

31 May 2021

Objective

The Aberdeen Standard Pacific Equity Fund ("the Fund") aims to generate capital growth over the medium to long term by investing in Asia Pacific equities excluding Japan (company shares).

The Fund aims to outperform the MSCI AC Asia Pacific ex Japan Index before charges. The benchmark is also used as a reference point for portfolio construction and as a basis for setting risk constraints.

The Fund is actively managed.

The Fund invests in equities and equity related securities of companies or institutions domiciled in, operating principally from, or deriving significant revenue from, Asia Pacific region excluding Japan, and in the equity-based Asia Pacific Sub-Funds of the Fund, namely the Aberdeen Standard China Opportunities Fund, the Aberdeen Standard Malaysian Equity Fund, Aberdeen Standard Indonesia Equity Fund, the Aberdeen Standard Singapore Equity Fund and the Aberdeen Standard Thailand Equity Fund, and invests up to 10% of its deposited property in the Aberdeen Standard SICAV I – Indian Equity Fund, a sub-fund of the Luxembourg-registered Aberdeen Standard SICAV I.

The Fund may also invest in other Authorised Investments, including but not limited to funds (including those managed by Aberdeen Standard Investments) and money-market instruments which invest in securities of companies or institutions domiciled in, operating principally from, or deriving significant revenue from, the Asia-Pacific region excluding Japan, and cash. The management team use their discretion (active management) to maintain a diverse asset mix at country, sector and stock level. Their primary focus is on stock selection using research techniques to select individual holdings. The research process is focused on finding high quality companies at attractive valuations that can be held for the long term.

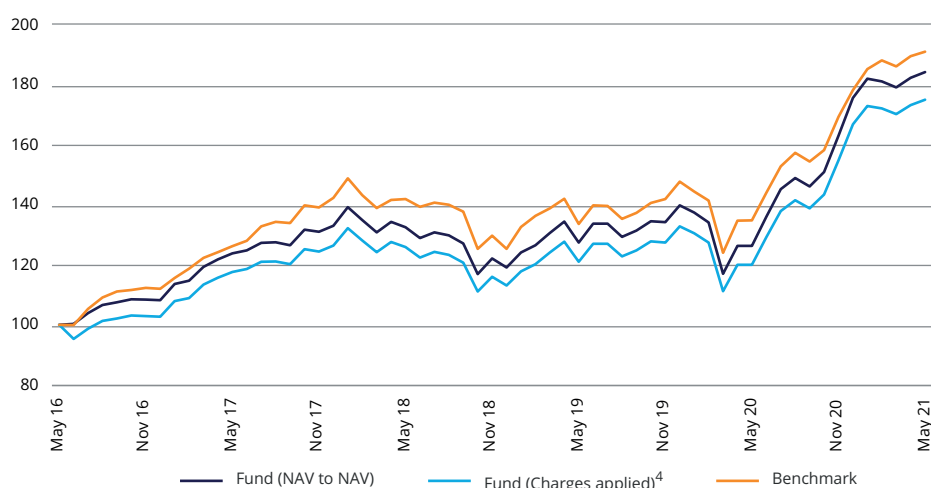

In order to achieve its objective, the Fund will take positions whose weightings diverge from the benchmark or invest in securities which are not included in the benchmark. The investments of the Fund may deviate significantly from the components of and their respective weightings in the benchmark. Due to the active nature of the management process, the Fund's performance profile may deviate significantly from that of the benchmark over the longer term.

The Fund may use derivatives to reduce risk, reduce cost and/or generate additional income or growth consistent with the risk profile of the fund (often referred to as "efficient portfolio management").

Important information

The information in this document should not be considered an offer, or solicitation, to deal in any funds in the Aberdeen Standard Select Portfolio. The information is provided on a general basis for information purposes only, and is not to be relied on as investment, legal, tax or other advice as it does not take into account the investment objectives, financial situation or particular needs of any specific investor.

The CPF interest rate for the Ordinary Account ('OA') is based on the legislated minimum interest of 2.5% per annum, or the 3-month average of major local banks' interest rates, whichever is higher. In addition, the CPF Board pays an extra interest rate of 1% per annum on the first \$60,000 of a CPF member's combined balances (with up to \$20,000 in the OA). CPF members aged 55 and above will also earn an additional 1% extra interest on the first \$30,000 of their combined balances (with up to \$20,000 in the OA). This is paid over and above the current extra 1% interest that is earned on the first \$60,000 of their combined balance. The first \$20,000 in the OA will not be allowed to be invested under the CPF Investment Scheme.

Investments in the fund(s) are not deposits in, obligations of, or guaranteed or insured by Aberdeen Standard Investments (Asia) Limited ('ASI Asia'), and are subject to investment risks, including the possible loss of the principal amount invested. Unit values and income therefrom may fall or rise. Past performance is not necessarily indicative of future performance. Investors should read the prospectus and the product highlights sheet or seek relevant professional advice, before making any investment decision.

The fund(s) as well as their underlying fund(s) may use or invest in financial derivative instruments. Please refer to the prospectus of the Aberdeen Standard Select Portfolio fund(s) for more information.

The above is based on information available as at 31-05-2021, unless otherwise stated.
