SRRI	3
Benchmark	a composite index based on 75 % NBP Norwegian High Yield Index (Hedged) and 25 % Oslo Stock Exchanges Government Index 1Y (Hedged)

The fund's investment strategy

The fund invests in fixed or floating rate debt securities and other debt instruments of non-investment grade quality.

The majority of the fund's investments will be components of or be securities with similar characteristics as the securities in the fund benchmark. The Investment Manager may use its discretion to invest in securities not included in the benchmark in order to take advantage of specific investment opportunities.

The fund engages in forward foreign currency exchange contracts in order to hedge the assets of this fund against currency fluctuations. The fund will aim to hedge the performance of the classes not expressed in EUR to replicate the base currency performance of the fund on a best effort basis.

The fund's investment objective

This actively managed fund aims to achieve a moderate level of current income and mid- to long-term capital appreciation.

The fund is suitable for investors wishing to attain defined investment objectives. The investor must have experience with volatile products.

The investor must be able to accept significant temporary losses, thus the fund is suitable to investors who can afford to set aside the capital for at least 5 years.

Responsible investments

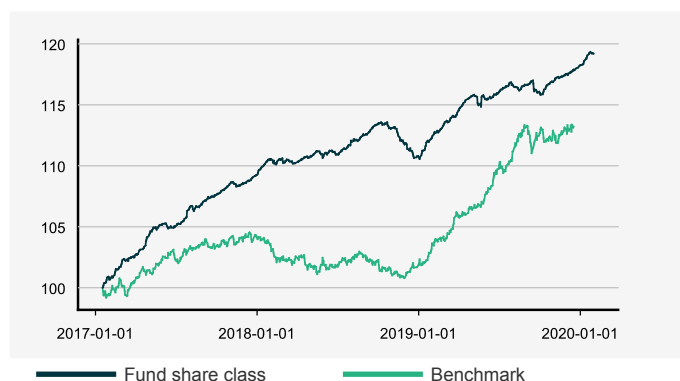

The investment universe is carefully screened, taking into account DNB Groups Standard for Responsible Investments seeking to ensure that DNB does not contribute to human or labour rights violations, corruption, serious environmental harm and other actions which may be perceived to be unethical and/or unsustainable.

The fund's investments are considered in relation to social, environmental and ethical criteria based on internationally recognised guidelines and principles including the UN Global Compact, the OECD Guidelines for Multinational Enterprises, the Ottawa Convention (international agreement on the prohibition of anti-personnel mines) as well as the Convention on Cluster Munitions.

The fund is not categorised as an ESG fund as such, but the management of the fund adheres to DNB Asset Management's company-wide ESG guidelines. The guidelines aim to ensure that DNB Asset Management does not invest in companies which contribute to serious violation of human and labour rights, grave harm to the environment and serious corruption. Investments are not made in companies involved in pornography, production of tobacco or weapons which through normal use violate basic humanitarian principles.

Risk factors

Counterparty risk	The risk that an entity with which the fund does business becomes unwilling or unable to honour its obligations to the fund.
Concentration risk	The risk that a negative event or shift in a particular sector or geography to which the fund s investments are exposed causing those investments to lose value.
Liquidity risk	The risk that one or more of the funds investments could become hard to value, or to sell at a desired time and price.
Derivate risk	The risk that certain derivatives could behave unexpectedly or could expose the fund to losses that are significantly greater than the cost of the derivative.
Credit risk	The risk that an issuer is unable to honour its debt obligations, or the fear of this risk could cause the value of their debt securities to fall.
Interest rate risk	The risk that the values of fixed income securities will vary inversely with changes in interest rates.
Management risk	The risk that portfolio management techniques that have worked well in normal market conditions prove ineffective during unusual conditions.
Valuation risk	The risk that the administrator of the fund produces an erroneous valuation of the funds investments and its total net asset value.
