BNY MELLON
INVESTMENT MANAGEMENT

BNY Mellon Emerging Markets Debt Local Currency Fund

STERLING A (ACC.) (ISIN: IE00B61HS528)

a sub-fund of BNY Mellon Global Funds, plc. This Fund is managed by BNY Mellon Fund Management (Luxembourg) S.A.

Objectives and Investment Policy

OBJECTIVE

To achieve a superior total return from a portfolio of bond and other debt instruments, including derivatives thereon, from emerging markets.

POLICY

The Fund will:

- invest in emerging markets;
- invest in government bonds and similar debt investments issued by a well diversified group of emerging market countries and denominated in their respective local currencies;
- invest in bonds with high and low credit ratings (i.e. investment grade and sub-investment grade bonds without restrictions on credit quality as rated by Standard and Poor's or similar agencies);
- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Fund's investment objective. The Fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income;
- limit investment in other collective investment schemes to 10%; and
- neither promote environmental and/or social characteristics pursuant to Article 8 of the Sustainable Finance Disclosure Regulation "SFDR" nor have sustainable investment as its objective pursuant to Article 9 of SFDR. Consequently, for the purposes of SFDR it is considered an Article 6 Fund.

The Fund may:

- invest in bonds and similar debt investments issued by companies (i.e. corporate bonds) and other entities; and

- invest up to 20% of its Net Asset Value (NAV) in debt securities traded in the China interbank bond market via Bond Connect.

Benchmark: The Fund will measure its performance against JP Morgan GBI-EM Global Diversified TR Index (the "Benchmark"). The Investment Manager will use the Benchmark to construct the investment universe. The Fund is actively managed and does not seek to replicate the full constituents of the Benchmark. The Investment Manager has limited discretion to invest outside the Benchmark subject to the investment objective and policies disclosed in the Prospectus.

The majority of the Fund's holdings will be constituents of the Benchmark and as a result the Fund's currency and sector exposures, as well its maturity and credit quality profile, will be similar to the Benchmark. The investment strategy restricts the extent to which the portfolio holdings of the Fund may deviate from the Benchmark, and consequently the extent to which the Fund can outperform the Benchmark. The investment strategy provides similar volatility to the Benchmark over the medium to long term.

OTHER INFORMATION

Treatment of income: net income generated will be retained within the Fund and reflected in the value of your shares.

Dealing: you can buy and sell your shares in the Fund between 9:00 and 17:00 (Irish time) on each business day in Ireland. Instructions received before 12:00 will receive the price quoted on that day. The minimum initial investment for this share class is GBP 5,000.

Risk and Reward Profile

1 2 3 4 **5** 6 7

We have calculated the risk and reward indicator, as shown above. It is based on the rate at which the value of the Fund has moved up and down in the past (i.e. volatility). It is not a guide to the future risk and reward rating of the Fund. The rating shown is not a target or guarantee and may shift over time. Even the lowest rating of 1 does not mean a risk-free investment.

This Fund is rated 5 because its historical value has shown moderately high volatility. With a Fund rating of 5, you have a moderately high risk of losing money but your chance for gains is also moderately high.

THE FOLLOWING RISKS MAY NOT BE FULLY CAPTURED BY THE RISK AND REWARD INDICATOR:

China Interbank Bond Market and Bond Connect risk: The Fund may invest in China interbank bond market through connection between the related Mainland and Hong Kong financial infrastructure institutions. These may be subject to regulatory changes, settlement risk and quota limitations. An operational constraint such as a suspension in trading could negatively affect the Fund's ability to achieve its investment objective.

Geographic Concentration Risk: Where the Fund invests significantly in a single market, this may have a material impact on the value of the Fund.

Objective/Performance Risk: There is no guarantee that the Fund will achieve its objectives.

Currency Risk: This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.

Derivatives Risk: Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.

Changes in Interest Rates & Inflation Risk: Investments in bonds/ money market securities are affected by interest rates and inflation trends which may negatively affect the value of the Fund.

Credit Ratings and Unrated Securities Risk: Bonds with a low credit rating or unrated bonds have a greater risk of default. These investments may negatively affect the value of the Fund.

Credit Risk: The issuer of a security held by the Fund may not pay income or repay capital to the Fund when due.

Emerging Markets Risk: Emerging Markets have additional risks due to less-developed market practices.

Share Class Currency Risk: This share class is denominated in a different currency from the base currency of the Fund. Changes in the exchange rate between the share class currency and the base currency may affect the value of your investment.

Counterparty Risk: The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.

A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".
