Invesco Smaller Companies and Markets Investment Series (the "Company")

Report of the Authorised Corporate Director (the "Manager")

The Company

The Invesco Smaller Companies and Markets Investment Series is an open-ended investment company with variable capital ("ICVC"), incorporated in England and Wales on 8 May 2003 under registered number IC230.

The Company is a "UK UCITS Scheme" and an "Umbrella Company" (under the OEIC Regulations) and therefore new Funds may be formed by the Manager, subject to regulatory approval. Any changes to Funds or share classes will be included in an updated Prospectus.

The Company is a Financial Conduct Authority ("FCA") authorised scheme complying with the FCA's Collective Investment Schemes sourcebook.

Terms used in this report shall have the same meaning as defined in the Prospectus.

At 31 July 2023, the Company consisted of six Funds:

Invesco Emerging European Fund (UK)
Invesco European Smaller Companies Fund (UK)
Invesco Global Emerging Markets Fund (UK)
Invesco Global Smaller Companies Fund (UK)
Invesco Japanese Smaller Companies Fund (UK)
Invesco UK Smaller Companies Equity Fund (UK)

Accounting Periods

Annual accounting date	31 July
Interim accounting date	31 January
Distribution payable on	30 September

Invesco European Smaller Companies Fund (UK) M Income shares will make distribution payments semi-annually on 31 March and 30 September (final).

Should expenses and taxation exceed revenue in a distribution period for a share class, no distribution will be payable for that class.

Invesco Emerging European Fund (UK)

On 29 November 2021, the Manager wrote to the shareholders of the Invesco Emerging European Fund (UK) giving 90 days' notice of its intention to terminate the Fund, having also informed the FCA of this decision. This Fund was closed 11 March 2022.

Launch of New 'M' Share Classes

New share classes, M Accumulation shares and M Income shares were launched at 200p per share for the Invesco Global Emerging Markets Fund (UK) on 24 March 2023.

Further details can be obtained from the most up to date relevant fund and share class specific Key Investor Information Document(s).

Remuneration Policy (Unaudited)

On 18 March 2016, Invesco Fund Managers Limited (the "Manager") adopted a remuneration policy consistent with the principles outlined in the European Securities and Markets Authority ("ESMA") Guidelines, on sound remuneration policies under the UCITS Directive (the "Remuneration Policy").

The policy was revised in 2022, to include specificities for some Invesco EU regulated Management Companies. The Manager was not impacted by the changes.

The purpose of the Remuneration Policy is to ensure the remuneration of the staff of the Manager is consistent with and promotes sound and effective risk management, does not encourage risk-taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the Manager and of the UK UCITS Schemes it manages and does not impair the Manager's compliance with its duty to act in the best interests of the UK UCITS Schemes it manages. The Remuneration Policy is available within the Corporate Policies section of our website (www.invesco.com/uk). Paper copies of the Remuneration Policy can also be obtained for free from the registered office of the Manager, Invesco Fund Managers Limited, Perpetual Park, Perpetual Park Drive, Henley-on-Thames, Oxfordshire, RG9 1HH, UK upon request.

The Remuneration Policy is reviewed annually by the Compliance, Human Resources and Risk Management functions, who recommend any adjustments to ensure continued alignment of the policy with sound risk management. The board of directors of the Manager are responsible for the oversight of remuneration and for ensuring adherence to this policy through the Human Resources function.

The Internal Audit function conducts regular testing of administration of the Remuneration Policy to assess its ongoing compliance with the Invesco group's remuneration policies and procedures.

The Manager does not employ any direct staff. The aggregate total remuneration of Invesco staff involved in UK UCITS related activities of the Manager in respect of performance year (1 January 2022 to 31 December 2022) is £49.51m of which £30.39m is fixed remuneration and £19.12m is variable remuneration. The number of beneficiaries apportioned to UK UCITS activities is 255.

The Manager has identified individuals considered to have a material impact on the risk profile of the Manager or the UK UCITS Schemes it manages ("Identified Staff"), who include board members of the Manager, senior management, heads of control functions, other risk takers and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers. Identified Staff of the Manager are employed by Invesco.

The aggregate total remuneration paid to the Identified Staff of the Manager for UK UCITS related activities for the performance year (1 January 2022 to 31 December 2022) is £14.91m of which £3.62m is paid to Senior Management and £11.29m is paid to other Identified Staff. Please note that remuneration for UK UCITS Schemes Identified Staff includes remuneration for staff employed by delegates.

Managing the risks presented by the Russia-Ukraine conflict

Financial markets have been impacted since February 2022, due primarily to geopolitical tensions arising from Russia's incursion into Ukraine and the impact of a subsequent range of sanctions, regulations and other measures which impaired normal trading in Russian securities. On 28 February 2022, Invesco Fund Managers Limited suspended the purchase of all Russian securities in its funds. There has been no significant impact on the Funds as a result of the conflict during the financial year ended 31 July 2023.

The directors of Invesco Fund Managers Limited are actively monitoring the situation and, with the support of the investment manager, continue to manage the Funds' assets within their investment and risk parameters that have been established. The Directors will continue to review the situation in order to navigate through this period of heightened uncertainty.

Silicon Valley Bank, Signature Bank and Credit Suisse

Following the closure of Silicon Valley Bank ("SVB"), the possession of Signature Bank and the recent economic turmoil involving Credit Suisse, the Manager has assessed the impact on the net asset value of the Funds as immaterial.

As at 31 July 2023, none of the Funds were invested in SVB, Signature Bank or Credit Suisse.

Task Force on Climate-related Financial Disclosures ("TCFD") Portfolio Reports

For each Fund, we publish a Task Force on Climate-related Financial Disclosures ("TCFD") Portfolio Report which provides detailed climate-related information on the Fund. You can access these reports directly on our website via the following link: www.invesco.com/uk/icvctcfd. These reports, in conjunction with our group-level TCFD report https://www.invesco.com/content/dam/invesco/emea/en/pdf/2022_IVZ_Global_TCFD_Report.pdf, provide a detailed overview of our approach to climate-related governance, strategy and risk management as well as metrics and targets. We encourage all investors in the Funds to review these reports to gain a deeper understanding of our commitment to managing climate-related risks and opportunities.

Risk Profile

Shareholders should be aware of the risks inherent in investing in securities and other financial instruments. Financial markets can be vulnerable to unpredictable price movements and are affected by a number of factors, both political and economic.

The value of investments and any income will fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested. Over time, inflation may erode the value of investments. The Funds may use derivatives (complex instruments) in an attempt to reduce the overall risk of their investments, reduce the costs of investing and/or generate additional capital or income, although this may not be achieved. The use of such complex instruments may result in greater fluctuations of the value of the Funds. The Manager, however, will ensure that the use of derivatives within the Funds does not materially alter the overall risk profile of the Funds.

The Invesco Global Emerging Markets Fund (UK) invests in emerging and developing markets, where there is potential for a decrease in market liquidity, which may mean that it is not easy to buy or sell securities. There may also be difficulties in dealing and settlement, and custody problems could arise.

Invesco Smaller Companies and Markets Investment Series (the "Company")

Report of the Authorised Corporate Director (the "Manager")

Risk Profile continued

The Invesco Global Emerging Markets Fund (UK) and the Invesco Global Smaller Companies Fund (UK) may use Stock Connect to access China A Shares traded in mainland China. This may result in additional liquidity risk and operational risks including settlement and default risks, regulatory risk and system failure risk.

Although the Invesco Global Smaller Companies Fund (UK) invests mainly in established markets, it can invest in emerging and developing markets, where there is potential for a decrease in market liquidity, which may mean that it is not easy to buy or sell securities. There may also be difficulties in dealing and settlement, and custody problems could arise.

The performance of the Invesco European Smaller Companies Fund (UK), Invesco Global Emerging Markets Fund (UK), Invesco Global Smaller Companies Fund (UK) and Invesco Japanese Smaller Companies Fund (UK) may be adversely affected by variations in the relative strength of world currencies or if Sterling strengthens against those currencies.

The Invesco European Smaller Companies Fund (UK), Invesco Global Smaller Companies Fund (UK), Invesco Japanese Smaller Companies Fund (UK) and Invesco UK Smaller Companies Equity Fund (UK) invests in smaller companies which may result in a higher level of risk than a fund that invests in larger companies. Securities of smaller companies may be subject to abrupt price movements and may be less liquid, which may mean they are not easy to buy or sell.

A more detailed description of risk factors that apply to these Funds are set out in the Prospectus.

Value Assessment (Unaudited)

The Manager conducted an assessment of value for each Fund. The assessment of value report will be made available to investors annually in a composite report for all the funds in Invesco's ICVC range on our website <https://www.invesco.com/uk/en/global-footer/corporate-policies.html>. The latest Value Assessment as at 31 December 2022 was published in May 2023.

Holdings in other Funds of the Company

As at 31 July 2023, no Funds held shares in any other Fund of the Company.

Liability

The Company is structured by having different Funds. The assets and liabilities of each Fund are segregated in accordance with the law of England and Wales. As a consequence the assets of a Fund will not be available to meet the liabilities of another Fund within the Company.

The Shareholders are not liable for the debts of the Company.

ISA Eligibility

All the Company's Funds qualify for stocks and shares ISA investment. None of the Funds qualify for cash ISA investment.

Certification of the Annual Report by the Manager

In accordance with the requirements of the Open-Ended Investment Companies Regulations 2001, we hereby certify these financial statements on behalf of the Directors of Invesco Fund Managers Limited.

Director - Rene Marston

The risk categories shown are not a measure of capital losses or gains, but of how significant the rises and falls in the share class prices have been historically. For example a share class whose price has experienced significant rises and falls will be in a higher risk category, whereas a share class whose price has experienced less significant rises and falls will be in a lower risk category. As the Share Class risk category has been calculated using historical data, it may not be a reliable indication of the Share Class future risk profile. Please note that the Share Class risk category may change in the future and is not guaranteed. The lowest risk category does not mean a risk free investment.

A share class in risk category 1 indicates its price has experienced very low rises and falls historically.

A share class in risk category 2 indicates its price has experienced minor rises and falls historically.

A share class in risk category 3 indicates its price has experienced very moderate rises and falls historically.

A share class in risk category 4 indicates its price has experienced moderate rises and falls historically.

A share class in risk category 5 indicates its price has experienced significant rises and falls historically.

A share class in risk category 6 indicates its price has experienced very significant rises and falls historically.

A share class in risk category 7 indicates its price has experienced major rises and falls historically.

For more information on our Funds' risk and reward profiles, please refer to the most up to date relevant Fund and share class specific Key Investor Information Documents ("KIIDs"), which are available at www.invesco.com/uk or by contacting us.

Invesco Smaller Companies and Markets Investment Series (the "Company")

Report of the Authorised Corporate Director (the "Manager")

Securities Lending (Unaudited)

for the year 1 August 2022 to 31 July 2023

Securities Lending

Securities lending transactions entered into by the Funds, including transfer of collateral received in exchange for securities lent, are subject to a written legal agreement between Invesco Asset Management Limited (the "investment adviser", on behalf of the Funds); Citibank UK Limited (the "Depositary"); and The Bank of New York Mellon, London Branch (the "Securities Lending Agent").

Collateral received is segregated from the assets belonging to the Depositary or the Securities Lending Agent.

The following table details the value of securities on loan as a proportion of the Funds' total lendable assets and Net Asset Value ("NAV") as at 31 July 2023. The income earned from securities lending is also shown for the year ended 31 July 2023. Total lendable assets represents the aggregate value of assets forming part of the Funds' securities lending programme. This excludes any assets held by the Funds that are not considered lendable due to any market, regulatory, investment or other restriction.

Securities on loan

Fund	% of lendable assets	% of NAV	Income earned £'000
Invesco European Smaller Companies Fund (UK)	19.31	18.43	108
Invesco Global Emerging Markets Fund (UK)	2.40	1.68	4
Invesco Global Smaller Companies Fund (UK)	15.79	13.77	244
Invesco Japanese Smaller Companies Fund (UK)	16.96	16.12	65
Invesco UK Smaller Companies Equity Fund (UK)	6.93	1.87	4

The Funds entered into the securities lending programme on 10 February 2021.

The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. The Securities Lending Agent shall retain 10% of the securities lending revenues generated as compensation for its securities lending services and the Fund shall be entitled to the remainder of such net securities lending revenues.

The following table details the value of securities on loan and associated collateral received, analysed by counterparty as at 31 July 2023.

Counterparty	Counterparty's country of establishment	Securities Lending Amount on loan £'000	Collateral received £'000

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no five equities combined represent more than 60% of the total index.

The maturity tenor analysis for fixed income securities received as collateral is based on the respective contractual maturity date, while for equity securities and exchange traded funds ("ETFs") received as collateral are presented as open transactions as they are not subject to a contractual maturity date.

As at 31 July 2023, all non-cash collateral received by the Funds in respect of securities lending transactions is held by the Funds (or through its delegates).

The following table lists the top ten issuers (or all the issuers if less than ten) by value of non-cash collateral received by the Funds by way of the title transfer collateral arrangement across securities lending transactions as at 31 July 2023.

Issuer	Value £'000	% of the Fund's NAV

Invesco Smaller Companies and Markets Investment Series (the “Company”)

Notes applicable to the financial statements of all Funds

1 Accounting Policies

a) Basis of preparation

The financial statements of all Funds except Invesco Emerging European Fund (UK) have been prepared on a going concern basis, under the historical cost convention as modified by the revaluation of certain financial assets and liabilities held at fair value through profit and loss.

The financial statements of Invesco Emerging European Fund (UK) have been prepared on a basis other than going concern as explained in 'Invesco Emerging European Fund (UK)' on page 2. Non-current assets and non-current liabilities have been re-classified as current assets and current liabilities. Costs associated with the termination of this Fund will be borne by the Manager with no provision being made in these financial statements for such costs.

The financial statements have also been prepared in accordance with the United Kingdom Generally Accepted Accounting Practice (UK GAAP), as defined within the UK Financial Reporting Standard (FRS 102) and the Statement of Recommended Practice 'Financial Statements of UK Authorised Funds' (the “SORP”), issued by the Investment Management Association (now known as the Investment Association) in May 2014 and updated in June 2017, the COLL and the Company's Instrument of Incorporation and Prospectus.

b) Recognition of revenue

- i) Dividends on quoted ordinary shares, collective investment schemes and preference shares are recognised when the securities are quoted ex-dividend. Where such securities are not quoted, dividends are recognised when they are declared.
- ii) Interest on bank balances and deposits is recognised on an accruals basis.
- iii) Revenue arising on debt securities is accreted or amortised over the life of such securities and recognised at a consistent rate over the life of the instrument (effective yield accounting). Future cash flows on all debt securities are considered when calculating revenue on an effective yield basis and where purchase costs are considered to reflect incurred credit losses, such losses are taken into account so that interest is recognised at a reasonably expected commercial rate. Accrued interest purchased and sold on interest-bearing securities is excluded from the capital cost of these securities and dealt with as part of the revenue of the Company.
- iv) All revenue is recognised at a gross amount that includes any withholding taxes but excludes any other taxes, such as attributable tax credits.
- v) US REIT dividend revenue is accounted for partly as revenue and partly as capital, depending on the underlying REIT distribution. All REIT dividend revenue is recognised on an accruals basis and the allocation between income and capital is estimated when the security goes ex-dividend. US REITs issue information on the revenue/capital split of these dividends on an annual basis based on the calendar year. When this information is received, then the estimated allocation is adjusted accordingly.
- vi) Income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. The Securities Lending Agent shall retain 10% of the securities lending revenues generated as compensation for its securities lending services and the Fund shall be entitled to the remainder of such net securities lending revenues.

c) Stock dividends

Ordinary stock dividends are recognised wholly as revenue and are based on the market value of the shares on the dates they are quoted ex-dividend. Where an enhancement is offered, the amount by which the market value of the shares on the date they are quoted ex-dividend exceeds the cash dividend is taken to capital.

d) Special dividends and share buy-backs

The underlying circumstances behind both special dividends and the proceeds from share buybacks are reviewed on a case by case basis in determining whether the amount is capital or revenue in nature. Amounts recognised as revenue will form part of the Fund's distribution. Any tax treatment thereon will follow the accounting treatment of the principal amount.

e) Underwriting commission

Underwriting commission is wholly recognised as revenue when the issue takes place, except where the Company is required to take up all or some of the shares underwritten, in which case an appropriate proportion of the commission received is deducted from the cost of those shares.

f) Expenses

All expenses, except for those relating to the purchase and sale of investments are charged initially against revenue and are accounted for on an accruals basis.

