- (ii) “United States persons” (as defined in Section 7701(a)(30) of the U.S. Internal Revenue Code, as amended, and referred to herein as “**U.S. Taxpayers**”). Currently, the term “**U.S. Taxpayer**” includes: a U.S. citizen or resident alien of the “United States” (as defined for U.S. federal income tax purposes); any entity treated as a partnership or corporation for U.S. tax purposes that is created or organised in, or under the laws of, the United States or any state thereof (including the District of Columbia); any other partnership that may be treated as a U.S. Taxpayer under future U.S. Treasury Department regulations; any estate, the income of which is subject to U.S. income taxation regardless of source; and any trust over whose administration a court within the United States has primary supervision and all substantial decisions of which are under the control of one or more U.S. fiduciaries. Foreign Account Tax Compliance Act and the Common Reporting Standard (“CRS”)

FATCA

FATCA was enacted in 2010 by the U.S. Congress as part of the U.S. Hiring Incentives to Restore Employment (HIRE) Act to target non-compliance with tax laws by U.S. Taxpayers using overseas accounts. Under FATCA, financial institutions outside of the U.S. are required to regularly submit information on financial accounts held by U.S. Taxpayers to the U.S. tax authorities. Failure to comply with FATCA may, amongst other things, subject the Sub-Fund to U.S. withholding tax on certain types of payments made to the Sub-Fund. Accordingly, it is intended that the Sub-Fund complies with FATCA.

For the purpose of complying with FATCA, we, the Trustee, and/or other service providers of the Sub-Fund may be required to report and disclose information on certain investors in the Sub-Fund to the U.S. tax authorities and/or such Singapore authority as may be required under Singapore laws and regulations to be implemented as part of any IGA entered into between the U.S. and Singapore¹ in connection with FATCA and/or withhold certain payments to such investors.

CRS

CRS, endorsed by the Organisation for Economic Co-operation and Development and the Global Forum for Transparency and Exchange of Information for Tax Purposes, is an internationally agreed standard for the automatic exchange of information on financial accounts between jurisdictions with the objective of detecting and deterring tax evasion through the use of offshore bank accounts.

In Singapore, the Income Tax (International Tax Compliance Agreements) (Common Reporting Standard) Regulations 2016 require financial institutions such as us to conduct due diligence (including the collection, review and retention of financial account information) and report financial account information relating to specified persons from jurisdictions with which Singapore has a “competent authority agreement” (“CAA”) to the IRAS. Such information may subsequently be exchanged with Singapore’s CAA partners. Singapore may enter into further IGAs, or the relevant authorities may enact further legislation or impose further requirements, which will form part of the CRS.

¹ Pursuant to the IGA entered into between Singapore and the U.S. on 9 December 2014, Singapore-based financial institutions (such as us) will report information on financial accounts held by U.S. Taxpayers to the Inland Revenue Authority of Singapore (“IRAS”), which will in turn provide the information to the U.S. tax authorities.

You are required to:

- (a) provide such information, documents and assistance in connection with the above as we and/or the Trustee may require from time to time; and
- (b) notify us or any of our authorised agents or distributors in writing immediately if you are or become a U.S. Taxpayer, or are holding Units for the account of or benefit of a U.S. Taxpayer.

You are also deemed to have consented to us, the Trustee and/or other service providers of the Sub-Fund carrying out our/their obligations in reporting and disclosing information on you and your investments to the relevant authorities as described above.

We may compulsorily realise all or any of your Units in any of the circumstances set out under paragraph 61 of this Prospectus.

You may direct your enquiries in relation to the Fund or the Sub-Fund to us or our authorised agents or distributors.

III. THE TRUSTEE AND CUSTODIAN

11. The Trustee is State Street Trust (SG) Limited, a trust company approved by the Authority under section 289(1) of the SFA to act as a trustee for collective investment schemes authorised under section 286 of the SFA and constituted as unit trusts. The Trustee is regulated in Singapore by the Authority. See the Deed for details on the Trustee's role and responsibilities.
12. The Trustee has appointed State Street Bank and Trust Company ("SSBT"), a trust company organised under the laws of the Commonwealth of Massachusetts and, in respect of such appointment, acting through its Singapore Branch, as the global master custodian of the Fund.

SSBT was founded in 1792 and is a wholly owned subsidiary of State Street Corporation. It is licensed and regulated by the Federal Reserve Bank of Boston. State Street Bank and Trust Company, Singapore Branch, holds a wholesale bank licence issued by the Authority and is regulated by the Authority.

SSBT provides custodian services in over 100 markets by utilising its local market custody operations and through its network of sub-custodian banks. SSBT will appoint sub-custodians in those markets where the Sub-Fund invests where SSBT does not itself act as the local custodian. SSBT has processes for the initial selection, and ongoing monitoring of its sub-custodians, each of which is chosen based upon a range of factors including securities processing and local market expertise, and must satisfy specific operating requirements in terms of structure, communications, asset servicing and reporting capabilities. All sub-custodians appointed by SSBT must be licensed and regulated under applicable law to provide custodian and related asset administration services, and carry out relevant related or ancillary financial activities, in the relevant market jurisdiction. SSBT will typically seek to select local branches or affiliates of major global financial institutions that provide sub-custodian services in multiple markets, although unique market service requirements may result in the selection of an entity as sub-custodian that is more local in scope.

Other custodians may be appointed from time to time in respect of the Fund or any of its assets.

Please refer to paragraph 57 for further details of the custodial arrangement in respect of the Deposited Property of the Sub-Fund.

IV. OTHER PARTIES

13. State Street Bank and Trust Company, acting through its Singapore Branch, has been appointed by the Trustee as the registrar of the Fund and will be responsible for keeping the Register. Any Holder may inspect the Register at 168 Robinson Road, #33-01, Capital Tower, Singapore 068912 during normal business hours (subject to such reasonable restrictions as the registrar may impose).

The Register is conclusive evidence of the number of Units held by each Holder. If there is any discrepancy between the entries in the Register and the details appearing on any statement of holdings, the entries in the Register will prevail unless the Holder proves to the Trustee's and our satisfaction that the Register is incorrect.

The administrator of the Fund is State Street Bank and Trust Company, acting through its Singapore Branch, which has been appointed by us to provide (i) certain administration and valuation services (including accounting and net asset value calculation) pursuant to the terms of an Administrative Services Agreement, and (ii) certain transfer agency services pursuant to the terms of a Transfer Agency and Services Agreement, each entered into between the administrator of the Fund and us.

14. The auditors of the Fund are PricewaterhouseCoopers LLP.

V. STRUCTURE OF THE SUB-FUND

15. **Classes of Units**

We may at any time determine that different Classes of Units or new Classes be established within the Sub-Fund. Where a new Class is established, we may at our discretion re-designate any existing Class as long as there is no prejudice to existing Holders of such Class. Different Classes within the Sub-Fund have different features.

