Letter to Shareholders

Dear Shareholder,

We are pleased to provide you with the annual report for Legg Mason Global Funds Plc (the "Company") for the twelve-month period ended 28 February 2022. In this report, we highlight the key drivers behind the performance of bond and equity markets over the period.

Global Economic Review

Global economies continued to be impacted by COVID-19 and its variants, sharply rising inflation, and monetary and fiscal policies. Late in the period, the outbreak of war in Ukraine added another layer of uncertainty. In its January 2022 *World Economic Outlook*, the International Monetary Fund ("IMF") said "The global economy enters 2022 in a weaker position than previously expected. As the new Omicron COVID-19 variant spreads, countries have reimposed mobility restrictions. Rising energy prices and supply disruptions have resulted in higher and more broadbased inflation than anticipated, notably in the United States and many emerging market and developing economies. The ongoing retrenchment of China's real estate sector and slower-than-expected recovery of private consumption also have limited growth prospects." From a regional perspective, the IMF expects U.S. GDP growth to be 4.0% in 2022, compared to a 5.6% expansion in 2021. In addition, the IMF expects 2022 GDP growth in the Eurozone, U.K. and Japan will be 3.9%, 4.7% and 3.3%, respectively. For comparison purposes, the GDP of these economies grew 5.2%, 7.2% and 1.6%, respectively, in 2021.

Market Review – Fixed Incomeⁱ

The global fixed income market generated weak results during the reporting period. In the US, short-term Treasury yields rose sharply, as the Federal Reserve Board ("Fed")ⁱⁱ began tapering its asset purchases. In addition, with inflation reaching a 40-year high, the central bank indicated that it would soon start raising the federal funds rate.ⁱⁱⁱ The Fed then began raising interest rates in March 2022, after the reporting period ended, and anticipates six additional rate hikes before the end of the year. Long-term US Treasury yields also rose as economic growth was resilient and given elevated inflation (yields and prices move in the opposite direction). US 10-year Treasury yields began the reporting period at 1.44% and ended the period at 1.83%. This trend also occurred in a number of developed market countries outside the US. All told, the spread sectors (non-US Treasuries), including investment-grade^{iv} corporate bonds,^v lower-rated corporate bonds and US dollar-denominated emerging market sovereign debt, posted negative returns.

Market Review – Global Equities^{vi}

The global equity market generated mixed results during the reporting period. Supporting the market were the rollout of several COVID-19 vaccines, economic growth, and corporate profits that often exceeded expectations. However, these positive were offset by expectations for monetary policy tightening and a number of geopolitical events, including the war in Ukraine. All told, US equities posted strong results over the reporting period. Equities in developed market countries moved higher, albeit to a modest extent, whereas emerging market equities posted weak results.

We thank you for your continued support.

Yours sincerely,

Franklin Templeton International Services S.à r.l

Directors' Report

The directors of the Company (the "Directors") submit their annual report together with the audited financial statements for the financial year ended 28 February 2022.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the directors' report and the financial statements in accordance with Irish law.

Irish company law requires the Directors to prepare financial statements for each financial year that give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and of the profit or loss of the Company for the financial year. The Directors have prepared the financial statements in accordance with the accounting standards generally accepted in Ireland, including Financial Reporting Standard ("FRS") 102: "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" ("FRS102").

Under Irish company law, the Directors shall not approve the financial statements unless they are satisfied that they give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and the profit or loss of the Company for the financial year.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for ensuring that adequate accounting records are kept that are sufficient to:

- correctly record and explain the transactions of the Company;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and
- enable the Directors to ensure that the financial statements comply with the requirements of the Companies Act 2014 and enable those financial statements to be audited.

To achieve this, the Directors have appointed an experienced administrator, BNY Mellon Fund Services (Ireland) Designated Activity Company, to maintain the accounting records and perform additional administrative duties.

The Directors are also responsible for safeguarding the assets of the Company. In fulfilment of this responsibility, they have appointed The Bank of New York Mellon SA/NV, Dublin Branch, to safekeep the Company's assets in accordance with the constitution of the Company. In addition, the Directors are responsible for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the financial statements of the Company included on the website of Franklin Templeton affiliates that distribute the Funds. Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Review of Business and Future Developments

The Letter to Shareholders on page 16 contains a review of the factors which contributed to the performance of the Funds for the year. Directors' Report – (continued)

Directors' and Secretary's Interests

The Directors and secretary and their families had no interests in the shares of the Company as at 28 February 2022 and 28 February 2021. No Director had at any time during the financial year, a material interest in any contract of significance, subsisting during or at the end of the financial year, in relation to the business of the Company.

Corporate Governance Statement

The Board of Directors of the Company (the "Board") has assessed all measures included in the voluntary Corporate Governance Code for Collective Investment Schemes and Management Companies as published by the Irish Funds in December 2011 (the "Irish Funds Code"). The Board has adopted all corporate governance practices and procedures in the Irish Funds Code.

Director's Compliance Statement

It is the policy of the Company to comply with its relevant obligations (as defined in the Companies Act 2014). As required by Section 225(2) of the Companies Act 2014, the Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations. The Directors have drawn up a compliance policy statement as defined in Section 225(3)(a) of the Companies Act 2014 and a compliance policy which refers to the arrangements and structures that are in place and which are, in the Directors' opinion, designed to secure material compliance with the Company's relevant obligations. In discharging their responsibilities under Section 225, the Directors relied upon, among other things, the services provided, advice and/or representations from third parties whom the Directors believe have the requisite knowledge and experience in order to secure material compliance with the Company's relevant obligations.

Relevant Audit Information

So far as the Directors are aware, there is no relevant audit information of which the Company's auditors are unaware and the Directors have taken all the steps that ought to have been taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Connected Person Transactions

Regulation 43(1) of the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations") states that a "responsible person shall ensure that any transaction between a UCITS and a connected person is (a) conducted at arm's length; and (b) in the best interests of the unit-holders of the UCITS".

As required under Regulation 81(4) of the Central Bank UCITS Regulations, the Board is satisfied that (a) there are arrangements in place, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with connected persons; and (b) all transactions with connected persons that were entered into during the financial year complied with the obligations that are prescribed by Regulation 43(1).

Independent Auditors

PricewaterhouseCoopers have indicated their willingness to remain in office in accordance with Section 383(2) of the Companies Act 2014.

Periodic Reporting for Article 8 SFDR Products only

Transparency of the promotion of environmental or social characteristics and of sustainable investments in periodic reports

The Sustainable Finance Disclosure Regulation ((EU) 2019/2088), (the "SFDR") requires the Company to include a description in its periodic reports of the extent to which any Fund classified pursuant to Article 8 of the SFDR (an "Article 8 Fund") has met its environmental or social characteristics.

The SFDR also empowers the European Banking Authority, the European Insurance and Occupational Pensions Authority and the European Securities and Markets Authority (collectively "ESAs") to develop draft regulatory technical standards ("RTS") to specify the information and presentation format in the periodic reports. As at the date of this report, the ESAs have not yet finalised the RTS and the EU Commission has indicated that the entry into force of the RTS will be delayed until 1 January 2023.

Since the RTS are not yet finalised or in force, the following disclosures have been prepared in the absence of a common set of sustainability disclosures or reporting requirements which will come into effect when the RTS is finalised and in force.

Investment Objective – To maximise total return, consisting of income and capital appreciation.

Investment Policies – The Fund invests at least 80 per cent of its net asset value in debt securities of issuers located in Emerging Market Countries (hereinafter "Emerging Market Debt Securities") that are listed or traded on Regulated Markets as listed in Schedule III of the Prospectus, and (ii) units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations and such investments will be for the purpose of gaining exposure to the types of instruments described herein or otherwise to pursue the investment objective and policies of the Fund. The Fund may invest in the following types of securities that are listed or traded on Regulated Market: debt securities issued or guaranteed by national governments located in Developed Countries and Emerging Market Countries, their agencies or instrumentalities and political sub-divisions (including inflation protected securities); corporate debt securities of issuers located in developed and emerging markets whose securities are listed or traded on Regulated Markets, including freely transferable promissory notes, debentures, bonds (including zero coupon bonds), convertible and non-convertible notes, commercial paper, certificates of deposits, and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; mortgage-backed securities (including collateralised debt obligations), securitised participations in loans that are freely transferable securities, structured notes that are transferable securities whose underlying exposure may be to fixed income securities; asset-backed securities; preferred shares and other open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations; and provided that at least two-thirds of the Fund's net asset value is invested in non-convertible debt securities.

A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. The Fund may purchase unsecuritised participations in or assignments of floating rate mortgages or other commercial loans that are liquid and will provide for interest rate adjustments at least every 397 days and which may be secured by real estate or other assets. Such participations, combined with any other investments that are subject to Clause 2.1 in Schedule II.A. of the Prospectus, will not exceed 10 per cent of the net asset value of the Fund in the aggregate. The Fund's investments may be denominated in currencies other than the Base Currency. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

Legg Mason Western Asset Emerging Markets Corporate Bond Fund*

Investment Objective – To maximise total return, consisting of income and capital appreciation.

Investment Policies – The Fund invests at least 70 per cent of its net asset value in Emerging Market Corporate Bonds denominated in any currency, that are listed or traded on Regulated Markets, including (i) freely transferable promissory notes, debentures, fixed and floating rate bonds (including zero coupon bonds), convertible and non-convertible notes, commercial paper, certificates of deposits, and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; (ii) mortgage-backed securities (including collateralised debt obligations); (iii) securitised participations in loans that are freely transferable securities; (iv) structured notes that are transferable securities whose underlying exposure may be to fixed income securities; and (v) asset-backed securities.

The Fund may invest up to 30 per cent of its net asset value in the following types of securities that are listed or traded on Regulated Markets (the following may be denominated in any currency) and where they are not Emerging Market Corporate Bonds: (i) debt securities issued or guaranteed by national governments located in any country, their agencies or instrumentalities and political sub-divisions (including inflation protected securities); (ii) corporate debt securities of issuers located in countries other than Emerging Market Countries whose securities are listed or traded on Regulated Markets, including freely transferable promissory notes, debentures, fixed and floating rate bonds (including zero coupon bonds), convertible and non-convertible notes, commercial paper, certificates of deposits, and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; (iii) mortgage-backed securities (including collateralised debt obligations); (iv) securitised participations in loans that are freely transferable securities; (v) structured notes that are transferable securities whose underlying exposure may be to fixed income securities; (vi) asset-backed securities; (vii) preferred shares; and (viii) other open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund may invest in common stocks, preferred securities, convertible securities, warrants, rights and their equivalents. The Fund will not invest more than 25 per cent of its net asset value in convertible debt securities issued in independent offerings and not more than 10 per cent of its net asset value in preferred shares issued in independent offerings. Investments in common stocks, preferred securities, warrants, rights and their equivalents (including through independent offerings and otherwise) in aggregate will not exceed 30 per cent of the Fund's net asset value. As restrictions to the foregoing, the Fund may not invest more than 10 per cent of its net asset value, respectively, for the following types of securities: (i) mortgage-backed securities (including collateralised debt obligations); (ii) structured notes that are transferable securities whose underlying exposure may be to fixed income securities; and (iii) asset-backed securities. The mortgage-backed securities, asset-backed securities, structured notes and credit-linked notes in which the Fund may invest may contain embedded derivatives and/or leverage. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund may be leveraged to up to 100 per cent of its net asset value (as calculated using the commitment approach) as a result of its use of derivative instruments. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

Legg Mason Western Asset Global High Yield Fund

Investment Objective – To generate total return. The generation of high current income is a secondary objective.