Invesco Smaller Companies and Markets Investment Series (the "Company")

Notes applicable to the financial statements of all Funds

1 Accounting Policies continued

g) Revenue allocation to share classes

Revenue is allocated each day pro rata to the capital value of assets attributable to each class and taxation is computed by reference to the net revenue after expenses and tax attributable to each class.

h) Measurement basis

The measurement basis used in preparing the financial statements is fair value for investments and historical cost for all other assets and liabilities.

i) Basis of valuation of investments

All investments are valued at their fair value as at the balance sheet date.

All investments have been valued on the last business day of the year at bid market value net of any accrued revenue, at close of business. Where there is no price source from an active market for an investment, the Manager will assess any information available from internal and external sources in order to arrive at an estimated fair value. The fair value is established by using measures of value such as the price of recent transactions, earnings multiple and net assets. The Manager of the Company also makes judgements and estimates based on their knowledge of recent investment performance, historical experience and other assumptions that are considered reasonable under the circumstances. The estimates and the assumptions used are under continuous review by the Manager with particular attention paid to the carrying value of the investments. Over-the-counter derivative contracts shall be valued on the basis of unrealised gain or loss on the contract using current settlement price. When settlement price is not used, the over-the-counter derivative contracts will be valued at their fair value in accordance with the method of valuation (as used on a consistent basis) as shall have been agreed between the Manager and the Depositary.

j) Exchange rates

Assets and liabilities in foreign currencies are translated into Sterling at the exchange rates ruling at close of business on the last business day of the year. Revenue items denominated in foreign currencies are translated into Sterling at the exchange rates ruling at the times of the transactions. Foreign exchange gains and losses arising from translation are included in the Statement of Total Return and are included in net capital gains/(losses) on investments.

k) Taxation and deferred taxation

Provision is made for corporation tax at the current rate on the excess of taxable revenue over allowable expenses. Corporation tax is charged at 20% of the revenue liable to corporation tax less expenses. Provision is made on all material timing differences arising from the different treatment of items for accounting and tax purposes. A deferred tax asset is recognised only to the extent that there will be taxable profits in the future against which the asset can be offset. Overseas capital gains tax is accounted for on an accruals basis.

l) Efficient portfolio management

Where appropriate, certain permitted transactions such as derivatives or forward currency transactions are used for efficient portfolio management. Where such transactions are used to protect or enhance revenue, the revenue and expenses derived therefrom are included in 'Revenue' or 'Interest payable and similar charges' in the Statement of Total Return. Where such transactions are used to protect or enhance capital, the gains and losses derived therefrom are included in 'Net capital gains/losses' in the Statement of Total Return. Any positions on such transactions open at the period end are reflected in the Balance Sheet at their marked to market value.

m) Dilution adjustment

The need to apply a dilution adjustment will depend on the volume of sales (where they are issued) or redemptions (where they are cancelled) of shares. The Manager may apply a dilution adjustment on the issue and redemption of such shares if, in its opinion, the existing Shareholders (for sales) or remaining Shareholders (for redemptions) might otherwise be adversely affected, and if applying a dilution adjustment, so far as practicable, is fair to all

Invesco Smaller Companies and Markets Investment Series (the "Company")

Notes applicable to the financial statements of all Funds

1 Accounting Policies continued

m) Dilution adjustment continued

Shareholders and potential Shareholders. In particular, the dilution adjustment may be applied in the following circumstances for all Funds in the Invesco Smaller Companies and Markets Investment Series:

- where over a dealing period a Fund has experienced a large level of net issues or redemptions relative to its size. For these purposes a large level of net dealing is defined as 1% or more of the net asset value of the Fund in question (as calculated at the last valuation point); or
- where the Manager considers it necessary to protect the interests of the Shareholders of the Company.

On the occasions that the dilution adjustment is not applied there may be an adverse impact on the total assets of the Fund which may otherwise constrain the future growth of the Fund in question.

Please refer to Appendix 6 of the Prospectus which shows the size of typical dilution adjustments by Fund and an indication of the frequency of application of such adjustments.

2 Distribution Policies

The Funds will distribute all revenue disclosed in the annual financial statements (less expenses and taxation). The ordinary element of stock dividends is treated as revenue and forms part of the Fund's distribution. Should expenses and taxation exceed revenue for a share class, there will be no distribution for that share class and the shortfall will be met from capital. All Fund accumulations and distributions are paid as dividend distributions.

Distributions which have remained unclaimed by Shareholders for more than six years are credited to the capital property of the Fund.

Marginal tax relief is not taken into account when determining the distribution.

	- Y classes	0.0	0.87

¹ This Fund closed to normal business on 11 March 2022, this information is included for reference purposes only.

References in this report to Trail classes mean the Accumulation Shares and Income Shares.

The net assets attributable to each share class, the net asset value per share and the number of shares in issue of each share class are shown in the comparative tables of each Fund. These can be found on:

Invesco Emerging European Fund (UK)	pages 24 to 27
Invesco European Smaller Companies Fund (UK)	pages 40 to 42
Invesco Global Emerging Markets Fund (UK)	pages 57 to 61
Invesco Global Smaller Companies Fund (UK)	pages 77 to 80
Invesco Japanese Smaller Companies Fund (UK)	pages 101 to 102
Invesco UK Smaller Companies Equity Fund (UK)	pages 118 to 121

Each share class has the same rights on a winding up of the Company.

4 Generic Risk Factors

In pursuing their investment objectives, the Funds of the Company hold a number of financial instruments that may comprise securities and other investments, cash balances and debtors and creditors that arise directly from their operations. Political and economic events in the major economies of the world, such as the United States, Japan and the European Union, will influence stock and securities markets worldwide.

The main risks from the Funds' holding of financial instruments are set out below together with the Manager's policy for managing these risks.

Counterparty risk

The Funds may enter into derivatives transactions or place cash in bank deposit accounts, which would expose the Funds to the credit of its counterparties and their ability to satisfy the terms of such contracts. In the event of a bankruptcy or insolvency of a counterparty, the Funds could experience delays in liquidating positions and significant losses, including declines in the value of investments during the year in which the Funds seek to enforce its rights, inability to realise any gains on their investments during such year and fees and expenses incurred in enforcing their rights.

Invesco Smaller Companies and Markets Investment Series (the "Company")

Notes applicable to the financial statements of all Funds

4 Generic Risk Factors continued

Counterparty risk continued

In order to mitigate this risk, the Funds conduct trades through reputable counterparties. A diligent process to select and approve a new counterparty, as well as monitoring existing counterparties, is in place. During the approval process, various verifications are performed such as assessing the counterparty's operational capabilities as well as their credit quality. On an ongoing basis, market analysis is reviewed by the firm's trading and credit research teams in order to detect warning signs of a counterparty default. If the firm believes high risk of default exists, the counterparty is removed with immediate effect from the approved counterparty list.

Custody risk

The assets owned by each Fund are held on trust for the Fund by a custodian that is also regulated by the Financial Conduct Authority. The Financial Conduct Authority requires that the custodian ensures that there is legal separation of non-cash assets held under custody and that records are maintained that clearly identify the nature and amount of all assets under custody, the ownership of each asset and where the documents of title to that asset are located. In case of a potential bankruptcy of the custodian, cash positions in the Fund are not protected and there may be a delay in regaining full control of the non-cash assets.

Currency exchange risk

The Funds' assets may be invested in securities denominated in currencies other than Sterling. As a result, changes in exchange rates may adversely affect the value of any investment, which will have a related effect on the price of shares.

Currency exchange risk may be mitigated by hedging the exposure through the use of forward currency contracts.

Investing in a concentrated portfolio

Certain Funds may have concentrated portfolios (holding a limited number of investments and/or large positions in relatively small number of stocks). If one or more of those investments decline or are otherwise adversely affected, it may have a more pronounced effect on the Fund's net asset value than if a larger number of investments were held or if the Fund had fewer larger positions. Accordingly they may carry a higher degree of risk and NAV volatility than a Fund which invests in a broad range of companies and/or does not take large positions in a relatively small number of stocks.

Investment in Emerging Markets

Investments in emerging markets may be more volatile than investments in more developed markets. Some of these markets may have relatively unstable governments, economies based on only a few industries and securities markets that trade only a limited number of securities. Many emerging markets do not have well developed regulatory systems and disclosure standards may be less stringent than those of developed markets. The risks of expropriation, nationalisation and social, political and economic instability are greater in emerging markets than in more developed markets. The following is a brief summary of some of the more common risks associated with emerging markets investment:

- **Lack of Liquidity**

The acquisition and disposal of securities may be more expensive, time-consuming and generally more difficult than in more developed markets. Many emerging markets are small, have low trading volumes, low liquidity and significant price volatility.

- **Settlement and Custody Risks**

Settlement and custody systems in emerging markets are not as well developed as those in developed markets. Standards may not be as high and supervisory and regulatory authorities not as sophisticated. As a result there may be a risk that settlement could be delayed and that cash or securities could be disadvantaged.

- **Investment and Remittance Restrictions**

In some cases, emerging markets may restrict the access of foreign investors to securities. As a result, certain equity securities may not always be available to a Fund because the maximum permitted number of or investment by foreign Shareholders has been reached. In addition, the outward remittance by foreign investors of their share of net profits, capital and dividends may be restricted or require governmental approval and there can be no guarantee that additional restrictions will not be imposed.

- **Accounting**

Accounting, auditing and financial reporting standards, practices and disclosure requirements applicable to companies in emerging markets differ from those applicable in more developed markets in respect of the nature, quality and timeliness of the information disclosed to investors and, accordingly, investment possibilities may be difficult to properly assess.

Invesco Smaller Companies and Markets Investment Series (the “Company”)

Notes applicable to the financial statements of all Funds

4 Generic Risk Factors continued

Investing in Financial Derivative Instruments

There are certain investment risks which apply in relation to the use of derivatives. Derivatives may be used to provide protection for an investment or as a cheaper or more liquid alternative for an investment. However, should the Manager's expectations in employing such techniques and instruments be incorrect, a Fund may suffer a substantial loss, having an adverse effect on the net asset value of shares. Such instruments may cause greater fluctuations of the net asset value of the Fund concerned. Transactions in derivatives are used in the Funds for both efficient portfolio management and investment purposes. Derivatives exposure is managed within the investment limits set by the Manager to ensure that the use of derivatives does not materially alter the overall risk profile of a Fund.

Investment in Smaller Companies

Funds investing in smaller companies invest in transferable securities which may be less liquid than the securities of larger companies, as a result of inadequate trading volume or restrictions on trading. Securities in smaller companies may possess greater potential for capital appreciation, but also involve risks, such as limited product lines, markets and financial or managerial resources and trading in such securities may be subject to more abrupt price movements than trading in the securities of larger companies.

Liquidity risk

The Funds may be affected by a decrease in market liquidity for the securities in which they invest, which may mean that the Funds may not be able to sell some securities at a fair price in a timely manner. In order to mitigate this risk, a substantial proportion of the Funds' assets consist of readily realisable assets.

Furthermore, Invesco monitors liquidity risk for each portfolio against its required minimum liquidity threshold. This includes holding a high enough proportion of assets that can be liquidated quickly and with a limited impact on price, also depending on its actual or hypothetical redemption profile, investment strategy, regulatory framework or contractual obligations. This is done by implementing a monitoring framework focused on Liquidation Size and Liquidation Cost.

Liquidity results are monitored at Fund level on a daily basis including against internally defined limits.

Market price risk

The Funds are exposed to the risks normally associated with investment in stocks and shares such as general economic conditions, market events or the performance of underlying stocks. As such the prices of and the income generated by the Funds' securities may go down as well as up and an investor may not get back the full amount invested.

Adhering to investment guidelines and avoiding excessive exposure to one particular issuer can mitigate market risk.

Calculation methods of the Risk Exposure

Following the assessment of the investment policy of each Fund of the Company, Invesco Fund Managers Limited has decided to use Value at Risk (“VaR”) for the assessment of the global exposure of each Fund.

Value-at-Risk (“VaR”) is a statistical measurement. It intends to measure the maximum potential loss at a given confidence level (probability) over a specific time period under normal market conditions. All of the positions within the portfolio are taken into account for the VaR calculation, not just derivatives.

Absolute and Relative VaR are calculated daily using a VaR risk model based on a two years historical simulation methodology. This method for calculating VaR contains no standard distribution assumption and assumes that history repeats itself.

Under the relative VaR approach, the VaR of the Fund is compared to that of a benchmark or reference portfolio. With this approach, the choice of benchmark is important and hence the Manager will choose a leverage free benchmark with similar risks to the Fund.

The calculation standards used for the VaR model are in compliance with the provisions in box 15 of ESMA Guidelines on Risk Measurement and the calculation of Global Exposure and Counterparty Risk for UCITS (Ref: 10-788) (“ESMA Guidelines”).

The Absolute VaR of a UK UCITS cannot be greater than 20% of its NAV. The Relative VaR of a UK UCITS cannot be more than two times the VaR of the reference portfolio. Invesco Fund Managers Limited monitors that the $(\text{VaR of the UK UCITS Scheme}) / (2 * \text{VaR of the reference portfolio})$ is not greater than 100%.

The calculation of the Absolute and Relative VaR is carried out in accordance with the following parameters:

- one-tailed confidence interval of 99%;
- holding period equivalent to one month (i.e. 20 business days);

Invesco Smaller Companies and Markets Investment Series (the "Company")

Notes applicable to the financial statements of all Funds

4 Generic Risk Factors continued

Calculation methods of the Risk Exposure continued

- effective observation period (history) of risk factors of two years;
- daily calculation.

In line with box 25 of ESMA Guidelines, as the Funds use the VaR approach to monitor the global exposure, Invesco Fund Managers Limited calculates the leverage for each Fund on a daily basis, as the sum of the absolute value of the notional of the derivatives used. With respect to financial derivative instruments which do not have a notional value attached to them, the calculation of the value is based upon the market value of the equivalent position of the underlying asset that is attached to the financial derivative instrument and applied consistently and appropriately.

The average level of leverage figures provided below does not take into account any netting and hedging arrangements that the Funds may have in place at any time even though these netting and hedging arrangements are used for risk reduction purpose.

The table below details the VaR approach for each Fund and, for those Funds utilising the relative VaR methodology, it details the reference portfolio. The table also details the minimum, maximum and average daily VaR utilisation that occurred during the one year period ending 31 July 2023, as well as the daily average level of leverage for each Fund during the one year period ending 31 July 2023.

