Mulberry

Interim Report and Accounts
For the twenty six weeks ended 30 September 2023

EST. 1971
ENGLAND

Progressive British Heritage

Mulberry is the largest designer and manufacturer of luxury leather goods in the United Kingdom. We started in 1971 in Somerset as a family business and the idea of a family, a community, is still central to our identity. Today, Mulberry is more than 1,500 people, two factories in Somerset, over 100 stores and a digital flagship. We are a truly modern, truly global company. But through our heritage, our craftspeople, our inspirations and our designs, Mulberry's soul will always be British.

Highlights

Financial highlights

Group revenue up 7% (8% CER¹) to

£69.7m

(2022: £64.9m)

UK retail sales

£36.2m

(2022: £34.1m)

although impacted by the broader economic environment, increased 6% to £36.2m (2022: £34.1m)

International retail sales

£23.5m

(2022: £17.5m)

increased 34% (35% CER) to £23.5m (2022: £17.5m), supported by our strategy to bring in-house ownership of overseas stores including Sweden and Australia

Asia Pacific retail sales

£13.5m

(2022: £11.9m)

(including the first full period of ownership of our Australian stores) increased by 13% (18% CER) to £13.5m (2022: £11.9m). Underlying retail sales decreased by 7% (3% CER) due to the challenging China macro-economic climate and reduced footfall across the region

Revenue in the US

38%

increased by 38% (42% CER) due to increased brand awareness

Gross margin of

69%

(2022: 71%)

was slightly below the prior period

Reported loss before tax of

£12.8m

(2022: loss before tax £3.8m)

Underlying loss before tax of

£12.3m

(2022: underlying loss before tax £2.8m)²

included £3.3m (2022: £0.8m) of Software as a Service (SaaS) costs, the additional operational costs of our new stores in Sweden and Australia, and additional important investments for future growth in the Group

Operating highlights

Our collaborations with Paul Smith, Axel Arigato and Stefan Cooke drove further global awareness of the Mulberry brand

29%

Digital sales represented 29% of total Group revenue in the period (2022: 25%), demonstrating the continuing trend towards omni-channel shopping in all regions

New stores opened in Italy, China and South Korea

Product innovation continued in the period with the launch of new bag families including the Islington and the Retwist

Ongoing investment in projects to update the Group's legacy systems and build on our omni-channel capabilities

Sustainability highlights

Continued focus on embedding sustainability and circularity across the entire business

100%

of leather (including all suede and nappa linings) for Bags, Mini Bags and Small Leather Goods is sourced from tanneries with an environmental accreditation. We continue to offset the carbon emissions related to leather purchases

Mulberry Pre-Loved, our buy back and resale programme, generated sales above the same period last year

10,000

Lifetime Service Centre at The Rookery continues to restore more than 10,000 bags a year

Current trading

- The wider macro-economic environment and geo-political climate continues to present some uncertainty, but we are well positioned to navigate this given our beautifully crafted product, made in our Somerset factories and sold at the best value price point in the luxury market
- Mulberry has a clear customer proposition and plan for growth and we remain confident in our ability to navigate this uncertainty and execute this strategy for the benefit of all our stakeholders
- Since period end, we launched two new bag families globally, the Lana and the Pimlico which are performing well
- Well prepared for the second half of the financial year, which is weighted in trading given the important festive trading period and further emphasised by our move from wholesale to retail

¹ Constant Exchange Rates

² See note 2 on pages 21 and 22 for more details of alternative performance measures and one off costs

Chief Executive's Report

THIERRY ANDRETTA
CHIEF EXECUTIVE OFFICER

OVERVIEW

Despite the current uncertain global economic climate, which continues to dampen consumer confidence, Mulberry continues to invest in its long-term future. Our strategic goals are clearly set out in our strategic pillars - omni-channel distribution, international development, constant innovation and sustainable lifecycle – and will make us more efficient, more customer focused and enable growth. Over the six months to 30 September 2023, we made good progress towards all of them.

We invested in new lines, collaborations and extended ranges. For example, collaborations with Swedish lifestyle label Axel Arigato in April and Stefan Cooke in September introduced us to

a new generation of customers; and working with UK heritage brand Paul Smith drove new customer sales. Further innovation came with new bag ranges – the Islington and the Retwist. With two more launched since period end – the Pimlico and the Lana.