The Sub-Fund currently offers seven Classes of Units, namely:

- (1) Class A (Acc) SGD Units (denominated in SGD);
- (2) Class A (Dist) SGD Units (denominated in SGD);
- (3) Class A (Acc) USD (Hedged) Units (denominated in USD);
- (4) Class A (Dist) USD (Hedged) Units (denominated in USD);
- (5) Class B (Acc) SGD Units (denominated in SGD);
- (6) Class S SGD Dist (denominated in SGD); and
- (7) Class S USD Dist (Hedged) (denominated in USD).

Important note: we intend to standardise the naming convention of the classes of units of our collective investment schemes and accordingly, the above Classes will respectively be renamed as follows with effect from such date as we and the Trustee may agree²:

- (1) Class A SGD Acc
- (2) Class A SGD Dist
- (3) Class A USD Acc (Hedged)
- (4) Class A USD Dist (Hedged)
- (5) Class B SGD Acc
- (6) Class S SGD Dist
- (7) Class S USD Dist (Hedged)

The Classes may differ in terms of their currency of denomination, fee structure, minimum threshold amounts for subscription, holding and realisation, distribution policy, eligibility requirements, mode of investment and the availability of RSP and whether they are each a Distribution Class or an Accumulation Class and where applicable, whether the relevant Class is a Hedged Class. You should refer to paragraphs 18, 25, 27.2, 28, 29, 34 and 35 of this Prospectus for further information in relation to these differences. In addition, you should note that (1) Class B (Acc) SGD Units are only available for subscription by institutional clients and such other persons as we may from time to time determine in our sole discretion and (2) Class S SGD Dist Units and Class S USD Dist (Hedged) Units are only available for subscription by such persons as we may from time to time determine in our sole discretion. The seven Classes constitute the Sub-Fund and are not separate sub-funds under the Fund. You should note that the assets of a Sub-Fund are pooled and invested as a single fund and are not segregated in respect of each Class thereof. A separate NAV per Unit (in the currency of denomination of the relevant Class) which may differ between Classes as a consequence of amongst others, any of the above differences, will be calculated for each Class. Save for the above differences between the Classes, Holders of each Class have materially the same rights and obligations under the Deed.

VI. INVESTMENT CONSIDERATIONS

16. Investment Objective and Focus

The investment focus of the Sub-Fund is to invest substantially all its assets in money market and short term interest bearing debt instruments and bank deposits with the objective of achieving a yield enhancement over Singapore dollar deposits.

² The new Class names will be reflected in the monthly statement sent to you at the relevant time.

17. Investment Approach

Our research process is fundamental and valuation driven, and bottom-up in approach. We have a team of credit analysts for both Singapore fixed income issuers and high grade corporate issuers in the developed markets. This benefits our Singapore credit research efforts as many high grade foreign issuers have issued Singapore-dollar denominated securities.

For Singapore, Asia and emerging markets, our team of credit analysts conducts a detailed credit analysis that evaluates industry outlook, business review, financial review, management expertise, strength of ownership and specific debt structure. This results in an implied rating score. Relative valuation will determine corporate credit selection.

For rated issuers, mainly US/Europe high grade issuers, to supplement the fundamental analysis by their G10 credit team, we have implemented a quantitative credit risk approach based from the KMV model. This model uses the Merton option framework to calculate the implied asset volatility or the Expected Default Frequency (EDF) of any corporate bond issue. Other inputs include an asset correlation database, which is generated from a proprietary risk management system. Together, the model will calculate the return-expected loss trade off for any corporate bond issue.

18. Distribution policy

As Class A (Acc) SGD, Class A (Acc) USD (Hedged) and Class B (Acc) SGD are Accumulation Classes, we currently do not intend to make any distributions in respect of Units in such Classes.

In relation to the Class A (Dist) SGD and the Class A (Dist) USD (Hedged), we currently intend to make regular quarterly distributions of 3.5% p.a. (or such other percentage or frequency as we may from time to time determine) of the NAV per Unit as at the last Business Day of every calendar quarter (or such other date as we may from time to time determine). The first distribution by each of the Class A (Dist) SGD and the Class A (Dist) USD (Hedged) after it is incepted will only be made after a period of at least 6 months following its inception (or after such shorter or longer period as we may determine at our sole discretion).

In relation to the Class S SGD Dist and the Class S USD Dist (Hedged), we currently intend to make monthly distributions of at least 2% p.a. (or such other percentage or frequency as we may from time to time determine) of the NAV per Unit as at the last Business Day of every calendar month (or such other date as we may from time to time determine). The first distribution by each of the Class S SGD Dist and the Class S USD Dist (Hedged) after it is incepted will only be made after a period of at least 6 months following its inception (or after such shorter or longer period as we may determine at our sole discretion).

Distributions shall be based on the number of Units held by each Holder as at the relevant Distribution Date as evidenced by the Register. Distributions will be made to Holders within 30 Business Days from the relevant Distribution Date. A “**Distribution Date**” relating to a Class is the date as at which a distribution is to be made, as determined by us under the relevant paragraph above in respect of the relevant Class.

The making of distributions is at our absolute discretion and distributions are not guaranteed. The making of any distribution does not mean that further distributions will be made. We reserve the right to vary the frequency and/or amount of distributions. Distributions may be made out of the income, capital gains or capital of the relevant Class. The declaration or payment of distributions (whether out of income, capital gains, capital or otherwise) may have the effect of lowering the NAV of the Sub-Fund or the relevant Class. Moreover, distributions out of capital may amount to a reduction of the relevant Holder’s original investment and may result in reduced future returns to the relevant Holders.

19. Product suitability

The Sub-Fund is suitable for investors who:

- seek to achieve a yield enhancement over Singapore dollar deposits; and
- are comfortable with the volatility and risks of a bond fund which invests in money market and short term interest bearing debt instruments and bank deposits.

You should consult your financial adviser if in doubt whether the Sub-Fund is suitable for you.

20. **Authorised Investments**

Prior to 8 June 2020: The authorised investments of the Sub-Fund (“**Authorised Investments**”) are any Investment or other property, assets or rights for the time being approved by the relevant authorities in Singapore for investment by the Sub-Fund.

With effect from 8 June 2020: The authorised investments of the Sub-Fund (“**Authorised Investments**”), which Units are Excluded Investment Products, are any Investment or other property, assets or rights for the time being approved by the relevant authorities in Singapore for investment by the Sub-Fund, only to the extent allowed under the CMP Regulations for the purposes of classifying Units of the Sub-Fund as Excluded Investment Products.

Please refer to the Deed for the full meaning of the term Investment.

The Sub-Fund intends to use or invest in FDIs. Further information is set out in paragraph 22 of this Prospectus.