5 Investment Objective and Policy continued

which may reasonably be regarded as ancillary to the investment objectives of the Funds. They may also borrow, providing such borrowing is on a temporary basis and does not exceed the limits laid down in the regulations.

6 Functional Currency

The Company's functional and presentational currency is Sterling. The financial statements are presented to the nearest £'000.

7 Bank Balances and Overdrafts

Bank balances and overdrafts are held by the Custodian, and are subject to the Custodian's variable credit and debit interest rates respectively.

8 Transactions and Balances with Related Parties

Invesco Fund Managers Limited (and its associates), as Manager, is a related party and acts as principal in respect of all transactions in the shares of the Company.

Amounts payable to Invesco Fund Managers Limited in respect of Fund Management Fees are disclosed in note 4, within each Fund. Management fee rebates are disclosed in note 2 and note 3 within each Fund. Amounts due at the end of the accounting year for Fund Management Fees are disclosed in note 10 within accrued expenses, within each Fund.

All issued and redeemed shares transacted with the ACD are shown in the Statement of Change in Net Assets Attributable to Shareholders and balances due from and to the ACD are shown in notes 8 and 10 to the financial statements of each Fund.

Invesco Fund Managers Limited and its associates (including other authorised investment companies managed by Invesco Fund Managers Limited) held the following shareholdings in the Funds:

9 Post Balance Sheet Events

The net asset value in pence per share at the balance sheet date and the latest practicable date prior to the publication of the report has been shown in the table below. The % increase/(decrease) is a reflection of market fluctuations during this period. It is likely markets will continue to be much more volatile than normal over the next few months until the Russia-Ukraine conflict impact passes.

	Net Asset Value 31.7.23 (pence per share)	Net Asset Value 4.10.23 (pence per share)	Increase/ Decrease %
Invesco Emerging European Fund (UK) ¹	n/a	n/a	n/a
Invesco European Smaller Companies Fund (UK)	595.70	527.56	(11.44)
Invesco Global Emerging Markets Fund (UK)	478.07	455.82	(4.65)
Invesco Global Smaller Companies Fund (UK)	619.62	583.41	(5.84)
Invesco Japanese Smaller Companies Fund (UK)	552.68	517.84	(6.30)
Invesco UK Smaller Companies Equity Fund (UK)	531.15	494.10	(6.98)

¹ Invesco Emerging European Fund (UK) closed to normal business on 11 March 2022.

The net asset value in pence per share is based on the Z Accumulation shares.

As at the balance sheet date, 0.29% of net assets in the Invesco Global Emerging Markets Fund (UK) and 0.04% of net assets in the Invesco Global Smaller Companies Fund (UK) (with a value of £796,000 and £206,000 million respectively) was in securities with exposure to companies whose principal activities are in Russia.

Invesco Emerging European Fund (UK)

Investment report for the year

The Investment Objective and Policy of the Invesco Emerging European Fund (UK)

The Fund aims to achieve long-term (5 years plus) capital growth. The Fund invests at least 80% of its assets in shares or other equity related securities of companies incorporated, domiciled or carrying out the main part of their economic activity in emerging European countries, including Russia. In pursuing the Fund's investment objective, the fund manager may consider it appropriate to also invest in other transferable securities (including non-emerging European companies), money-market instruments, collective investment schemes (including funds managed by the Invesco group), deposits and cash. The Fund may use derivatives for efficient portfolio management purposes only, to reduce risk, reduce costs and/or generate additional capital or income. The Fund may engage in securities lending. The expected proportion of total assets that may be subject to securities lending arrangements is 20%. Such level might be exceeded or might be subject to changes in the future.

The Fund closed to normal business on 11 March 2022.

Performance

to 11 March 2022

	Since 31.1.22 %	Since 31.7.21 %	Since 31.7.19 %	Percentage growth Since 31.7.17 %	Percentage growth Since 31.7.12 %
Invesco Emerging European Fund (UK) (Z Accumulation shares)	-50.41	-51.92	-46.97	-29.68	-5.53

Standardised rolling 12 month performance

	30.6.18 30.6.19 %	30.6.19 30.6.20 %	30.6.20 30.6.21 %	Percentage growth 30.6.21 11.3.22 %
Invesco Emerging European Fund (UK) (Z Accumulation shares)	18.6	-13.0	32.1	-15.0

Performance figures have been calculated to 11 March 2022. This being the date the Fund closed to normal business.

This standardised past performance information is updated on a quarterly basis. Should you require up to date past performance information, this is available on our website www.invesco.com.uk or by contacting us.

Fund performance data source: Lipper, in Sterling, with income reinvested and net of the ongoing charge and portfolio transaction costs. This may differ from the performance figure shown on page 25 for Z Accumulation shares as the figure above is based on the quoted 12pm price and the figure shown on page 25 is based on the close of business bid price.

The value of investments and any income from them will fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested.

Past performance is not a guide to future returns. Current tax levels and reliefs may change. Depending on individual circumstances, this may affect investment returns.

Bank interest	-	-

Invesco Emerging European Fund (UK)

Notes to the financial statements

6 Taxation	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
a) Analysis of charge for the year		
Corporation tax	-	59
Deferred tax	-	(7)
Double taxation relief	-	(43)
Overseas tax	-	51
Total tax charge	-	60

b) Factors affecting the tax charge for the year

The tax assessed for the year is the same as (2022 - lower) than the standard rate of corporation tax in the UK for an authorised investment company with variable capital. The factors are explained below:

	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Net revenue before taxation	1	343
Corporation tax at 20% (2022 - 20%)	-	69
Effects of:		
Double taxation relief	-	(36)
Overseas tax	-	51
Revenue not subject to tax	-	(24)
Total tax charge	-	60

Authorised investment companies with variable capital are exempt from tax on capital gains in the UK. Therefore any capital return is not included in the above reconciliation.

c) Deferred tax	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
c) Deferred tax		
Deferred tax at the start of the year	-	7
Deferred tax charge	-	(7)
Deferred tax at the end of the year	-	-

7 Distributions	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Accumulations and distributions paid 10 May 2023	-	164
	-	164
Amounts deducted on redemption of shares	-	228
Amounts received on issue of shares	-	(109)
	-	283
The distributable amount has been calculated as follows:		
Net revenue after taxation	1	283
Amounts payable on termination	(1)	-
	-	283

8 Debtors	31.7.23 £'000	31.7.22 £'000
Accrued revenue	-	-

9 Cash and bank balances	31.7.23 £'000	31.7.22 £'000

10 Other creditors	31.7.23 £'000	31.7.22 £'000
Amounts payable on termination	1	-
Corporation tax	-	7
Deferred taxation	-	(7)
	1	-

11 Commitments, contingent liabilities and contingent assets

There were no commitments, contingent liabilities or contingent assets at the balance sheet date (2022 - Nil).

12 Related parties

Related party interests in the Fund are disclosed in note 8 of the notes applicable to the financial statements of all Funds on page 20. Amounts payable to Invesco Fund Managers Limited in respect of Fund Management Fees are disclosed in note 4. Amounts received in respect of sales in the accounting year is Nil (2022 - £7,917,000) and amounts paid in respect of purchases in the accounting year is Nil (2022 - £7,638,000). Amounts due at the end of the accounting year for Fund Management Fees of Nil (2022 - Nil) are disclosed in note 10 within accrued expenses.

13 Generic Risk factors

As the Fund invests in emerging and developing markets, investors should be prepared to accept a higher degree of risk than for a Fund with a broader investment mandate as there is the potential for a decrease in market liquidity, which may mean that it is not easy to buy or sell securities. There may also be difficulties in dealing and settlement, and custody problems could arise. The Fund has a large exposure to Russia, which can involve significant risks to capital as a result from current or potential economic sanctions from the US or the EU, in addition to other risks associated with emerging and developing markets. As the Fund has a concentrated number of holdings, investors should be prepared to accept higher risks.

The Fund's performance may be adversely affected by variations in the relative strength of world currencies or if Sterling strengthens against those currencies.

The Fund may use derivatives (complex instruments) in an attempt to reduce the overall risk of their investments, reduce the costs of investing and/or generate additional capital or income, although this may not be achieved. The use of such complex instruments may result in greater fluctuations of the value of the Fund. The Manager, however, will ensure that the use of derivatives within the Fund does not materially alter the overall risk profile of the Fund.

The generic risk factors relating to the Fund are discussed more fully in note 4 of the notes applicable to the financial statements of all Funds on pages 15 to 19.

a) Counterparty risk

The Fund had zero positive counterparty exposure to OTC derivatives at the balance sheet date (2022 - Nil). The counterparty OTC exposure is the positive exposure of cleared and non-cleared OTC derivatives, including FX forwards, to the different counterparties used by the portfolio, measured on a marked-to-market basis net of applicable legally enforceable netting and collateral.

b) Valuation of financial instruments

The categorisation of financial instruments in the tables below reflect the basis of valuation of instruments used to measure their fair value.

Invesco Emerging European Fund (UK)

Notes to the financial statements

14 Portfolio transaction costs continued

for the year 1 August 2021 to 31 July 2022

	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Purchases (excluding derivatives)					
Equity instruments	9,336	5	0.05	-	-
Total purchases	9,336	5		-	
Total purchases including transaction costs	9,341				
	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Sales (excluding derivatives)					
Equity instruments	18,196	10	0.05	-	-
Total sales	18,196	10		-	
Total sales net of transaction costs	18,186				
Derivative transaction costs		-		-	
Total transaction costs		15		-	
Total transaction costs as a % of average net assets		0.13%		0.00%	

The above analysis covers any direct transaction costs suffered by the Fund during the year. However it is important to understand the nature of other transaction costs associated with different investment asset classes and instruments types.

Separately identifiable direct transaction costs (commissions and taxes etc.) are attributable to the Fund's purchase and sale of equity shares. Additionally for equity shares, there is a dealing spread cost (the difference between the buying and selling prices) which will be suffered on purchase and sale transactions.

For the Fund's investment transactions in debt and money market instruments any applicable transaction charges form part of the dealing spread for these instruments. Transactions in money market instruments, cash and short-term collective investment schemes utilised as part of a daily sweep to manage the Fund's daily liquidity position are excluded from the analysis.

For the Fund's investment in collective investment scheme holdings there will potentially be dealing spread costs applicable to purchases and sales. However, additionally there are indirect transaction costs suffered in those underlying Funds, throughout the holding period for the instruments, which are not separately identifiable and do not form part of the analysis above.

Dealing spread costs suffered by the Fund vary considerably for the different asset/instrument types depending on a number of factors including transaction value and market sentiment.

At the balance sheet date the average portfolio dealing spread (difference between bid and offer prices of all investments expressed as a percentage of the offer price value) was 0.00% (2022 - 0.00%).

Group 1: shares purchased prior to 1 August 2022

Group 2: shares purchased on or after 1 August 2022

Equalisation applies only to shares purchased during the distribution period ("Group 2"). It is the average amount of revenue included in the purchase price of all Group 2 shares and is refunded to holders of these shares as a return of capital. Being capital it is not liable to income tax. Instead, it must be deducted from the cost of shares for capital gains purposes.

There is no distribution paid on 30 September 2023 as the Fund closed to normal business on 11 March 2022.

Invesco European Smaller Companies Fund (UK)

Investment report for the year

The Investment Objective and Policy of the Invesco European Smaller Companies Fund (UK)

The Fund aims to achieve long-term (5 years plus) capital growth. The Fund invests at least 80% of its assets in shares or other equity related securities of smaller companies incorporated, domiciled, listed or carrying out the main part of their economic activity in Europe, excluding the UK. In pursuing the Fund's investment objective, the fund manager may consider it appropriate to also invest in other transferable securities (including non-European smaller companies), money-market instruments, collective investment schemes (including funds managed by the Invesco group), deposits and cash. The Fund may use derivatives for efficient portfolio management purposes only, to reduce risk, reduce costs and/or generate additional capital or income. The Fund may engage in securities lending. The expected proportion of total assets that may be subject to securities lending arrangements is 20%. Such level might be exceeded or might be subject to changes in the future.

The objectives currently shown within these financial statements are those objectives that were in place as at 31 July 2023.

This standardised past performance information is updated on a quarterly basis. Should you require up to date past performance information, this is available on our website www.invesco.com/uk or by contacting us.

Fund and sector average performance data source: Lipper, in Sterling, with income reinvested and net of the ongoing charge and portfolio transaction costs. This may differ from the performance figure shown on page 41 for Z Accumulation shares as the figure above is based on the quoted 12pm price and the figure shown on page 41 is based on the close of business bid price.

The value of investments and any income from them will fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested.

Past performance is not a guide to future returns. Current tax levels and reliefs may change. Depending on individual circumstances, this may affect investment returns.

¹ This is a Comparator Benchmark. Given its geographic focus the Fund's performance can be compared against the Benchmark. However, the Fund is actively managed and is not constrained by any benchmark.

Invesco European Smaller Companies Fund (UK)

Investment report for the year

Strategy, review and outlook

The Fund returned 14.4% in the year to the end of July 2023, outperforming the IA European Smaller Companies Sector, which averaged a return of 4.7%. This placed the Fund in first place amongst its peer group.

Fund and sector average performance data source: Lipper, in Sterling, with income reinvested and net of the ongoing charge and portfolio transaction costs. Performance figures are based on the Z Accumulation share class.

Given its geographic focus the Fund's performance can be compared against the Benchmark. However, the Fund is actively managed and is not constrained by any benchmark.

Past performance is not a guide to future returns.

From a sector perspective, the most significant positive contributors were industrials followed by energy and financials. In country terms it was Netherlands, France and Italy leading the way in terms of contribution to returns.

Italian stock Saipem was the biggest contributor to Fund performance over the period. The energy company is a turnaround story which, having sold off less profitable parts of the business, has performed well over the last 12 months. Fugro was another strong performer for the Fund. The industrials name is the world's leading independent provider of geo-intelligence and asset integrity solutions. From an end-market perspective, oil & gas is recovering as newer industries such as offshore wind offer the prospect of higher growth. The company has gone through a transition that was brutally interrupted by Covid, but following a rights issue now has a robust balance sheet. French insurance name Coface, which specialises in trade risk and other financials services such as credit insurance, was also a strong contributor to returns for the Fund. Shares performed well as the company reported a strong earnings profile. Finally, shares in defence technology firm Hensoldt performed well amid a backdrop of the ongoing tensions in the Ukraine.

In terms of portfolio activity over recent months, we have found a number of new investment opportunities in higher yielding stocks, as well as quality growth names that have been impacted by the weaker macroeconomic environment but now appear well set looking forward.

Overall, we realise the environment is uncertain and our portfolio positioning reflects that with a relatively defensive tilt at present. However, we are still finding a lot of undervalued European companies across multiple, diverse sectors that fit with our long investment philosophy. As always, the Fund continues to focus on stock specifics, and we think this will continue to drive relative performance going forward.

	1,821	2,086
Total expenses	1,821	2,086

¹ Total audit fees of £9,455 (2022 - £8,539) exclusive of VAT payable to the auditors for the year ended 31 July 2023 are borne out of the Fund Management Fee.