Pop ups continue to allow us efficiently to reach new audiences, with Leccio giving us invaluable insights into the Italian market.

International sales represented 39% of total retail revenues, supported by our strategy to bring in-house ownership of overseas stores. This is the first full six-month period during which our stores in Sweden and Australia have been fully owned; our stores in New Zealand and Japan have been fully owned since June 2023. We experienced strong growth in retail sales in the United States, up 38% (42% CER) as we continued to build brand awareness in this market.

In Asia Pacific overall retail sales increased by 13% (18% CER) to £13.5m (2022: £11.9m), this period includes six months of our newly acquired stores in Australia. Underlying retail sales in Asia Pacific decreased by 7% principally due to the challenging macro-economic climate in China and reduced footfall across the region. We continue to develop our lifestyle range for the second half of the financial year and expect lifestyle sales to continue to grow throughout the remainder of the financial year.

Central to Mulberry's business model is sustainability and circularity. Projects incorporating and promoting pre-loved performed well, and we have made progress in lowering further our already below-industry-average carbon footprint through our hyper-local, hyper-

“Against a challenging macro-economic backdrop, which is impacting the entire luxury landscape, we have continued to invest in our long-term future.

Our strategy to transform our international businesses to a direct-to-consumer model has enabled us to control the entire customer experience in Sweden, Australia, New Zealand and Japan. Our investments in the period in our digital systems, stores and product will power future growth.”

transparent farm-to-finished-product model. We expect validation of our science-based greenhouse gas emissions reduction targets by the end of this financial year.

Group revenue increased by 7% (9% CER) over the period, with a slight decline in the gross margin to 69% (2022: 71%). An underlying loss before tax for the period of £12.3m (2022: loss before tax of £2.8m) reflects the additional investments and costs to support business growth, including SaaS costs and the additional operational costs of our stores in Sweden and Australia. We ended the period with net borrowings of £13.6m¹ (2022: net borrowings £0.5m).

Much of this progress is thanks to the hard work and commitment of our many colleagues around the world and I recognise and thank them for their enduring efforts.

BOARD CHANGES

Appointment of additional Independent Non-Executive Director

On 7 September 2023, the Group appointed Ms Leslie Serrero as an additional Independent Non-Executive Director. Ms Serrero will also sit on the Audit Committee of the Board.

Ms Serrero has extensive experience of luxury brand leadership. She has been International Managing Director of US luxury group Casa Komos Brands Group since October 2022, having previously held senior executive roles at Fendi France (2019-2022),

Christian Dior Couture (2012-2019) and Lacoste SA (2009-2012). Prior to this, Ms Serrero was a project leader at Boston Consulting Group for six years, advising companies in the retail, consumer and fashion sectors on transformation and growth strategies.

CURRENT TRADING AND OUTLOOK

Since the period end, we have launched two new bag families globally, the Lana and the Pimlico, which have both performed well.

The wider macro-economic environment, including inflationary pressures, continues to present some uncertainty, but we are well positioned as the best value price point in the luxury market and prepared for the second half of the financial year, which is weighted in trading given the important festive trading period and further emphasised by our move from wholesale to retail.

Mulberry has a clear customer proposition and plan for growth and we remain confident in our ability to navigate this uncertainty and execute this strategy for the benefit of all our stakeholders.

“Looking ahead, we are well placed to capitalise on the important festive trading period and expect the usual second half weighting to trading.”

¹ Net borrowings comprises cash balances of £5.9m (2022: £6.5m) less bank borrowings of £19.5m (2022: £7.0m), which excludes related parties and non-controlling interest of £4.5m (2022: £5.6m)

Our strategy - Progress -

With a rich heritage in leather craftsmanship and a reputation for innovation, we aim to build Mulberry as the British sustainable global luxury brand through four strategic growth pillars.

STRATEGIC PILLAR

01

Omni-channel distribution

The period saw us invest in our ongoing digital transformation to enhance our omni-channel distribution. Our new omni-hubs in Glasgow, Bath and London's Regent Street will take the majority of omni-orders. They also optimise store space and are already making order management more efficient. The payback is clear: digital sales as a proportion of the Group revenue continued to rise – up 4% to 29% in the period. We launched the Mulberry Mindset strategy in June to help staff provide memorable interactions for customers and build authentic relationships.

Refurbishments and pop ups in London, Europe and Asia also rewarded investment, helping us reach new audiences and lift sales.