21. **Investment Restrictions**

- (a) The investment guidelines and borrowing limits as set out under Appendix 1 of the Code apply to the Sub-Fund. The latest version of the Code may be found at the Authority’s website: www.mas.gov.sg. The Authority may, from time to time, update or amend the Code.
- (b) The CPF Investment Guidelines apply to the Sub-Fund. The latest version of the CPF Investment Guidelines may be found at the CPF Board’s website: www.cpf.gov.sg. The CPF Board may, from time to time, update or amend the CPF Investment Guidelines.
- (c) **With effect from 8 June 2020:** Units of the Sub-Fund are Excluded Investment Products. Accordingly, the Sub-Fund will not invest in any product or engage in any transaction which may cause the Units of the Sub-Fund not to be regarded as Excluded Investment Products.
- (d) Currently, the Sub-Fund does not intend to carry out securities lending or repurchase transactions but may do so in the future, in accordance with the applicable provisions of the Code and the CPF Investment Guidelines. Accordingly, the Sub-Fund may at such time in the future become subject to the provisions on securities lending and repurchase transactions as set out in the Code and the CPF Investment Guidelines. **With effect from 8 June 2020:** The Managers shall not engage in securities lending or repurchase transactions for the Sub-Fund (which Units are Excluded Investment Products), except where such securities lending or repurchase transaction are carried out solely for the purpose of efficient portfolio management and do not amount to more than 50% of the NAV of the Sub-Fund.

22. **Risk management procedures of the Managers on certain investments**

- (a) **Prior to 8 June 2020:** The Sub-Fund may use or invest in FDIs for the purposes of hedging existing positions in a portfolio, for efficient portfolio management or a combination of both purposes. Where such instruments are FDIs on commodities, such transactions shall be settled in cash at all times.
With effect from 8 June 2020: Subject to the provisions on FDIs set out in the CMP Regulations for the purpose of classifying Units of the Sub-Fund as Excluded Investment Products, the Sub-Fund may use or invest in FDIs for the purposes of hedging existing positions in a portfolio, for efficient portfolio management or a combination of both purposes. Where such instruments are FDIs on commodities, such transactions shall be settled in cash at all times.
- (b) We will ensure that the global exposure of the Sub-Fund to FDIs or embedded FDIs will not exceed 100% of the NAV of the Sub-Fund at all times. Such exposure will be calculated using the commitment approach as described in, and in accordance with the provisions of, the Code.

- (c) Below is a description of risk management and compliance procedures and controls adopted by us:
- (i) We will implement various procedures and controls to manage the risk of the assets of the Sub-Fund. Our decision to invest in any particular security or instrument on behalf of the Sub-Fund will be based on our judgment of the benefit of such transactions to the Sub-Fund and will be consistent with the Sub-Fund's investment objective in terms of risk and return.
 - (ii) *Execution of Trades.* Prior to each trade, we will ensure that the intended trade will comply with the stated investment objective, focus, approach and restrictions of the Sub-Fund, and that best execution and fair allocation of trades are done. Our Middle Office department will conduct periodic checks to ensure compliance with the investment objective, focus, approach and restrictions of the Sub-Fund. If there is any non-compliance, our Middle Office department is empowered to instruct the relevant officers to rectify the same. Any non-compliance will be reported to higher management and monitored for rectification.
 - (iii) *Liquidity.* If there are any unexpectedly large redemptions of Units, it is possible that the assets of the Sub-Fund may be forced to be liquidated at below their fair and expected value, especially in illiquid public exchanges or over-the-counter markets. Also, under certain market conditions such as during volatile markets, crisis situations or trading disruptions, it may be difficult or impossible to liquidate or rebalance positions. While we will ensure that a sufficient portion of the Sub-Fund will be in liquid assets such as cash and cash-equivalents to meet expected redemptions (net of new subscriptions), we may in certain situations employ liquidity management tools such as limiting or suspending realisations in accordance with paragraph 37 or Part XV of this Prospectus. If such tools are employed, you may not be able to realise your Units during any suspension period or the realisation of your Units or payment of the realisation proceeds for your Units may be delayed.
 - (iv) *Counterparty exposure.* The Sub-Fund may have credit exposure to counterparties by virtue of positions in financial instruments (including FDIs) held by the Sub-Fund. To the extent that a counterparty defaults on its obligations and the Sub-Fund is delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its assets, its income stream and incur extra costs associated with the exercise of its financial rights. Subject to the provisions of the Code, we will restrict our dealings with counterparties to entities that have a minimum long-term issuer credit rating of above BB+ by Standard and Poor's, an individual rating of above C or viability ratings of above bbb by Fitch Inc., a baseline credit assessment of above a3 by Moody's Investors Service, or an equivalent rating from any other reputable rating agency. If any approved counterparty fails this criterion subsequently, we will take steps to unwind the Sub-Fund's position with that counterparty as soon as practicable.
 - (v) *Volatility.* To the extent that the Sub-Fund has exposure to FDIs that allow a larger amount of exposure to a security for no or a smaller initial payment than the case when the investment is made directly into the underlying security, the value of the Sub-Fund's assets will have a higher degree of volatility. The Sub-Fund may use FDIs for hedging purposes for reducing the overall volatility of the value of its assets. At the same time, we will ensure that the total exposure of the Sub-Fund to derivative positions will not exceed the NAV of the Sub-Fund, as stated in paragraph (b) above.
 - (vi) *Valuation.* The Sub-Fund may have exposure to over-the-counter FDIs that are difficult to value accurately, particularly if there are complex positions involved. We will ensure that independent means of verifying the fair value of such instruments are available, and will conduct such verification at an appropriate frequency.
- (d) We will ensure that the risk management and compliance procedures and controls adopted are adequate and have been or will be implemented and that we have the necessary expertise to control and manage the risks relating to the use of FDIs. We may modify the risk management and compliance procedures and controls as we deem fit and in the interests of the Sub-Fund, but subject always to the requirements under the Code.
- (e) The Sub-Fund may net its over-the-counter derivative positions with a counterparty through bilateral contracts for novation or other bilateral agreements with the counterparty, provided that such netting arrangements satisfy the relevant conditions described in the Code.

VII. SUB-FUND INCLUDED UNDER THE CPFIS

23. The Sub-Fund is included under the CPFIS – Ordinary Account and CPFIS - Special Account for subscription by members of the public using their CPF monies. You should note that only Class A (Acc) SGD Units are currently available for subscription using CPF monies.
24. The Sub-Fund is classified by the CPF Board under the risk classification of “Low to Medium Risk - Broadly Diversified”.

The CPF Board currently pays a legislated minimum annual interest rate of 2.5% on monies in the CPF Ordinary Account. The CPF interest rates are based on the 12-month fixed deposit and month-end savings rates of the major local banks and it is reviewed by the CPF board quarterly. The interest is computed monthly, and is credited and compounded annually.