Investment Policies – The Fund invests at least 70 per cent of its net asset value in high yielding debt securities listed or traded on Regulated Markets as listed in Schedule III of the Prospectus. Higher yields are generally available from securities rated BB+ or lower by S&P, or the equivalent by another NRSRO, or unrated securities of equivalent quality. Debt securities rated below Investment Grade are deemed by these agencies to be predominantly speculative with respect to the issuer's capacity to pay interest and repay principal and may involve major risk of exposure to adverse conditions. The Fund may invest in debt securities rated as low as D by S&P or the equivalent by another NRSRO, which ratings indicate that the obligations are highly speculative and may be in default or in danger of default as to principal and interest. It is not expected that the Fund will invest more than 45 per cent of its net asset value in high yield securities issued in Emerging Market Countries, Emerging European Countries and/or Emerging Asia/Pacific Countries. It is expected that the Fund will invest in at least 10 different countries. The Fund is a global fund, however, and is not confined to investing in any specific country or region. The Fund may purchase unsecured participations in or assignments of floating rate mortgages or other commercial loans that are liquid and will provide for interest rate adjustments at least every 397 days and which may be secured by real estate or other assets. Such participations, combined with any other investments that are subject to Clause 2.1 in Schedule II.A. of the Prospectus, will not exceed 10 per cent of the net asset value of the Fund in the aggregate. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund may be leveraged to up to 100 per cent of its net asset value (as calculated using the commitment approach) as a result of its use of derivative instruments. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

Legg Mason Western Asset Global Inflation Management Fund

Investment Objective – To generate total return. The generation of current income is a secondary objective.

Investment Policies – The Fund seeks to achieve its Investment Objective by investing at all times at least 80 per cent of its net asset value in inflation-protected securities or other securities that the Investment Manager and Sub-Investment Manager believe will provide protection against inflation that are issued by national governments of countries that are members of the OECD, their agencies, instrumentalities and political sub-divisions, supranational organisations and corporate issuers such as freely transferable promissory notes, debentures and bonds and are listed or traded on Regulated Markets as set out in Schedule III of the Prospectus. The Fund may also invest up to 20 per cent of its net asset value in any other types of debt securities listed or traded on Regulated Markets listed in Schedule III of the Prospectus that may or may not be indexed to inflation including debt securities issued or guaranteed by the national governments, their agencies, instrumentalities, and political subdivisions (including STRIP securities); corporate debt securities such as freely transferable promissory notes, debentures, bonds (including zero coupon bonds, step-up securities, and payment-in-kind securities), commercial paper, certificates of deposit, and bankers' acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; mortgage-backed and asset-backed securities structured as debt instruments; reverse repurchase agreements with debt securities as the underlying instruments (for efficient portfolio management purposes only and subject to the requirements of the Central Bank); structured notes that are transferable securities whose underlying exposure may be to fixed income securities; securitised participations in loans that are freely transferable securities; Money Market Instruments; units or shares of other open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations; and (subject to a limit of 10 per cent of the Fund's net asset value) preferred shares and other equity and equity related securities. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. The Fund will not invest in securities rated below Investment Grade. A maximum of 10 per cent of the Fund's net asset value may be invested in securities which are listed or traded on a Regulated Market in any Emerging Market Country, Emerging European Country or Emerging Asia/Pacific Country. It is expected that the Fund will maintain an average credit quality between A and AAA (S&P) / A2 and Aaa (Moody's). The Fund's average portfolio duration is expected to be between one and fifteen years. However, the Fund may invest in individual securities of any duration.

The Fund may invest in certain types of derivatives, and may be leveraged to up to 100 per cent of its net asset value (as calculated using the commitment approach) as a result of its use of derivative instruments. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

Legg Mason Western Asset Asian Opportunities Fund

Investment Objective – To maximise total return, through income and capital appreciation.

Investment Policies – The Fund invests at least 70 per cent of its net asset value in debt securities issued by Asian issuers and in derivatives on Asian interest rates and currencies, which debt securities and derivatives are listed or traded on Regulated Markets as set out in Schedule III of the Prospectus. The Fund invests primarily in (i) debt securities issued or guaranteed by national governments located in Asian countries, their agencies, instrumentalities or political sub-divisions; (ii) corporate debt securities issued by Asian companies such as freely transferable promissory notes, debentures, bonds (including zero coupon bonds), commercial paper, certificates of deposits and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; (iii) securitised participations in loans that are freely transferable securities; (iv) structured notes that are transferable securities whose underlying exposure may be to fixed income securities; (v) mortgage-backed and asset-backed securities that are structured as debt securities; (vi) derivatives on Asian interest rates and Asian bonds concluded with highly rated Asian or global credit institutions; (vii) Asian currencies and derivatives on those currencies. For purposes of this Fund, an Asian company is a company which has its registered office located in an Asian country or that conducts the predominant portion of its economic activities in Asia.

The Fund may invest no more than 10 per cent of its net asset value in units or shares of other open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. A maximum of 25 per cent of the Fund's net asset value may be invested in convertible notes and up to 10 per cent of the Fund's net asset value may be invested in preferred shares, other equity securities and/or warrants. A maximum of 5 per cent of the Fund's net asset value may be invested in warrants.

The Fund may be leveraged to up to 100 per cent of its net asset value (as calculated using the commitment approach) as a result of its use of derivative instruments. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

Legg Mason Western Asset Short Duration Blue Chip Bond Fund

Investment Objective – To achieve total return, through income and capital appreciation.

Investment Policies – The Fund invests primarily in debt securities that are (i) rated A- or higher by S&P or the equivalent by another NRSRO, or if unrated deemed to be of comparable quality; (ii) (a) issued by corporate issuers domiciled in any jurisdiction other than an Emerging Market Country which are, at the time of purchase and in the opinion of the Sub-Investment Managers, "blue chip" companies, meaning they have a long-term debt rating of A- or higher by S&P or the equivalent by another NRSRO, or if unrated are deemed to be of comparable quality; and/or (b) issued by supranational organisations which have a long-term debt rating of A- or higher by S&P or the equivalent by another NRSRO, or if unrated are deemed to be of comparable quality; and (iii) listed or traded on Regulated Markets set out in Schedule III of the Prospectus.

The Fund will only invest in those corporate debt securities that in the opinion of the relevant Investment Manager and Sub-Investment Manager are ranked at least senior unsecured corporate debt securities of the relevant issuer. In addition, the Fund may invest in securities issued or guaranteed by national governments (including STRIPS and inflation index-linked securities), their agencies, instrumentalities and political sub-divisions, securities of supranational organisations such as freely transferable promissory notes, bonds and debentures; reverse repurchase agreements with debt securities as the underlying instruments (for efficient portfolio management purposes only and subject to the requirements of the Central Bank of Ireland); and other open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. The Fund may invest no more than 10 per cent of its net asset value in units or shares of other UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund may invest in certain types of derivatives, and the Fund's leverage arising from derivatives is not expected to exceed 50 per cent (as calculated using the commitment approach) of its total net asset value. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The securities comprising the investment universe of the Fund are evaluated using a proprietary system and MSCI's ESG framework in order to determine the ESG rating of the overall investment universe and each individual issuer and its securities and thereafter the Investment Manager selects investments for the Fund having regard to the investment policy of the Fund and the ESG ratings of the securities.

The Fund seeks to invest in securities of issuers that, in the aggregate, achieve a weighted average portfolio carbon intensity which is at least 20% lower than the ICE BofA Global Corporate 1 – 5 year AAA-A Global Large Cap Corporate 30% Financial Constrained Index (the "Benchmark"). The Investment Manager defines carbon footprint as the weighted average of carbon emissions intensity of securities held within the portfolio. Carbon emissions intensity refers to the Greenhouse Gas ("GHG") Protocol Scope 1 and Scope 2 carbon emitted by an issuer.

The Fund's portfolio will maintain an average MSCI ESG rating of BBB or better. The Fund may invest no more than 10% of its Net Asset Value in securities of issuers with MSCI ESG ratings of BB or below at the time of purchase. As a result of the integrated approach to ESG, the Investment Manager applies ESG ratings to at least 90% of the securities in which the Fund invests. The Fund will maintain a portfolio ESG rating higher than that of the Fund's investment universe. Additionally, the Fund will seek to invest at least 20% of its Net Asset Value in securities of issuers whose activities contribute to at least 1 of 8 selected United Nations Sustainable Development Goals (UNSDGs).

The Fund will exclude investments in securities of the following issuers:

- Issuers that do not follow good governance practices, as determined by the Investment Manager;
- Issuers deriving over 5% of revenue from tobacco production and/or distribution;
- Issuers deriving over 10% of revenue from:
 - civilian firearms (manufacturing/ supply),
 - any involvement in conventional weapons,
 - thermal coal mining (production/distribution),
- Issuers deriving over 5% of revenue from the production of nuclear weapons;
- Issuers that manufacture controversial weapons (i.e. anti-personnel landmines, biochemical weapons, blinding laser weapons, depleted uranium, incendiary weapons, and non-detectable fragments), own a controversial weapons company, or are owned by a controversial weapons company;
- Issuers assessed as "fail" under the UN Global Compact; and
- State and/or sovereign issuers that score inadequately according to the Freedom House Index.

The Investment Manager will engage with issuers on environmental, social and governance practices through conversations with management. The Investment Manager's engagement process seeks to align with the United Nations Global Compact principles.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

Legg Mason Western Asset Global Core Plus Bond Fund[^]

Investment Objective – To maximise total return through income and capital appreciation.

Investment Policies – The Fund invests at least two-thirds of its net asset value in the global fixed income markets. The Fund invests primarily in debt securities (either directly or indirectly in other collective investment schemes that primarily invest in such securities, subject to the restrictions herein) that are denominated in US Dollars, Euro, Japanese Yen, Pound Sterling and variety of other currencies and are listed or traded on Regulated Markets in Developed Countries and Emerging Market Countries with a bias toward

non-sovereign debt securities, especially corporate debt securities and mortgage-backed securities. The Fund may invest in non-US denominated securities, currencies and derivatives, provided that the aggregate exposure to currencies other than US Dollars (after hedging) is no more than 50 per cent of the Fund's net asset value.

