

Government Securities Fund

Inst: SGVIX | Admin: WGS DX | A: SGVDX | C: WGS CX

Asset class: Taxable Fixed Income

THE FUND

The Allspring Government Securities Fund seeks current income by investing primarily in a diversified portfolio of U.S. government obligations.

FUND STRATEGY

- Seeks to outperform the Bloomberg U.S. Aggregate Ex-Credit Index by investing in high-quality fixed-income instruments while maintaining a target duration of +/- one year of the benchmark.
- Typically holds most of its exposure in mortgage-backed securities, including collateralized mortgage obligations (CMOs), and asset-backed securities issued or guaranteed by U.S. government agencies or government-sponsored enterprises.
- Seeks to invest predominantly in securities rated AAA by Standard & Poor's or an equivalent quality rating from another Nationally Recognized Statistical Rating Organization.

FUND MANAGERS

Name	Yrs experience
Christopher Kauffman, CFA	27
Michal Stanczyk	18

Expense ratios (%)	Gross	Net
Institutional Shares	0.58	0.48
Administrator Shares	0.85	0.64
Class A Shares	0.90	0.84
Class C Shares	1.65	1.59

Competitive advantages

- Rigorous mortgage-backed securities research: Security analysis is conducted by a team of mortgage sector specialists with extensive experience in the research, trading, and portfolio management of both residential and commercial mortgage products.
- Disciplined risk management: The team uses proprietary risk management tools designed to balance alpha generation with appropriate levels of risk-adjusted return and comprehensive risk management.
- Open work environment: The team benefits from an open work environment in which investment management professionals in varying capacities interact continuously throughout the day. This includes partnerships with economists and various taxable fixed-income teams who provide valuable perspectives and information in measuring several differing sectors of the fixed-income markets.

Portfolio composition (%)

Portfolio composition and maturity distribution are subject to change and may have changed since the date specified. Percent total may not add to 100% due to rounding.

Figures quoted represent past performance, which is no guarantee of future results, and do not reflect taxes that a shareholder may pay on an investment in a fund. Investment return, principal value, and yields of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance shown without sales charges would be lower if sales charges were reflected. Current performance may be lower or higher than the performance data quoted and assumes the reinvestment of dividends and capital gains. Current month-end performance is available at the funds' website, allspringglobal.com. Administrator and Institutional Class shares are sold without a front-end sales charge or contingent deferred sales charge. For Class A, the maximum front-end sales charge is 4.50%. For Class C, the maximum contingent deferred sales charge is 1.00%. Performance shown without sales charges would be lower if sales charges were reflected. Performance including sales charge assumes the sales charge for the corresponding time period.

The manager has contractually committed through 12-31-2024, to waive fees and/or reimburse expenses to the extent necessary to cap the fund's total annual fund operating expenses after fee waivers at 0.84%(A), 1.59%(C), 0.64%(Admin) and 0.48%(I). Brokerage commissions, stamp duty fees, interest, taxes, acquired fund fees and expenses (if any), and extraordinary expenses are excluded from the expense cap. Prior to or after the commitment expiration date, the cap may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees. Without this cap, the fund's returns would have been lower. The expense ratio paid by an investor is the net expense ratio (the total annual fund operating expenses after fee waivers) as stated in the prospectus.

All investing involves risk, including the possible loss of principal. Bond values fluctuate in response to the financial condition of individual issuers, general market and economic conditions, and changes in interest rates. Changes in market conditions and government policies may lead to periods of heightened volatility in the bond market and reduced liquidity for certain bonds held by the fund. In general, when interest rates rise, bond values fall and investors may lose principal value. Interest rate changes and their impact on the fund and its share price can be sudden and unpredictable. Securities issued by U.S. government agencies or government-sponsored entities may not be guaranteed by the U.S. Treasury. Consult the fund's prospectus for additional information on these and other risks.

Alpha measures the excess return of an investment vehicle, such as a mutual fund, relative to the return of its benchmark, given its level of risk (as measured by beta). **Portfolio Turnover**, High portfolio turnover may result in increased expenses and higher short-term capital gains. **1.** The Bloomberg U.S. Aggregate Excluding Credit Index is composed of the Bloomberg U.S. Government Bond Index and the Bloomberg U.S. Mortgage-Backed Securities Index and it includes Treasury issues, agency issues, and mortgage-backed securities. You cannot invest directly in an index. **2.** The Lipper averages are compiled by Lipper, Inc., an independent mutual fund research and rating service. Each Lipper average represents a universe of funds that are similar in investment objective. You cannot invest directly in a Lipper average. **3.** The 30-day SEC yield is calculated with a standardized formula mandated by the SEC. The formula is based on maximum offering price per share and includes the effect of any fee waivers. Without waivers, yields would be reduced. The 30-day unsubsidized SEC yield does not reflect waivers in effect. A fund's actual distribution rate will differ from the SEC yield and any income distributions from the fund may be higher or lower than the SEC yield.

Class A and Class C require a minimum initial investment of \$1000 and minimum subsequent purchase of \$100 for regular accounts.

Note: Not all Share Classes may be available at all firms.

Carefully consider a fund's investment objectives, risks, charges, and expenses before investing. For a current prospectus and, if available, a summary prospectus, containing this and other information, visit allspringglobal.com. Read it carefully before investing.