The interest rate for the Special and Medisave Accounts (“SMA”) is pegged to the 12-month average yield of 10-year Singapore government securities (10YSGS) plus 1%, adjusted quarterly. The interest rate to be credited to the Retirement Account (“RA”) will be the weighted average interest rate of the entire portfolio of Special Singapore Government Securities (SSGS) the RA savings are invested in which earn a fixed coupon equal to the 12-month average yield of the 10YSGS plus 1% at the point of issuance, adjusted yearly. For 2020, the minimum interest rate for the SMA and RA is 4.0% p.a. After 31 December 2020, the 2.5% p.a. legislated minimum interest rate, as prescribed by the CPF Act, will apply to the SMA and RA.

In addition, the CPF Board pays an extra interest rate of 1% p.a. on the first S\$60,000 of a CPF member’s combined balances, including up to S\$20,000 in the CPF Ordinary Account. The first S\$20,000 in the CPF Ordinary Account and the first S\$40,000 in the CPF Special Account are not allowed to be invested under the CPF Investment Scheme.

The applicable interest rates for each of the CPF accounts may be varied by the CPF Board from time to time.

Subscriptions using CPF monies are subject to the CPFIS regulations and conditions imposed by the CPF Board from time to time.

IX. RISKS

26. General Risks

- 26.1 You should consider and satisfy yourself as to the risks of investing in the Sub-Fund. Generally, some of the risk factors that you should consider are market risks, interest rate risks, foreign exchange risks, political risks, repatriation risks, liquidity risks and derivatives risks.
- 26.2 An investment in the Sub-Fund is meant to produce returns over the long-term and you should not expect to obtain short-term gains from such investment.
- 26.3 You should be aware that the price of Units and the income accruing from the Units, may fall or rise and that you may not get back your original investment. There is no guarantee that the investment objective of the Sub-Fund will be achieved.

27. Specific Risks

27.1 Market Risk in the Global Markets

You should consider and satisfy yourself as to the usual risks of investing and participating in publicly traded securities. Prices of securities that the Sub-Fund invests in may be affected by changes in economic conditions, interest rates and the market's perception of securities which in turn may cause the price of Units to rise or fall.

27.2 Foreign Exchange and Currency Risk

The Sub-Fund is denominated in Singapore dollars and the Classes are each denominated in the relevant currency (which may or may not be Singapore dollars). Where the Sub-Fund makes investments which are denominated in foreign currencies, fluctuations in the exchange rates of the currency or currencies in which the underlying assets of the Sub-Fund are denominated (the "**Portfolio Currency**") against the base currency of the Sub-Fund and/or the denominated currency of the relevant Class may affect the value of the relevant Units. In our management of the Sub-Fund, we may hedge the foreign currency exposure of the Sub-Fund or any Class against the Portfolio Currency and may adopt an active or passive currency management approach in doing so. However, the foreign currency exposure of the Sub-Fund or the relevant Class may not be fully hedged depending on the circumstances of each case. Such considerations shall include but are not limited to the outlook on the relevant currency, the costs of hedging and the market liquidity of the relevant currency. Subject to the provisions of the Code, in the hedging of any such foreign currency exposure of the relevant Class, we may hedge up to 100% of the proportion of the NAV attributed to such Class.

As indicated above, the Sub-Fund has Classes of Units that are denominated in currencies other than the base currency of the Sub-Fund. For instance, Class A (Acc) USD (Hedged) Units, Class A (Dist) USD (Hedged) Units and Class S USD Dist (Hedged) Units are denominated in US dollars, which is not the base currency of the Sub-Fund. Changes in the exchange rate between the base currency of the Sub-Fund and the denominated currency of any such Class may lead to an appreciation or depreciation of the value of the Units of the Class, as expressed in the denominated currency of the Class and depending on the movement in exchange rates between the base currency and the denominated currency of the Class. Subject to the same considerations in the preceding subparagraph, we may or may not mitigate the exchange rate risk by hedging such foreign currency exposure to the extent of the NAV attributed to such Class and to the extent that we do not hedge such foreign currency exposure, investors of the relevant Class will be exposed to exchange rate risks.

In addition, you should note that although a financial instrument that is used to hedge any such foreign currency exposure of a Class is not in relation to the other Classes (if any) within the Sub-Fund, the financial instrument will comprise the assets (or liabilities) of the Sub-Fund as a whole. The gains (or losses) on and the costs of the relevant financial instrument will, however, accrue solely to the relevant Class.

You should note that the Sub-Fund may offer for subscription Units in Hedged Classes (i.e. Class A (Acc) USD (Hedged), Class A (Dist) USD (Hedged) and Class S USD Dist (Hedged)). In the case of Hedged Classes, we currently adopt a passive hedging policy to hedge the currency in which the relevant Hedged Class is denominated (the "**Hedged Currency**") against the Portfolio Currency. Notwithstanding the above, we retain the discretion to adopt any other hedging policy as we may determine from time to time.

The effects of hedging will be reflected in the value of the Hedged Class. A Hedged Class allows us to use currency hedging transactions to reduce the effect of exchange rate fluctuations between the Portfolio Currency and the Hedged Currency. The aim is that the Hedged Class should reflect the actual return of the Portfolio Currency within the Sub-Fund, as applicable, plus or minus the interest rate differential between the Hedged Currency and the Portfolio Currency. However, other factors may impact the return of the Hedged Class which means that the Hedged Class may not perfectly achieve this aim. These factors include but are not limited to:

- (i) any unrealised profit/loss on the currency forward remaining un-invested until the hedge is rolled over and any profit or loss is crystallised;
- (ii) transaction costs;
- (iii) short-term interest rate changes;
- (iv) the timing of the market value hedge adjustments relative to the Sub-Fund's Valuation Point; and

- (v) intra-day volatility of the value of the Portfolio Currency in relation to the existing hedge.

The costs and expenses associated with the hedging transactions in respect of a Hedged Class and any benefits of the hedging transactions will accrue to Holders in that Hedged Class only.

Subject to the provisions of the Code, we will aim to hedge not more than 100% of the proportion of the NAV attributable to the relevant Hedged Class. When assessing the hedging transactions in respect of a Hedged Class, we will take both the capital and income values of the Hedged Class into account.

We will review the relevant hedging positions daily and, if appropriate, adjust the hedge to reflect investor inflows and outflows.

Please note that hedging transactions may be entered into whether or not the Hedged Currency is declining or increasing in value relative to the Portfolio Currency; consequently, where such hedging is undertaken, it may protect investors in the relevant Hedged Class against a decrease in the value of the currency being hedged but it may also preclude investors from benefiting from an increase in the value of such currency. Investors in a Hedged Class will still be exposed to the market risks that relate to the underlying investments in the Sub-Fund and any exchange rate risks that arise from the policy of the Sub-Fund that is not fully hedged.

There can be no guarantee that the hedging strategy applied in a Hedged Class will entirely eliminate the adverse effects of changes in exchange rates between the Portfolio Currency and the Hedged Currency.

