The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

VanEck Vectors Junior Gold Miners UCITS ETF (the Fund)

a sub fund of VanEck Vectors UCITS ETFs plc (the Company)

Share Class: USD A (ISIN: IE00BQQP9G91)

This Fund is managed by VanEck Investments Limited, a subsidiary of Van Eck Associates Corporation.

Objectives and Investment Policy

The Fund's investment objective is to track, before fees and expenses, the price and yield performance of the MVIS® Global Junior Gold Miners Index (the Index).

In order to seek to achieve its investment objective, the investment policy of the Fund is to invest in a portfolio of equity securities that as far as possible and practicable consists of all or substantially all of the component securities of the Index. The Index includes companies that generate at least 50% of their revenues from (or, in certain circumstances, have at least 50% of their assets related to) gold mining and/or silver mining or have mining projects with the potential to generate at least 50% of their revenues from gold and/or silver when developed. Such companies may include smaller companies and foreign issuers. At each quarterly review, the Index limits the maximum weight of any single stock to 8%.

The Fund may enter into repurchase and stock lending agreements subject to the conditions and limits laid down by the Central Bank for efficient portfolio management purposes.

Risk and Reward Profile

The risk and reward indicator is calculated using simulated historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk category shown is not guaranteed and may shift over time.

The lowest category does not mean risk free.

This Fund is ranked at 7 because funds of this type have experienced very high rises and falls in value in the past.

A typical investor is expected to be an informed investor who has taken professional advice, is able to bear capital and income risk, and should view investment in the Fund as a medium to long term investment.

Investments in gold and silver mining companies are subject to sector-specific risks which include competitive pressures, dependency on the price of gold and silver bullion, and worldwide economic, financial and political events.

Investments in early stage mining companies are subject to elevated risks which include the potential that the companies' properties may not ultimately produce gold, major expenditures may be required to establish reserves, and many early stage miners operate at a loss and are dependent on securing financing.

Particular Risks not adequately captured by the risk indicator include:

- Replication Management Risk: The Fund will attempt to track the Index. However, circumstances may arise, such as, but not limited to, disruptive market conditions, legal restrictions on the ability to own securities in the Index or ownership limitations imposed by the governments of certain countries, additional costs/taxes or extremely volatile markets, which may cause the Fund's performance to be substantially different from the performance of the Index.
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or, if applicable, acting as counterparty to financial derivative instruments may expose the Fund to financial loss.

For more information on risks, please see the "Risk Factors" section of the Fund's prospectus, available on www.vaneck.com/ETF-Europe.
