

Storebrand Europa is an equity fund which aims to track developments in the European equity market. The fund is managed as an index tracking fund and does not adopt any active positions versus the market. The fund usually invest in approximately 250 to 500 companies, spread across many different industries and countries. The fund follows our standard for sustainable investments, which means, among other things, that we refrain from investing in companies that are in breach of international standards and conventions. These include human rights, labour law and international law, corruption and financial crime, serious climate and environmental damage, and controversial weapons (land mines, cluster bombs and nuclear weapons). We also exclude companies where more than 5 per cent of net sales come from the production and/or distribution of fossil fuels, tobacco, weapons, alcohol, gambling, pornography, cannabis, or companies with large fossil reserves.

## Storebrand Europa A SEK - Monthly Returns
