What is this product?

This is a fund constituted in the form of a mutual fund. It is domiciled in Luxembourg and its home regulator is the Commission de Surveillance du Secteur Financier (CSSF).

Objectives and Investment Strategy

The Sub-Fund aims to provide long-term capital growth primarily through investment in global equities. The Sub-Fund will be managed actively and at least two-thirds of its investments will be in equity instruments.

The Sub-Fund will be unrestricted in its choice of companies either by size or industry, or in the geographical make-up of the portfolio.

The Sub-Fund may invest up to 10% of its net asset value in onshore securities issued in Mainland China (for example, China A Shares and B Shares).

The Sub-Fund may use derivatives for the purposes of hedging and/or efficient portfolio management.

The Sub-Fund is actively managed. This means the Investment Manager is free to select investments with the aim of achieving the Sub-Fund’s objectives. The Sub-Fund uses the MSCI AC World (Net Return) Index for performance

comparison and risk management. The Sub-Fund does not seek to replicate the index. It will generally hold assets that are components of the index, but not in the same proportions, and it is allowed to hold assets which are not components of the index. The Sub-Fund will therefore generally look different from the index, and the Investment Manager will monitor performance differences.

The Sub-Fund currently do not intend to enter into any securities lending transactions. The prior approval of the SFC will be sought and at least one month's prior notice would be given to shareholders should there be a change in such intention.

Use of derivatives / investment in derivatives

The Sub-Fund's net derivative exposure may be up to 50% of its net asset value.

What are the key risks?

Investment involves risks. Please refer to the offering document for details including the risk factors.

- **Investment risk** – The underlying investments of the Sub-Fund may fall in value due to any of the key risk factors below and therefore your investment in the Sub-Fund may suffer losses. You may not get back the full amount of money you invest. In addition, the Sub-Fund primarily invests in equities or equity-related securities. Generally, equities or equity-related securities are subject to higher volatility and therefore higher risk of loss, compared to other instruments such as bonds, money markets instruments or bank deposits.
- **Concentration risk** – The Sub-Fund invests in a concentrated portfolio of holdings compared to a typical fund with a similar investment mandate and therefore may be more volatile than more broadly diversified funds.
- **Derivatives usage risk** – The Sub-Fund may use derivatives for the purposes of hedging and/or EPM. Investments in derivatives involve additional risks such as leverage risk, counterparty risks, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk. In adverse situations, the Sub-Fund's use of derivatives may become ineffective in hedging and/or in EPM and the Sub-Fund may suffer significant losses.
- **Exchange rate fluctuation risk** – Currency fluctuations may adversely affect the value of a Sub-Fund's investments and the income thereon. Currency fluctuations may also adversely affect the profitability of an underlying company in which a Sub-Fund invests.

How has the fund performed?

- Past performance information is not indicative of future performance. Investors may not get back the full amount invested.
- The computation basis of the performance is based on the calendar year end, NAV-To-NAV, with dividend reinvested.
- These figures show by how much the share class increased or decreased in value during the calendar year being shown. Performance data has been calculated in USD including ongoing charges and excluding subscription fee and redemption fee (if any) you might have to pay.
- The benchmark is MSCI AC World (Net Return) Index.
- Fund launch date: 29 June 2007
- A Inc share class* launch date: 01 July 2008

*This Share Class is a representative share class as it is a focus share class made available to Hong Kong investors.

Is there any guarantee?