27.3 Political Risk

The Sub-Fund's investments may be adversely affected by political instability as well as exchange controls, changes in taxation, foreign investment policies, restrictions on repatriation of investments and other restrictions and controls which may be imposed by the relevant authorities in the relevant countries.

27.4 Derivatives Risk

As the Sub-Fund may (subject to the Code) use or invest in FDIs, it will be subject to risks associated with such investments. FDIs include, but are not limited to, foreign exchange forward contracts. An investment in a FDI may require the deposit of initial margin and additional deposit of margin on short notice if the market moves against the investment position. If the required margin is not provided in time, the investment may be liquidated at a loss. Therefore, it is essential that such investments in FDIs are monitored closely. We have the controls for investments in FDIs and have in place systems to monitor the derivative positions of the Sub-Fund. Please see paragraph 22 for more information on our risk management procedures on certain investments.

27.5 Liquidity Risk

Investments by the Sub-Fund in some Asian and/or emerging markets often involve a greater degree of risk due to the nature of such markets which do not have fully developed services such as custodian and settlement services often taken for granted in more developed markets. There may be a greater degree of volatility in such markets because of the speculative element, significant retail participation and the lack of liquidity which are inherent characteristics of these markets.

27.6 Small Capitalisation Companies Risk

Investments in companies with small capitalisation generally carry greater risk than is customarily associated with companies with larger capitalisation, which may include, for example, less public information, more limited financial resources and product lines, greater volatility, higher risk of failure than larger companies and less liquidity. The result may be greater volatility in the share prices.

27.7 Single Country, Sector or Region Risk

You should be aware that investments in a single country, sector or region which may present greater opportunities and potential for capital appreciation may be subject to higher risks as they may be less diversified than a global portfolio.

27.8 Interest Rate Risks

The Sub-Fund's investments in debt securities are subject to the risk of interest rate fluctuations, and the prices of debt securities may go up or down in response to such fluctuations in interest rates.

27.9 Credit and Default Risks

Adverse changes in the financial condition of the issuer of the debt securities which the Sub-Fund is invested in, or in general economic conditions, or both, or an unanticipated rise in interest rates, may increase the potential for default.

27.10 Broker Risk

We may engage the services of third party securities brokers and dealers to acquire or dispose the investments of the Sub-Fund and to clear and settle its exchange traded securities trades. In selecting brokers and dealers and in negotiating any commission involved in their transactions, we consider, amongst other things, the range and quality of the professional services provided by such brokers and dealers and their credit standing and licensing or regulated status.

It is possible that the brokers or dealers engaged for the Sub-Fund may encounter financial difficulties that may impair the Sub-Fund's operational capabilities. If a broker or dealer fails or becomes insolvent, there is a risk that the Sub-Fund's orders may not be transmitted or executed and its outstanding trades made through the broker or dealer may not settle.

27.11 Counterparty Risk

Where the Sub-Fund enters into over-the-counter transactions, the Sub-Fund is exposed to the risk that a counterparty may default on its obligations to perform under the relevant contract. If a counterparty becomes bankrupt or insolvent, the Sub-Fund could experience delays in liquidating an investment and may therefore incur significant losses, including losses resulting from a decline in the value of the investment during the period in which the Sub-Fund seeks to enforce its rights. The Sub-Fund may also be unable to realise any gains on the investment during such period and may incur fees and expenses to enforce its rights. There is also a risk that counterparty contracts may be terminated earlier due to, for instance, bankruptcy, supervening illegality or change in the tax or accounting laws relative to those laws existing at the time the contracts were entered into.

27.12 Risk Relating to Distributions

Where Class A (Dist) SGD, Class A (Dist) USD (Hedged), Class S SGD Dist or Class S USD Dist (Hedged) makes distributions to Holders, such distributions are at our absolute discretion and are not guaranteed. Distributions may be made from dividend/interest income and capital gains derived from the investments of the Sub-Fund. Dividend/interest income may be adversely affected by events such as (but not limited to) investee entities suffering unexpected losses and/or paying lower than expected dividends, and adverse currency exchange rate fluctuations. Subject to the distribution policy of the relevant Class, distributions may also be made out of capital. The declaration and/or payment of distributions (whether out of income, capital gains, capital or otherwise) may have the effect of lowering the NAV of the relevant Class. Moreover, distributions out of capital may amount to a reduction of the relevant Holder's original investment. Distributions may also result in reduced future returns to the relevant Holders.

27.13 Investment Management Risk

Investment performance depends on the portfolio management team and the team's investment strategies. If the investment strategies do not perform as expected, if opportunities to implement those strategies do not arise, or if the team does not implement its investment strategies successfully, an investment portfolio may underperform or suffer significant losses.

27.14 Risk of using rating agencies and other third parties

Credit ratings of instruments invested into by the Sub-Fund represent our and/or rating agencies' opinion regarding the credit quality of the instrument or the institution and are not a guarantee of quality. Rating methodologies generally rely on historical data, which may not be predictive of future trends and adjustments to credit ratings in

response to subsequent changes in circumstances may take time. When a debt security is rated, the downgrading of such debt security could decrease the value and liquidity of the security.

Where we rely on ratings issued by credit rating agencies, we have established a set of internal credit assessment standards and have put in place a credit assessment process to ensure that the Sub-Fund's investments are in line with these standards. Information on our credit assessment process will be made available to investors upon request.

We may rely, without independent investigation, upon pricing information and valuations furnished to the Sub-Fund by third parties, including pricing services and independent brokers/dealers. Their accuracy depends on these parties' methodology, due diligence and timely response to changing conditions. We will not be responsible for any failures by such parties in their valuations.

The above is not an exhaustive list of the risks which you should consider before investing in the Sub-Fund. An investment in the Sub-Fund may be exposed to other risks of an exceptional nature from time to time.

31. **Issue of Units**

Dealing Deadline:	3:00 p.m. Singapore time on a Dealing Day (or such other time on or prior to such Dealing Day as we may from time to time determine with the approval of the Trustee). For applications received and accepted after the Dealing Deadline or on a day which is not a Dealing Day, Units will be issued at the issue price for the next Dealing Day.
Pricing basis:	Units are issued on a forward pricing basis.
Issue price:	The issue price per Unit of each Class of the Sub-Fund shall be ascertained by: <ul style="list-style-type: none"> calculating the NAV as at the Valuation Point in relation to such Dealing Day on which such issue occurs of the proportion of the Deposited Property of the Class of the Sub-Fund represented by one Unit; and truncating the resultant amount to three decimal places (or such other method of determination or adjustment or number of decimal places as determined by us with the approval of the Trustee). Any adjustments shall be retained by the Sub-Fund.
Deduction of Subscription Fee:	A Subscription Fee may be deducted from the total subscription monies paid by you (the “ Gross Investment Amount ”), and the remainder (the “ Net Investment Amount ”) will be applied towards your subscription of Units.

Confirmation of purchase:	A confirmation note detailing your investment amount and the number of Units allocated to you will be sent to you within 5 Business Days for cash applications or 11 Business Days for CPF or SRS applications, from the date of issue of Units.

