The Managers combine top-down and bottom-up approaches in managing the Fund and identifying innovative companies; the top-down approach tackles the asset and geographical allocation decisions while the bottom-up approach tackles vigorous quantitative and qualitative analysis to determine the absolute and relative attractiveness of the securities. The Managers select investments that represent its investment ideas within the theme of innovation. Subject to the provisions of the Code, the CMP Regulations and the Notices, the Fund may invest into other collective investment schemes and/or exchange traded funds, including those managed by the Managers.