Progress against our strategy

STRATEGIC PILLAR

02

International development

We continued to optimise our digital channels and global store network, focusing on the US and Asia Pacific with their strong growth opportunities, bringing more stores and concessions in-house to better control pricing and distribution.

In the US, increasing brand awareness, helped to drive sales up 38% (42% CER). Asia Pacific retail sales, including the first full period of ownership of our Australian stores, increased by 13% (18% CER). Underlying retail sales decreased by 7% (3% CER) due to the challenging China macro-economic climate and reduced footfall across the region. Of note was our Chinese Valentine's Day event at newly opened Nanjing Deji store with actress Zhu Zhu. This boosted sales and brand awareness, with the Bayswater bag performing particularly well.

In addition to Australia, the period saw the first full six-month contribution of stores and concessions in Sweden; the New Zealand store and stores and concessions in Japan became wholly owned in May and June respectively.

In Europe, our six-month pop up in the luxury outlet Mall Firenze, Leccio, is giving us valuable insight into the Italian market and performing well.

STRATEGIC PILLAR

03

Constant innovation

Mulberry has a long tradition of innovation and collaboration as it adapts to changing customer tastes and reaching new markets. Further innovation came from new bag ranges – the Islington and the Retwist – as well as new silhouettes for the Bayswater, Mini Lily and North South Tote. Stand out performances came from Bayswater Powder Rose and Pale Grey. With the Pimlico and the Lana ranges launched since the period end, we expect bag sales to make up 79% of our total by the end of the current financial year.

Collaborations in the period included Swedish minimalist Axel Arigato, the heritage British designer Paul Smith and the award-winning Stefan Cooke. The Stefan Cooke collaboration included a pop-up during September's London Fashion Week and along with the April Axel Arigato collaboration, successfully drove greater awareness of Mulberry among younger generations. The Paul Smith collaboration also introduced us to new customers. All led to increased sales.

While bags and leather goods remain Mulberry's mainstay, we continue to explore opportunities in lifestyle categories. During the period we launched our lifestyle range and made further investments to extend this range in the second half of the year.

STRATEGIC PILLAR

04

Sustainable lifecycle

Our Made to Last manifesto with its Lifetime Service Centre and the Mulberry Exchange for pre-loved bags set us apart and are central in our strategy to be regenerative and circular across our entire supply chain by 2030. This strategy feeds into everything we do.

In April, our collaboration with Axel Arigato highlighted our wear-forever ethos while in September, our capsule collaboration with Stefan Cooke, focusing on pre-loved, was heralded by Vogue as "a strong case for the coolest bag collaboration of the year". Both brilliantly showcased our Mulberry Exchange platform, which ensures every Mulberry bag can have multiple lives. The Stefan Cooke collaboration contributed to the best-ever week for pre-loved on Mulberry.com. We saw significant growth on the previous financial year.

We remain carbon neutral across our UK operations and source 100% of our leather from environmentally accredited tanneries. Ongoing efforts to establish a hyper-local, hyper-transparent farm-to-finished-product model are further reducing our already lower-than-industry average carbon footprint. Meanwhile, we offset carbon emissions related to our leather purchases and business flights and we expect validation of our science-based greenhouse gas reduction targets by the end of this financial year.

Sustainable materials continue to play an important role in our drive for Net Zero and this extends to our paper and packaging. Since 2020, more than 3.2 million coffee cups have been turned into Mulberry Green paper packaging and since 2011 all our cardboard and paper are Forest Stewardship Council certified.

Respect for people as well as the planet is embedded in all we do and we are proud to be a certified Living Wage employer and our hybrid working policy helps cut emissions and costs associated with commuting.

During the period we launched our Diversity, Equity and Inclusion (DE&I) committee to drive progress across all DE&I topics. To date, this includes partnering with Mentoring Matters, Flourish in Diversity and The Outsiders Perspective.

In recognition of all our efforts, in May, we won Brand of the Year at the Drapers Sustainable Fashion Awards, with the judges citing our Made to Last Manifesto, our thriving apprenticeship programme and our longstanding commitment to British manufacturing.

