

INCOME PARTNERS MANAGED VOLATILITY HIGH YIELD BOND FUND - CLASS 2

Fund Manager's Report - 31 August 2020

IMPORTANT INFORMATION

- I. Income Partners Managed Volatility High Yield Bond Fund (the "Fund") invests primarily in high yield debt instruments, which are below investment grade or unrated. The Fund will invest in high yield debt instruments, and as a result may be subject to substantial credit/counterparty risk, credit rating related risks, interest rates risk, liquidity risks, and valuation risks. The investments held by the Fund may fall in value and therefore your investment in the Fund may suffer losses.
- II. The Fund's managed volatility strategy may not achieve the desired results under all circumstances. While the Fund's manager will endeavor to manage the Fund such that it does not exceed its pre-determined annualized volatility target, there is no guarantee that such targets can be reached in all market conditions. Managed volatility does not necessarily mean lower risk and the Fund may still suffer losses.
- III. The Fund is denominated in RMB, and RMB is currently not freely convertible and is subject to exchange controls and restrictions. There is no guarantee that RMB will not depreciate. If you convert Hong Kong Dollar or any other currency into RMB so as to invest in the Fund and subsequently convert the RMB redemption proceeds back into Hong Kong Dollar or any other currency, you may suffer a loss if RMB depreciates against Hong Kong Dollar or other currency. In addition, the underlying investments in the Fund may be denominated in currencies other than RMB. The NAV may be affected favorably by fluctuations in the exchange rates between these currencies and the base currency and by changes in the exchange rate controls.
- IV. The Fund invests in the Greater China region and in the China market and there is subject to emerging market risk including political, economic, legal, regulatory and liquidity risks.
- V. The Fund may invest in derivative transactions such as swaps, futures and forwards for hedging purposes. There is no guarantee that the hedging techniques will be effective.
- VI. In respect of the distribution Units of the Fund (save for Class 2C Dis (USD) Units), the Fund's manager currently intends to make monthly dividend distribution. However, the distribution amount of dividend rate is not guaranteed. In respect of the Class 2C Dis (USD) Units, the Fund's manager makes non-discretionary monthly distributions. For certain classes of Units of the Fund, the Fund's manager may at its discretion pay distributions out of the capital of the Fund. The Fund's manager may also, at its discretion, pay distributions out of gross income, while paying all or part of the fees and expenses of the capital of the Fund, resulting in an increase in distributable income for payment of distributions by the Fund. Therefore the Fund may effectively make payment of dividend out of capital. Payment of distributions out of capital represents a return or withdrawal of part of the amount they originally invested of from any capital gains attributable to the original investment. Any such distributions may result in an immediate reduction of the net asset value per unit of the Fund.
- VII. Investment involves risk. Past performance is not a guarantee or a reliable indicator of future results and no guarantee is being made that similar returns will be achieved in the future.
- VIII. In making investment decisions, investors should not rely solely on the information in this report and should read the offering document of the Fund of further details including the risk factors. This document does not constitute an offering document.

- Effective October 2019, the fund exposure numbers are taken from a new risk system. The method for retrieval, calculation and interpretation of fund exposure may differ from previous risk system. Unless stated otherwise, all data as of 31 August 2020. Source: Income Partners, fund performance is calculated on NAV to NAV basis in denominated currency with dividends re-invested. Performance is presented on a net-of-fees basis. Past performance is not indicative of future results.
1. BENCHMARK FUND OF THE YEAR AWARDS 2019 is based on the performance as at 30 September 2019. Any awards won are not indicative of Income Partners' future performance. The awards should not be considered an endorsement of Income Partners by any client. The awards may not be representative of any client's experience. Income Partners may be required to pay a fee to participate in the nomination of the award.
 2. Morningstar, as of 31 July 2020 © 2020 Morningstar. All Rights Reserved. The information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. Past performance is no guarantee of future results.
 3. This document contains fund performance or NAV numbers which may be subject to amendments and further verification by the fund administrator. The fund administrator, rather than the manager, publishes the official fund NAV. Any performance numbers contained herein should not be relied on as official or final NAV of the fund.
 4. The total return chart above shows the Fund's total return performance since inception.
 5. Annualized Dividend Yield: $(1 + \text{distribution per unit} / \text{ex-dividend NAV})^{\text{distribution frequency}} - 1$. Yield figures are estimates and are based on the latest dividend distribution and the ex-dividend NAV of the previous month. Yield figures are for reference only. Positive dividend yield does not imply positive return. Dividend rate is not guaranteed and distributions may be paid from capital. In respect of the Class 2C (USD) Distribution Units, pay out non-discretionary monthly distributions at a fixed percentage of 7% per annum. The 7% annualized yield is calculated as follows: $(\text{total dividend paid or to be paid over the current calendar year} / \text{last available net asset value of the Fund in the prior calendar year}) \times 100\%$.
 6. The calendar performance figures are calculated from share class launch dates to calendar year-end.
 7. The Sharpe Ratio is calculated as annualized return minus risk free rate (RFR) divided by annualized standard deviation. RFR is the simple average of 1 year CNH cross-currency swap rate.
 8. Yield to Maturity in RMB applies to all Unhedged share classes in RMB (2B), USD (2A), HKD (2D), AUD (2E), SGD (2H), EUR (2J), as investors are exposed to RMB risk.
 9. Yield to Maturity in USD applies to all Hedged share classes in USD-Hedged (2G), AUD-Hedged (2I), EUR-Hedged (2K), RMB (USD Exposure) (2X) as investors are not exposed to RMB risk.
 10. Where applicable, workout dates are used for the calculation of yield to maturity for callable bonds (sourced from Bloomberg).

INVESTMENT OBJECTIVE

The Fund seeks to maximize total investment returns, comprising capital appreciation and interest income by primarily investing in high yield debt instruments that are below investment grade or unrated. It aims to deliver high yield returns with a reduced level of volatility compared against the broader high yield market through an active managed volatility strategy by using both quantitative and qualitative measures. The Fund has a geographical focus on Greater China and Asia.

INCOME PARTNERS MANAGED VOLATILITY HIGH YIELD BOND FUND - CLASS 2

Fund Manager's Report - 31 August 2020

PORTFOLIO OVERVIEW¹¹

Geographical Exposure

Industry Exposure

Credit Rating Exposure

MANAGER'S COMMENTARY¹³

In August, the Asian USD high yield market rallied further, supported by global risk-on sentiment, and investors' optimism on the development of potential COVID-19 vaccines by year end. In terms of valuation, by the end of August, the average credit spread of JACI non-investment grade blended index has tightened further to 655bps from 696bps in July, still wider than the periodical wide of 623bps in late 2018 resulted from China's deleveraging policy, and year beginning level of 535bps.

In July and August, China's economy recovered further. The YoY growth rate of China's Total Social Financing, an indicator of overall credit expansion, has rebounded further to 13.3% in August from 12.9% in July, supported by more supply in local government bonds. On the economy side, the YoY growth rate of China's YTD Fixed Assets Investments rebounded to -1.6% in July from -3.1% in June, while the YoY growth rate of YTD Retail Sales recovered to -9.9% in July from -11.4% in June. The leading indicator, China's official Manufacturing PMI has been relatively steady at 51.0 in August from 51.1 in July.

Looking forward, we keep the view that the Asian high yield market may become more volatile toward year end, but the overall trend will continue to be recovery, as valuation is still wide compared to historical levels, and China as about half of the market has already contained the coronavirus domestically. The fund will continue to closely monitor the market and actively manage risk.