The Fund invests in securities issued or guaranteed by national governments, their agencies, instrumentalities, and political sub-divisions (including STRIPS and inflation index-linked securities); securities of supranational organisations such as freely transferable promissory notes, bonds and debentures; corporate debt securities such as freely transferable promissory notes, debentures, Brady Bonds, adjustable rate bonds, floating rate bonds, planned amortisation bonds, targeted amortisation bonds, principal only bonds, Eurobonds, Eurodollar bonds and Yankee dollar instruments, payment-in-kind bonds, zero coupon bonds, non-convertible notes, commercial paper, certificates of deposit, and bankers' acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; mortgage-backed and asset-backed securities that are structured as debt securities; and reverse repurchase agreements with debt securities as the underlying instruments (for efficient portfolio management purposes only and subject to the requirements of the Central Bank). The Fund may invest no more than 10 per cent of its net asset value in units or shares of other UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund may purchase unsecuritised participations in or assignments of floating rate mortgages or other commercial loans that are liquid and will provide for interest rate adjustments at least every 397 days and which may be secured by real estate or other assets. The Fund may invest in certain types of derivatives and may be leveraged to up to 100 per cent of its net asset value as a result of its use of derivatives. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

Legg Mason Western Asset Global Credit Fund[^]

Investment Objective – To maximise total return through income and capital appreciation.

Investment Policies – The Fund invests at least two-thirds of its net asset value in corporate debt securities and debts securities issued by supranational organisations that are (i) denominated in US Dollars, Japanese Yen, Euro, Pound Sterling and a variety of other currencies, and (ii) listed or traded on Regulated Markets set out in Schedule III of the Prospectus. The types of corporate debt securities in which the Fund may invest include freely transferable promissory notes, fixed and floating rate bonds, zero coupon bonds, debentures, non-convertible notes, commercial paper, certificates of deposit and bankers' acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations. In addition, the Fund may invest in securities issued or guaranteed by national governments (including STRIPS and inflation index-linked securities), their agencies, instrumentalities and political sub-divisions, securities of supranational organisations such as freely transferable promissory notes, bonds and debentures; securitised participations in loans that are freely transferable securities; structured notes that are freely transferable securities; mortgage-backed securities (including collateralised mortgage obligations); asset-backed securities structured as debt instruments; reverse repurchase agreements with debt securities as the underlying instruments (for efficient portfolio management purposes only and subject to the requirements of the Central Bank); and other open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund will not purchase equity securities or beneficial interests in equity securities except for preferred shares or warrants, provided that no more than 10 per cent of the Fund's net asset value may be invested in preferred shares and/or warrants; and equity securities acquired via conversions of convertible debt securities or via corporate actions of issuers. The Fund may invest no more than 10 per cent of its net asset value in units or shares of other UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund may purchase securities that at the time of purchase are rated below Investment Grade or, if unrated, deemed by the Investment Manager and Sub-Investment Managers to be of comparable quality, so long as such purchase would not cause more than 10 per cent of the Fund's net asset value to be comprised of investments that are rated below Investment Grade or if unrated deemed by the Investment Manager and Sub-Investment Managers to be of comparable quality. The Fund may invest in certain types of derivatives and may be leveraged to up to 100 per cent of its net asset value (as calculated using the commitment approach) as a result of its use of derivatives. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

Investment Objective – To maximise total return through income and capital appreciation.

Investment Policies – The Fund invests at all times at least two-thirds of its net asset value in corporate debt securities that are (i) denominated in US Dollars, and (ii) listed or traded on Regulated Markets set out in Schedule III of the Prospectus.

The types of corporate debt securities in which the Fund may invest include freely transferable promissory notes, fixed and floating rate bonds, zero coupon bonds, debentures, non-convertible notes, commercial paper, certificates of deposit and bankers' acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations.

In addition, the Fund may invest in securities issued or guaranteed by national governments (including STRIPS and inflation index-linked securities), their agencies, instrumentalities and political sub-divisions, securities of supranational organisations such as freely transferable promissory notes, bonds and debentures; securitised participations in loans that are freely transferable securities; structured notes that are freely transferable securities; mortgage-backed securities (including collateralised mortgage obligations); asset-backed securities structured as debt instruments; reverse repurchase agreements with debt securities as the underlying instruments (for efficient portfolio management purposes only and subject to the requirements of the Central Bank); and other open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations, and such investments will be for the purposes of gaining exposure to the types of instruments described herein or otherwise to pursue the Investment Objective and policies of the Fund. The Fund may invest no more than 10 per cent of its net asset value in units or shares of other UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund may invest in certain types of derivatives, and may be leveraged to up to 100 per cent of its net asset value as a result of its use of derivative instruments. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

Legg Mason Brandywine Global Fixed Income Fund

Investment Objective – To maximise total return consisting of income and capital appreciation.

Investment Policies – The Fund invests at all times at least two-thirds of its net asset value in debt securities that are (i) listed or traded on Regulated Markets primarily in the following countries; and (ii) denominated in currencies of, or issuers located in, primarily the following countries: the United States, Canada, Australia, Japan, Austria, Belgium, Finland, France, Germany, Greece, Ireland, Italy, the Netherlands, Portugal, Spain, Denmark, Sweden, Switzerland, the United Kingdom, New Zealand, Norway, Hungary, Poland, and the Czech Republic. The Fund may also invest in debt securities that are listed or traded on Regulated Markets located in other Developed Countries as set out in Schedule III of the Prospectus.

All debt securities purchased by the Fund will be rated Investment Grade at the time of purchase. If an investment so purchased is subsequently downgraded to below Investment Grade after the time of purchase, the Investment Manager may in its discretion continue to hold the debt security if it determines that doing so is in the best interests of shareholders. The Fund may invest up to 20 per cent of its net asset value in debt securities of issuers located in countries where both of the following criteria apply: (i) the country's local currency denominated long-term debt is rated below A- by S&P or the equivalent by all NRSROs rating the debt and (ii) the country is not represented in the Citigroup World Government Bond Index. A maximum of 25 per cent of the Fund's net asset value may be invested in convertible debt securities and up to 10 per cent of the Fund's net asset value may be invested in equity securities and/or warrants. No more than 5 per cent of the Fund's net asset value will be invested in warrants. The Fund may invest no more than 10 per cent of its net asset value in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 25 per cent of its net asset value. The Fund will not be leveraged, including any synthetic short positions, in excess of 100 per cent of its net asset value (as calculated using the commitment approach).

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The Investment Manager utilises a multifaceted approach to assess the environmental, social, governance ("ESG") factors across at least 90% of its current and prospective holdings. This process entails using a proprietary system for scoring and ranking issuers along with the use of external vendor raw data, metrics, and analysis. The results of this analysis form the basis for portfolio exclusion where the bottom decile, as defined by the environmental and social factors for sovereign issues, of the investable universe will be screened out and the second lowest decile will become automatic engagement candidates.

The Fund does not have a specific sector exclusion on government issuers that rely on fossil fuel and/or natural resource exports; however, sovereign issuers that rely on these commodity sectors may be excluded if their Environmental & Social scores fall in the bottom decile according to the ESG methodology used.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

Legg Mason Brandywine Global Fixed Income Absolute Return Fund[^]

Investment Objective – To generate positive returns that are independent of market cycles.

Investment Policies – The Fund invests at least 70 per cent of its net asset value in (i) debt securities, convertible securities and preferred shares that are listed or traded on Regulated Markets located anywhere in the world (ii) units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations; and (iii) derivatives providing exposure to any or all of the following: debt securities, interest rates, currencies and fixed income indices meeting the eligibility requirements of the Central Bank. The Fund may not invest more than 10 per cent of its net asset value in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations, and such investments will be for the purposes of gaining exposure to the types of instruments described in the Investment Policies or otherwise to pursue the Investment Objective and policy of the Fund.

The Fund may invest extensively in certain types of derivatives whether for investment purposes or the purposes of efficient portfolio management, as described in the "Investment Techniques and Instruments and Financial Derivative Instruments" section of the Prospectus, including, but not limited to, options, futures and options on futures, forward currency exchange contracts and warrants. Reverse repurchase agreements which will have debt securities as the underlying instruments may be utilised for efficient portfolio management purposes. The Fund may also utilise swaps, including but not limited to interest rate, total return and inflation swaps. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 25 per cent of its net asset value.

Legg Mason Brandywine Global High Yield Fund[^]

Investment Objective – To generate high levels of income. The generation of capital gains is a secondary objective.

Investment Policies – The Fund invests at all times at least 80 per cent of its net asset value in corporate debt securities considered high yielding by the Investment Manager and listed or traded on Regulated Markets located anywhere in the world. Higher yields are generally available from securities rated BB+ or lower by S&P, or Ba1 or lower by Moody's, or the equivalent or lower from another NRSRO, or if unrated deemed by the Investment Manager to be of comparable quality. Debt securities rated below Investment Grade are deemed by ratings agencies to be predominantly speculative with respect to the issuer's capacity to pay interest and repay principal and may involve major risk of exposure to adverse conditions. The Fund may invest in debt securities rated as low as C by Moody's or D by S&P, which ratings indicate that the obligations are highly speculative and may be in default or in danger of default as to principal and interest. The Investment Manager does not rely solely on the ratings of rated securities in making investment decisions, but instead uses a quantitative and qualitative process to determine which securities offer value. Factors that help determine which corporate debt securities offer value include the strength of the sovereign economy of the issuer, relative value of the currency of the securities, the quality of the issuer's business model, the position of the securities in the capital structure of the issuer, the quality of the covenants in the securities, and the likely recovery rate on the securities in the event of stress. The Investment Manager's investment approach incorporates analysis of material environmental, social and governance (ESG) issues that may impact an investment's performance. The Fund will be able to invest up to 100 per cent of its net asset value in securities issued in Emerging Market Countries. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value. With regard to currency exposure, the Investment Manager may not be net short any currency, or long more than 105 per cent of the net asset value of the Fund.

Legg Mason Brandywine Global Opportunistic Fixed Income Fund

Investment Objective – To maximise total return consisting of income and capital appreciation.

Investment Policies – The Fund invests at least two-thirds of its net asset value in debt securities that are listed or traded on Regulated Markets located anywhere in the world, including Emerging Market Countries, and as set out in Schedule III of the Prospectus.