32. **Numerical example of how Units are allotted**

The following is an example of the number of Units you will acquire based on an investment of S\$1,000.00:

S\$1,000.00	-	S\$50.00	=	S\$950.00
Gross Investment Amount		Subscription Fee (5%) [^]		Net Investment Amount
S\$950.00	÷	S\$1.000 [^]	=	950.00*
Net Investment Amount		Notional issue price		Number of Units allotted

[^] Based on an issue price of S\$1.000 and a Subscription Fee of 5%. This example is for illustrative purposes only and is not an indication of future or likely performance of the Sub-Fund or any Class. The value of Units of the relevant Class and the resultant income may fluctuate. You should note that Units in some Classes may be denominated in a currency other than Singapore dollars.

* The number of Units to be issued will be rounded down to two decimal places.

33. Cancellation of initial subscription

Subject to the provisions of the Deed and to the terms and conditions for cancellation of subscription in the cancellation form provided together with the application form for Units, you may cancel your subscription for Units in a Class of the Sub-Fund by giving written notice or by submitting the cancellation form (whichever is applicable) to us or our authorised agents or distributors within 7 calendar days from the date of subscription or purchase of Units (or such longer period as may be agreed between us and the Trustee or such other period as may be prescribed by the Authority), provided that where the last day of such time period falls on a Sunday or a public holiday, the time period shall be extended to the next calendar day, not being a Sunday or a public holiday in Singapore. However you will have to take the risk of any change in the price of your Units since the date of your subscription and pay any bank charges, administrative or other fees imposed by the relevant authorised agent or distributor.

Instead of cancelling your subscription, you may choose to realise your Units in accordance with Part XII, but you will not enjoy the benefits of cancellation under this paragraph 33 (i.e. the Subscription Fee will not be refunded and a Realisation Charge (if any) may be imposed). Further, the Net Realisation Proceeds may be lower than the cancellation proceeds if any appreciation in the value of the Units is less than the aggregate of the Subscription Fee and Realisation Charge (if any) imposed.

For requests received and accepted after the Dealing Deadline or on a day that is not a Common Dealing Day, Units will be switched on the next Common Dealing Day.

XV. SUSPENSION OF DEALINGS

41. Subject to the provisions of the Code, we may at any time, with the prior written approval of the Trustee, suspend the issuance and realisation of Units in the Sub-Fund or a Class of the Sub-Fund:-

- (i) during any period when any Recognised Stock Exchange for any material proportion of the Investments for the time being constituting the Deposited Property of the Sub-Fund or the relevant Class is closed otherwise than for ordinary holidays; or
- (ii) during any period when dealings on any such Recognised Stock Exchange are restricted or suspended; or
- (iii) during any period when, in our opinion, there exists any state of affairs as a result of which withdrawal of deposits held for the account of the Sub-Fund or the relevant Class or the realisation of any material proportion of the Investments for the time being constituting the Deposited Property of the Sub-Fund or the relevant Class cannot be effected normally or without seriously prejudicing the interests of Holders as a whole; or

- (iv) during any period when in our opinion, there is a breakdown in the means of communication normally employed in determining the value of any of the Investments or the amount of any cash for the time being comprised in the Deposited Property of the Sub-Fund or the relevant Class or the amount of any liability of the Trustee for account of the Sub-Fund or the relevant Class or when for any other reason the value of any such Investments or the amount of any such cash or liability cannot be promptly and accurately ascertained; or
- (v) during any period when, in our opinion, the transfer of funds which will or may be involved in the realisation of any material proportion of the Investments for the time being constituting the Deposited Property of the Sub-Fund or the relevant Class cannot be effected promptly at normal rates of exchange; or
- (vi) if during any particular day the requests for realisation of Units exceed 10 per cent of the Units of the Sub-Fund or the relevant Class in issue and deemed to be in issue; or
- (vii) during any 48 hour period (or such other longer period as the Trustee and we may agree) prior to the date of any meeting of Holders of Units in the Sub-Fund or the relevant Class (or any adjourned meeting thereof); or
- (viii) during any period when the dealing of Units of the Sub-Fund or the relevant Class is suspended pursuant to any order or direction issued by the Authority; or
- (ix) during any period when the Trustee's or our business operations in relation to the operations of the Sub-Fund are substantially interrupted or closed as a result of or arising from pestilence, acts of war, terrorism, insurrection, revolution, civil unrest, riots, strikes or acts of God; or
- (x) such circumstances as may be required under the provisions of the Code.

For the purposes of this paragraph, the “**material proportion**” of the Investments means such proportion of the Investments which when sold would, in our opinion in consultation with the Trustee, cause the value of the Deposited Property of the Sub-Fund or the relevant Class to be significantly reduced.

42. We and/or the Trustee may from time to time also suspend the issue and/or realisation of Units under certain conditions as set out in the relevant provisions of the Deed.

Such suspension shall take effect upon our providing a written declaration to the Trustee or vice versa (as the case may be) and subject to the provisions of the Code, shall end on the day following the 1st Business Day on which the condition giving rise to the suspension no longer exists and no other conditions under which suspension is authorised above exist upon our or the Trustee (as the case may be) providing a written declaration of the same. The period of suspension may be extended in accordance with the Code. Any payment for any Units realised before the commencement of any such suspension which has not been paid before the commencement thereof may, if the Trustee and we agree, be deferred until immediately after the end of such suspension.

XVII. SOFT DOLLAR COMMISSIONS/ARRANGEMENTS

46. Subject to the provisions of the Code, we may from time to time receive or enter into soft-dollar commissions/arrangements in the management of the Sub-Fund. We will comply with applicable regulatory and industry standards on soft dollars. The soft-dollar commissions/arrangements may include specific advice as to the advisability of dealing in, or of the value of any investment, research and advisory services, economic and political analyses, portfolio analyses including valuation and performance measurement, market analyses, data and quotation services, computer hardware and software or any other information facilities to the extent that they are used to support the investment decision making process, the giving of advice, or the conduct of research or analysis, and custodian service in relation to the investments managed for clients. Soft-dollar commissions/arrangements shall not include travel, accommodation, entertainment, general administrative goods and services, general office equipment or premises, membership fees, employees' salaries or direct money payment.

We will not accept or enter into soft-dollar commissions/arrangements in respect of the Sub-Fund unless (a) such soft-dollar commissions/arrangements can reasonably be expected to assist us in our management of the Sub-Fund, (b) best execution is carried out for the transactions and (c) no unnecessary trades are entered into in order to qualify for such soft-dollar commissions/arrangements.

We do not and are not entitled to, retain cash or commission rebates for our own account in respect of rebates earned when transacting in securities for account of the Sub-Fund.