5 Interest payable and similar charges	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Bank interest	7	14

Invesco European Smaller Companies Fund (UK)

Notes to the financial statements

6 Taxation	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
-------------------	---	---

a) Analysis of charge for the year

Overseas tax	234	208
Total tax charge	234	208

There is no corporation tax charge for the year (2022 - Nil).

b) Factors affecting the tax charge for the year

The tax assessed for the year is lower (2022 - lower) than the standard rate of corporation tax in the UK for an authorised investment company with variable capital. The factors are explained below:

	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Net revenue before taxation	2,199	1,240
Corporation tax at 20% (2022 - 20%)	440	248
Effects of:		
Movement in unrecognised tax losses	332	376
Overseas tax	234	208
Revenue not subject to tax	(772)	(624)
Total tax charge	234	208

Authorised investment companies with variable capital are exempt from tax on capital gains in the UK. Therefore any capital return is not included in the above reconciliation.

c) Deferred tax

At the year end the Fund had surplus management expenses of £41,317,000 (2022 - £39,655,000). It is unlikely that the Fund will generate sufficient taxable profits in the future to utilise these expenses and therefore a deferred tax asset of £8,263,000 (2022 - £7,931,000) has not been recognised.

7 Distributions	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
------------------------	---	---

Accumulations and distributions paid 31 March 2023	-	-
Accumulations and distributions paid 30 September 2023	1,955	1,066
	1,955	1,066
Amounts deducted on redemption of shares	71	(1)
Amounts received on issue of shares	(20)	(24)
	2,006	1,041

The distributable amount has been calculated as follows:

Net revenue after taxation	1,965	1,032
Equalisation on conversions	41	9
	2,006	1,041

8 Debtors	31.7.23 £'000	31.7.22 £'000
------------------	--------------------------	--------------------------

Accrued revenue	17	79
Amounts receivable for issue of shares	297	67
Foreign currency contracts awaiting settlement	1,219	361
Overseas tax recoverable	269	235
Sales awaiting settlement	726	349
	2,528	1,091

9 Cash and bank balances	31.7.23 £'000	31.7.22 £'000
---------------------------------	--------------------------	--------------------------

Cash and bank balances	450	375
------------------------	-----	-----

Invesco European Smaller Companies Fund (UK)

Notes to the financial statements

10 Other creditors	31.7.23 £'000	31.7.22 £'000
Accrued expenses	167	147
Amounts payable for redemption of shares	339	712
Foreign currency contracts awaiting settlement	1,219	362
Purchases awaiting settlement	733	185
	2,458	1,406

11 Commitments, contingent liabilities and contingent assets

There were no commitments, contingent liabilities or contingent assets at the balance sheet date (2022 - Nil).

12 Related parties

Related party interests in the Fund are disclosed in note 8 of the notes applicable to the financial statements of all Funds on page 20. Amounts payable to Invesco Fund Managers Limited in respect of Fund Management Fees are disclosed in note 4. Amounts received in respect of sales in the accounting year is £63,003,000 (2022 - £44,278,000) and amounts paid in respect of purchases in the accounting year is £63,191,000 (2022 - £43,087,000). Amounts received in respect of dividends in the accounting year is £55,000 (2022 - Nil). Amounts due at the end of the accounting year for Fund Management Fees of £167,000 (2022 - £147,000) are disclosed in note 10 within accrued expenses.

13 Generic Risk factors

As this is a smaller companies fund, investors should be prepared to accept a higher degree of risk than funds that can invest in larger company sizes. Market conditions, such as a decrease in market liquidity, may mean that it is not easy to buy or sell securities.

The Fund's performance may be adversely affected by variations in the relative strength of world currencies or if Sterling strengthens against those currencies.

The Fund may use derivatives (complex instruments) in an attempt to reduce the overall risk of their investments, reduce the costs of investing and/or generate additional capital or income, although this may not be achieved. The use of such complex instruments may result in greater fluctuations of the value of the Fund. The Manager, however, will ensure that the use of derivatives within the Fund does not materially alter the overall risk profile of the Fund.

The generic risk factors relating to the Fund are discussed more fully in note 4 of the notes applicable to the financial statements of all Funds on pages 15 to 19.

a) Counterparty risk

The Fund had zero positive counterparty exposure to OTC derivatives at the balance sheet date (2022 - Nil). The counterparty OTC exposure is the positive exposure of cleared and non-cleared OTC derivatives, including FX forwards, to the different counterparties used by the portfolio, measured on a marked-to-market basis net of applicable legally enforceable netting and collateral.

b) Valuation of financial instruments

The categorisation of financial instruments in the tables below reflect the basis of valuation of instruments used to measure their fair value.

	Assets £'000	Liabilities £'000
31.7.23		
Level 1: Quoted prices	178,140	-
Level 2: Observable market data	399	-
Level 3: Unobservable data	-	-
	178,539	-
31.7.22		
Level 1: Quoted prices	149,819	-
Level 2: Observable market data	211	-
Level 3: Unobservable data	-	-
	150,030	-

Invesco European Smaller Companies Fund (UK)

Notes to the financial statements

13 Generic Risk factors continued

b) Valuation of financial instruments continued

All financial instruments are classified as level 1: Quoted prices and level 2: Observable market data. The instruments classified as level 2 relate to daily priced open-ended funds. These instruments are valued at their fair value as at noon of the last business day prior to the Fund's year end.

14 Portfolio transaction costs

for the year 1 August 2022 to 31 July 2023

	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Purchases (excluding derivatives)					
Equity instruments	151,274	82	0.05	107	0.07
Total purchases	151,274	82		107	
Total purchases including transaction costs	151,463				
	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Sales (excluding derivatives)					
Equity instruments	140,255	70	0.05	-	-
Total sales	140,255	70		-	
Total sales net of transaction costs	140,185				
Derivative transaction costs		4		-	
Total transaction costs		156		107	
Total transaction costs as a % of average net assets		0.10%		0.07%	

Invesco European Smaller Companies Fund (UK)

Notes to the financial statements

14 Portfolio transaction costs continued

for the year 1 August 2021 to 31 July 2022

	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Purchases (excluding derivatives)					
Equity instruments	187,595	86	0.05	129	0.07
Total purchases	187,595	86		129	
Total purchases including transaction costs	187,810				
	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Sales (excluding derivatives)					
Equity instruments	177,994	80	0.04	1	0.00
Total sales	177,994	80		1	
Total sales net of transaction costs	177,913				
Derivative transaction costs		-		-	
Total transaction costs		166		130	
Total transaction costs as a % of average net assets		0.10%		0.07%	

The above analysis covers any direct transaction costs suffered by the Fund during the year. However it is important to understand the nature of other transaction costs associated with different investment asset classes and instruments types.

Separately identifiable direct transaction costs (commissions and taxes etc.) are attributable to the Fund's purchase and sale of equity shares. Additionally for equity shares, there is a dealing spread cost (the difference between the buying and selling prices) which will be suffered on purchase and sale transactions.

For the Fund's investment transactions in debt and money market instruments any applicable transaction charges form part of the dealing spread for these instruments. Transactions in money market instruments, cash and short-term collective investment schemes utilised as part of a daily sweep to manage the Fund's daily liquidity position are excluded from the analysis.

For the Fund's investment in collective investment scheme holdings there will potentially be dealing spread costs applicable to purchases and sales. However, additionally there are indirect transaction costs suffered in those underlying Funds, throughout the holding period for the instruments, which are not separately identifiable and do not form part of the analysis above.

Dealing spread costs suffered by the Fund vary considerably for the different asset/instrument types depending on a number of factors including transaction value and market sentiment.

At the balance sheet date the average portfolio dealing spread (difference between bid and offer prices of all investments expressed as a percentage of the offer price value) was 0.32% (2022 - 0.29%).

Group 2: shares purchased on or after 1 August 2022

¹ Group 1: shares purchased prior to 1 February 2023
Group 2: shares purchased on or after 1 February 2023

Equalisation applies only to shares purchased during the distribution period ("Group 2"). It is the average amount of revenue included in the purchase price of all Group 2 shares and is refunded to holders of these shares as a return of capital. Being capital it is not liable to income tax. Instead, it must be deducted from the cost of shares for capital gains purposes.

Invesco Global Emerging Markets Fund (UK)

Investment report for the year

The Investment Objective and Policy of the Invesco Global Emerging Markets Fund (UK)

The Fund aims to achieve long-term (5 years plus) capital growth. The Fund invests at least 80% of its assets in shares or other equity related securities of companies incorporated, domiciled or carrying out the main part of their economic activity in emerging markets globally. Exposure to emerging markets may be obtained indirectly by investment in securities traded on other markets. In pursuing the Fund's investment objective, the fund manager may consider it appropriate to also invest in other transferable securities (including non-emerging market companies), money-market instruments, collective investment schemes (including funds managed by the Invesco group), deposits and cash. The Fund may use derivatives for efficient portfolio management purposes only, to reduce risk, reduce costs and/or generate additional capital or income. The Fund may engage in securities lending. The expected proportion of total assets that may be subject to securities lending arrangements is 20%. Such level might be exceeded or might be subject to changes in the future.

The objectives currently shown within these financial statements are those objectives that were in place as at 31 July 2023.

Performance

to 31 July 2023

	Since 31.1.23 %	Since 31.7.22 %	Since 31.7.20 %	Percentage growth Since 31.7.18 %	Since 31.7.13 %

Invesco Global Emerging Markets Fund (UK) (Z Accumulation shares)	4.2	-2.6	39.4	-10.0	4.8
IA Global Emerging Markets Sector ¹	7.1	-2.4	28.5	-16.0	0.4

This standardised past performance information is updated on a quarterly basis. Should you require up to date past performance information, this is available on our website www.invesco.com/uk or by contacting us.

Fund and sector average performance data source: Lipper, in Sterling, with income reinvested and net of the ongoing charge and portfolio transaction costs. This may differ from the performance figure shown on page 58 for Z Accumulation shares as the figure above is based on the quoted 12pm price and the figure shown on page 58 is based on the close of business bid price.

The value of investments and any income from them will fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested.

Past performance is not a guide to future returns. Current tax levels and reliefs may change. Depending on individual circumstances, this may affect investment returns.

¹ This is a Comparator Benchmark. Given its geographic focus the Fund's performance can be compared against the Benchmark. However, the Fund is actively managed and is not constrained by any benchmark.

Invesco Global Emerging Markets Fund (UK)

Investment report for the year

Strategy, review and outlook

The Fund returned 10.2% over the year to the end of July 2023. This placed the Fund in the first quartile of its peer group, the IA Global Emerging Markets Sector, which returned 4.5%.

Fund and sector average performance data source: Lipper, in Sterling, with income reinvested and net of the ongoing charge and portfolio transaction costs. Performance figures are based on the Z Accumulation share class.

Past performance is not a guide to future returns.

Brazil was one of the best performing emerging markets during the review period with the Fund's exposure here adding value, with stock selection also having a significant positive impact. Homebuilder Cyrela benefitted from expectations that interest rates in Brazil may be trimmed soon, while the better macroeconomic backdrop helped Banco do Brasil. ERO Copper, a Canada-based metals mining company with operations in Brazil, also performed well. Mexico's Fomento Económico Mexicano, a leading beverage and retail company, outperformed, buoyed by healthy earnings results and a positive market reaction to the sale of non-core assets including its stake in Heineken.

In Asia, Korea's Samsung Fire & Marine Insurance gained ground, drawing support from a strong set of earnings. India's Gujarat Pipavav Port, Shriram Finance and Aurobindo Pharma also outperformed. By contrast, exposure to China weighed on overall returns, with macroeconomic and competitive pressures a concern for the likes of Ming Yang Smart Energy, JD.com, Dongfeng Motor.

As bottom-up investors, we are committed to finding situations where we can invest in companies whose share prices trade meaningfully below their intrinsic value. In volatile times, our approach is to move gradually, preferring to make incremental moves in the Fund, favouring companies with conservative management teams and strong balance sheets. In terms of positioning, the Fund is tilted towards South Korea on valuation grounds and also favours China on the basis that valuations here are low relative to history.

During the review period we introduced several new stocks into the Fund, including Inner Mongolia Yili Industrial (China's largest dairy company); Jardine Matheson (one of Asia's oldest companies with interests across industries and countries); Naspers (a South African multinational with a significant shareholding stake in China's Tencent); Chile's Embotelladora Andina (distributor of Coca-Cola products); Tencent Music Entertainment (music streaming services); and Brazilian insurance company Porto Seguro. In turn, we sold stocks that had performed well, reaching fair value in our view. Disposals included Taiwan's Asustek Computer and Hon Hai Precision Industry, as well as Korea's POSCO and LG.

Emerging equity markets have rebounded from their 2022 lows, benefiting from China's reopening economy, with consumer demand showing signs of recovery. However, uncertainty over the strength of the cyclical recovery in China lingers, as do US/China tensions. China's equity market continues to trade at a discount, even as fundamental improvement in the outlook for corporate earnings mean there is scope for positive surprises that could validate a re-rating (where investors are willing to pay a higher price for shares).

We believe that companies operating in emerging economies may see less earnings vulnerability from the global slowdown relative to expectations and what is being implied in valuations. In our view, the continued divergence in performance and valuations between different countries and sectors within the emerging world is providing interesting investment opportunities.

Notes to the financial statements

Refer to pages 12 to 21 for notes applicable to the financial statements of all Funds.

1 Accounting policies

The Fund's Accounting Policies, Distribution Policies and Generic Risk Factors are set out on pages 12 to 19.

2 Net capital gains/(losses)	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Foreign currency losses	(142)	(49)
Non-derivative securities	18,624	(20,695)
Net capital gains/(losses)	18,482	(20,744)

3 Revenue	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Bank interest	21	1
Interest on term deposits	132	16
Non-taxable overseas dividends	10,592	9,958
Securities lending revenue	4	2
Taxable overseas dividends	940	909
	11,689	10,886

4 Expenses	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Payable to the Manager, associates of the Manager and agents of either of them:		
Fund Management Fee ¹	3,474	3,223
	3,474	3,223
Total expenses	3,474	3,223

¹ Total audit fees of £9,742 (2022 - £8,539) exclusive of VAT and non-audit services in relation to tax services of £Nil (2022 - £1,362) payable to the auditors for the year ended 31 July 2023 are borne out of the Fund Management Fee.

5 Interest payable and similar charges	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Bank interest	1	2

Invesco Global Emerging Markets Fund (UK)

Notes to the financial statements

6 Taxation	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
a) Analysis of charge for the year		
Overseas tax	1,225	1,227
Overseas capital gains tax paid	352	404
Movement in overseas capital gains tax provision	374	645
Total tax charge	1,951	2,276

There is no corporation tax charge for the year (2022 - Nil).

b) Factors affecting the tax charge for the year

The tax assessed for the year is higher (2022 - higher) than the standard rate of corporation tax in the UK for an authorised investment company with variable capital. The factors are explained below:

	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Net revenue before taxation	8,214	7,661
Corporation tax at 20% (2022 - 20%)	1,643	1,532
Effects of:		
Movement in unrecognised tax losses	495	492
Overseas capital gains tax paid	352	404
Movement in overseas capital gains tax provision	374	645
Overseas tax	1,225	1,227
Prior year adjustment to excess management expenses	9	(8)
Relief on overseas tax expensed	(28)	(24)
Revenue not subject to tax	(2,119)	(1,992)
Total tax charge	1,951	2,276

Authorised investment companies with variable capital are exempt from tax on capital gains in the UK. Therefore any capital return is not included in the above reconciliation.

c) Deferred tax

At the year end the Fund had surplus management expenses of £28,014,000 (2022 - £25,541,000). It is unlikely that the Fund will generate sufficient taxable profits in the future to utilise these expenses and therefore a deferred tax asset of £5,603,000 (2022 - £5,108,000) has not been recognised.