The Fund's investments may include: – (i) debt securities issued or guaranteed by national governments, their agencies or instrumentalities and political sub-divisions (including inflation protected securities); (ii) debt securities of supranational organisations such as freely transferable promissory notes, fixed or floating rate bonds and debentures; (iii) corporate debt securities of issuers (diversified across a variety of industry sectors, including but not limited to communications, consumer, energy, financial, industrial, technology and utilities, etc.) located in or whose securities are listed or traded on Regulated Markets, including freely transferable promissory notes, debentures, fixed or floating rate bonds (including zero coupon bonds), convertible and non-convertible notes, commercial paper, certificates of deposits, and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; and (iv) mortgage-backed securities (including collateralised debt obligations) and asset-backed securities; preferred shares and other open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. The Investment Manager's investment approach incorporates analysis of material environmental, social and governance (ESG) issues that may impact an investment's performance. The Fund may invest no more than 10 per cent of its net asset value in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS

Regulations. The Fund may have exposure to reverse repurchase agreements for efficient portfolio management purposes and subject to the requirements of the Central Bank. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 25 per cent of its net asset value. The Fund will not be leveraged, including any synthetic short positions, in excess of 100 per cent of its net asset value. Subject to this limit, the Fund is expected to have net long exposure. With regard to currency exposure, the Investment Manager may not be net short any currency, or long more than 105 per cent of the net asset value of the Fund.

Legg Mason Brandywine Global Income Optimiser Fund

Investment Objective – To maximise income yield in all market conditions, while preserving capital.

Investment Policies – The Fund invests in: (i) debt securities and convertible securities that are listed or traded on Regulated Markets located anywhere in the world; (ii) units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations; and (iii) derivatives providing exposure to any or all of the following: debt securities, interest rates, currencies, equities and indices (including fixed income, equity and commodity indices) meeting the eligibility requirements of the Central Bank. The Fund invests at least 70 per cent of its net asset value in debt securities and derivatives providing exposure to debt securities. The Fund will invest at least 85% of its net asset value in US Dollars. However, when opportunities are available this may from time to time be a minimum of 80% in US Dollars. The Fund may invest no more than 10 per cent of its net asset value in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. Reverse repurchase agreements which will have debt securities as the underlying instruments may be utilised for efficient portfolio management purposes. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The Investment Manager utilises a multifaceted approach to assess the environmental, social, governance ("ESG") factors across at least 90% of its current and prospective holdings. This process entails using a proprietary system for scoring and ranking issuers along with the use of external vendor raw data, metrics, and analysis. The results of this analysis form the basis for portfolio exclusion where the bottom decile, as defined by the environmental and social factors for both sovereign and corporate issues, of the investable universe will be screened out and the second lowest decile will become automatic engagement candidates. The Investment Manager also monitors current and prospective holdings for deterioration and improvement for environmental and social factors.

The Fund does not have a specific sector exclusion on fossil fuels; however, corporate issuers in the fossil fuel sector are excluded, if their Environmental & Social scores fall in the bottom decile according to the ESG methodology used.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

Legg Mason Brandywine Global Credit Opportunities Fund[^]

Investment Objective – To maximise total return through a high level of income and capital appreciation.

Investment Policies – The Fund seeks to achieve its Investment Objective primarily by taking a flexible investment approach to debt securities of issuers domiciled in any country, through both long exposure and short exposure (via derivatives). The Fund will invest a maximum of 25% of its net asset value in mortgage-backed securities within a single non-US country. The Fund will also invest, in aggregate, a maximum of 40% of its net asset value in mortgage-backed securities of non-US countries. The Fund will invest a maximum of 10% of its net asset value in collateralised debt obligations and collateralised loan obligations. The Investment Manager's investment approach incorporates analysis of material environmental, social and governance (ESG) issues that may impact an investment's performance. The types of debt securities in which the Fund may invest include: agency and non-agency mortgage-backed securities that are structured as debt securities; asset-backed securities; corporate debt securities, including freely transferable promissory notes; convertible and non-convertible bonds; commercial paper, certificates of deposits, and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; debt securities issued or guaranteed by national governments, their agencies, instrumentalities and political subdivisions; debt securities of supranational organisations such as freely transferable promissory notes, bonds and debentures; structured notes that are transferable securities whose underlying exposure may be to fixed income securities; securitised participations in loans that are transferable securities; Eurodollar bonds and Yankee dollar instruments (including senior and subordinated notes); and Rule 144A securities. The structured notes in which the Fund will invest may contain embedded derivatives, and the Fund may be leveraged as a result. The Fund's leverage, as calculated using the sum of the notionals of the derivatives held by the Fund, will be less than 700 per cent of the Fund's net asset value. The Fund's maximum exposure to total return swaps and Securities Financing Transactions (SFTs), based on the notional value of such instruments, is 100 per cent of its net asset value. The Fund may not invest more than 10 per cent of its net asset value in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

Legg Mason Brandywine Global Enhanced Absolute Return Fund[^]

Investment Objective – To generate positive returns that are independent of market cycles.

Investment Policies – The Fund invests at least 80 per cent of its net asset value in: (i) debt securities, convertible securities and preferred shares that are listed or traded on Regulated Markets located anywhere in the world, as set out in Schedule III of the prospectus; (ii) units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations; and (iii) derivatives providing exposure to any or all of the following: debt securities, interest rates, currencies and fixed income indices meeting the eligibility requirements of the Central Bank. The Fund may not invest more than 10 per cent of its net asset value in units or shares of other collective investment schemes, and such investments will be for the purpose of gaining exposure to the types of instruments described herein or otherwise to pursue the Investment Objective and policies of the Fund. Reverse repurchase agreements which will have debt securities as the underlying instruments may be utilised for efficient portfolio management purposes.

The Fund may invest extensively in certain types of derivatives whether for investment purposes or for the purpose of efficient portfolio management, namely options, futures and options on futures, forward currency exchange contracts and warrants. The Fund may also utilise swaps, including but not limited to interest rate, total return, credit default and inflation swaps.

Legg Mason Brandywine Global Dynamic US Equity Fund[^]

Investment Objective – To provide long term capital appreciation.

Investment Policies – The Fund invests at least 80 per cent of its net asset value in equity securities of companies with large market capitalisations that (1) have their seat or registered office in the United States or carry on a predominant portion of their activities in the United States and (2) are listed or traded on Regulated Markets as set out in Schedule III of the Prospectus.

The Fund invests in common stocks and preferred stocks. Subject to the limit above on investment in equity securities, the Fund may also invest in debt securities issued or guaranteed by US-domiciled issuers, including the US government, its agencies, instrumentalities, and political sub-divisions; corporate debt securities that are listed or traded on Regulated Markets, including freely transferable promissory notes, debentures, commercial paper, certificates of deposits, and bankers acceptances issued by industrial, utility, finance, commercial banking or bank holding company organisations; and warrants. The Fund will only purchase debt securities that are rated Investment Grade at the time of purchase. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

Legg Mason ClearBridge Value Fund

Investment Objective – To achieve long-term capital appreciation.

Investment Policies – The Fund invests principally in securities of US issuers, which the Investment Manager believes are undervalued. The Fund may also invest up to 20 per cent of its net asset value in the securities of non-US Issuers. At least 50 per cent of the net asset value of the Fund will be invested in equity securities. The Fund may also invest up to 5 per cent of its net asset value in units or shares open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The Investment Manager uses an established proprietary research and engagement process to determine a company's profile on environmental, social and governance ("ESG") issues. This includes generating an ESG rating, through its ESG ratings system, by assessing both quantitatively and qualitatively. This system has four rating levels: AAA, AA, A and B assigned to companies based on performance on key ESG issues. Companies that receive a "B" rating per the proprietary ESG rating system may be added to the Fund, though those companies will comprise a smaller percentage of the Fund relative to those rated "A" and above. Further, the Investment Manager will engage directly with those "B" rated companies brought into the Fund, on a regular basis, with the goal of improving on the material environmental and/or social attributes of those companies.

In addition, the Fund will not invest in:

- Companies that generate 10% or more of their turnover from the production and/or distribution of weapons and companies that generate any turnover from (a) banned weapons according to (i) The Convention of the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction and (ii) The Convention on the Prohibition of Cluster Munitions and (b) weapons classed as either B- or C- weapons pursuant to the United Nations Biological Weapons Convention and the United Nations Chemical Weapons Convention respectively; and
- Companies that generate 5% or more of their revenues from tobacco.

The Investment Manager applies its ESG process (as set out above) to 100% of the portfolio of the Fund in order to maintain a portfolio ESG rating higher than that of the Fund's investment universe.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

Legg Mason ClearBridge US Appreciation Fund

Investment Objective – To generate long-term capital appreciation.

Investment Policies – The Fund will invest at least 70 per cent of its net asset value in equity securities of US Companies, which are listed or traded on Regulated Markets in the United States listed in Schedule III of the Prospectus. The Fund's investments will include common stocks, preferred stocks and equity related securities. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. The Fund may also invest in certain types of derivatives, but only for efficient portfolio management purposes. The Investment Manager may increase the Fund's allocation to Money Market Instruments and ancillary liquid assets when, in the Investment Manager's opinion, market valuation levels become excessive.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The Investment Manager uses an established proprietary research and engagement process to determine a company's profile on environmental, social and governance ("ESG") issues. This includes generating an ESG rating, through its ESG ratings system, by assessing both quantitatively and qualitatively. This system has four rating levels: AAA, AA, A and B assigned to companies based on performance on key ESG issues. Companies that receive a B rating per the proprietary ESG rating system are not considered for investment in this Fund.

In addition, the Fund will not invest in:

- Companies with significant involvement in the extraction of fossil fuels and mining that analysts feel do not demonstrate clearly better ESG attributes than other similar companies; and
- Companies that generate 10% or more of their turnover from the production and/or distribution of weapons and companies that generate any turnover from (a) banned weapons according to (i) The Convention of the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction and (ii) The Convention on the Prohibition of Cluster Munitions and (b) weapons classed as either B- or C- weapons pursuant to the United Nations Biological Weapons Convention and the United Nations Chemical Weapons Convention respectively.

The Fund has no exposure to companies that produce tobacco and its products but may invest in companies that indirectly generate 5% or less of their revenues from tobacco. The Investment Manager applies its ESG process (as set out above) to 100% of the portfolio of the Fund in order to maintain a portfolio ESG rating higher than that of the Fund's investment universe.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

Legg Mason ClearBridge US Large Cap Growth Fund

Investment Objective – To generate long-term capital appreciation.

Investment Policies – The Fund invests at least 70 per cent of its net asset value in equity securities of a concentrated group of US Companies with large market capitalisations, which are listed or traded on Regulated Markets in the United States listed on Schedule III of the Prospectus. The core holdings of the Fund will be large market capitalisation US Companies that are dominant in their respective industries, global in scope and have a long-term history of performance. The Fund's investments will consist of common stocks and to a lesser extent preferred stock and equity-related securities issued by or related to large market capitalisation US Companies, which are believed to afford attractive opportunities for investment growth. The Fund will not invest in securities listed or traded on Regulated Markets in any Emerging Market Countries, Emerging European Countries or Emerging Asia/Pacific Countries. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

Legg Mason ClearBridge US Aggressive Growth Fund

Investment Objective – To generate long-term capital appreciation.

