PRODUCT

Mandatum Mandate Equity Narrow

Mandatum Life Insurance Company (Mandatum)

ISIN: ZZML00000099

www.mandatum.fi

For further information, call Mandatum's customer service at +358 200 31100 (Inc/mnc).

The investment strategy can be added to the unit-linked insurance provided by Mandatum Life Insurance Company Limited (Mandatum). Mandatum Life Insurance Company Limited, which is part of Mandatum Group, is authorized by the Finnish Financial Supervisory Authority (FIN-FSA), which also regulates it with regard to this specific information document.

Release date **6.5.2024**

You are about to purchase a product that is not simple and may be difficult to understand.

WHAT IS THIS PRODUCT?

Type: Investment strategy, which invests in different investment objects. The strategy cannot be acquired separately; it is part of unit-linked insurance.

Term: The recommended investment period is at least 5 years and it is based on the product's risk indicator and investment strategy. This product does not have a maturity date, it is a continuous investment strategy. The insurance company has a unilateral right to cancel the product without a specific reason by informing the customer of the cancellation within a reasonable amount of time.

Objective: Mandatum Mandate Narrow Equity is an equity strategy whose objective is to exceed the average return of the equity markets in the long run. Achieving the investment objective and managing investment risk is carried out through active portfolio management between various investment objects, typically investment baskets and investment funds, but also other investment instruments, such as equities, alternative, and fixed income investments. In the long run the strategic weight of equity investments is close to 98%.

Intended Retail Investor: The investment strategy suits investors who seek a higher return than the average return on the equity markets in the long term and accept the risk of losing capital and returns. The strategy suits investors who intend to keep the product for the recommended minimum investment period, i.e. 5 years.

WHAT ARE THE RISKS & WHAT COULD I GET IN RETURN?

Risk indicator

Lower Risk ← → Higher Risk

The risk indicator assumes you keep the product for at least 5 year(s). This product has no maturity date.

We have classified this product as 4 out of 7, which is a medium risk class. The actual risk can vary considerably if you redeem your investment earlier. The investment strategy is exposed to the

equity markets' return risk and capital risk. Return risk and capital risk mean that the investor may lose the capital that they have invested as well as the returns in part or in full.

The risk-reward profile and risk category of the fund are subject to change. Not even the lowest risk category mean that the investment is completely risk-free. This product does not include any protection against future market developments, therefore you may lose some or all of your investment.

WHAT ARE THE RISKS & WHAT COULD I GET IN RETURN? (CONTINUED)

Performance Scenarios

The return the investor receives will vary depending on how the market performs. The future market performance is uncertain and cannot be accurately predicted.

The unfavorable, moderate, and favorable outlooks presented are examples using the product's own history and, for the missing part, the worst, average and best returns of the appropriate benchmark over the past 10 years. The market may develop in very different ways in the future.

Recommended Holding Period: 5 years

Investment = €10,000

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum		There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	What you might get back after costs	€4,300	€3,970
	Average return each year	-56.96%	-16.88%
Unfavourable	What you might get back after costs	€8,050	€9,490
	Average return each year	-19.55%	-1.05%
Moderate	What you might get back after costs	€10,610	€14,050
	Average return each year	6.11%	7.03%
Favourable	What you might get back after costs	€14,270	€17,410
	Average return each year	42.74%	11.73%

The table according to the PRIIPS regulation shows the estimation for what is the value of your investment after costs over the next 5 years under different scenarios, assuming that you invest 10,000 €. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product. The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment or a benchmark between December 2021 and March 2024.

The moderate scenario occurred for an investment or a benchmark between November 2015 and November 2020.

The favourable scenario occurred for an investment or a benchmark between June 2016 and June 2021.

WHAT HAPPENS IF MANDATUM LIFE INSURANCE COMPANY (MANDATUM) IS UNABLE TO PAY OUT?

The product is not covered by the Investors' Compensation Fund or the Deposit Guarantee Fund. The investor may lose all or part of return and the capital they have invested in the investment strategy. If the insurance company is placed in liquidation or bankruptcy, the interests of the policyholders are secured such that all insurance receivables, regardless of the insurance class and line, hold first preference to all of the company's assets during the company's liquidation and bankruptcy above all other receivables targeted at the company.

WHAT ARE THE COSTS?

The tables show the amounts that are used to cover different types of costs. These amounts depend on the amount of the investment, the duration of the investment period. The amounts presented here are estimates based on the investment amount and different possible investment periods. The assumption is that in the first year the investor would get back the amount they invested (0% annual return). With regard to other investment periods, the assumption is that the investor will receive a return on the product in accordance with a reasonable outlook. Investment 10,000 euros per year.

Table I: Costs over time

	If you exit after 1 year	If you exit after 5 years
Total costs	€150	€1,120
Annual cost impact (*)	1.52% each year	1.65% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.7% before costs and 7.0% after costs.

Table 2: Composition of costs

One-off costs		If you exit after 1 year
Entry costs	We do not charge an entry fee	€0
Exit costs	We do not charge an exit fee for this product.	€0
Ongoing costs		
Management fees and other administrative or operating costs	1.31% of the value of your investment per year. The figure includes the management fees of underlying securities, 1.00%. This is an estimate based on actual costs over the last year.	€131
Transaction costs	0.21% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€21
Incidental costs		
Performance fees and/or Carried interests	There is no performance-based fee related with this product.	€0

HOW LONG SHOULD I HOLD AND CAN I TAKE MONEY OUT EARLY?

The investor can relinquish their investment at a value calculated for the investment strategy on each banking day. This will not result in additional costs for the customer. The objective of the product is to offer the investor the return described in the above section "What is this product?". In order to achieve the targeted return, the product needs to be kept for the recommended minimum investment period, i.e. 3 years.

HOW CAN I COMPLAIN?

The customer can complain about the product, the activities of the product's developer or the party selling the product/providing advice by contacting Mandatum via Web Service through an online message at the address www.mandatum.fi or calling our customer services at tel. +358 200 31100 (Inc/mnc). The complaint can also be made by letter. The feedback will be handled according to current legislation. The processing of the matter will take place without delay, however, within a maximum of 30 days.
