflects the developed equity markets globally, with the exception of those companies that do not fulfill the sustainability requirements of the index.

The sustainability requirements in the index aim to reduce carbon emissions. The companies in the index are selected and weighted in such a manner that the index portfolio's emissions of greenhouse gases are aligned with the long-term global warming targets in the Paris Agreement. The sustainability requirements in the index also provide for the exclusion of companies involved in verified violations of international norms, companies that cause significant harm to environmental goals, as well as companies that are active within controversial sectors.

The fund can invest in derivative instruments as part of the fund's investment focus. However, the use of derivative instruments is of such a nature that it only has a marginal impact on the fund's risk level.

The shareclass does not distribute dividends. All income is reinvested in the fund. Normally, you may purchase and sell fund units every banking day. Additional information about the sustainability work, the share class designation in parentheses and the management in relation to the funds benchmark index, may be found in the prospectus.

### Intended retail investor

This fund may be suitable for investors who intend to hold their investments for at least 5 years and who understand that the money invested in the fund may both increase and decrease in value and that it is not certain that the entire capital invested can be returned. Investing in the fund does not require any specific prior knowledge or experience of UCITS or financial markets.

## What are the risks and what could I get in return?

### Risk indicator

 The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 4 out of 7, which is a medium risk class. This means the fund has medium risk of ups and downs in the share value. The indicator primarily reflects increases and decreases in the assets the fund is invested in.

This product does not provide any protection from future market performance. You could therefore lose some or all of your investment.

### Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavorable, moderate and favorable scenarios show the worst, average and best performance for the product over the last 10 years. Given that the share class does not have 10 years of historical performance, the relevant benchmark index or, alternatively, historical performance from another share class in the fund, is used for the calculation of the scenarios.

**Recommended holding period: 5 years**

**Investment amount 100,000 kr**

Scenarios		If you exit after 1 year	If you exit after 5 years
<b>Minimum</b>	There is no minimum guaranteed return. You could lose all of your investment.		
<b>Stress Scenario</b>	What you might get after costs	32,300 kr	29,900 kr
	Average return each year	-67.70 %	-21.45 %
<b>Unfavourable Scenario</b>	What you might get after costs	88,400 kr	124,500 kr
	Average return each year	-11.60 %	4.48 %
<b>Moderate Scenario</b>	What you might get after costs	113,100 kr	180,800 kr
	Average return each year	13.10 %	12.57 %
<b>Favourable Scenario</b>	What you might get after costs	134,400 kr	211,000 kr
	Average return each year	34.40 %	16.11 %

The unfavorable scenario occurred during the period 08/2023 - 12/2024, the moderate scenario occurred 07/2017 - 07/2022 and the favorable scenario occurred 04/2016 - 04/2021. The stress scenario shows what you might get back in extreme market circumstances. The markets could develop very differently in the future.

## What happens if Handelsbanken Fonder AB is unable to pay out?

By law, the fund's assets may not be held in custody by the fund management company. Instead, each fund must have a specific depositary that handles the safekeeping of the fund's assets. In the event of the bankruptcy of the fund management company, the management of the fund is taken over by the depositary. There is no compensation or guarantee scheme for investors in the fund.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If the fund is included as part of another product, e.g., unit-linked insurance, additional costs may arise for that product.

## Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 100,000 kr is invested

	If you exit after 1 year	If you exit after 5 years
<b>Total Costs</b>	430 kr	3,940 kr
<b>Annual Costs Impact (*)</b>	0.43 %	0.49 % each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 13.06 % before costs and 12.57 % after costs.

**Composition of costs** (amount in SEK is based on an investment of SEK 100,000).

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry Costs</b>	We do not charge an entry fee, although the person selling the product may do so.	0 kr
<b>Exit Costs</b>	We do not charge an exit fee, although the person selling the product may do so.	0 kr
<b>Ongoing costs</b>		
<b>Management fees and other administrative or operating costs</b>	0.4 % of the value of your investment per year. This is an estimate based on actual costs over the last year.	400 kr
<b>Transaction costs</b>	0.03 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	30 kr
<b>Incidental costs taken under specific conditions</b>		
<b>Performance fees and carried interest</b>	There is no performance fee for this product.	N/A

## How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The fund does not have a minimum holding period requirement but since investments are made in equities, it is suitable for a long-term investment horizon. You should be prepared to save in the fund for at least 5 years. Normally, you may sell your fund units every banking day without incurring any extra fee.

## How can I complain?

If you wish to make a complaint about the fund, you can contact the person who advised you or sold you the product. You can also contact the fund management company directly at: [klagomal@handelsbanken.se](mailto:klagomal@handelsbanken.se) or write to Handelsbanken, Complaints Officer, 106 70 Stockholm, Sweden.