Investment Policies – The Fund invests at least 70 per cent of its net asset value in common stocks of US Companies which are listed or traded on Regulated Markets in the United States listed in Schedule III of the Prospectus and that the Investment Manager believes are experiencing, or have potential to experience, growth of earnings and/or cash flow that exceed the average earnings and/or cash flow growth rate of companies having securities included in the Standard & Poor's Daily Price Index of 500 Common Stocks (the "S&P 500 Index"). The Investment Manager focuses its stock selection for the Fund on the diversified group of emerging growth companies that may have passed their "start-up" phase and show positive earnings and the prospect of achieving significant profit gains in the two to three years after the Fund acquires their stocks. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

Legg Mason ClearBridge Tactical Dividend Income Fund

Investment Objective – To provide a high level of income. Long-term capital appreciation is a secondary objective.

Investment Policies – The Fund invests at least 80 per cent of its net asset value in equity and equity-related securities that are expected to provide investment income, dividend payments or other distributions, which are listed or traded on Regulated Markets listed in Schedule III of the Prospectus and from issuers located anywhere in the world. The Fund may invest in equity and equity-related securities of issuers with any market capitalisation. In selecting securities, the Investment Manager uses a combined fundamental and macroeconomic approach to identify assets that have attractive dividends and future earnings prospects. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

Legg Mason ClearBridge US Equity Sustainability Leaders Fund[^]

Investment Objective – To provide long term capital appreciation.

Investment Policies – The Investment Manager seeks to invest over the long term in companies that it considers to be of high quality with sustainable competitive advantages as evidenced by high returns on capital, strong balance sheets, and capable management teams that allocate capital in an efficient manner. The Fund will not invest in companies with significant direct involvement in extraction of fossil fuels and mining, and instead will seek other attractive sustainable opportunities in the energy, industrials, and materials sectors.

Although the assets of the Fund ordinarily will be invested primarily in common stocks of US companies, the Fund may also invest in aggregate up to 15 per cent of its net asset value in convertible securities (which may contain embedded derivatives and/or leverage), preferred stocks, warrants, REITs, Rule 144A securities and Money Market Instruments securities, which are listed or traded on Regulated Markets in the US. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The Fund invests at all times at least 85% of its Net Asset Value in US equity securities (including common stock and preferred shares) that are listed or traded on Regulated Markets in the United States as set out in Schedule III of the Company's Prospectus and that are issued by companies that meet the Investment Manager's financial criteria and its criteria for sustainability and environmental, social and governance ("ESG") policies ("Sustainability Leaders"). The Investment Manager applies its ESG Sustainability Leader criteria to 100% of the portfolio of the Fund. The Investment Manager's portfolio construction process restricts the companies in the Fund's investable universe by at least 20% to accommodate only those companies that are Sustainability Leaders.

The Investment Manager uses an established proprietary research and engagement process to determine whether a company is a Sustainability Leader. This proprietary process of the Investment Manager includes generating an ESG ratings system based on the Investment Manager's longstanding experience managing ESG investment strategies and identifying ESG best practices. Sustainability leadership may be assessed both quantitatively and qualitatively, through the Investment Manager's ESG ratings system and its direct research and engagement process. The Investment Manager's ESG rating system consists of four rating levels: AAA, AA, A and B, which are assigned to companies based on their sustainability strategy and performance key ESG issues.

The Fund has no exposure to fossil fuel producers, to producers of controversial weapons (i.e., anti-personnel mines, nuclear weaponry, biological & chemical weaponry and cluster munitions) and to companies that generate 5% or more of their revenues from tobacco, or more than 5% of revenues from conventional weapons or 15% of revenues from nuclear power generation.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

No more than 5 per cent of the Fund's net asset value will be invested in warrants. To manage capital flows, the Fund may hold cash or invest in Money Market Instruments.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The Investment Manager uses an established proprietary research and engagement process to determine a company's profile on environmental, social and governance ("ESG") issues. This includes generating an ESG rating, through its ESG ratings system, by assessing both quantitatively and qualitatively. This system has four rating levels: AAA, AA, A and B, assigned to companies based on performance on key ESG issues. Companies that receive a B rating per the proprietary ESG rating system are not considered for investment in this Fund.

In addition, the Fund will not invest in:

- Companies with significant involvement in the extraction and/or production of fossil fuels and mining;
- Companies that generate 10% or more of their turnover from the production and/or distribution of weapons and companies that generate any turnover from (a) banned weapons according to (i) The Convention of the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction and (ii) The Convention on the Prohibition of Cluster Munitions and (b) weapons classed as either B- or C- weapons pursuant to the United Nations Biological Weapons Convention and the United Nations Chemical Weapons Convention respectively; and
- Companies that generate 15% or more of their revenues from nuclear power generation.

The Fund has no exposure to companies that produce tobacco and its products but may invest in companies that indirectly generate 5% or less of their revenues from tobacco. The Investment Manager applies its ESG process (as set out above) to 100% of the portfolio of the Fund in order to maintain a portfolio ESG rating higher than that of the Fund's investment universe.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

Legg Mason ClearBridge Infrastructure Value Fund[^]

Investment Objective – To achieve long-term stable growth comprised of regular and consistent income from dividends and interest, plus capital growth, from a portfolio of global infrastructure securities.

Investment Policies – The Fund invests at least 80 per cent of its net asset value in infrastructure companies via equity and equity-related securities listed or traded on Regulated Markets in the G7 countries of the United States, United Kingdom, Japan, Germany, France, Italy and Canada, and equity and equity-related securities listed or traded on Regulated Markets of other developed countries and Emerging Market Countries, including India. The equity and equity-related securities in which the Fund may invest includes common stock, preferred stock, depositary receipts, rights, warrants and participation notes of infrastructure companies. The Fund may invest in American and global depositary receipts (ADRs / GDRs) of companies which are listed or traded on a Regulated Market as set out in Schedule III of the Prospectus.

The Fund may invest up to 20 per cent of its net asset value in closed-ended collective investment schemes such as REITs. Any REIT in which the Fund will invest shall be listed or traded on a Regulated Market. The Fund may invest up to 10 per cent of its net asset value in units or shares of other open-ended UCITS or other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations, provided the Investment Policies and liquidity provisions of these collective investment schemes are consistent with those of the Fund.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

For this Fund, environmental, social and governance ("ESG") risks and opportunities, to the extent possible, are considered in two major ways. Firstly, in the assessment of cash flows forecasted by the Investment Manager in respect of eligible investee companies as part of a fundamental security valuation. Secondly, if the ESG factors cannot be captured in these forecasted cash flows they are instead captured through an adjustment to the required return, or hurdle rate, of the investment. In these circumstances, the relevant ESG factors, and company management of those factors, are assessed via a proprietary scorecard by the relevant analyst which in turn leads to an adjustment made to the required return, or hurdle rate, applied to each prospective investment.

As a result of the integrated approach to ESG, the Investment Manager applies its ESG process to at least 90% of the portfolio of the Fund. The Fund will maintain a portfolio ESG rating higher than that of the Fund's investment universe.

Consistent with the Fund's valuation approach, which assumes a holding period of five years, sustainability is scored using an ESG score both at the present time, based on current processes, policies and behaviour, and in terms of an expected ESG score in five years, based on management targets and policies. This enables the team to identify companies whose sustainability practices are expected to improve.

The ESG scores are compared on a relative basis for the companies. The companies in the top quartile of are rewarded with a reduction in the required return, or hurdle rate, on a sliding scale. The bottom three-quartiles, based on the ESG scores, are penalised through an increase to the required return, or hurdle rate, on a sliding scale.

Approximately 600 companies are scored for liquidity, infrastructure exposure and infrastructure quality. Once the liquidity analysis has reduced this universe by around 50%, approximately 10% of the remaining companies are excluded due to a low infrastructure exposure where companies with unacceptable exposure to non-infrastructure activities are excluded. A further 20% of companies are excluded due to weak infrastructure quality.

In addition, the Fund will not invest in:

- Companies that derive a majority of their valuation from the extraction or production of fossil fuels;
- Companies that generate 10% or more of their turnover from the production and/or distribution of weapons and companies that generate any turnover from (a) banned weapons according to (i) The Convention of the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction and (ii) The Convention on the Prohibition of Cluster Munitions and (b) weapons classed as either B- or C- weapons pursuant to the United Nations Biological Weapons Convention and the United Nations Chemical Weapons Convention respectively; and
- Companies that generate 5% or more of their revenues from tobacco.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

Legg Mason ClearBridge Emerging Markets Infrastructure Fund[^]

Investment Objective – To achieve long-term stable growth comprised of regular and consistent income from dividends and interest, plus capital growth, from a portfolio of emerging markets infrastructure securities.

Investment Policies – The Fund invests at least 80 per cent of its net asset value in infrastructure companies via equity and equity-related securities listed or traded on Regulated Markets that are issued by companies that derive at least 50 per cent of their earnings before interest, tax, depreciation and amortisation from assets located in Emerging Market Countries, including India. It is intended that no single Emerging Market Country shall make up more than 40 per cent of the Fund's net asset value. The equity and equity-related securities in which the Fund may invest includes common stock, preferred stock, depositary receipts, rights, warrants and participation notes of infrastructure companies.

The Fund may invest up to 20 per cent of its net asset value in securities traded on Russian markets and investment in securities traded on Russian markets will only be made in equity securities which are listed and/or traded on the Moscow Exchange. The Fund may invest in American, international and global depositary receipts (ADRs / GDRs) of companies which are listed or traded on a Regulated Market as set out in Schedule III of the Prospectus. The Fund may invest up to 20 per cent of its net asset value in closed-ended collective investment schemes such as REITs where the Investment Policies are consistent with the Fund's Investment Policies. Any REITs in which the Fund will invest shall be listed or traded on a Regulated Market. Legg Mason Royce US Small Cap Opportunity Fund

Investment Objective – To achieve long-term capital appreciation.

Investment Policies – The Fund invests at least 70 per cent of its net asset value in a diversified portfolio of equity securities issued by small-cap US companies (i.e., US Companies with market capitalisations of less than US\$3 billion) that are listed or traded on Regulated Markets in the United States. The Investment Manager invests the Fund's assets in these companies in an attempt to take advantage of what it believes are opportunistic situations for undervalued securities. Such opportunistic situations may include turnarounds, emerging growth companies with interrupted earnings patterns, companies with unrecognised asset values or undervalued growth companies. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations. The Investment Manager uses a value method in managing the Fund's assets.