XVIII. CONFLICTS OF INTEREST

47. Managers' conflicts of interest disclosures

We are of the view that there is no conflict of interest in our management of other funds and the Sub-Fund because of the following structures in place:

- (a) Investment decisions for each fund are made impartially. There are no preferred customers or funds and all accounts are treated equally.
- (b) All investment ideas are shared equally among fund managers.
- (c) We subscribe to the Code of Ethics and the Standards of Professional Conduct as prescribed by the Chartered Financial Analyst Institute ("**CFA Institute**") in the United States of America. The CFA Institute is the primary professional organisation for security analysts, investment managers and others who are involved in the investment decision-making process. All charter holders of the CFA Institute and candidates who are in pursuit of the charter, including those from Singapore, are expected to comply with CFA Institute standards. The Code of Ethics and the Standards of Professional Conduct are in place to ensure high ethical and professional standards of investment professionals as well as fair treatment of the investing public.
- (d) Despite the possible overlap in the scope of investments, none of the funds are identical to one another and investment decisions are made according to the individual risk-return characteristic of the relevant fund.
- (e) Most importantly, our usual fair and unbiased practice is to allocate investments proportionately between various funds which place the same orders simultaneously. However, if there are any potential conflicts of interests due to competing orders for the same securities, we will adopt an average pricing policy whereby orders that are partially fulfilled on a particular day will be allotted proportionately among the funds based on their respective initial order size and such quantity allotted will be at the average price of such investments on that particular day.

We shall conduct all transactions with or for the Sub-Fund on an arm's length basis.

Save as provided in the Deed, our associates may be engaged to provide banking, brokerage, financial or other services to the Sub-Fund or buy, hold and deal in any investments, enter into contracts or other arrangements with the Trustee or us and make profits or derive benefits from these activities. Such services to the Sub-Fund, where provided, and such activities with the Trustee or us, where entered into, will be on an arm's length basis.

We and our related entities, officers or employees may from time to time invest and deal in Units for each of our respective individual accounts or (in our case and in the case of our related entities) for the account of another person (including, without limitation, our and our related entities' other clients).

In such an event, we will have regard to our obligations to the Sub-Fund and, in particular, our obligation to act in the best interests of the Sub-Fund and the Holders so far as practicable, having regard to applicable laws and our obligations to our other clients. If a conflict of interest does arise, we will endeavour to ensure that such conflict is resolved fairly.

Subject to the provisions of the Code, we may from time to time:

- (i) invest monies of the Sub-Fund in the securities of any of our related corporations (as defined in Section 4 of the Companies Act, Chapter 50 of Singapore) (each, a “**related corporation**”);
- (ii) invest monies of the Sub-Fund in other collective investment schemes managed by us or our related corporations; and
- (iii) deposit monies of the Sub-Fund in the ordinary course of business of the Fund with our related corporations which are banks licensed under the Banking Act, Chapter 19 of Singapore, finance companies licensed under the Finance Companies Act, Chapter 108 of Singapore, merchant banks approved as financial institutions under Section 28 of the Monetary Authority of Singapore Act, Chapter 186 of Singapore or any other deposit-taking institution licensed under an equivalent law in a foreign jurisdiction.

We will endeavour to ensure that such investments and deposits are made on normal commercial terms and are consistent with the investment objective, focus and approach of the Sub-Fund.

48. **Trustee’s conflicts of interest disclosures**

The Trustee shall conduct all transactions with or for the Sub-Fund on an arm’s length basis.

The Trustee, the registrar and the custodian may from time to time act as trustee, administrator, registrar or custodian or otherwise as may be required from time to time in relation to, or be otherwise involved in or with, other funds and clients which have similar investment objectives to those of the Sub-Fund. It is therefore possible that any of them may, in the course of business, have potential conflicts of interest with the Sub-Fund. Each will, at all times, have regard in such event to its obligations to the Sub-Fund and will endeavour to ensure that such conflicts are resolved fairly and taking into account Holders’ interests.

The services of the Trustee provided to the Fund are not deemed to be exclusive and the Trustee shall be free to render similar services to others (including those that may compete with (or have a similar objective to) the business of the Fund or the Sub-Fund) so long as its services to the Fund are not impaired thereby and to retain for its own use and benefit all appropriate fees and benefits. Conflicts of interest will likely arise from the fact that State Street is engaged in a wide variety of businesses and will provide services to many clients with the same or different objectives. The Trustee and its related parties shall not be deemed to be affected with notice of or to be under any duty to disclose to the Fund or the Sub-Fund any fact or information which comes to the notice of the Trustee in the course of the Trustee rendering similar services to other parties or in the course of its business in any other capacity, otherwise than in the course of carrying out its duties under the Deed or as required by any applicable laws and regulations for the time being in force.

Save as provided in the Deed, the associates of the Trustee may be engaged to provide banking, brokerage, financial or other services to the Sub-Fund or buy, hold and deal in any investments, enter into contracts or other arrangements with the Trustee or us and make profits or derive benefits from these activities. Such services to the Sub-Fund, where provided, and such activities with the Trustee or us, where entered into, will be on an arm’s length basis. In particular,

- (a) State Street Bank and Trust Company, acting through its Singapore Branch, a party related to the Trustee, has been appointed as custodian of the Fund. The custodian may also appoint related parties as sub-custodians. Cash will be placed with the custodian as banker or may, at our discretion, be invested in certificates of deposit or banking instruments issued by a related party of the Trustee, including the custodian. Money may also be borrowed by the Fund from a State Street entity. In its capacities as custodian and banker, State Street will earn fees/interest for such services and may receive other benefits in connection with such services; and

- (b) where foreign exchange transactions, including but not limited to spot, forward or swap transactions (collectively “**foreign exchange transactions**”), are entered into for or on behalf of the Sub-Fund with an affiliate of the Trustee (a “**State Street counterparty**”), the State Street counterparty will enter into such transaction as principal counterparty and not as agent or fiduciary for the Trustee, us or the Sub-Fund and such State Street counterparty shall be entitled to retain for its own use and benefit any benefit which it may derive from any such foreign exchange transactions or the holding of any cash in connection with such transactions. Foreign exchange transactions may also be entered into for or on behalf of the Sub-Fund with counterparties other than a State Street counterparty.

XXI. OTHER MATERIAL INFORMATION

51. **Market Timing**

The Sub-Fund is designed and managed to support medium to long-term investments. In this regard, we take a serious view of, and strongly discourage the practice of market timing (that is, investors conducting short-term buying or selling of Units to gain from inefficiencies in pricing) as such practices may cause an overall detriment to the long-term interest of other investors. In addition, short-term trading in Units increases the total transaction costs of the Sub-Fund, such as trading commission and other costs which are absorbed by all other investors. Moreover, the widespread practice of market timing may cause large movements of cash in the Sub-Fund which may disrupt the investment strategies to the detriment of long-term investors.

