<https://www.mandatumlife.fi/>

For further information, call +358 200 31100 (Inc/mnc). Regulated by the Finnish Financial Supervisory Authority (FIN-FSA). Release Date: 26/04/2022

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type: The investment strategy, which is an investment aggregation specified by the insurance company, to whose value development the value of the insurance can be tied. The investment strategy cannot be acquired separately; it is part of unit-linked insurance.

Objectives: Mandatum Mandate Narrow 25 is a fixed income-weighted combination strategy whose objective is to exceed the fixed income investment return in the long run, with a lower risk level than what the equity markets hold. Achieving the investment objective and managing investment risk is carried out through active portfolio management between various investment objects, typically investment baskets and investment funds, but also other investment instruments, such as equities, alternative investments and fixed income investments can be used to achieve the investment objective. The strategic weight of asset classes other than fixed income investments is close to 25% in the long run. The weight of asset classes other than fixed income investments can, however, be adjusted between 0-40% according to the market situation, which in the short term means that the share of fixed income, equity and alternative investments can vary quite a lot.

Intended Retail Investor: The investments strategy suits investors who seek a higher return than those for fixed income investments in the long term and accept the risk of losing capital and returns.

Product term: The recommended investment period is at least 3 years. This product does not have a maturity date, it is a continuous investment strategy. The insurance company has a unilateral right to cancel the product without a specific reason by informing the customer of the cancellation within a reasonable amount of time.

What are the risks & what could I get in return?

The risk indicator gives a picture of how this product's risk level relates to the risk level of other products.

The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

According to PRIIPS regulation, this product's risk level is 2 out of 7, which is a low risk class. This product does not have capital protection. The value of investment objects may increase or decrease. The product is exposed to a fairly low

return risk and capital risk. Return risk and capital risk mean that investors may lose the capital that they have invested as well as the returns in part or in full.

The risk-reward profile and risk category of the product are subject to change. It is not possible to predict the future development of the fund's risk and reward profile and risk category based on the historical data of the product's risk category. Not even the lowest risk category (1) means that the investment is completely risk-free.

This product does not include any protection from future market performance so you could lose some or all of your investment.

What are the risks & what could I get in return? (continued)

Performance Scenarios

Scenarios	1 Y	2 Years	3 Years*
Stressed Scenario			
What you might get back after costs	7,565.30€	8,939.76€	8,714.59€
Average return each year %	-24.35	-5.45	-4.48
Unfavourable Scenario			
What you might get back after costs	9,765.28€	9,809.60€	9,899.75€
Average return each year %	-2.35	-0.96	-0.34
Moderate Scenario			
What you might get back after costs	10,252.83€	10,505.52€	10,764.44€
Average return each year %	2.53	2.50	2.49
Favourable Scenario			
What you might get back after costs	10,742.78€	11,227.89€	11,680.81€
Average return each year %	7.43	5.96	5.32

*recommended holding period

This table, according to the PRIIPS regulation, shows the money you could get back over the next 3 years, under different scenarios, assuming that you invest 10,000.00 €.

These scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if Mandatum Life is unable to pay out?

The product is not covered by the Investors' Compensation Fund or the Deposit Guarantee Fund. The investor may lose all or part of return and the capital he or she has invested in the product. If the insurance company is placed in liquidation or bankruptcy, the interests of the policyholders are secured such that all insurance receivables, regardless of the insurance class and line, hold first preference to all of the company's assets during the company's liquidation and bankruptcy above all other receivables targeted at the company.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The table shows what the costs, including potential exit penalties, could mean for different holding periods. The figures assume you invest 10 000€. The figures shown are partially based on data from the past and therefore may change in the future.

Costs Over Time

Investment Scenarios 10,000.00€	If you cash in after 1 Y	If you cash in after 2 Years	If you cash in after 3 Years*
Total cost €	144.83	298.62	462.08
Impact on return (RIY) per year %	1.45	1.45	1.45

*recommended holding period

What are the costs? (continued)

Composition of Costs

One-off costs

Entry Costs %	0.00	The impact of the costs you pay when entering your investment.
Exit Costs %	0.00	The impact of the costs of exiting your investment when it matures.

Incidental costs

Performance fees %	0.00	The impact of the performance fee. We take these from your investment if the product outperforms its benchmark by %.
Carried Interests %	0.00	The impact of carried interests.

Specification of other ongoing costs: Investment basket's management fee 0 %, underlying investments' fees 1.45 %.

Specification of performance fee: Investment basket's performance fee 0 %, underlying investments' performance fees 0 %.

How long should I hold it and can I take money out early?

Recommended minimum holding period: 3 years

The investor can relinquish their investment each banking day. This will not result in additional costs for the customer. In order to achieve the targeted return, the product needs to be kept for the recommended minimum investment period, i.e. 3 years.

How can I complain?

The customer can complain about the product, the activities of the product's developer or the party selling the product/providing advice by contacting Mandatum Life either on our Web Service through an online message at the address www.mandatumlife.fi or calling our customer services at tel. +358 200 31100 (Inc/mnc). The complaint can also be made by letter. The feedback will be handled according to current legislation. The processing of the matter will take place without delay, however, within a maximum of 30 days.