Financial review

Group revenue and gross profit

Revenue analysis for the 26 weeks to 30 September 2023 compared to the same period last year is as follows:

	2023 £'m	2022 £'m	% change
Digital	20.3	16.3	+25%
Stores	39.4	35.3	+12%
Retail (omni-channel)	59.7	51.6	+16%
Franchise and Wholesale	10.0	13.3	-25%
Group Revenue	69.7	64.9	+7%
Digital	12.8	10.8	+19%
Stores	23.4	23.3	0%
Omni-channel – UK	36.2	34.1	+6%
Digital	2.9	2.7	+7%
Stores	10.6	9.2	+15%
Omni-channel – Asia Pacific	13.5	11.9	+13%
Digital	4.6	2.8	+64%
Stores	5.4	2.8	+93%
Omni-channel – Rest of World	10.0	5.6	+79%
Retail (omni-channel)	59.7	51.6	+16%

	Q1		Q2		H1 2023	
	Revenue £'m	% change	Revenue £'m	% change	Revenue £'m	% change
Digital	10.1	+19%	10.2	+31%	20.3	+25%
Stores	20.1	+15%	19.3	+8%	39.4	+12%
Retail (omni-channel)	30.2	+16%	29.5	+15%	59.7	+16%
Franchise and Wholesale	7.0	-18%	3.0	-38%	10.0	-25%
Group revenue	37.2	+8%	32.5	+7%	69.7	+7%

Group revenue increased by 7% (8% CER) in the period, with growth in both Q1 (+8%) and Q2 (+7%) on the prior period. Retail omni-channel sales grew +16% in the period driven by our strategy to transition some wholesale partners to full ownership or concession agreements. UK total retail sales increased by 6%. Full price sales in the UK increased by 4% to £27.9m (2022: £26.8m) with the full price mix reducing slightly to 77% (2022: 79%). UK store sales remained in line with prior period, however UK digital sales were up 19% on the prior period, with average transaction value increasing by 9% compared to the prior period and represented 35% of total UK retail sales (2022: 32%).

Asia Pacific retail revenue increased 13% (18% CER), which includes the first full six-month period from the Australia retail stores which were acquired in the second half of last year. Excluding Australia, Asia Pacific retail revenue would have been down 7% due to the challenging China macro-economic climate and reduced footfall across all the markets.

Rest of World retail revenue, which includes Europe and the US, increased 79% (73% CER) with £1.7m relating to the business in Sweden which was acquired in September 2022. Revenue in the US also increased by 38% (42% CER) due to increased brand awareness in the market.

Franchise and wholesale sales decreased by 25%, with wholesale arrangements in Sweden and Australia converted to retail following the purchase of the business in the prior year.

Other operating expenses

Other operating expenses increased by 21% to £58.9m (2022: £48.6m) and underlying operating expenses increased by 9%. A breakdown is given below:

	2023 £'m	2022 £'m	% change
Underlying operating expenses	51.6	47.2	+9%
SaaS Costs	3.3	0.8	+313%
Store Closure Charge/(Credit)	0.5	(0.2)	-350%
New initiatives – Sweden & Australia	3.5	0.8	+338%
Operating expenses	58.9	48.6	+21%

The underlying operating cost increase has been driven by inflationary and real-living wage pay increases and we also increased technology spend to £4.2m (2022: £3.3m) to support the underlying costs associated with projects and systems investments.

In light of the March 2021 IFRIC agenda decision to clarify the treatment of Software as a Service (SaaS) costs, during the period we expensed £3.3m (2022: £0.8m) of SaaS costs which would previously have been capitalised, in line with the accounting for configuration and customisation cost arrangements. We expect to incur further SaaS costs in the second half.

The acquisition of our stores in Sweden and Australia have increased costs during the period by £2.7m. The full year impact of these new initiatives will be included in the current period.

Loss before tax

The Group's underlying loss before tax was £12.3m (2022: underlying loss before tax of £2.8m), included £3.3m (2022: £0.8m) of SaaS costs and the additional operational costs of our new stores in Sweden and Australia.

Reported loss before tax for the period was £12.8m (2022: loss before tax of £3.8m) and includes a store closure charge of £0.5m (2022: credit of £0.2m). The prior period included £1.2m acquisition costs relating to the business in Australia and Sweden.

	2023 £'m	2022 £'m
Underlying loss before tax pre-SaaS costs	(9.0)	(2.0)
SaaS Costs	(3.3)	(0.8)
Underlying loss before tax	(12.3)	(2.8)
Store Closure (Charge)/Credit	(0.5)	0.2
Australia and Sweden acquisition costs	–	(1.2)
Reported loss before tax	(12.8)	(3.8)

See note 2 below for further details of Alternative Performance Measures.