7 Distributions	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Accumulations and distributions paid 30 September 2023	6,533	7,296
Amounts deducted on redemption of shares	1,686	703
Amounts received on issue of shares	(1,209)	(1,563)
	7,010	6,436

The distributable amount has been calculated as follows:

Net revenue after taxation	6,263	5,385
Equalisation on conversions	21	2
Overseas capital gains tax paid	352	404
Movement in overseas capital gains tax provision	374	645
	7,010	6,436

8 Debtors	31.7.23 £'000	31.7.22 £'000
Accrued revenue	842	1,300
Amounts receivable for issue of shares	1,353	700
Foreign currency contracts awaiting settlement	637	-
Overseas tax recoverable	69	90
Sales awaiting settlement	637	-
	3,538	2,090

Invesco Global Emerging Markets Fund (UK)

Notes to the financial statements

9 Cash and bank balances	31.7.23 £'000	31.7.22 £'000
Cash and bank balances	1,065	1,324
10 Other creditors	31.7.23 £'000	31.7.22 £'000
Accrued expenses	278	302
Amounts payable for redemption of shares	1,008	743
Foreign currency contracts awaiting settlement	637	-
Overseas capital gains tax provision	1,020	645
	2,943	1,690

11 Commitments, contingent liabilities and contingent assets

There were no commitments, contingent liabilities or contingent assets at the balance sheet date (2022 - Nil).

12 Related parties

Related party interests in the Fund are disclosed in note 8 of the notes applicable to the financial statements of all Funds on page 20. Amounts payable to Invesco Fund Managers Limited in respect of Fund Management Fees are disclosed in note 4. Amounts received in respect of sales in the accounting year of £85,599,000 (2022 - £72,294,000) and amounts paid in respect of purchases in the accounting year of £79,409,000 (2022 - £76,848,000) are included within the figures disclosed in note 14. Amounts received in respect of dividends in the accounting year is £132,000 (2022 - £16,000). Amounts due at the end of the accounting year for Fund Management Fees of £278,000 (2022 - £302,000) are disclosed in note 10 within accrued expenses.

13 Generic Risk factors

As the Fund invests in emerging and developing markets, investors should be prepared to accept a higher degree of risk than for a Fund with a broader investment mandate as there is the potential for a decrease in market liquidity, which may mean that it is not easy to buy or sell securities. There may also be difficulties in dealing and settlement, and custody problems could arise.

The Fund's performance may be adversely affected by variations in the relative strength of world currencies or if Sterling strengthens against those currencies.

The Fund may use derivatives (complex instruments) in an attempt to reduce the overall risk of their investments, reduce the costs of investing and/or generate additional capital or income, although this may not be achieved. The use of such complex instruments may result in greater fluctuations of the value of the Fund. The Manager, however, will ensure that the use of derivatives within the Fund does not materially alter the overall risk profile of the Fund.

The generic risk factors relating to the Fund are discussed more fully in note 4 of the notes applicable to the financial statements of all Funds on pages 15 to 19.

a) Counterparty risk

The Fund had zero positive counterparty exposure to OTC derivatives at the balance sheet date (2022 - Nil). The counterparty OTC exposure is the positive exposure of cleared and non-cleared OTC derivatives, including FX forwards, to the different counterparties used by the portfolio, measured on a marked-to-market basis net of applicable legally enforceable netting and collateral.

Invesco Global Emerging Markets Fund (UK)

Notes to the financial statements

13 Generic Risk factors continued

b) Valuation of financial instruments

The categorisation of financial instruments in the tables below reflect the basis of valuation of instruments used to measure their fair value.

	Assets £'000	Liabilities £'000
31.7.23		
Level 1: Quoted prices	271,193	-
Level 2: Observable market data	1,087	-
Level 3: Unobservable data	796	-
	273,076	-
31.7.22		
Level 1: Quoted prices	273,068	-
Level 2: Observable market data	7,278	-
Level 3: Unobservable data	-	-
	280,346	-

The majority of financial instruments are classified as level 1: Quoted prices and level 2: Observable market data. The instruments classified as level 2 relate to daily priced open-ended funds. These instruments are valued at their fair value as at noon of the last business day prior to the Fund's year end. Instruments classified as level 3: Unobservable data mainly comprise non-market traded and unquoted securities.

Generally for the non-market traded and unquoted securities, where there is no price source from an active market for an investment, the Manager has applied judgement in determining the fair value. The Manager has used several valuation methodologies as prescribed in the International Private Equity and Venture Capital valuation guidelines to arrive at their best estimate of fair value. Valuation techniques used by the Manager are set out in Accounting Policies note 1 (i). The fair value is established by using measures of value such as:

- Price of recent transactions – Management determine the fair value based on the price of recent transactions made by management or a third party.
- Milestone analysis – Management assess the investment company's progress against milestones expected at the time of investment in order to determine whether an adjustment is required to the transaction price to determine fair value.
- Multiples – Earnings or Revenue multiples are selected from comparable public companies based on geographic location, industry, size, risk profile, earnings growth prospects, target markets and other factors that management consider reasonable. A discount for lack of liquidity may then be applied to represent the adjustment to comparable company multiples to reflect the illiquidity of the portfolio companies relative to the comparable peer group. Management determines the discount for lack of liquidity based on its judgement, after considering market liquidity conditions and company specific factors such as the development stage of the portfolio company. One of the most common forms of multiples used for cash generating companies are EV/EBITDA multiples as EBITDA is generally seen to represent a good proxy for free cash flow. These are applied where appropriate based on the development of underlying portfolio companies but other multiples such as EV/Revenue may also be considered.
- Net assets – Management determine the fair value based on the net asset value of the underlying portfolio company

In applying the above valuation techniques in arriving at the fair value the Manager has assessed any further information available from internal and external sources to arrive at an estimated fair value, which includes but is not limited to the following:

- Reference to listed securities of the same company;
- Consideration of seniority of the securities held and terms of repayment upon realisation;
- Consideration of any trading restrictions on the investment company's shares that would limit Invesco's ability to realise its holding;
- Consideration of any outstanding payments to be made by Invesco; and
- Industry statistics or events (such as mergers, acquisitions and the risk of default).

Invesco Global Emerging Markets Fund (UK)

Notes to the financial statements

14 Portfolio transaction costs

for the year 1 August 2022 to 31 July 2023

	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Purchases (excluding derivatives)					
Equity instruments	98,667	64	0.06	52	0.05
Total purchases	98,667	64		52	
Total purchases including transaction costs	98,783				
	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Sales (excluding derivatives)					
Equity instruments	118,629	65	0.05	149	0.13
Total sales	118,629	65		149	
Total sales net of transaction costs	118,415				
Derivative transaction costs		-		-	
Total transaction costs		129		201	
Total transaction costs as a % of average net assets		0.05%		0.07%	

Invesco Global Emerging Markets Fund (UK)

Notes to the financial statements

14 Portfolio transaction costs continued

for the year 1 August 2021 to 31 July 2022

	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Purchases (excluding derivatives)					
Equity instruments	121,670	56	0.05	68	0.06
Total purchases	121,670	56		68	
Total purchases including transaction costs	121,794				
	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Sales (excluding derivatives)					
Equity instruments	69,056	42	0.06	79	0.11
Total sales	69,056	42		79	
Total sales net of transaction costs	68,935				
Derivative transaction costs		-		-	
Total transaction costs		98		147	
Total transaction costs as a % of average net assets		0.04%		0.06%	

The above analysis covers any direct transaction costs suffered by the Fund during the year. However it is important to understand the nature of other transaction costs associated with different investment asset classes and instruments types.

Separately identifiable direct transaction costs (commissions and taxes etc.) are attributable to the Fund's purchase and sale of equity shares. Additionally for equity shares, there is a dealing spread cost (the difference between the buying and selling prices) which will be suffered on purchase and sale transactions.

For the Fund's investment transactions in debt and money market instruments any applicable transaction charges form part of the dealing spread for these instruments. Transactions in money market instruments, cash and short-term collective investment schemes utilised as part of a daily sweep to manage the Fund's daily liquidity position are excluded from the analysis.

For the Fund's investment in collective investment scheme holdings there will potentially be dealing spread costs applicable to purchases and sales. However, additionally there are indirect transaction costs suffered in those underlying Funds, throughout the holding period for the instruments, which are not separately identifiable and do not form part of the analysis above.

Dealing spread costs suffered by the Fund vary considerably for the different asset/instrument types depending on a number of factors including transaction value and market sentiment.

At the balance sheet date the average portfolio dealing spread (difference between bid and offer prices of all investments expressed as a percentage of the offer price value) was 0.19% (2022 - 0.18%).

Group 2: shares purchased on or after 1 August 2022

¹ Share classes launched 24 March 2023.

Equalisation applies only to shares purchased during the distribution period ("Group 2"). It is the average amount of revenue included in the purchase price of all Group 2 shares and is refunded to holders of these shares as a return of capital. Being capital it is not liable to income tax. Instead, it must be deducted from the cost of shares for capital gains purposes.

Invesco Global Smaller Companies Fund (UK)

Investment report for the year

The Investment Objective and Policy of the Invesco Global Smaller Companies Fund (UK)

The Fund aims to achieve long-term (5 years plus) capital growth. The Fund invests at least 80% of its assets in shares or other equity related securities of smaller companies, globally. In pursuing the Fund's investment objective, the fund manager may consider it appropriate to also invest in other transferable securities, money-market instruments, collective investment schemes (including funds managed by the Invesco group), deposits and cash. The Fund may use derivatives for efficient portfolio management purposes only, to reduce risk, reduce costs and/or generate additional capital or income. The Fund may engage in securities lending. The expected proportion of total assets that may be subject to securities lending arrangements is 20%. Such level might be exceeded or might be subject to changes in the future.

The objectives currently shown within these financial statements are those objectives that were in place as at 31 July 2023.

Performance

to 31 July 2023

	Since 31.1.23 %	Since 31.7.22 %	Since 31.7.20 %	Percentage growth Since 31.7.18 %	Since 31.7.13 %

Invesco Global Smaller Companies Fund (UK) (Z Accumulation shares)	0.2	-2.7	44.3	-17.2	9.3
IA Global Sector ¹	7.3	5.6	26.1	-8.7	10.7

This standardised past performance information is updated on a quarterly basis. Should you require up to date past performance information, this is available on our website www.invesco.com/uk or by contacting us.

Fund and sector average performance data source: Lipper, in Sterling, with income reinvested and net of the ongoing charge and portfolio transaction costs. This may differ from the performance figure shown on page 78 for Z Accumulation shares as the figure above is based on the quoted 12pm price and the figure shown on page 78 is based on the close of business bid price.

The value of investments and any income from them will fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested.

Past performance is not a guide to future returns. Current tax levels and reliefs may change. Depending on individual circumstances, this may affect investment returns.

¹ This is a Comparator Benchmark. Given its geographic focus the Fund's performance can be compared against the Benchmark. However, the Fund is actively managed and is not constrained by any benchmark.

Invesco Global Smaller Companies Fund (UK)

Investment report for the year

Strategy, review and outlook

The Fund increased 5.7% over the year to the end of July 2023. This placed the Fund in the third quartile of its peer group, the IA Global Sector, which returned an average of 5.5%.

Fund and sector average performance data source: Lipper, in Sterling, with income reinvested and net of the ongoing charge and portfolio transaction costs. Performance figures are based on the Z Accumulation share class.

Past performance is not a guide to future returns.

In the past 12 months, global equity markets delivered positive returns with large cap equities outperforming small cap equities. Most sectors rose over the period with information technology leading the way. Despite an initial hiccup in third quarter of 2022 when hopes of interest rate cuts were dashed, equity markets finished 2022 positively with Asian shares performing particularly well on news that China was relaxing its zero-Covid policy. The positive momentum continued into the first half of 2023 as inflation continued to fall from elevated levels.

Inflation and interest rates were at the centre of discussions over the year with major central banks raising rates consistently in an effort to curb inflation. In September 2022 the US Federal Reserve raised rates from 2.50% to 3.25% and by the end of July 2023 the base rate stood at 5.50%. The US headline inflation figure peaked at 9.2% in 2022 and came down over the course of the year and stood at 3.2% by the end of July 2023.

Receding recession worries buoyed equity markets in first half of 2023. The collapse of Silicon Valley Bank (SVB) and the volatility that followed as a result of this was fairly well contained within banking shares and had less of an impact on the broader market. The second half of the period saw developed markets shares outperform emerging markets. At sector level, technology stocks were boosted considerably by enthusiasm over artificial intelligence (AI) and its future growth potential.

The Fund remains globally diversified, with close to half of the Fund (c. 45%) positioned in the United States. We also have significant exposure to Asia Pacific ex Japan, Europe ex UK, and Japan, and less than 10% exposure to the UK.

We continue to focus on seeking to identify smaller companies with sound business models and balance sheets trading at what we consider to be attractive valuations, including those that we believe are well positioned to benefit from a global economic recovery.

Michael Oliveros (lead) and the Invesco Global Smaller Companies Group, Henley Investment Centre¹, Fund Managers

There is no corporation tax charge for the year (2022 - Nil).

b) Factors affecting the tax charge for the year

The tax assessed for the year is higher (2022 - higher) than the standard rate of corporation tax in the UK for an authorised investment company with variable capital. The factors are explained below:

	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Net revenue before taxation	3,434	3,484
Corporation tax at 20% (2022 - 20%)	687	697
Effects of:		
Movement in unrecognised tax losses	1,255	1,492
Overseas capital gains tax paid	23	18
Movement in overseas capital gains tax provision	396	-
Overseas tax	936	1,225
Prior year adjustment to excess management expenses	(13)	-
Relief on overseas tax expensed	(17)	(18)
Revenue not subject to tax	(1,912)	(2,171)
Total tax charge	1,355	1,243

Authorised investment companies with variable capital are exempt from tax on capital gains in the UK. Therefore any capital return is not included in the above reconciliation.

c) Deferred tax

At the year end the Fund had surplus management expenses of £108,774,000 (2022 - £102,501,000). It is unlikely that the Fund will generate sufficient taxable profits in the future to utilise these expenses and therefore a deferred tax asset of £21,755,000 (2022 - £20,500,000) has not been recognised.

7 Distributions	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Accumulations and distributions paid 30 September 2023	2,437	2,369
Amounts deducted on redemption of shares	169	150
Amounts received on issue of shares	(45)	48
	2,561	2,567

The distributable amount has been calculated as follows:

Net revenue after taxation	2,079	2,241
Equalisation on conversions	99	8
Overseas capital gains tax paid	23	18
Movement in overseas capital gains tax provision	396	-
Add: Shortfall transferred to capital	28	320
US REIT capital gain retention	(64)	(20)
	2,561	2,567

8 Debtors	31.7.23 £'000	31.7.22 £'000
Accrued revenue	430	733
Amounts receivable for issue of shares	223	126
Foreign currency contracts awaiting settlement	1,505	462
Overseas tax recoverable	239	328
Sales awaiting settlement	2,083	2,021
	4,480	3,670

Invesco Global Smaller Companies Fund (UK)

Notes to the financial statements

9 Cash and bank balances	31.7.23 £'000	31.7.22 £'000
Cash and bank balances	5,637	221
10 Other creditors	31.7.23 £'000	31.7.22 £'000
Accrued expenses	581	642
Amounts payable for redemption of shares	1,131	1,142
Foreign currency contracts awaiting settlement	1,508	462
Overseas capital gains tax provision	396	-
Purchases awaiting settlement	2,975	2,972
	6,591	5,218

11 Commitments, contingent liabilities and contingent assets

There were no commitments, contingent liabilities or contingent assets at the balance sheet date (2022 - Nil).