Legg Mason Royce US Smaller Companies Fund

Investment Objective – To achieve long-term capital appreciation.

Investment Policies – The Fund invests at least two-thirds of its net asset value in equity securities issued by US companies with stock market capitalisations less than US\$5 billion, measured at the time of investment, that are listed or traded on Regulated Markets as set out in Schedule III of the Prospectus. Up to one-third of the Fund's net asset value may be invested in (i) equity securities (including common stock, preferred shares and convertible securities) of companies with stock market capitalisations exceeding US\$5 billion, measured at the time of investment, that are listed or traded on Regulated Markets, (ii) debt securities issued or guaranteed by national governments and their agencies, instrumentalities and political sub-divisions, (iii) corporate debt securities of issuers located in or whose securities are listed or traded on Regulated Markets, and (iv) cash for efficient portfolio management purposes. No more than 10 per cent of the Fund's net asset value, measured at the time of investment, will be invested in securities of issuers that are listed or traded on Regulated Markets outside of the United States. Furthermore, no more than 5 per cent of the Fund's net asset value may be invested in debt securities rated below Investment Grade at the time of purchase. A maximum of 10 per cent of the Fund's net asset value may be invested in units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations.

The Fund promotes environmental characteristics and is classified as an Article 8 Fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088).

The Investment Manager assesses environmental, social and governance ("ESG") factors that could impact the ability of an issuer to generate future sustainable returns. These characteristics are assessed both quantitatively and qualitatively, through the Investment Manager's proprietary ESG ratings system and its direct research and engagement process. The proprietary ESG ratings capture forward-looking analysis with companies assigned a risk rating on each of governance and sustainability (environmental and social) from 1 (low risk) to 5 (high risk) following consideration of environment, social affairs and corporate governance sustainability factors. Companies that have a sustainability risk rating of 4 or higher will not be included in the Fund. Companies that have a sustainability risk rating of 4 or higher will not be included in the Fund.

In addition, the Fund will not invest in:

- Companies which generate more than 5% of revenue from tobacco production;
- Companies which generate more than 5% of revenue from direct involvement in extraction of fossil fuels;
- Companies generating revenue from mining of metals and minerals as defined by GICS sub-industries Diversified Metals and Mining, Copper, Gold and Precious Metals and Minerals;
- Companies involved in the production, sale or distribution of dedicated and key components of antipersonnel mines and cluster munitions; and
- Companies assessed as 'fail' under the UN Global Compact.

The Investment Manager applies its ESG process (as set out above) to 100% of the portfolio of the Fund. The Fund will maintain a portfolio ESG rating higher than that of the Fund's investment universe.

The Investment Manager expects that the Fund's portfolio will typically consist of between 20 to 40 different issuers, though the Fund may hold less than 20 issuers or more than 40 issuers in certain circumstances.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

Legg Mason Martin Currie European Unconstrained Fund[^]

Investment Objective – To provide long-term capital appreciation through investment in a concentrated portfolio comprised primarily of European equities.

Investment Policies – The Fund invests at least 80 per cent of its net asset value in shares of companies domiciled or listed in Europe, or which conduct the predominant part of their economic activity in Europe. Such investment may be direct or indirect through equity-related securities, depositary receipts or collective investment schemes, or long positions through derivatives. The Fund will invest in companies that, in the opinion of the Investment Manager in accordance with the Investment Manager's investment process, (i) have the potential to generate or sustain a high return on invested capital (ROIC) in excess of their weighted average cost of capital; (ii) have the potential to provide an attractive growth profile and/or cash flow generation over the long term; and (iii) are expected to have supportive accounting practices and environmental, social and governance practices. The Fund may invest in futures on European equity indices for efficient portfolio management and low exercise price warrants for investment purposes, for example where local market access via a local securities account is not available or desirable. Forward currency exchange contracts may be used only with respect to the hedged share classes offered by the Fund. The Fund will not invest in any other types of derivatives.

The Fund may invest up to 20 per cent of its net asset value in aggregate in: Money Market Instruments; deposits; derivatives; non-European equities; and units or shares of other collective investment schemes within the meaning of Regulation 68(1)(e) of the UCITS Regulations provided that the Fund may invest no more than 10 per cent of its net asset value in units or shares of such other collective investment schemes, and investments in such schemes will be for the purposes of gaining exposure to European equities or otherwise to pursue the investment objective and policies of the Fund. The Fund may invest up to 10 per cent of its net asset value in securities issued by Russian issuers.

These characteristics are assessed both quantitatively and qualitatively, through the Investment Manager's proprietary ESG ratings system and its direct research and engagement process.

Additional consideration of environmental and social characteristics of investments are achieved by looking at the investments at a portfolio level for possible positive or adverse exposures.

The proprietary ESG ratings capture this forward-looking analysis with companies assigned a risk rating on each of governance and sustainability (environmental and social) from 1 (low risk) to 5 (high risk) following consideration of environment, social affairs and corporate governance sustainability factors (as described in the section of the Prospectus entitled "Sustainability Risk"). Companies that have a sustainability or governance risk rating of 4 or higher will not be included in the Fund. In addition, the Fund will not invest in:

- Companies which generate more than 5% of revenue from tobacco production, distribution or wholesale trading;
- Companies which generate more than 5% of revenue from the production or distribution of weapons;
- Companies which generate more than 5% of revenue from the production or distribution of fossil fuels;
- Companies which generate more than 5% revenue from coal based power generation or the mining or distribution of thermal coal;
- Companies which produce or distribute controversial weapons (i.e., anti-personnel mines, nuclear weaponry, biological & chemical weaponry and cluster munitions);
- Companies which generate more than 15% of revenue from nuclear power generation; and
- Companies generating revenue from mining of metals and minerals as defined by GICS sub-industries Diversified Metals and Mining, Copper, Gold and Precious Metals and Minerals.

The Fund has met the ESG characteristics which it promotes through the implementation of the processes set out above.

Taxonomy

Transparency of environmentally sustainable investments in period reports

In line with its ESG investment methodology, an Article 8 Fund may hold investments that contribute to climate change mitigation and climate change adaptation. Due to the lack of reliable, timely and verifiable data, it is, however, currently not possible to determine how and to what extent the activities of the underlying investments are in economic activities that qualify as environmentally sustainable under Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088, as may be amended from time to time (the "Taxonomy Regulation") and so it is not possible to commit to a minimum proportion of an Article 8 Fund's underlying investments which take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation.

The Company is keeping this situation under active review and where adequate, sufficient reliable, timely and verifiable data on an Article 8 Fund's investments and relevant technical criteria become available, the assessment will be made and the Prospectus will be updated accordingly. Investors should note that the "do no significant harm" principle under Taxonomy Regulation applies only to those investments underlying the Article 8 Fund that take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation. The investments underlying the remaining portion of an Article 8 Fund do not take into account the EU criteria for environmentally sustainable economic activities under the Taxonomy Regulation. The above statement applies in relation to the following Article 8 Funds: Legg Mason Western Asset Short Duration Blue Chip Bond Fund, Legg Mason Brandywine Global Fixed Income Fund, Legg Mason Brandywine Global Income Optimiser Fund, Legg Mason ClearBridge Value Fund, Legg Mason ClearBridge US Appreciation Fund, Legg Mason ClearBridge US Large Cap Growth Fund, Legg Mason ClearBridge US Aggressive Growth Fund, Legg Mason ClearBridge US Equity Sustainability Leaders Fund[^], Legg Mason ClearBridge Global Growth Fund[^], Legg Mason ClearBridge Infrastructure Value Fund[^], Legg Mason ClearBridge Global Infrastructure Income Fund[^], Legg Mason Martin Currie Asia Long-Term Unconstrained Fund[^], Legg Mason Martin Currie Global Long-Term Unconstrained Fund[^], Legg Mason Martin Currie Asia Pacific Ex Japan Real Income Fund, Legg Mason Martin Currie Global Emerging Markets Fund[^] and Legg Mason Martin Currie European Unconstrained Fund[^].

The investments underlying the remaining Funds, not listed above, do not consider the EU criteria for environmentally sustainable economic activities.

A more detailed description of the investment policies of each Fund is set out in the relevant Prospectus.

Independent Auditors' Report

Independent auditors' report to the members of Legg Mason Global Funds Plc

Report on the audit of the financial statements

Opinion

In our opinion, Legg Mason Global Funds Plc's financial statements:

- give a true and fair view of the Company's and sub-funds' assets, liabilities and financial position as at 28 February 2022 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Financial Statements, which comprise:

- the Statement of Financial Position as at 28 February 2022;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for the year then ended;
- the Portfolio of Investments for each of the sub-funds as at 28 February 2022; and
- the notes to the financial statements for the Company and for each of its sub-funds, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Emphasis of matter - financial statements prepared on a basis other than going concern

In forming our opinion on the financial statements, which is not modified, we draw attention to note 2 to the financial statements which describes the reasons why the financial statements of Legg Mason Western Asset Emerging Markets Corporate Bond Fund*, Legg Mason Western Asset Euro High Yield Fund*, and Franklin MV European Equity Growth and Income Fund* have been prepared on a basis other than going concern.

Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company and sub-funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue where the going concern basis of accounting has been adopted.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements of the Company and the sub-funds where the going concern basis of accounting has been adopted is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the ability of the Company and the sub-funds where the going concern basis of accounting has been adopted to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report and Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 28 February 2022 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities set out on page 17, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

*sub-fund in liquidation.

Independent Auditors' Report – (continued)

Responsibilities for the financial statements and the audit – (continued)

Responsibilities of the directors for the financial statements – (continued)

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and sub-funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

Companies Act 2014 exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Depository's Report

Report from the Depository to the Shareholders Dated 16 June 2022

For the period from 1 March 2021 to 28 February 2022 (the "Period")

The Bank of New York Mellon SA/NV, Dublin Branch (the "**Depository**" "**us**", "**we**", or "**our**") has enquired into the conduct of Legg Mason Global Funds plc (the "Company") for the Period, in its capacity as depository to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company, in accordance with our role as depository to the Company and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depository

Our duties and responsibilities are outlined in Regulation 34 of the of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), as amended (the "Regulations").

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's constitutional documentation and the Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not been so managed, we as depository must state in what respects it has not been so managed and the steps which we have taken in respect thereof.

Basis of Depository Opinion

The Depository conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the constitutional documentation and the Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional documentation and the Regulations.

Notes to Financial Statements

1. General

Legg Mason Global Funds plc (the “Company”) is an open-ended investment company with variable capital incorporated under the laws of Ireland as a public limited company pursuant to the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the “UCITS Regulations”) and the Central Bank UCITS Regulations. It was incorporated on 13 January 1998 with registration number 278601.