Taxation

The Group reported a tax charge for the period of £0.6m (2022: £0.3m.) The tax charge in the period is made up of £0.4m for deferred tax, which is calculated by applying the forecast full year effective tax rate to the Group results and £0.2m relating to prior and current period current tax charges.

Balance Sheet

Net working capital, which comprises inventories, trade and other receivables and trade and other payables decreased by £9.1m to £34.6m at the period end (2022: £43.7m). This decrease was driven by a reduction in inventories of £3.4m, as a result of optimisation of inventory levels. We are managing stock levels in light of the ongoing macro-economic uncertainty and cost increases.

At the period end, other trade receivables had decreased by £2.7m, principally due to wholesale customers being converted to direct-to-customer models. The increase in other trade payables of £3.0m is due to the timing of payments at the period end date and recognising a liability for contributions towards the new lessee rentals for the re-assigned Bond Street store.

Lease liabilities (current and non-current) reduced by £7.2m to £53.0m (2022: £60.2m) due to the release of the lease liability relating to the Bond Street store, which was re-assigned at the beginning of the period and regular lease payments made in the period.

Cash flow

The net decrease in cash and cash equivalents of £0.9m (2022: decrease of £19.5m) included a £6.0m draw down of the Group's revolving credit facility (RCF). Operating cash outflow for the period was £3.9m (2022: £15.6m) driven by increased operating expenses but partially offset by the improvement in working capital.

During the period we continued to invest in capital expenditure of £5.3m (2022: £5.2m) of which £2.9m (2022: £2.0m) related to transformation projects and IT systems to support growth. £0.8m (2022: £3.2m) has been spent in the period on new and existing retail stores.

Borrowing facilities

The Group had bank borrowings relating to drawdowns under its RCF of £13.0m at 30 September 2023 (2022: £7.0m). The borrowings shown in the balance sheet also include loans from minority shareholders in the Chinese and Japanese subsidiaries of £4.5m (2022: £5.6m) and an overdraft of £6.5m (2022: £nil).

The Group's net cash balance (cash and cash equivalents including overdrafts) at 30 September 2023 was -£0.6m (2022: £6.5m).

During the period the Group extended its secured RCF with HSBC until September 2027, with unchanged banking covenants. The covenants are tested quarterly on a "frozen GAAP" basis (excluding the impact of IFRS 16 and SaaS costs) and contain a 12-month rolling EBITDA target ratio and a maximum net debt target.

In addition, the Group has a £4.0m multi-currency overdraft facility which is renewed annually.

Significant transactions in the period**Bond Street lease reassignment**

On 3 April 2023 the Group assigned the lease on its Bond Street store which closed in February 2023 and as a result disposed of the right-of-use asset and released the remaining lease liabilities. Additionally, the Group has incurred a charge for both the contribution towards lease rentals of the new lessee and for a financial guarantee covering the remaining period of the lease. The net charge of £517,000 is included in the Income Statement (see note 2).

Investment in Mulberry Japan Co. Limited

On 27 June 2023 the Group, via its subsidiary Mulberry Trading Holding Company Limited acquired the 50% share capital owned by its Joint Venture partner Onward Holding Co Limited, in Mulberry Japan Co. Limited for 1 Yen. Following the acquisition, the Group now owns 100% of Mulberry Japan Co. Limited (see note 7).

Notes to the condensed financial statements

26 weeks ended 30 September 2023

1. GENERAL INFORMATION

Mulberry Group plc is a company incorporated in the United Kingdom under the Companies Act 2006. The half year results and condensed consolidated financial statements for the 26 weeks ended 30 September 2023 (the interim financial statements) comprise the results for the Company and its subsidiaries (together referred to as the Group) and the Group's interest in associates. The interim financial statements for the 26 weeks ended 30 September 2023 have not been reviewed or audited.

The information for the 52 weeks ended 1 April 2023 does not constitute statutory accounts as defined in section 434 of the Companies Act 2006. The statutory accounts for that period were approved by the Board of Directors on 27 June 2023 and have been filed with the Registrar of Companies. The auditor's report on those statutory accounts was not qualified, did not include a reference to any matters to which the Auditor drew attention by way of emphasis without qualifying the report and did not contain statements under section 498(2) (3) of the Companies Act 2006.