12 Related parties

Related party interests in the Fund are disclosed in note 8 of the notes applicable to the financial statements of all Funds on page 20. Amounts payable to Invesco Fund Managers Limited in respect of Fund Management Fees are disclosed in note 4. Amounts received in respect of sales in the accounting year of £36,382,000 (2022 - £13,172,000) and amounts paid in respect of purchases in the accounting year of £36,382,000 (2022 - £11,538,000). Amounts received in respect of dividends in the accounting year is £19,000 (2022 - Nil). Amounts due at the end of the accounting year for Fund Management Fees of £581,000 (2022 - £642,000) are disclosed in note 10 within accrued expenses.

13 Generic Risk factors

As this is a smaller companies fund, investors should be prepared to accept a higher degree of risk than for a Fund with a broader investment mandate. Although the Fund invests mainly in established markets, it can invest in emerging and developing markets, where there is potential for a decrease in market liquidity, which may mean that it is not easy to buy or sell securities. There may also be difficulties in dealing and settlement, and custody problems could arise.

The Fund's performance may be adversely affected by variations in the relative strength of world currencies or if Sterling strengthens against those currencies.

The Fund may use derivatives (complex instruments) in an attempt to reduce the overall risk of their investments, reduce the costs of investing and/or generate additional capital or income, although this may not be achieved. The use of such complex instruments may result in greater fluctuations of the value of the Fund. The Manager, however, will ensure that the use of derivatives within the Fund does not materially alter the overall risk profile of the Fund.

The generic risk factors relating to the Fund are discussed more fully in note 4 of the notes applicable to the financial statements of all Funds on pages 15 to 19.

a) Counterparty risk

The Fund had zero positive counterparty exposure to OTC derivatives at the balance sheet date (2022 - Nil). The counterparty OTC exposure is the positive exposure of cleared and non-cleared OTC derivatives, including FX forwards, to the different counterparties used by the portfolio, measured on a marked-to-market basis net of applicable legally enforceable netting and collateral.

Invesco Global Smaller Companies Fund (UK)

Notes to the financial statements

13 Generic Risk factors continued

b) Valuation of financial instruments

The categorisation of financial instruments in the tables below reflect the basis of valuation of instruments used to measure their fair value.

	Assets £'000	Liabilities £'000
31.7.23		
Level 1: Quoted prices	555,205	-
Level 2: Observable market data	-	-
Level 3: Unobservable data	237	-
	555,442	-
31.7.22		
Level 1: Quoted prices	628,272	-
Level 2: Observable market data	-	-
Level 3: Unobservable data	81	-
	628,353	-

The majority of financial instruments are classified as level 1: Quoted prices. The instruments classified as level 2 relate to daily priced open-ended funds. These instruments are valued at their fair value as at noon of the last business day prior to the Fund's year end. Instruments classified as level 3: Unobservable data mainly comprise non-market traded and unquoted securities.

Generally for the non-market traded and unquoted securities, where there is no price source from an active market for an investment, the Manager has applied judgement in determining the fair value. The Manager has used several valuation methodologies as prescribed in the International Private Equity and Venture Capital valuation guidelines to arrive at their best estimate of fair value. Valuation techniques used by the Manager are set out in Accounting Policies note 1 (i). The fair value is established by using measures of value such as:

- Price of recent transactions – Management determine the fair value based on the price of recent transactions made by management or a third party.
- Milestone analysis – Management assess the investment company's progress against milestones expected at the time of investment in order to determine whether an adjustment is required to the transaction price to determine fair value.
- Multiples – Earnings or Revenue multiples are selected from comparable public companies based on geographic location, industry, size, risk profile, earnings growth prospects, target markets and other factors that management consider reasonable. A discount for lack of liquidity may then be applied to represent the adjustment to comparable company multiples to reflect the illiquidity of the portfolio companies relative to the comparable peer group. Management determines the discount for lack of liquidity based on its judgement, after considering market liquidity conditions and company specific factors such as the development stage of the portfolio company. One of the most common forms of multiples used for cash generating companies are EV/EBITDA multiples as EBITDA is generally seen to represent a good proxy for free cash flow. These are applied where appropriate based on the development of underlying portfolio companies but other multiples such as EV/Revenue may also be considered.
- Net assets – Management determine the fair value based on the net asset value of the underlying portfolio company

In applying the above valuation techniques in arriving at the fair value the Manager has assessed any further information available from internal and external sources to arrive at an estimated fair value, which includes but is not limited to the following:

- Reference to listed securities of the same company;
- Consideration of seniority of the securities held and terms of repayment upon realisation;
- Consideration of any trading restrictions on the investment company's shares that would limit Invesco's ability to realise its holding;
- Consideration of any outstanding payments to be made by Invesco; and
- Industry statistics or events (such as mergers, acquisitions and the risk of default).

Invesco Global Smaller Companies Fund (UK)

Notes to the financial statements

14 Portfolio transaction costs

for the year 1 August 2022 to 31 July 2023

	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Purchases (excluding derivatives)					
Equity instruments	252,059	102	0.04	101	0.04

Total purchases including transaction costs	252,262				
	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Sales (excluding derivatives)					
Equity instruments	349,608	131	0.04	72	0.02
Total sales	349,608	131		72	
Total sales net of transaction costs	349,405				
Derivative transaction costs		-		-	
Total transaction costs		233		173	
Total transaction costs as a % of average net assets		0.04%		0.03%	

Invesco Global Smaller Companies Fund (UK)

Notes to the financial statements

14 Portfolio transaction costs continued

for the year 1 August 2021 to 31 July 2022

	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Purchases (excluding derivatives)					
Equity instruments	357,880	138	0.04	157	0.04
Total purchases	357,880	138		157	
Total purchases including transaction costs	358,175				
	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Sales (excluding derivatives)					
Equity instruments	367,034	148	0.04	107	0.03
Total sales	367,034	148		107	
Total sales net of transaction costs	366,779				
Derivative transaction costs		-		-	
Total transaction costs		286		264	
Total transaction costs as a % of average net assets		0.04%		0.04%	

The above analysis covers any direct transaction costs suffered by the Fund during the year. However it is important to understand the nature of other transaction costs associated with different investment asset classes and instruments types.

Separately identifiable direct transaction costs (commissions and taxes etc.) are attributable to the Fund's purchase and sale of equity shares. Additionally for equity shares, there is a dealing spread cost (the difference between the buying and selling prices) which will be suffered on purchase and sale transactions.

For the Fund's investment transactions in debt and money market instruments any applicable transaction charges form part of the dealing spread for these instruments. Transactions in money market instruments, cash and short-term collective investment schemes utilised as part of a daily sweep to manage the Fund's daily liquidity position are excluded from the analysis.

For the Fund's investment in collective investment scheme holdings there will potentially be dealing spread costs applicable to purchases and sales. However, additionally there are indirect transaction costs suffered in those underlying Funds, throughout the holding period for the instruments, which are not separately identifiable and do not form part of the analysis above.

During the year the Fund utilised derivative instruments. The settlement values for opening and closing derivative positions are not comparable to principal values for transactions in direct holding investments and therefore purchase and sale amounts for derivative transactions are not quantified in the analysis above. Transaction costs for derivatives positions will be either suffered as direct costs or form part of the dealing spread for the instruments. Any direct costs are identified in the analysis above.

Dealing spread costs suffered by the Fund vary considerably for the different asset/instrument types depending on a number of factors including transaction value and market sentiment.

At the balance sheet date the average portfolio dealing spread (difference between bid and offer prices of all investments expressed as a percentage of the offer price value) was 0.25% (2022 - 0.32%).

Group 1: shares purchased prior to 1 August 2022

Group 2: shares purchased on or after 1 August 2022

Equalisation applies only to shares purchased during the distribution period ("Group 2"). It is the average amount of revenue included in the purchase price of all Group 2 shares and is refunded to holders of these shares as a return of capital. Being capital it is not liable to income tax. Instead, it must be deducted from the cost of shares for capital gains purposes.

Invesco Japanese Smaller Companies Fund (UK)

Investment report for the year

The Investment Objective and Policy of the Invesco Japanese Smaller Companies Fund (UK)

The Fund aims to achieve long-term (5 years plus) capital growth. The Fund invests at least 80% of its assets in shares or other equity related securities of smaller companies incorporated, domiciled or carrying out the main part of their economic activity in Japan. In pursuing the Fund's investment objective, the fund manager may consider it appropriate to also invest in other transferable securities (including non-Japanese companies), money-market instruments, collective investment schemes (including funds managed by the Invesco group), deposits and cash. The Fund may use derivatives for efficient portfolio management purposes only, to reduce risk, reduce costs and/or generate additional capital or income. The Fund may engage in securities lending. The expected proportion of total assets that may be subject to securities lending arrangements is 20%. Such level might be exceeded or might be subject to changes in the future.

The objectives currently shown within these financial statements are those objectives that were in place as at 31 July 2023.

Performance to 31 July 2023	Since	Since	Since	Percentage growth

Fund performance data source: Lipper, in Sterling, with income reinvested and net of the ongoing charge and portfolio transaction costs. This may differ from the performance figure shown on page 102 for Z Accumulation shares as the figure above is based on the quoted 12pm price and the figure shown on page 102 is based on the close of business bid price. Russell/Nomura Small Cap Index GBP (Net Total Return)¹ data source: Lipper, total return, in Sterling.

The value of investments and any income from them will fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested.

Past performance is not a guide to future returns. Current tax levels and reliefs may change. Depending on individual circumstances, this may affect investment returns.

¹ This is a Comparator Benchmark. Given its geographic focus the Fund's performance can be compared against the Benchmark. However, the Fund is actively managed and is not constrained by any benchmark.

Invesco Japanese Smaller Companies Fund (UK)

Investment report for the year

Strategy, review and outlook

The Fund returned -4.9% over the year to the end of July 2023, compared to the benchmark Russell/Nomura Small Cap Index GBP (Net Total Return)¹ which returned 5.8%.

Fund performance data source: Lipper, in Sterling, with income reinvested and net of the ongoing charge and portfolio transaction costs. Performance figures are based on the Z Accumulation share class. Russell/Nomura Small Cap Index GBP (Net Total Return)¹ data source: Lipper, total return, in Sterling.

Past performance is not a guide to future returns.

Japanese equities initially demonstrated resilience thanks to continuous solid corporate earnings results combined with tamed inflationary pressure. Besides, the long-awaited economic reopening progressed, and the government finally decided to broadly reopen the border from October to revive inbound tourism. Meanwhile, with the monetary policy gap between the Bank of Japan (BoJ), which maintained monetary easing policy measures, and other central banks, mostly in a tightening mode, diverging, the Japanese yen weakened against major currencies, especially the US dollar, breaking the 150 level for the first time in more than three decades in October. However, in late December, the BoJ's unexpected relaxation to the 10-year bond yield controls came as a surprise as the beginning of the monetary policy tightening. Consequently, the 10-year government bond yield rose, the Japanese yen strengthened, and Japanese equity corrected.

Since the beginning of 2023, the market rallied, hitting a fresh 33-year high in July in local currency terms. At the start, easing fears over US and European recession, combined with China's reopening, lifted stock markets globally. Then, after famous US investor Warren Buffett visited Japan and showed his intention to increase investment in Japan in April, foreign investors poured money into Japanese stocks, accelerating stock price momentum. Besides, although the BoJ unexpectedly tweaked its monetary policy by relaxing the bond yield control again in July amid a pick-up in inflation, its monetary policy measures remained supportive to Japan's economy and stock markets. On the macroeconomic front, against the backdrop of economic reopening coupled with the needs for investments to cope with a labour shortage as well as digital and green transformation, domestic demand was resilient in Japan. For instance, its real Gross Domestic Product (GDP) grew by 3.7% at a quarter-on-quarter seasonally adjusted annual rate in the first quarter of 2023.

During the period, the Fund's bottom-up stock picking remained under pressure amid massive rotations driven by top-down themes, namely a bank stock rally in December and a value stock rally triggered by hopes for the Tokyo Stock Exchange (TSE) reform since early 2023. Sector-wise, on top of Banks, commodity-related sectors gained popularity. Such investors' massive sector rotations rocked the Fund's zero exposure to Banks and Wholesale Trade and an overweight in Services compared to the benchmark index.

At the stock level, S-Pool, an outsourcing service provider expanding the business supporting enterprises to hire people with mental disabilities, underperformed amid concerns over the government policy changes in disability employment. Ain Pharmaciez, a dispensing pharmacy chain consolidating the fragmented market dominated by mom-and-pop stores, underperformed as its earnings growth undershoot the market's expectations. On the other hand, Cover, a top virtual YouTuber management company with more than 70 million YouTube channel subscribers, rallied as this initial public offering (IPO) name in 2023 posted strong earnings results with improving margins thanks to a rise in the profitable company-led merchandising business.

In 2023, Japan suddenly attracted keen interest from overseas investors. At this moment, they seem to broadly park their investments in well-known large companies or index funds to build their positions in Japan quickly. If Japan's revival is real, we expect them to unearth broader and better investment opportunities to increase returns from their Japanese investment. Accordingly, we see enormous opportunities among small-cap companies, especially in the significant underperforming growth segment, to catch up by capitalising on such shifts. It might also be worth noting that, unlike the overall Japanese economy, which is pretty mature, small-cap companies have significant room to grow in emerging innovations as well as replace incumbent players in this still third-largest economy in the world, which foreign investors seem to have yet to acknowledge, in our opinion.

Therefore, our stock selection approach remains focused on growth companies with a competitive advantage in a product/service with significant market potential, which we believe can achieve high corporate earnings growth.

Direct transaction costs comprise commission and taxes, principally applicable to equity investment purchases and sales. Shareholders should note that additionally there are other transaction costs such as dealing spread and underlying costs with regard to Collective Investment Scheme holdings which will also have reduced the Fund and share class returns before operating charges.

The operating charges figure is equivalent to the FMF shown on page 15, which we also refer to as the ongoing charge in our Key Investor Information Documents ("KIIDs") and our literature.

Notes to the financial statements

Refer to pages 12 to 21 for notes applicable to the financial statements of all Funds.

1 Accounting policies

The Fund's Accounting Policies, Distribution Policies and Generic Risk Factors are set out on pages 12 to 19.

2 Net capital losses	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Foreign currency gains/(losses)	10	(8)
Forward currency contracts	(6)	8
Non-derivative securities	(1,782)	(7,999)
Net capital losses	(1,778)	(7,999)

3 Revenue	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Bank interest	3	-
Interest on term deposits	37	3
Non-taxable overseas dividends	568	561
Securities lending revenue	65	61
	673	625

4 Expenses	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Payable to the Manager, associates of the Manager and agents of either of them:		
Fund Management Fee ¹	444	553
	444	553
Total expenses	444	553

¹ Total audit fees of £9,455 (2022 - £8,539) exclusive of VAT payable to the auditors for the year ended 31 July 2023 are borne out of the Fund Management Fee.

