

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

INCOMETRIC FUND - Chronos Global Equity Fund A1, EUR

A Sub-Fund of INCOMETRIC FUND, ISIN LU1700592477
This Fund is managed by Adepa Asset Management S.A.

Objectives and Investment Policy

This actively managed Sub-Fund aims at achieving long-term capital appreciation by investing in equities with a maximum exposure of 70% of the net assets in emerging markets and frontier markets. Average exposure will probably be higher for developed markets than emerging and frontier combined, with a max. exposure to developed markets of 100%.

Equity securities include common stock, preferred stock and securities convertible into common stock, warrants and rights and other securities with equity characteristics (which include any instrument tied to a specific security or basket of securities, such as equity-linked derivatives and notes, certain options on common stock). Stocks for the portfolio are selected based on a quantitative screening combined with a qualitative "bottom up" fundamental analysis with the goal of owning the highest quality growth companies that will best capture the strong expected growth in the emerging and frontier markets. The Sub-Fund is managed following a geographical as well as sectorial diversification, based on a value investing methodology combined with the presence of circumstantial catalysts undervalued by the markets. The term "frontier markets" refers to countries outside the "mainstream" emerging markets, whose capital markets have traditionally been difficult for foreign investors to enter or are in early or advanced stages of capital market and/or economic development. Emerging and/or frontier countries usually belong to these areas: Asia, Sub-Saharan Africa, Latin America and Middle East (for example but not limited to: India, Mexico, South Africa, Philippines, Thailand, Indonesia, Brazil, Colombia, Chile, Peru, etc.). On an ancillary basis, the Sub-Fund may invest in fixed income securities, money market instruments. Investments in high yield bonds cannot exceed 10% of the portfolio. Maximum 10% may be invested in other UCITS or UCIs. The Sub-Fund may use financial derivatives traded on a regulated market. The Sub-Fund may use participatory notes (P-Notes) to gain indirect exposure to the equity markets up to 10% of its assets, in aggregate. P-Notes involve risks that are in addition to the risks normally

associated to a direct investment in the underlying equity securities. The Sub-Fund is subject to the risk that the issuer of the relevant P-Note is unable or refuses to comply with its obligations under the P-Note. While the holder of the P-Notes is entitled to receive from the issuer any dividends or other distributions paid on the underlying securities, the holder is not entitled to same rights as owner of the underlying securities, such as voting rights. P-Notes are also not traded on exchanges, which might trigger liquidity risk. There can be no assurance that the trading price or value of the P-Note will equal the value of the underlying value of the equity securities that seek to replicate."

In addition, over the counter (OTC) derivatives can be used for hedging purposes only. In any case, OTC instruments which may be used will be contracted with first class financial institutions specialized in the respective type of transactions.

The Sub-Fund is not managed in reference to a benchmark.

The Sub-Fund will capitalise its entire earnings following an income accumulation policy.

The Share Class's currency is EUR. The Sub-Fund's reference currency is EUR.

The aforementioned investment strategy corresponds for the investors with a medium to high investment risk profile.

This Sub-Fund may not be appropriate for investors who plan to withdraw their money within a five-year period.

The investors are able to redeem their units on a daily basis.

Risk and Reward Profile

The risk/return indicator shows the correlation between risk and returns. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. The lowest category does not mean 'risk free'.

The risk category of the Sub-Fund is 6 and is calculated from historical data or simulated historical data of the underlying securities when the real data is not sufficient. Past performance is not necessarily a reliable indicator of the Sub-Fund's future risk and reward profile.

The following risks may materially impact the Sub-Fund but are not captured by the indicator:

Credit risk: The default of the issuer of a debt instrument held by the Sub-Fund.

Liquidity risk: Securities in the Sub-Fund may be sold below their valuation due to insufficient liquidity in the market.

Counterparty risk: A counterpart may fail paying the proceeds related to the sale of securities by the Sub-Fund or may fail delivering the securities purchased by the Sub-Fund. A counterpart of the Sub-Fund in an OTC derivative may fail satisfying its obligations towards the Sub-Fund at any event of the OTC derivative agreement.

Operational risk: Failures or delays in operational processes may negatively affect the Sub-Fund.

Derivatives risk: Derivatives may be used to increase, lower or maintain the risk level of the Sub-Fund. The derivative strategy may fail resulting in significant losses for the Sub-Fund.

Currency risk: Exchange rate fluctuations may negatively affect the value of the Sub-Fund's investments.

Event Risk: The overall value of all types of investments may be affected by devaluations, political and governmental interventions in relevant markets or irregular and sudden market fluctuations.

The above mentioned list of risk factors is not exhaustive. Other factors may influence the pricing of the underlying securities and therefore the value of the Sub-Fund's investments.

Charges for this Fund

One-off charges taken before or after you invest	
Entry Charge	0%
Exit Charge	0%
This is the maximum that might be taken out of your money before it is invested or before the proceeds are paid out.	
Charges taken from the Fund over a year	
Ongoing charges	1.51%
Charges taken from the Fund under certain conditions	
Performance fee	None

The charges investors pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of the investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. You can find out the actual charges from your financial adviser.

The ongoing charges are based on the preceding calendar year's expenses and may vary from year to year. Ongoing charges are defined as expenses used for running the Sub-Fund/Share Class, including marketing and distribution expenses but excluding portfolio transaction costs.

For more information about charges, please see the section "Charges" of the Fund's prospectus, which is available at www.adepa.com.

Past performance

The Sub-Fund was launched in 2017.

The Share Class was launched on 05-12-2017.

Past performance is no guarantee of future returns.

The returns are calculated in EUR.

Returns listed are net returns; all charges deducted.

Practical information

Depository Bank: Quintet Private Bank (Europe) S.A.

The Sub-Fund is part of Incometric Fund. The umbrella fund contains several Sub-Funds. By regulation, the assets and liabilities of each Sub-Fund are separated so that each Sub-Fund is only liable for its own debt and any joint expenses.