2. ACCOUNTING POLICIES AND BASIS OF PREPARATION

The accounting policies and methods of computation followed in the interim financial statements are consistent with those published in the Group's Annual Report and Financial Statements for the 52 weeks ended 1 April 2023.

These condensed consolidated interim financial statements for the 26 weeks ended 30 September 2023 have been prepared in accordance with IAS 34 'Interim Financial Reporting' as adopted by the European Union. This report should be read in conjunction with the Group's financial statements for the 52 weeks ended 1 April 2023, which have been prepared in accordance with UK-adopted International Financial Reporting Standards in conformity with the requirements of the Companies Act 2006.

The Annual Report and Financial Statements are available from the Group's website (www.mulberry.com) or from the Company Secretary at the Company's registered office, The Rookery, Chilcompton, Bath, England, BA3 4EH.

Critical accounting judgements and key sources of estimation uncertainty

Preparation of the condensed consolidated interim financial statements requires the Directors to make certain estimates and judgements that affect the measurement of reported revenues, expenses, assets and liabilities.

The critical accounting judgements and key sources of estimation uncertainty applied in the preparation of the condensed consolidated interim financial statements are consistent with those described on pages 91-92 of the Group's Annual Report and Financial Statements for the 52 weeks ended 1 April 2023.

Principal risks and uncertainties

The management of the business and the execution of the Group's growth strategies are subject to a number of risks and uncertainties that could adversely affect the Group's future development. The principal risks and uncertainties for the Group and the key mitigating actions used to address them are consistent with those outlined on pages 42-47 of the Group's Annual Report and Financial Statements for the 52 weeks ended 1 April 2023.

Alternative performance measures

In reporting financial information, the Group presents an APMs, which is not defined or specified under the requirements of IFRS. The Group believes that these APMs, which are not considered to be a substitute for, or superior to, IFRS measures, provide stakeholders with additional helpful information on the performance of the business. These APMs are consistent with how the business performance is planned and reported within the internal management reporting to the Board of Directors. Some of these measures are also used for the purpose of setting remuneration targets.

Notes to the consolidated financial statements continued

2. ACCOUNTING POLICIES AND BASIS OF PREPARATION CONTINUED

The Group makes certain adjustments to the statutory profit or loss measures in order to derive the APMs. Adjusting items are those items which, in the opinion of the Directors, should be excluded in order to provide a consistent and comparable view of the performance of the Group's ongoing business. Generally, this will include those items that are largely one-off and material in nature as well as income or expenses relating to acquisitions or disposals of businesses or other transactions of a similar nature. Treatment as an adjusting item provides stakeholders with additional useful information to assess the year-on-year trading performance of the Group.

A reconciliation of reported (loss)/profit before tax to underlying (loss)/profit before tax is set out below:

	Unaudited 26 weeks ended 30 September 2023 £'000	Unaudited 26 weeks ended 1 October 2022 £'000	Audited 52 weeks ended 1 April 2023 £'000
Reconciliation to underlying (loss)/profit before tax			
(Loss)/profit before tax	(12,759)	(3,750)	13,150
Store closure charge/(credit)	517	(210)	(205)
Impairment credit related to property, plant and equipment	–	–	(850)
Impairment credit related to right-of-use assets	–	–	(12,949)
Impairment charge for intangible assets	–	–	2,366
Australia acquisition costs	–	933	806
Sweden acquisition costs	–	193	193
Underlying (loss)/profit before tax – non-GAAP measure	(12,242)	(2,834)	2,511
Underlying basic (loss)/profit per share	(21.8p)	(5.3p)	5.8p
Underlying diluted (loss)/profit per share	(21.8p)	(5.3p)	5.8p

Store closure charge

During the period no stores (2022: 2 stores) were closed although the lease on a store that had been closed in February 2023 was assigned on 3 April 2023. The charge on disposal comprises the release to the income statement of lease and other liabilities of £17,735,000 (2022: £210,000), the write-off of right-of-use assets of £11,777,000 (2022: £nil), a charge of lease exit costs of £150,000 (2022: £nil), a contribution of £5,205,000 (2022: £nil) towards the new lessee rentals and a charge of £1,120,000 (2022: £nil) being the financial guarantee for the remaining lease rentals.

