	1 Year	3 Year	5 Year	10 Year	Since Inception
	5.30	2.87	2.00	1.35	3.11

The manager has contractually committed through May 31, 2024, to waive fees and/or reimburse expenses to the extent necessary to cap the fund's total annual fund operating expenses after fee waivers at the amounts shown above. Brokerage commissions, stamp duty fees, interest, taxes, acquired fund fees and expenses (if any), and extraordinary expenses are excluded from the expense cap. The manager and/or its affiliates may also voluntarily waive all or a portion of any fees to which they are entitled and/or reimburse certain expenses as they may determine from time to time. Without these reductions, the fund's seven-day current yield would have been 5.15%. Prior to or after the commitment expiration date, the cap may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees. The expense ratio paid by an investor is the net expense ratio (the total annual fund operating expenses after fee waivers) as stated in the prospectus.

Figures quoted represent past performance, which is no guarantee of future results and do not reflect taxes that a shareholder may pay on an investment in a fund. Investment returns will fluctuate. The fund's yield figures more closely reflect the current earnings of the fund than the total return figures. Current performance may be lower or higher than the performance data quoted and assumes the reinvestment of dividends and capital gains. Current month-end performance is available at the fund's website, allspringglobal.com.

Money market funds are sold without a front-end sales charge or contingent deferred sales charge. Other fees and expenses apply to an investment in the fund and are described in the fund's current prospectus.

Principal investment strategies

Seeks current income, while preserving capital and liquidity by investing in high-quality, short-term money market instruments that consist of U.S. Treasury obligations and repurchase agreements collateralized by U.S. Treasury obligations.

Allspring Global Investments™ is a leading independent asset management firm that offers a broad range of investment products and solutions designed to help meet clients' goals. At Allspring, our vision is to inspire a new era of investing that pursues both financial returns and positive outcomes. With decades of trusted experience propelling us forward, we strive to build portfolios aimed at generating successful outcomes for our clients. We do this through the independence of thought that powers our investment strategies and by bringing a renewed approach to look around the corner to unlock what's possible. With more than \$570 billion in assets under advisement*, over 20 offices globally, and investment teams supported by more than 410 investment professionals, Allspring is a company committed to thoughtful investing, purposeful planning, and the desire to deliver outcomes that expand above and beyond financial gains. For more information, please visit www.allspringglobal.com.

*As of March 31, 2024. Figures include discretionary and non-discretionary assets.

For government money market funds: You could lose money by investing in the fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor is not required to reimburse the fund for losses, and you should not expect that the sponsor will provide financial support to the fund at any time, including during periods of market stress.

1. Portfolio composition is subject to change and may have changed since the date specified. Percent total may not add to 100% due to rounding.
2. The inception date of the Institutional Class was August 11, 1995. Historical performance shown for the Institutional Class prior to its inception reflects the performance of the Service Class and has not been adjusted to include the lower expenses applicable to the Institutional Class. If these expenses had been adjusted, returns for the Institutional Class would be higher.

Daily liquid assets: Cash, direct obligations of the U.S. government, or securities that will mature or are subject to a demand feature exercisable and payable within one business day. **Weekly liquid assets:** Cash, direct obligations of the U.S. government, or government securities issued on authority granted by the U.S. Congress that are issued at a discount to the principal amount to be repaid at maturity and have remaining maturity of 60 days or less or will mature or are subject to a demand feature exercisable and payable within five business days. **Weighted average life (WAL):** An average of the final maturities of all securities held in the portfolio, weighted by their percentage of total investments. The maturity of a portfolio security is the period remaining until the date on which the principal amount is unconditionally required to be paid, or in the case of a security called for redemption, the date on which the redemption payment is unconditionally required to be made. The calculation of WAL allows for the maturities of certain securities with demand features to be shortened but, unlike the calculation of WAM, does not allow shortening of the maturities of certain securities with periodic interest rate resets. WAL is a way to measure a fund's potential sensitivity to credit spread changes. WAL is subject to change and may have changed since the date specified. **Weighted average maturity (WAM):** An average of the effective maturities of all securities held in the portfolio, weighted by each security's percentage of total investments. The maturity of a portfolio security is the period remaining until the date on which the principal amount is unconditionally required to be paid, or in the case of a security called for redemption, the date on which the redemption payment is unconditionally required to be made. WAM calculations allow for the maturities of certain securities with demand features or periodic interest rate resets to be shortened. WAM is a way to measure a fund's sensitivity to potential interest rate changes. WAM is subject to change and may have changed since the date specified. **Rating agencies:** The ratings indicated are from Standard & Poor's (S&P); Moody's Investors Service, Inc.; and/or Fitch Ratings Ltd. (together, rating agencies). Standard & Poor's is a trademark of McGraw-Hill, Inc., and has been licensed. The funds are not sponsored, endorsed, sold, or promoted by these rating agencies, and these rating agencies make no representation regarding the advisability of investing in the funds. The credit rating is a forward-looking opinion about a fund's potential capacity to maintain stable principal or stable net asset value. The ratings are opinions as of the date they are expressed and not statements of fact or recommendations to purchase, hold, or sell any security. Standard & Poor's rates the creditworthiness of money market funds from AAAM (highest) to Dm (lowest). Moody's rates the creditworthiness of money market funds from Aaa-mf (highest) to C-mf (lowest). Fitch Ratings Ltd. rates the creditworthiness of money market funds from AAAMmf (highest) to Bmmf (lowest).

Carefully consider a fund's investment objectives, risks, charges, and expenses before investing. For a current prospectus and, if available, a summary prospectus, containing this and other information, visit allspringglobal.com. Read it carefully before investing.