5 Interest payable and similar charges	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Bank interest	-	-

Invesco Japanese Smaller Companies Fund (UK)

Notes to the financial statements

6 Taxation	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
-------------------	---	---

a) Analysis of charge for the year

Overseas tax	57	56
Total tax charge	57	56

There is no corporation tax charge for the year (2022 - Nil).

b) Factors affecting the tax charge for the year

The tax assessed for the year is higher (2022 - higher) than the standard rate of corporation tax in the UK for an authorised investment company with variable capital. The factors are explained below:

	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Net revenue before taxation	229	72
Corporation tax at 20% (2022 - 20%)	46	14
Effects of:		
Movement in unrecognised tax losses	68	98
Overseas tax	57	56
Revenue not subject to tax	(114)	(112)
Total tax charge	57	56

Authorised investment companies with variable capital are exempt from tax on capital gains in the UK. Therefore any capital return is not included in the above reconciliation.

c) Deferred tax

At the year end the Fund had surplus management expenses of £21,546,000 (2022 - £21,206,000). It is unlikely that the Fund will generate sufficient taxable profits in the future to utilise these expenses and therefore a deferred tax asset of £4,309,000 (2022 - £4,241,000) has not been recognised.

7 Distributions	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
------------------------	---	---

Accumulations paid 30 September 2023	175	84
Amounts deducted on redemption of shares	20	7
Amounts received on issue of shares	(7)	(8)
	188	83

The distributable amount has been calculated as follows:

Net revenue after taxation	172	16
Equalisation on conversions	16	1
Add: Shortfall transferred to capital	-	66
	188	83

8 Debtors	31.7.23 £'000	31.7.22 £'000
------------------	--------------------------	--------------------------

Accrued revenue	35	48
Amounts receivable for issue of shares	12	177
Foreign currency contracts awaiting settlement	90	-
	137	225

9 Cash and bank balances	31.7.23 £'000	31.7.22 £'000
---------------------------------	--------------------------	--------------------------

Cash and bank balances	89	112
------------------------	----	-----

Invesco Japanese Smaller Companies Fund (UK)

Notes to the financial statements

10 Other creditors	31.7.23 £'000	31.7.22 £'000
Accrued expenses	33	38
Amounts payable for redemption of shares	178	19
Foreign currency contracts awaiting settlement	90	-
Purchases awaiting settlement	90	-
	391	57

11 Commitments, contingent liabilities and contingent assets

There were no commitments, contingent liabilities or contingent assets at the balance sheet date (2022 - Nil).

12 Related parties

Related party interests in the Fund are disclosed in note 8 of the notes applicable to the financial statements of all Funds on page 20. Amounts payable to Invesco Fund Managers Limited in respect of Fund Management Fees are disclosed in note 4. Amounts received in respect of sales in the accounting year of £13,226,000 (2022 - £8,863,000) and amounts paid in respect of purchases in the accounting year of £13,971,000 (2022 - £7,468,000). Amounts received in respect of dividends in the accounting year is £37,000 (2022 - £3,000). Amounts due at the end of the accounting year for Fund Management Fees of £33,000 (2022 - £38,000) are disclosed in note 10 within accrued expenses.

13 Generic Risk factors

As this is a smaller companies fund, investors should be prepared to accept a higher degree of risk than funds that can invest in larger company sizes. Market conditions, such as a decrease in market liquidity, may mean that it is not easy to buy or sell securities.

The Fund's performance may be adversely affected by variations in the relative strength of world currencies or if Sterling strengthens against those currencies.

The Fund may use derivatives (complex instruments) in an attempt to reduce the overall risk of their investments, reduce the costs of investing and/or generate additional capital or income, although this may not be achieved. The use of such complex instruments may result in greater fluctuations of the value of the Fund. The Manager, however, will ensure that the use of derivatives within the Fund does not materially alter the overall risk profile of the Fund.

The generic risk factors relating to the Fund are discussed more fully in note 4 of the notes applicable to the financial statements of all Funds on pages 15 to 19.

a) Counterparty risk

The Fund had zero positive counterparty exposure to OTC derivatives at the balance sheet date (2022 - Nil). The counterparty OTC exposure is the positive exposure of cleared and non-cleared OTC derivatives, including FX forwards, to the different counterparties used by the portfolio, measured on a marked-to-market basis net of applicable legally enforceable netting and collateral.

b) Valuation of financial instruments

The categorisation of financial instruments in the tables below reflect the basis of valuation of instruments used to measure their fair value.

	Assets £'000	Liabilities £'000
31.7.23		
Level 1: Quoted prices	32,333	-
Level 2: Observable market data	1,515	-
Level 3: Unobservable data	-	-
	33,848	-
31.7.22		
Level 1: Quoted prices	38,028	-
Level 2: Observable market data	770	-
Level 3: Unobservable data	-	-
	38,798	-

Invesco Japanese Smaller Companies Fund (UK)

Notes to the financial statements

13 Generic Risk factors continued

b) Valuation of financial instruments continued

All financial instruments are classified as level 1: Quoted prices and level 2: Observable market data. The instruments classified as level 2 relate to daily priced open-ended funds. These instruments are valued at their fair value as at noon of the last business day prior to the Fund's year end.

14 Portfolio transaction costs

for the year 1 August 2022 to 31 July 2023

	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Purchases (excluding derivatives)					
Equity instruments	24,573	20	0.08	-	-
Total purchases	24,573	20		-	
Total purchases including transaction costs	24,593				
	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Sales (excluding derivatives)					
Equity instruments	28,504	25	0.09	-	-
Total sales	28,504	25		-	
Total sales net of transaction costs	28,479				
Derivative transaction costs		(27)		-	
Total transaction costs		18		-	
Total transaction costs as a % of average net assets		0.05%		0.00%	

Invesco Japanese Smaller Companies Fund (UK)

Notes to the financial statements

14 Portfolio transaction costs continued

for the year 1 August 2021 to 31 July 2022

	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Purchases (excluding derivatives)					
Equity instruments	9,770	4	0.04	-	-
Total purchases	9,770	4		-	
Total purchases including transaction costs	9,774				
	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Sales (excluding derivatives)					
Equity instruments	11,586	6	0.05	-	-
Total sales	11,586	6		-	
Total sales net of transaction costs	11,580				
Derivative transaction costs		-		-	
Total transaction costs		10		-	
Total transaction costs as a % of average net assets		0.02%		0.00%	

The above analysis covers any direct transaction costs suffered by the Fund during the year. However it is important to understand the nature of other transaction costs associated with different investment asset classes and instruments types.

Separately identifiable direct transaction costs (commissions and taxes etc.) are attributable to the Fund's purchase and sale of equity shares. Additionally for equity shares, there is a dealing spread cost (the difference between the buying and selling prices) which will be suffered on purchase and sale transactions.

For the Fund's investment transactions in debt and money market instruments any applicable transaction charges form part of the dealing spread for these instruments. Transactions in money market instruments, cash and short-term collective investment schemes utilised as part of a daily sweep to manage the Fund's daily liquidity position are excluded from the analysis.

For the Fund's investment in collective investment scheme holdings there will potentially be dealing spread costs applicable to purchases and sales. However, additionally there are indirect transaction costs suffered in those underlying Funds, throughout the holding period for the instruments, which are not separately identifiable and do not form part of the analysis above.

Dealing spread costs suffered by the Fund vary considerably for the different asset/instrument types depending on a number of factors including transaction value and market sentiment.

At the balance sheet date the average portfolio dealing spread (difference between bid and offer prices of all investments expressed as a percentage of the offer price value) was 0.27% (2022 - 0.32%).

Invesco Japanese Smaller Companies Fund (UK)

Distribution table

Distribution table

for the year 1 August 2022 to 31 July 2023

	Net revenue pence per share	Equalisation pence per share	Net distribution paid 30.9.23 pence per share	Net distribution paid 30.9.22 pence per share
Distribution paid 30 September 2023				
Accumulation shares				
Group 1	0.0545	-	0.0545	0.0000
Group 2	0.0545	0.0000	0.0545	0.0000
Accumulation shares (No Trail)				
Group 1	1.7157	-	1.7157	0.5795
Group 2	0.7316	0.9841	1.7157	0.5795
Z Accumulation shares				
Group 1	4.6184	-	4.6184	2.6630
Group 2	2.2690	2.3494	4.6184	2.6630
Y Accumulation shares				
Group 1	3.2097	-	3.2097	1.9527
Group 2	1.4845	1.7252	3.2097	1.9527

Group 1: shares purchased prior to 1 August 2022

Group 2: shares purchased on or after 1 August 2022

Equalisation applies only to shares purchased during the distribution period ("Group 2"). It is the average amount of revenue included in the purchase price of all Group 2 shares and is refunded to holders of these shares as a return of capital. Being capital it is not liable to income tax. Instead, it must be deducted from the cost of shares for capital gains purposes.

Invesco UK Smaller Companies Equity Fund (UK)

Investment report for the year

The Investment Objective and Policy of the Invesco UK Smaller Companies Equity Fund (UK)

The Fund aims to achieve long-term (5 years plus) capital growth. The Fund invests at least 80% of its assets in shares or other equity related securities of smaller companies incorporated, domiciled or carrying out the main part of their economic activity in the UK. In pursuing the Fund's investment objective, the fund manager may consider it appropriate to also invest in other transferable securities (including non-UK companies), money-market instruments, cash, collective investment schemes (including funds managed by the Invesco group), deposits and cash. The Fund may use derivatives for efficient portfolio management purposes only, to reduce risk, reduce costs and/or generate additional capital or income. The Fund may engage in securities lending. The expected proportion of total assets that may be subject to securities lending arrangements is 20%. Such level might be exceeded or might be subject to changes in the future.

The objectives currently shown within these financial statements are those objectives that were in place as at 31 July 2023.

This standardised past performance information is updated on a quarterly basis. Should you require up to date past performance information, this is available on our website www.invesco.com/uk or by contacting us.

Fund and sector average performance data source: Lipper, in Sterling, with income reinvested and net of the ongoing charge and portfolio transaction costs. This may differ from the performance figure shown on page 119 for Z Accumulation shares as the figure above is based on the quoted 12pm price and the figure shown on page 119 is based on the close of business bid price.

The value of investments and any income from them will fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested.

Past performance is not a guide to future returns. Current tax levels and reliefs may change. Depending on individual circumstances, this may affect investment returns.

¹ This is a Comparator Benchmark. Given its geographic focus the Fund's performance can be compared against the Benchmark. However, the Fund is actively managed and is not constrained by any benchmark.

Invesco UK Smaller Companies Equity Fund (UK)

Investment report for the year

Strategy, review and outlook

The Fund delivered a return of -13.6% over the year to the end of July 2023. This placed the Fund in the fourth quartile of its peer group, the IA UK Smaller Companies Sector, which decreased by an average of -9.0%.

Fund and sector average performance data source: Lipper, in Sterling, with income reinvested and net of the ongoing charge and portfolio transaction costs. Performance figures are based on the Z Accumulation share class.

Past performance is not a guide to future returns.

It was a difficult end to 2022 for financial markets as central banks around the world continued their rate rises in an attempt to curb inflation, despite data showing economic growth is slowing globally.

Liz Truss became the new Prime Minister of the UK in September 2022 following Boris Johnson's resignation and she announced support for households and businesses to shield them from rising energy prices. UK bonds sold off in response to a 'mini budget' proposing fiscal easing funded through borrowing. The Bank of England took emergency action via a £65bn bond-buying programme to stabilise the gilt market.

However, Rishi Sunak became the new Prime Minister of the UK after Liz Truss resigned following a difficult 44-day spell as Prime Minister. The new Chancellor Jeremy Hunt in his Autumn Statement announced spending cuts and tax rises, reversing many of the controversial stimulus measures from the Truss administration.

Equity markets started 2023 in buoyant mood. A decline in energy prices, China re-opening and peaking inflation were all taken positively. However in March, specific problems in both the US and Swiss banking sectors hit investor sentiment, raising fears over the health of the international banking system. However, markets recovered from this but stubbornly high inflation and rising core inflation continued to be a concern.

UK inflation fell to 10.1% in March, then 8.7% in April. It remained at 8.7% in May, despite consensus forecasts expecting a fall. Inflation then fell more than expected in June to 7.9%, down from 8.7% in May. The figure, which was the lowest since March 2022 was helped by falling fuel prices. Core inflation, which excludes energy and food prices, fell slightly to 6.9%.

The Bank of England (BoE) raised interest rates by 0.25% in May, and following the high inflation news in June, the BoE again raised rates by 0.5%, its 13th consecutive rise. This brought interest rates to 5%, surprising markets which had expected a smaller rise of 0.25%. The BoE governor Andrew Bailey said the decision was made due to the evidence of persistent inflation. However, after the June inflation figure coming in lower than expected, it is expected the Bank of England will now raise interest rates by 0.25% as the interest rate hike cycle appears to hit its peak.

It was announced that UK GDP grew 0.1% in the first quarter of the year, following upwards revisions made to previously announced January data. There was a further 0.2% rise in GDP in April with increased spending in the services sector. The BoE now expects the economy to have stagnated in the second quarter, followed by accelerating growth for the rest of the year. This comes after previously forecasting (as recently as November 2022), a recession throughout 2023. The IMF now expects the UK to avoid a recession and maintain positive growth in 2023. However, data from the Office for National Statistics (ONS) showed UK GDP contracted by 0.1% in May.

Regular pay, excluding bonuses, increased by 7.3% in the three months to May. This was the highest growth on record, matching the reading during the coronavirus pandemic. Despite this, wage rises still lag inflation. The unemployment rate unexpectedly rose in the three months to May to 4%. The BoE has warned big pay rises are contributing to inflation, adding to expectations of further interest rate rises.

Positive contribution from a sector perspective came from the Fund's exposure to Basic Materials. Hill & Smith was a strong contributor within the sector following a strong trading update with strong first half results for 2023.

Other strong performers from a stock perspective include 4imprint, which sells promotional materials such as pens, bags and clothing. It was the biggest contributor to the Fund following strong results and another upgrade to forecast earnings. CVS was a strong contributor to performance, while Ricardo, a global strategic environmental and engineering consulting company, developed a Persistence Assessment Tool to provide manufacturers and importers of chemical substances and products, regulators, and the scientific community with support and guidance to undertake complex persistence assessments of chemicals in the environment. This was well received by markets.

The biggest sector of negative performance came from Industrials. Videndum detracted from performance as they were relegated from the FTSE 250. Restore also dragged on returns as they announced results which were below expectations. FDM, RWS and Vp were further detractors from performance.

Technology was another sector which dragged on returns with GB being the worst performer as the software company reported impairment charges in the US which sent the share price lower. Learning Technologies announced first half yearly results for 2023 which were disappointing.

Other notable detractors were Jadestone Energy after they announced it had some short-term cash flow problems and needed to raise funds through an equity placing. Hilton Food detracted to the Fund after they warned on profits due to a significant spike in fish prices as a result of Russia being a major fish supplier. Secure Trust Bank also detracted from the Fund as they announced pretax profits fell.

Invesco UK Smaller Companies Equity Fund (UK)

Investment report for the year

Strategy, review and outlook

We believe that inflation should continue to fall as we move through the second half of the year. The European wholesale gas price has fallen by around 75% year on year and the oil price has also declined by a smaller amount. We've also seen soft commodities such as wheat decline by significant amounts over the same time period.

Conversations with companies suggest they are also seeing a moderation in their costs. After significant disruption following the pandemic, supply chains for items such as semiconductors are now functioning normally again. The cost of shipping goods around the world has also fallen significantly.

Staff availability, which was a major problem for many businesses last year, has also started to improve. This has begun to feed through to wage settlements suggesting that companies won't need to raise prices as much over the coming year.