Australian acquisition costs

During the previous period the Group took over the running of five stores in Australia and incurred a write-off of debtors of £933,000.

Sweden acquisition costs

During the previous period the Group took over the running of three stores in Sweden previously owned by the Swedish franchisee and incurred costs of £193,000.

3. GOING CONCERN

In determining whether the Group's accounts can be prepared on a going concern basis, the Directors considered the Group's business activities and cash requirements together with factors likely to affect its performance and financial position. The Group had cash and cash equivalents (net of overdrafts) of -£0.6 million (2022: £6.5 million) at 30 September 2023 and had drawn down £13.0 million (2022: £7.0 million) on its revolving credit facility. The Directors have also reviewed the 12-month forecasts including their resilience in the face of possible downside scenarios.

Based on the assessment outlined above, the Directors have a reasonable expectation that the Group has access to adequate resources to enable it to continue to operate as a going concern for the foreseeable future. For these reasons, the Directors consider it appropriate for the Group to continue to adopt the going concern basis of accounting in preparing the Interim Report and financial statements.

4. TAXATION

The tax charge relates to deferred tax which is calculated by applying the forecast full year effective tax rate to the interim (loss)/profit and calculating the deferred tax balance for the period.

5. EARNINGS PER SHARE ('EPS')

	Unaudited 26 weeks ended 30 September 2023 £'000	Unaudited 26 weeks ended 1 October 2022 £'000	Audited 52 weeks ended 1 April 2023 £'000
Basic (loss)/profit per share	(22.5p)	(6.8p)	19.1p
Diluted (loss)/profit per share	(22.5p)	(6.8p)	19.1p
Underlying basic (loss)/profit per share	(21.8p)	(5.3p)	5.8p
Underlying diluted (loss)/profit per share	(21.8p)	(5.3p)	5.8p

Earnings per share is calculated based on the following data:

	Unaudited 26 weeks ended 30 September 2023 £'000	Unaudited 26 weeks ended 1 October 2022 £'000	Audited 52 weeks ended 1 April 2023 £'000
(Loss)/profit for the period for basic and diluted earnings per share	(13,398)	(4,029)	11,397
Adjusting items:			
Store closure charge/(credit)*	388	(206)	(203)
Reversal of impairment charge related to property, plant and equipment*	–	–	(650)
Reversal of impairment charge related to right-of-use assets*	–	–	(10,342)
Impairment charge for intangible assets	–	–	2,366
Australia acquisition costs*	–	193	728
Sweden acquisition costs	–	855	193
Underlying (loss)/profit for the period for basic and diluted earnings per share	(13,010)	(3,187)	3,489

*These items are included net of tax

Notes to the consolidated financial statements continued

5. EARNINGS PER SHARE ('EPS') CONTINUED

	Unaudited 26 weeks ended 30 September 2023 £'000	Unaudited 26 weeks ended 1 October 2022 £'000	Audited 52 weeks ended 1 April 2023 £'000
Weighted average number of ordinary shares for the purpose of basic EPS	59.7	59.6	59.6
Effect of dilutive potential ordinary shares: share options	–	–	–
Weighted average number of ordinary shares for the purpose of diluted EPS	59.7	59.6	59.6

The weighted average number of ordinary shares in issue during the period excludes those held by the Employee Share Trust.

6. BUSINESS AND GEOGRAPHICAL SEGMENTS

IFRS 8 requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the Chief Operating Decision Maker ("CODM"), defined as the Board of Directors, to allocate resources to the segments and to assess their performance. Inter-segment pricing is determined on an arm's length basis. The Group also presents analysis by geographical destination and product categories.

a) Business segment

The Group continues to extend its omni-channel network in order to support the Group's global growth ambitions. Mulberry has thus become increasingly reliant on individual market-level profitability metrics to enable them to make timely market-centric decisions that are operational and investment in nature. It is therefore appropriate for the segmental analysis disclosures to be a regional view of segments (being UK, Asia Pacific and Other International) to reflect the current business operations and the way the business internally reports and the information that the CODM reviews and makes strategic decisions based on its financial results.

The principal activities are as follows:

- The accounting policies of the reportable segment are the same as described in the Group's financial statements. Information regarding the results of the reportable segment is included below. Performance for the segment is assessed based on operating profit/(loss).
- The Group designs, manufactures and manages the Mulberry brand for the segment and therefore the finance income and expense are not attributable to the reportable segments.