Its objective, as set out in its constitutional documents is the collective investment in transferable securities and other liquid financial assets of capital raised from the public and which operate on the principle of risk spreading. The Company is organised in the form of an umbrella fund. The constitutional documents of the Company provide that the Company may offer separate classes of shares, each representing interests in a sub-fund (the “Fund” or the “Funds” collectively) comprising a distinct portfolio of investments. A separate portfolio of assets shall not be maintained for a class. The Funds established by the Company are included in the General Information section of this report. Investment objectives and investment policies for all active Funds are listed in the Directors’ Report.

2. Significant Accounting Policies

The significant accounting policies and estimation techniques adopted by the Company in the preparation of these financial statements are set out below.

Statement of Compliance

The financial statements for the financial year ended 28 February 2022 have been prepared in accordance with the accounting standards generally accepted in Ireland, including Financial Reporting Standard (“FRS”) 102: “The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland” (“FRS 102”) and Irish statute comprising the Companies Act 2014, the UCITS Regulations and the Central Bank UCITS Regulations. These policies are consistent with the policies applied in the financial statements for the financial year ended 28 February 2021.

Basis of Preparation

The financial statements have been prepared on a going concern basis for the Company under the historical cost convention as modified by the revaluation of financial assets and liabilities held at fair value through the profit or loss. The financial statements of Legg Mason Western Asset Emerging Markets Corporate Bond Fund*, Legg Mason Western Asset Euro High Yield Fund*, Legg Mason PCM US Equity Fund^*, Franklin MV European Equity Growth and Income Fund* and Legg Mason Congruix Japan Equity Fund^ have been prepared on a non-going concern basis as these Funds were closed during the current and previous financial years or subsequent to the Statement of Financial Position date.

The format and certain wordings of the financial statements have been adapted from those contained in the Companies Act 2014 so that, in the opinion of the Directors, they more appropriately reflect the nature of the Company’s business as an investment fund.

The Company has availed of the exemption available to open-ended investment funds under Section 7 “Statement of Cash Flows” of FRS 102 not to prepare a cash flow statement on the basis that substantially all of the Company’s investments are highly liquid and carried at fair value, and the Company provides a statement of changes in net assets attributable to holders of redeemable participating shares.

(a) Investments at Fair Value

The Company classified all financial instruments, including its investments in debt and equity securities, and related derivatives, as financial assets or financial liabilities at fair value through profit or loss. These financial assets and financial liabilities are classified as held for trading at fair value through profit or loss. Financial assets or financial liabilities held for trading are acquired or incurred principally for the purpose of selling or repurchasing in the short term. Derivatives are also categorised as held for trading, as the Company does not classify any derivatives as hedges in a hedging relationship.

Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Transaction costs are expensed in the Statement of Comprehensive Income. Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the financial assets or financial liabilities at fair value through profit or loss category are presented in the Statement of Comprehensive Income in the financial year in which they arise.

The fair value of financial instruments traded in active markets (such as publicly traded derivatives and trading securities) is based on quoted market prices at the Statement of Financial Position date. The fair value of collective investment schemes is based on the traded net asset value of the relevant fund at the Statement of Financial Position date as provided by the fund’s administrator.

The Company may from time to time invest in financial instruments that are not traded in an active market (for example in over-the-counter derivatives). The fair value is determined by using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at each Statement of Financial Position date. Valuation techniques used include the use of comparable recent arm’s length transactions, discounted cash flow analysis and other valuation techniques commonly used by market participants. The values assigned to these instruments are based upon the best available information and because of the uncertainty of the valuation, these values may differ significantly from the values that would have been realised had a ready market for these instruments existed and the differences could be material. Entering into these agreements involves, to varying degrees, elements of credit, legal, market and documentation risk in excess of amounts recognised in the Statement of Comprehensive Income. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparties to the agreements may default on their obligations to perform or disagree as to the meaning of contractual terms in the agreements, or that there may be unfavourable changes in interest rates or the price of the index or security underlying these transactions. The prices used at the year end which have been sourced from a single broker source or based upon valuation techniques are the best estimate of fair value as at the year end date. However, there is a degree of uncertainty in respect of these prices. It may not always be possible to close out the positions at the stated market value with the given counterparty.

(b) Recognition/Derecognition

Regular-way purchases and sales of investments are recognised on trade date plus one – the date on which the Company commits to purchase or sell the asset. Investments are initially recognised at fair value and transaction costs for all financial assets carried at fair value through profit or loss are expensed as incurred. Investments cease to be recognised when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership.

(c) Single Broker Pricing

The prices used at the year end which have been sourced from a single broker source are the best estimate of fair value as at the year end date. However, there is a degree of uncertainty in respect of these prices. It may not always be possible to close out the positions at the stated mark with the given counterparty. Values of securities for each Fund which have been priced using single broker sources as at 28 February 2022 and 28 February 2021 are disclosed in Note 12.1 (d).

(d) Accounting for Investments

Security transactions are accounted for on trade date plus one. Investments are initially recognised at fair value and transaction costs for all “fair-valued-through profit or loss” securities are expensed as incurred. Gains or losses on the sale of securities are calculated by using the First-In-First-Out (“FIFO”) basis.

(e) Income from Investments

Interest income and expense are recognised in the Statement of Comprehensive Income for all debt instruments using the effective interest method. The Investment Managers monitor interest income receivable for any delinquent interest receivable amounts. The accounts have been reviewed for delinquent interest receivable and as at 28 February 2022 and 28 February 2021 all amounts were deemed to be recoverable.

Dividends are reported in the Statement of Comprehensive Income on the dates on which the relevant securities are listed as “ex-dividend”. Dividend income is shown gross of any non-recoverable withholding taxes, which is disclosed separately in the Statement of Comprehensive Income.

(f) Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. There are no offsetting financial instruments as at 28 February 2022 and 28 February 2021.

(g) Critical Accounting Estimates and Assumptions

Management makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are outlined below.

Fair Value of Derivative Financial Instruments

The Company may, from time to time, hold financial instruments that are not quoted in active markets, such as over-the-counter derivatives. Fair values of such instruments are determined by using valuation techniques as discussed in Note 2(a). Where valuation techniques (for example, models) are used to determine fair values, they are validated and periodically reviewed and compared to the price provided by an independent pricing service provider, where available.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

The values assigned to these instruments are based upon the best available information and because of the uncertainty of the valuation, these values may differ significantly from the values that would have been realised had a ready market for these instruments existed and the differences could be material. Entering into these agreements involves, to varying degrees, elements of credit, legal, market and documentation risk in excess of the amounts recognised in the Statement of Comprehensive Income. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparties to the agreements may default on their obligations to perform or disagree as to the meaning of contractual terms in the agreements, or that there may be unfavourable changes in interest

rates or the price of the index or security underlying these transactions.

(h) Lending of Securities

Certain Funds may lend securities to brokers, dealers and other financial organisations to earn additional income. Each security loan is collateralised with collateral assets in an amount equal to or greater than the current market value of the loaned securities. There is a risk of delay in receiving collateral or in recovering the securities loaned or even a loss of rights in collateral should the borrower fail financially.

As at 28 February 2022 and 28 February 2021, no Funds were engaged in securities lending.

(i) Equalisation

An equalisation account is maintained so that the amount distributed is the same for all shares of the same type notwithstanding different dates of issue. Equalisation income and expense are recorded in the Statement of Comprehensive Income.

Equalisation Income

A sum equal to that part of the issued price of a share which reflects income (if any) accrued but undistributed up to the date of issue will be deemed to be an equalisation payment and treated as repaid by shareholders in the first dividend to which the shareholder was entitled in the same accounting period as that in which the shares are issued.

Equalisation Expense

A sum equal to that part of the issued price of a share which reflects expense (if any) accrued but undistributed up to the date of issue will be deemed to be an equalisation receipt and treated as repaid to shareholders to the first dividend to which the shareholder was entitled in the same accounting period as that in which the shares are issued.

(j) Expenses

Expenses are accounted for on an accruals basis. Certain expenses are share class specific expenses and are charged directly to the share class. General Fund expenses are allocated to the various share classes on the basis of relative net asset value.

(k) Transaction Costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value with transaction costs for such instruments being recognised directly in the Statement of Comprehensive Income.

Transaction costs charged by the Depositary on the settlement of purchases and sales of investments are disclosed within administrator and depositary fees in the Statement of Comprehensive Income for each Fund.

Transaction costs on purchases and sales of equities, collective investment schemes, futures contracts and options are disclosed in Note 4 for each Fund.

Transaction costs on the purchase and sale of bonds and other derivative instruments are included in the purchase and sale price of the investment. These costs cannot be practically or reliably gathered as they are embedded in the cost of the investment and cannot be separately verified or disclosed.

(l) Foreign Exchange Translation

- Functional and presentation currency: Items included in the Company's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is US Dollars (United States Dollars) for all Funds except Legg Mason Western Asset Euro Core Plus Bond Fund, Legg Mason Western Asset Euro High Yield Fund*, Legg Mason ClearBridge Infrastructure Value Fund^, Franklin MV European Equity Growth and Income Fund*, and Legg Mason Martin Currie European Unconstrained Fund^ for which the functional currency is Euro, and Legg Mason Congruix Japan Equity Fund^.
- Purchases and sales of securities, and income and expenses are translated at the rate of exchange quoted on the respective date that such transactions are recorded. Assets and liabilities are translated at the foreign exchange rate at the end of the financial year. Differences between income and expense amounts recorded and collected or paid are recorded as foreign exchange gains/losses in the Statement of Comprehensive Income under net gain/(loss) on financial assets and liabilities at fair value through profit or loss.

(m) Forward and Spot Foreign Currency Contracts

A forward foreign currency contract ("forward contract") is a commitment to purchase or sell a foreign currency at a future date, at a negotiated rate. Forward contracts are used to seek to manage foreign currency risks and to tactically shift portfolio currency risk. Forward contracts are generally entered into as a hedge upon the purchase or sale of a security denominated in a foreign currency. The Fund will realise a gain or loss upon the closing or settlement of the forward transaction. Unrealised appreciation or depreciation on forward contracts is reported in the Statement of Financial Position and Statement of Comprehensive Income. Realised gains and losses are reported with all other foreign currency gains and losses in the Statement of Comprehensive Income. Risks relating to forward contracts include the potential inability of the counterparty to meet the terms of the contract and unanticipated movements in the value of a foreign currency relative to the base currency of the Fund. Forward contracts are fair valued by an independent price source by reference to the price at which a new forward contract of the same size and maturity could be undertaken. For each relevant Fund, gains or losses on open spot foreign currency contracts are included in cash in the Statement of Financial Position.