Over time this should begin to feed through to the overall rate of inflation and lead to an improvement in household living standards.

For these reasons we believe we are near the end of the current interest rate cycle, and as we've seen in the US, this should be taken positively by markets.

The future is always unknowable, but we believe that after a fairly difficult period for the UK economy, and the UK smaller companies' sector, the outlook is finally looking brighter.

¹ Total audit fees of £9,455 (2022 - £8,539) exclusive of VAT payable to the auditors for the year ended 31 July 2023 are borne out of the Fund Management Fee.

5 Interest payable and similar charges	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Bank interest	-	3

Invesco UK Smaller Companies Equity Fund (UK)

Notes to the financial statements

6 Taxation	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
-------------------	---	---

a) Analysis of charge for the year

Overseas tax	-	-
Total tax charge	-	-

There is no corporation tax charge for the year (2022 - Nil).

b) Factors affecting the tax charge for the year

The tax assessed for the year is lower (2022 - lower) than the standard rate of corporation tax in the UK for an authorised investment company with variable capital. The factors are explained below:

	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Net revenue before taxation	10,000	5,250
Corporation tax at 20% (2022 - 20%)	2,000	1,050
Effects of:		
Movement in unrecognised tax losses	1,172	1,681
Revenue not subject to tax	(3,172)	(2,731)
Total tax charge	-	-

Authorised investment companies with variable capital are exempt from tax on capital gains in the UK. Therefore any capital return is not included in the above reconciliation.

c) Deferred tax

At the year end the Fund had surplus management expenses of £154,107,000 (2022 - £148,249,000). It is unlikely that the Fund will generate sufficient taxable profits in the future to utilise these expenses and therefore a deferred tax asset of £30,822,000 (2022 - £29,650,000) has not been recognised.

7 Distributions	01.8.22 to 31.7.23 £'000	01.8.21 to 31.7.22 £'000
Accumulations and distributions paid 30 September 2023	9,628	5,121
Amounts deducted on redemption of shares	623	358
Amounts received on issue of shares	(279)	(206)
	9,972	5,273

The distributable amount has been calculated as follows:

Net revenue after taxation	10,000	5,250
Equalisation on conversions	(28)	23
	9,972	5,273

8 Debtors	31.7.23 £'000	31.7.22 £'000
Accrued revenue	662	555
Amounts receivable for issue of shares	381	827
Overseas tax recoverable	94	78
	1,137	1,460

9 Cash and bank balances	31.7.23 £'000	31.7.22 £'000
Cash and bank balances	1,267	1,556

10 Other creditors	31.7.23 £'000	31.7.22 £'000
Accrued expenses	511	595
Amounts payable for redemption of shares	682	590
Purchases awaiting settlement	167	-
	1,360	1,185

Invesco UK Smaller Companies Equity Fund (UK)

Notes to the financial statements

11 Commitments, contingent liabilities and contingent assets

There were no commitments, contingent liabilities or contingent assets at the balance sheet date (2022 - Nil).

12 Related parties

Related party interests in the Fund are disclosed in note 8 of the notes applicable to the financial statements of all Funds on page 20. Amounts payable to Invesco Fund Managers Limited in respect of Fund Management Fees are disclosed in note 4. Amounts received in respect of sales in the accounting year of £68,888,000 (2022 - £131,621,000) and amounts paid in respect of purchases in the accounting year of £60,336,000 (2022 - £139,422,000) are included within the figures disclosed in note 14. Amounts received in respect of dividends in the accounting year is £212,000 (2022 - £21,000). Amounts due at the end of the accounting year for Fund Management Fees of £511,000 (2022 - £595,000) are disclosed in note 10 within accrued expenses.

13 Generic Risk factors

As this is a smaller companies fund, investors should be prepared to accept a higher degree of risk than funds that can invest in larger company sizes. Market conditions, such as a decrease in market liquidity, may mean that it is not easy to buy or sell securities.

The Fund's performance may be adversely affected by variations in the relative strength of world currencies or if Sterling strengthens against those currencies.

The Fund may use derivatives (complex instruments) in an attempt to reduce the overall risk of their investments, reduce the costs of investing and/or generate additional capital or income, although this may not be achieved. The use of such complex instruments may result in greater fluctuations of the value of the Fund. The Manager, however, will ensure that the use of derivatives within the Fund does not materially alter the overall risk profile of the Fund.

The generic risk factors relating to the Fund are discussed more fully in note 4 of the notes applicable to the financial statements of all Funds on pages 15 to 19.

a) Counterparty risk

The Fund had zero positive counterparty exposure to OTC derivatives at the balance sheet date (2022 - Nil). The counterparty OTC exposure is the positive exposure of cleared and non-cleared OTC derivatives, including FX forwards, to the different counterparties used by the portfolio, measured on a marked-to-market basis net of applicable legally enforceable netting and collateral.

b) Valuation of financial instruments

The categorisation of financial instruments in the tables below reflect the basis of valuation of instruments used to measure their fair value.

	Assets £'000	Liabilities £'000
31.7.23		
Level 1: Quoted prices	498,413	-
Level 2: Observable market data	3,041	-
Level 3: Unobservable data	-	-
	501,454	-
31.7.22		
Level 1: Quoted prices	601,752	-
Level 2: Observable market data	11,593	-
Level 3: Unobservable data	-	-
	613,345	-

All financial instruments are classified as level 1: Quoted prices and level 2: Observable market data. The instruments classified as level 2 relate to daily priced open-ended funds. These instruments are valued at their fair value as at noon of the last business day prior to the Fund's year end.

Invesco UK Smaller Companies Equity Fund (UK)

Notes to the financial statements

14 Portfolio transaction costs

for the year 1 August 2022 to 31 July 2023

	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Purchases (excluding derivatives)					
Equity instruments	53,177	26	0.05	152	0.29
Total purchases	53,177	26		152	
Total purchases including transaction costs	53,355				
	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Sales (excluding derivatives)					
Equity instruments	63,878	43	0.07	-	-
Total sales	63,878	43		-	
Total sales net of transaction costs	63,835				
Derivative transaction costs		-		-	
Total transaction costs		69		152	
Total transaction costs as a % of average net assets		0.01%		0.03%	

Invesco UK Smaller Companies Equity Fund (UK)

Notes to the financial statements

14 Portfolio transaction costs continued

for the year 1 August 2021 to 31 July 2022

Purchases (excluding derivatives)	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Equity instruments	170,369	80	0.05	518	0.30
Total purchases	170,369	80		518	
Total purchases including transaction costs	170,967				

Sales (excluding derivatives)	Transaction Value £'000	Commissions £'000	%	Taxes £'000	%
Equity instruments	223,435	117	0.05	1	0.00
Total sales	223,435	117		1	
Total sales net of transaction costs	223,317				
Derivative transaction costs		-		-	
Total transaction costs		197		519	
Total transaction costs as a % of average net assets		0.03%		0.07%	

The above analysis covers any direct transaction costs suffered by the Fund during the year. However it is important to understand the nature of other transaction costs associated with different investment asset classes and instruments types.

Separately identifiable direct transaction costs (commissions and taxes etc.) are attributable to the Fund's purchase and sale of equity shares. Additionally for equity shares, there is a dealing spread cost (the difference between the buying and selling prices) which will be suffered on purchase and sale transactions.

For the Fund's investment transactions in debt and money market instruments any applicable transaction charges form part of the dealing spread for these instruments. Transactions in money market instruments, cash and short-term collective investment schemes utilised as part of a daily sweep to manage the Fund's daily liquidity position are excluded from the analysis.

For the Fund's investment in collective investment scheme holdings there will potentially be dealing spread costs applicable to purchases and sales. However, additionally there are indirect transaction costs suffered in those underlying Funds, throughout the holding period for the instruments, which are not separately identifiable and do not form part of the analysis above.

Dealing spread costs suffered by the Fund vary considerably for the different asset/instrument types depending on a number of factors including transaction value and market sentiment.

At the balance sheet date the average portfolio dealing spread (difference between bid and offer prices of all investments expressed as a percentage of the offer price value) was 1.03% (2022 - 1.38%).

Group 1	7.4367	-	7.4367	4.5713
Group 2	4.2778	3.1589	7.4367	4.5713

Group 1: shares purchased prior to 1 August 2022

Group 2: shares purchased on or after 1 August 2022

Equalisation applies only to shares purchased during the distribution period ("Group 2"). It is the average amount of revenue included in the purchase price of all Group 2 shares and is refunded to holders of these shares as a return of capital. Being capital it is not liable to income tax. Instead, it must be deducted from the cost of shares for capital gains purposes.

Invesco Smaller Companies and Markets Investment Series (the “Company”)

Regulatory statements

Statement of the Manager's Responsibilities

The Collective Investment Schemes sourcebook (“COLL”) requires the Manager to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Company as at the end of the year and of the net revenue or expense and the net capital gains or losses on the scheme property of the Company for the year then ended. In preparing the financial statements the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in operation for the foreseeable future;
- comply with the disclosure requirements of the Statement of Recommended Practice relating to Financial Statements of Authorised Funds;
- follow applicable accounting standards; and
- keep proper accounting records which enable it to demonstrate that the financial statements as prepared comply with the above requirements.

The Manager is responsible for the management of the Company in accordance with the Prospectus and the OEIC Regulations.

The Manager is responsible for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Statement of Depositary's Responsibilities

The Depositary is responsible for the safekeeping of all the property of the Company which is entrusted to it and ensuring proper registration of tangible moveable property, and for the collection of income arising from all such scheme property. It is the duty of the Depositary to take reasonable care to ensure that the Company is managed and operated by the Manager in accordance with the Financial Conduct Authority's Collective Investment Schemes Sourcebook (“the Sourcebook”), the Open-Ended Investment Companies Regulations 2001 (SI 2001/1228) (the “OEIC Regulations”), the Company's Instrument of Incorporation, and the Prospectus, as appropriate, concerning: the pricing of and dealing in Shares in the Company; the application of income of the Company; and the investment portfolio and borrowing activities of the Company.

Depositary's Report to Shareholders

Having carried out procedures and enquiries considered duly necessary to discharge our responsibilities as Depositary of the Company, based on information and explanations provided to us, we believe that, in all material respects, the Company, acting through the Manager:

- (i) has carried out the issue, sale, redemption and cancellation and calculation of the price of the Company's shares and the application of the Company's income in accordance with the Sourcebook, and where applicable, the OEIC regulations, the Company's Instrument of Incorporation, and the Prospectus;
- (ii) has observed the investment and borrowing powers and restrictions applicable to the Company; and
- (iii) has otherwise, ensured the proper operation of the Company.

Citibank UK Limited

Invesco Smaller Companies and Markets Investment Series (the “Company”)

Independent auditors’ report to the Shareholders of Invesco Smaller Companies and Markets Investment Series

Report on the audit of the financial statements

Opinion

In our opinion, the financial statements of Invesco Smaller Companies and Markets Investment Series (the “Company”):

- give a true and fair view of the financial position of the Company and each of the sub-funds as at 31 July 2023 and of the net revenue and the net capital gains/losses on the scheme property of the Company and each of the sub-funds for the year then ended; and
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 “The Financial Reporting Standard applicable in the UK and Republic of Ireland”, and applicable law), the Statement of Recommended Practice for UK Authorised Funds, the Collective Investment Schemes sourcebook and the Instrument of Incorporation.

Invesco Smaller Companies and Markets Investment Series is an Open Ended Investment Company (‘OEIC’) with six sub-funds. The financial statements of the Company comprise the financial statements of each of the sub-funds. We have audited the financial statements, included within the Annual Report Including Long Form Financial Statements (the “Annual Report”), which comprise: the Balance Sheets as at 31 July 2023; the Statements of Total Return and the Statements of Change in Net Assets Attributable to Shareholders for the year then ended; the Distribution tables; the notes applicable to the financial statements of all Funds, which include a description of the significant accounting policies; and the notes to the financial statements for each Fund.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (“ISAs (UK)”) and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors’ responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC’s Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Emphasis of matter – financial statements of a sub-fund prepared on a basis other than going concern

In forming our opinion on the financial statements, which is not modified, we draw attention to Accounting policy 1(a) Basis of Preparation which describes the Authorised Corporate Director’s reasons why the financial statements for the Invesco Emerging European Fund (UK) (the “terminating sub-fund”), a sub-fund of Invesco Smaller Companies and Markets Investment Series, have been prepared on a basis other than going concern. The financial statements of the remaining sub-funds of the Company (the “continuing sub-funds”) have been prepared on a going concern basis.

Conclusions relating to going concern

In respect of the Company as a whole and the continuing sub-funds, based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company’s or the continuing sub-funds’ ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

With the exception of the terminating sub-fund, in auditing the financial statements, we have concluded that the Authorised Corporate Director’s use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company’s or its continuing sub-funds’ ability to continue as a going concern.

Our responsibilities and the responsibilities of the Authorised Corporate Director with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors’ report thereon. The Authorised Corporate Director is responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

Invesco Smaller Companies and Markets Investment Series (the “Company”)

Independent auditors’ report to the Shareholders of Invesco Smaller Companies and Markets Investment Series continued

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

Based on our work undertaken in the course of the audit, the Collective Investment Schemes sourcebook requires us also to report certain opinions as described below.

Authorised Corporate Director's Report

In our opinion, the information given in the Report of the Authorised Corporate Director for the financial year for which the financial statements are prepared is consistent with the financial statements.

Responsibilities for the financial statements and the audit

Responsibilities of the Authorised Corporate Director for the financial statements

As explained more fully in the Statement of the Manager’s Responsibilities, the Authorised Corporate Director is responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The Authorised Corporate Director is also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Authorised Corporate Director is responsible for assessing the Company’s and each of the sub-fund’s ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the Authorised Corporate Director either intends to wind up or terminate the Company or individual sub-fund, or has no realistic alternative but to do so.

Auditors’ responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the Company/ industry, we identified that the principal risks of non-compliance with laws and regulations related to breaches of the Collective Investment Schemes sourcebook, and we considered the extent to which non-compliance might have a material effect on the financial statements, in particular those parts of the sourcebook which may directly impact on the determination of amounts and disclosures in the financial statements. We evaluated management’s incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to posting inappropriate journal entries to increase revenue or to increase the net asset value of the Company or the sub-funds. Audit procedures performed included:

- Discussions with the Authorised Corporate Director, including consideration of known or suspected instances of non-compliance with laws and regulation and fraud;
- Reviewing relevant meeting minutes, including those of the Authorised Corporate Director’s board of directors;
- Identifying and testing journal entries, specifically any journals posted as part of the financial year end close process; and
- Designing audit procedures to incorporate unpredictability around the nature, timing or extent of our testing.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

Invesco Smaller Companies and Markets Investment Series (the “Company”)

Independent auditors’ report to the Shareholders of Invesco Smaller Companies and Markets Investment Series continued

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council’s website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors’ report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company’s Shareholders as a body in accordance with paragraph 4.5.12 of the Collective Investment Schemes sourcebook as required by paragraph 67(2) of the Open-Ended Investment Companies Regulations 2001 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Opinion on matter required by the Collective Investment Schemes sourcebook

In our opinion, we have obtained all the information and explanations we consider necessary for the purposes of the audit.

Collective Investment Schemes sourcebook exception reporting

Under the Collective Investment Schemes sourcebook we are also required to report to you if, in our opinion:

- proper accounting records have not been kept; or
- the financial statements are not in agreement with the accounting records.

We have no exceptions to report arising from this responsibility.