For the reasons set out above, we may implement internal measures to monitor and control the practice of market timing. If any internal measure to restrict the practice of market timing amounts to a significant change to the Sub-Fund (as provided in the Code), we will inform Holders of such internal measure not later than one month before its implementation. We intend to review our policy on market timing from time to time in a continuous effort to protect the long-term interests of investors in the Sub-Fund.

52. **Information on investments**

At the end of each calendar quarter, you will receive a statement showing the value of your investment. However, if you conduct any transaction(s) within a particular month, you will receive an additional statement at the end of that month.

53. **Indemnity out of Deposited Property**

We and the Trustee are entitled to be indemnified out of or have recourse to the Deposited Property in accordance with the terms of the Deed. See the Deed for further details.

54. **Liquidation of the Managers, the Trustee or the custodian**

Subject to the provisions of the Deed, if the Managers or the Trustee go into liquidation (except for a voluntary liquidation for the purpose of reconstruction or amalgamation), new managers or a new trustee (as the case may be) may be appointed or the Fund may be terminated. See the Deed for further details on what happens if the Managers or the Trustee go into liquidation.

Custodial risk

There are risks involved in dealing with the custodian who holds the Sub-Fund's investments or settles the Sub-Fund's trades. It is possible that, in the event of the insolvency or bankruptcy of the custodian, the Sub-Fund would be delayed or prevented from recovering its assets from the custodian, or its estate, and may have only a general unsecured claim against the custodian for those assets. In recent insolvencies of financial institutions, the ability of certain customers to recover their assets from the insolvent financial institution's estate has been delayed, limited, or prevented, often unpredictably, and there is no assurance that any assets held by the Sub-Fund with the custodian will be readily recoverable by the Sub-Fund. In addition, there may be limited recourse against non-U.S. sub-custodians in situations where the Sub-Fund invests in markets where custodial and/or settlement systems and regulations are not fully developed, including emerging markets, and the assets of the Sub-Fund have been entrusted to such non-U.S. sub-custodians.

XXII. PROVISIONS OF THE DEED

55. Some of the provisions of the Deed are set out below. *You should refer to the Deed for the full terms and conditions of the Fund.*

56. **Distributions**

As and when the Managers shall decide to be a distribution date, the Managers shall by notice in writing direct the Trustee to distribute the said amount available for distribution in the Distribution Account on that distribution date among the Holders (and the Managers in respect of any Units to which they are entitled) of Units in the relevant Class.

56.5 Any distribution made pursuant to this paragraph 56 that remains unclaimed after a period of 12 months shall be dealt with in accordance with Clause 14 of the Deed.

56.6 If a distribution is made, the Managers shall cause the auditors of the Fund to write to the Trustee stating that in the opinion of the auditors, the amount to be transferred to the Distribution Account as at the said accounting date respectively represents the amount available for distribution in accordance with Clause 11(D) of the Deed and that there are no amounts considered by the auditors to be of a capital nature contained therein. The Trustee and the Managers shall be absolutely protected in relying on and shall act upon such an audited statement.

57. **Custody of Investments**

57.1 The Trustee shall be responsible for the safe-keeping of the Investments and other property forming part of the Deposited Property in accordance with the provisions of the Deed and such Investments and other property shall (whether in bearer or registered form) be dealt with as the Trustee may think proper for the purpose of providing for the safe-keeping thereof.

Without prejudice to paragraph 57.1, the Trustee may from time to time appoint such person or persons (including any associate of the Trustee) as it thinks fit as custodian or joint custodians of the whole or any part of the Deposited Property and may empower any such custodian or joint custodian to appoint, with the prior consent in writing of the Trustee, sub-custodians and the fees and expenses of such custodian, joint custodians and sub-custodians shall be paid out by the Managers, and if it so requires, out of the Deposited Property of the Sub-Fund.

57.3 The Trustee shall not incur any liability in respect of and shall not be responsible for:-

- (h) any value (whether of an Investment or cash) otherwise than in Singapore dollars and any borrowing otherwise than in Singapore dollars shall be converted into Singapore dollars at the mean of the closing, buying and selling telegraphic transfer rates quoted by any licensed bank including UOB on the Valuation Point or at the rate (whether official or otherwise) which the Managers after consulting with or in accordance with a method approved by the Trustee shall deem appropriate to the circumstances having regard inter alia to any premium or discount which may be relevant and to costs of exchange (if any) PROVIDED THAT any determination made by the Managers hereunder as to any rate of exchange or method of determination thereof in accordance with the provisions of this paragraph shall be final and binding; and
- (i) any amendment to the method of valuation by the Managers shall be made only with the prior approval of the Trustee. The Managers shall give notice of such amendment to the Holders if so required by the Trustee;
- (v) In respect of paragraph 62(iv) above, in the case of the Sub-Fund which has more than one Class, the NAV of the proportion of the Deposited Property attributable to each Class shall be calculated by apportioning the value of the Deposited Property (obtained in accordance with paragraphs 62(i), 62(ii) and 62(iv) above provided that no deduction or addition shall be made in respect of expenses, charges or other amounts which are not common to all the Classes) between the Classes and then deducting from or adding to the value of the proportion of the Deposited Property for each Class any expense, charge or other amount attributable to such Class (including, but not limited to, the Management Fee if it differs between Classes within the Sub-Fund). For the avoidance of doubt, where any expense, charge or amount payable out of or payable into the Deposited Property of the Sub-Fund pursuant to the Deed is attributable only to a particular Class within the Sub-Fund, such amount shall only be deducted from or added to the value of the Deposited Property which is attributable to that Class and shall not affect the calculation of the value of the Deposited Property attributable to other Classes within the Sub-Fund.

63. **Automatic Switching of Units**

Unless specifically instructed otherwise in writing by the relevant Holder prior to such date as the Managers may determine, all or any of a Holder's Units in a Class of the Sub-Fund (the "**Relevant Class**") may at the discretion of the Managers (in consultation with the Trustee) be automatically switched to Units of such other Class of the Sub-Fund on such date as may be determined by the Managers, by giving prior notice to that Holder, provided that such automatic switch does not materially prejudice the interests of that Holder or Holders of Units in the Relevant Class. The provisions of Clause 7(M) of the Deed shall apply mutatis mutandis to any automatic switch pursuant to this paragraph 63 but the Holders shall not be liable for any Subscription Fee, Realisation Charge or other fees, charges or expenses (whether incurred by the Managers or otherwise) pursuant to the said automatic switch.

64. **Saving Clause as to Indemnities**

Any indemnity expressly given to the Trustee and/or the Managers in the Deed is in addition to and without prejudice to any indemnity allowed by law Provided Nevertheless That nothing in any of the provisions of the Deed shall in any case in which the Trustee and/or the Managers, as the case may be, have failed to show the degree of diligence and care required by them by the provisions of the Deed exempt them from or indemnify them against any liability for breach of trust or any liability which by virtue of any rule of law would otherwise attach to them in respect of any negligence, default, breach of duty or trust of which they may be guilty in relation to their duties.
