Call +33 (0) 1 44 45 85 65 for more information

Central Bank and Financial Services Authority of Ireland. is responsible for supervising AXA INVESTMENT MANAGERS PARIS S.A. in relation to this Key Information Document.

This Product is authorised in Ireland and in accordance with the UCITS Directive.

Date of Production of the KID: 24/04/2023

What is this product?

Type

The Product is a share class of the Sub-fund "AXA IM NASDAQ 100 UCITS ETF" (the Sub-fund) which is part of the ICAV "AXA IM ETF ICAV" (the "Company").

Term

This product has no maturity date, although it has been created for 99 years and could be liquidated under the conditions led down in the articles of incorporation of the company.

Objectives

Investment Objective

The investment objective of the Fund is to seek to provide investors with the performance of the NASDAQ-100 Index (the "Index"), less the fees and expenses of the Fund, while aiming to minimise the tracking error in between the Fund's Net Asset Value and the Index.

Investment Policy

The Fund is passively managed and will seek to achieve its investment objective by investing in equity securities listed or traded on global Regulated Markets that as far as possible and practicable consist of the constituent securities of the Index.

The Fund may also hold warrants, as a result of corporate actions only, and rights.

The Fund intends to replicate the constituents of the Index by holding all the securities comprising the Index in generally the same proportions as they are held in the Index. In order to replicate the Index, this Fund may invest up to 20% of its Net Asset Value in shares issued by the same body. This limit may be raised to 35% for a single issuer in exceptional market conditions (i. e. where an issuer represents an unusually large portion of the market represented by the Index).

As of the date of this KIID, the anticipated tracking error of the Fund is expected to be up to 1% in normal market conditions.

Divergences between the anticipated and realised tracking error will be explained in the ICAV's annual return.

The Fund is neither an Article 8 fund nor an Article 9 fund for the purpose of SFDR. The Fund does not integrate sustainability risks nor take into account principal adverse impact of investments on sustainability factors in its investment process as its objective is to replicate as closely as possible the performance of the Index that does not take into consideration such risks in its methodology.

Income

For Capitalisation share classes (Cap), the dividend is reinvested.

Investment Horizon

The risk and the reward of the product may vary depending on the expected holding period. We recommend holding this product at least for 5 years.

Processing of subscription and redemption orders

Intended retail investor

The fund is designed for retail investors who have neither financial expertise nor any specific knowledge to understand the fund but may bear total capital loss. It is suited for clients who seek growth of capital. Potential investors should have an investment horizon of at least 5 years.

Depository

STATE STREET FUND SERVICES (IRELAND) LIMITED

Further Information

Please refer to the 'Other relevant information' section below.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the product and the suitable benchmark over the last 10 years. Markets could develop very differently in the future.

We have classified this product as 5 out of 7 which is the a medium-high risk class. This rates the potential losses from future performance at a medium-high level. The risk category associated to this product was determined based on past observations, it is not guaranteed and can evolve in the future.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Recommended holding period:	5 years		
Example Investment:	\$10 000		
	If you exit after 1 year	If you exit after 5 years	
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment		
Stress	What you might get back after costs	\$2 300	\$1 880
	Average return each year	-77.00%	-28.41%
Unfavourable	What you might get back after costs	\$6 350	\$7 000
	Average return each year	-36.50%	-6.89%
Moderate	What you might get back after costs	\$11 430	\$22 530
	Average return each year	14.30%	17.64%
Favourable	What you might get back after costs	\$15 860	\$32 870
	Average return each year	58.60%	26.87%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable Scenario : This type of scenario occurred for an investment between 12 2021 and 02 2023.

Moderate Scenario : This type of scenario occurred for an investment between 04 2017 and 04 2022.

Favourable Scenario : This type of scenario occurred for an investment between 12 2016 and 12 2021.

An appropriate benchmark of the Product was used to calculate the performance.

What happens if AXA INVESTMENT MANAGERS PARIS S.A. is unable to pay out?

The product is constituted as a separate entity from AXA Investment Managers Paris S.A. In case of default of AXA Investment Managers Paris S.A., the assets of the product kept by the custodian will not be affected. In case of default of the custodian, the risk of financial loss of the product is mitigated because of the legal segregation of the assets of the custodian from those of the product.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10 000 is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	\$606	\$1 183
Annual cost impact (*)	6.1%	1.6% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 19.3 % before costs and 17.6 % after costs.

We may share part of the costs with the person selling you the Product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3.0 % of the amount that you pay when you enter the investment. This is the maximum that might be taken out of your money before it is invested. In some cases, you might pay less - you can find this out from your Financial Adviser. Entry costs are not applicable to investors buying shares of the Fund on stock exchanges, but these investors will do so at market prices and may be subject to broker fees and/or other charges. Authorised participants dealing directly with the Fund might pay related transaction costs.	Up to \$300
Exit costs	3.0% of your investment before it is paid out to you. This is the maximum that might be taken out of your money before the proceeds of your investment are paid out. In some cases, you might pay less - you can find this out from your Financial Adviser. Exit costs are not applicable to investors selling shares of the Fund on stock exchanges, but these investors will do so at market prices and may be subject to broker fees and/or other charges. Authorised participants dealing directly with the Fund might pay related transaction costs.	\$291
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.1% of the value of your investment per year. This percentage of ongoing costs is an estimate.	\$14
Transaction costs	0.0 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	\$2
Incidental costs taken under specific conditions		
Performance fees (and carried interest)	There is no performance fee for this Product.	\$0

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This Product has no minimum required holding period, the 5 years has been calculated to be in line with the time frame which the Product may need in order to achieve its investment objectives.

You may sell your investment before the end of the recommended holding period without penalty. The performance or risk of your investment may be negatively impacted. The section "What are the costs?" provides information on the impact of costs over time.

Please refer to the "What is this product" section for the redemption procedure.