(n) Futures Contracts

Initial margin deposits are made upon entering into futures contracts and are generally made in cash. Futures contracts are fair valued based upon their quoted daily settlement prices. Changes in the value of open futures contracts are recognised as unrealised gains or losses on futures contracts until the contracts are terminated, at which time realised gains and losses are recognised as a realised gain or loss and included in net gain/(loss) on financial assets and liabilities at fair value through profit and loss in the Statement of Comprehensive Income. Unrealised appreciation or depreciation on futures contracts are shown in the Statement of Financial Position. Realised gains and losses not yet delivered are shown within margin accounts and restricted cash in the Statement of Financial Position.

(o) Option Contracts

The premium on purchased put options exercised is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on purchased call options exercised is added to the cost of the securities or foreign currency purchased. Premiums paid from the purchase of options, which expire unexercised, are treated as realised losses. The unrealised gain or loss on open option positions is calculated and recorded as the fair value of the option less the premium paid on that option. Unrealised gains or losses on open option positions are reflected as assets or liabilities in the Statement of Financial Position.

The premium on written call options exercised is added to the proceeds from the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on written put options exercised is subtracted from the cost of the securities or foreign currencies purchased. Premiums received from written options, which expire unexercised, are treated as realised gains.

(p) Swap Instruments

Swap Instruments are recognised at fair value on the date on which the derivative contract is entered into and are subsequently remeasured at their fair value. Fair values are obtained from quoted market prices in active markets, including recent market transactions, and valuation techniques, including discounted cash flow models and options pricing models, as appropriate. All derivatives are carried as assets when fair value is positive and as liabilities when fair value is negative. Movement in the fair value of the swap instruments and interest paid and earned from the swap instruments are recognised in the Statement of Comprehensive Income under net gain/(loss) on financial assets and liabilities at fair value through profit or loss.

Credit Default Swaps

Each Fixed Income Fund (Fixed Income Fund as defined on page 15), except Legg Mason Western Asset US Government Liquidity Fund may enter into credit default swap agreements, provided that (i) the credit default swap agreement must be subject to daily valuation by the Funds and independently verified at least weekly, and (ii) the risks attached to the credit default swap must be independently assessed on a half-yearly basis and the report must be submitted to the Directors for review. A Fund may be either the buyer or seller in a credit default swap transaction. The "buyer" in a credit default contract is obligated to pay the counterparty a periodic stream of payments over the term of the contract provided that no event of default on an underlying reference obligation has occurred. If a Fund is a buyer and no event of default occurs, the Fund will lose its investment and recover nothing. On the other hand, if the Fund is a buyer and an event of default does occur, the Fund (the buyer) will receive the full notional value of the reference obligation that may have little or no value. Conversely, if the Fund is a seller and an event of default occurs, the Fund (the seller) must pay the counterparty the full notional value, or "par value", of the reference obligation in exchange for the reference obligation. As a seller, a Fund receives a fixed rate of income throughout the term of the contract, which typically is between six months and three years, provided that there is no default event.

2. Significant Accounting Policies – (continued)

(p) Swap Instruments – (continued)

The Funds purchase credit default swap contracts in order to hedge against the risk of a fall in the capital price, or default, of debt securities they hold. The Funds sell credit default swap contracts in order to get exposure to the rise in the capital price, and the risk of default is transferred from the purchaser of credit default contracts to the Fund as a seller of the credit default swap contract. This involves the risk that the swap may expire worthless and the credit risk that the seller may fail to satisfy its payment obligations to the Funds in the event of a default. The Funds may only enter into such transactions with counterparties rated A- or higher.

Interest Rate Swaps

An interest rate swap or cross currency interest rate swap involves the exchange by a Fund with another party of their respective commitments to pay or receive cash flows e.g., an exchange of floating rate payments for fixed-rate payments in base or foreign currencies. The purchase of a cap entitles the purchaser, to the extent that a specified index exceeds a predetermined value, to receive payments on a notional principal amount from the party selling the cap. The purchase of a floor entitles the purchaser, to the extent that a specified index falls below a predetermined value, to receive payments on a notional principal amount from the party selling the floor. A collar combines elements of buying a cap and selling a floor. Spread locks are contracts that guarantee the ability to enter into an interest rate swap at a predetermined rate above some benchmark rate.

Equity Swaps

Equity swaps are agreements between a Fund and third parties, which allow the Funds to acquire an exposure to the price movement of specific securities without actually purchasing the securities. The changes in contract values are recorded as unrealised gains or losses and the Funds recognise a realised gain or loss when the contract is closed.

Total Return Swaps

Certain of the Funds may invest in total return swaps to reduce their Long-Term exposure to market risk and credit risk. Total return swaps are contracts in which a Fund pays or receives a series of cash flows based upon the total return of a specified asset in return for paying or receiving, respectively, a fixed or floating rate of interest based upon that same specified asset. Total return swaps are fair valued by an independent pricing vendor. If the price is not available they are fair valued by the Franklin Templeton Global Valuation Committee (the "Valuation Committee"). These positions are reconciled to the counterparty price on a monthly basis.

Cross Currency Swaps

Cross currency swaps involve the exchange of two different currencies with an agreement to reverse the exchange at a later date at specified exchange rates. The exchange of currencies at the inception date of the contract takes place at the current spot rate. The re-exchange at maturity may take place at the same exchange rate, a specified rate, or the then current spot rate. Interest payments, if applicable, are made between the parties based on interest rates available in the two currencies at the inception of the contract.

Inflation Swaps

Inflation swaps involve an exchange of a fixed rate on a notional principal amount and a floating rate linked to an inflation index. The party paying the floating rate pays the inflation adjusted rate multiplied by the notional principal amount.

Index Swaps

An index swap refers to a hedging contract in which a party exchanges a predetermined cash flow with a counterparty on a specified date. A debt, equity, or other price index is used as the agreed exchange for one side of this swap. An overnight index swap applies an overnight rate index such as the federal funds or London Interbank Offered Rate (LIBOR) rates. The overnight index swap denotes an interest rate swap involving the overnight rate being exchanged for a fixed interest rate.

(q) Contracts for Difference

A contract for difference is an arrangement between two parties to exchange the difference between the opening price and closing price of a contract. In a long contracts for difference contract, the counterparty agrees to pay the Fund the amount, if any, by which the notional amount of the contract would have increased in value had it been invested in the underlying security or securities, plus any dividends that would have been received on those stocks. In a short contracts for difference contract, the counterparty agrees to pay the Fund the amount, if any, by which the notional amount of the contract would have decreased in value had it been invested in the underlying security or securities. The Fund must also pay the counterparty the value of any dividends that would have been received on those stocks.

(r) Securities Traded on a "To-Be-Announced" Basis

The Funds may trade securities on a "to-be-announced" ("TBA") basis. In a TBA transaction, a Fund commits to purchase or sell securities for which specific information is not yet known at the time of the trade. Securities purchased on a TBA basis are not settled until they are delivered to or from the relevant Fund, normally 15 to 45 days later. These transactions are subject to market fluctuations and their current value is determined in the same manner as for other securities.

(s) Short-Term Investments

Certificates of deposit, time deposits and other short-term investments maintained with financial institutions are fair valued at their face value with interest accrued, as applicable.

(t) Repurchase and Reverse Repurchase Agreements

Repurchase agreement means any agreement pursuant to which a Fund transfers securities, or any rights related to a title or security, to a counterparty subject to a commitment to repurchase them at a specified price on a future date specified or to be specified. Reverse repurchase agreement means any agreement pursuant to which a Fund receives securities, or any rights related to a title or security, from a counterparty subject to a commitment to sell them back at a specific price on a future date specified or to be specified.

Securities purchased under agreements to resell are fair valued at their face value and adjusted for any movements in foreign exchange rates. Interest rates vary for each agreement and are set at the initiation of the agreement. It is the Company's policy to take custody of securities purchased under reverse repurchase agreements and to value the securities on a daily basis to protect the Company in the event the securities are not repurchased by the counterparty. The Company will generally obtain additional collateral if the market value of the underlying securities is less than the face value of the reverse repurchase agreement plus any accrued interest. In the event of default on the obligation to repurchase, the Company has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. In the event of default or bankruptcy by the counterparty to the agreement, realisation and/or retention of the collateral or proceeds may be subject to legal proceedings. Reverse repurchase agreements have been used during the financial year for the purpose of efficient portfolio management.

(u) Exchange Traded Funds

The Funds may invest in exchange traded funds ("ETFs"). ETFs are securities that track an index, a commodity or a basket of assets like an index fund, but trade like a stock on an exchange. These securities are subject to market fluctuations and their current value is determined in the same manner as for other securities.

(v) Shares in Collective Investment Schemes

The fair value of investments in open-ended investment funds is based upon the unaudited net asset value per share as supplied by the respective funds' administrator.

(w) Swaptions

Certain of the Funds may invest in swaptions for the purposes of hedging against adverse movements in interest rates. Such instruments combine the features of two other financial instruments namely an option and an interest rate swap. The Funds record an unrealised gain/(loss) (fair value) for the amount expected to be received or paid under the agreement if such amount was terminated on valuation. The fair value is provided on a daily basis by Markit as the vendor. The unrealised gain/(loss) are reflected as a financial asset or financial liability in the Statement of Financial Position.

(x) Treasury Inflationary Index Obligations (TIPS)

Certain of the Funds may invest in indexed securities. Indexed securities are securities whose prices are indexed to the prices of securities indices, currencies, or other financial statistics. Indexed securities typically are debt securities or deposits whose value at maturity and/or coupon rate is determined by reference to a specific instrument or statistic. The performance of indexed securities fluctuates (either directly or inversely, depending upon the instrument) with the performance of the index, security or currency. The securities are fair valued daily by the relevant vendor and the change in fair value is recorded by the Funds as an unrealised gain or loss.

(y) Loan Notes & Loan Participations

Loan notes & loan participations are fixed and floating rate loans arranged through private negotiations between a corporation or other type of entity and one or more financial institution. Such investments are expected to be in the form of participations in, or assignment of, the loans, which may or may not be securitised. Loan notes & loan participations are classified by the Company as financial assets at fair value through profit or loss, and are initially recognised at fair value. Gains and losses arising from changes in the fair value of the financial assets are presented in the Statement of Comprehensive Income, in the financial year in which they arise.

Notes to Financial Statements – (continued)

2. Significant Accounting Policies – (continued)

(z) Master-Limited Partnership

Certain Funds may invest in master-limited partnerships (MLPs) by purchasing units issued to limited partners of the MLP that are publicly traded on regulated markets. MLPs are limited partnerships or limited liability companies that typically derive income and gains from the exploration, development, storage, gathering, mining, production, processing, refining, transportation (including pipelines transporting gas, oil or products thereof) or marketing of any mineral or natural resources. MLPs generally have two classes of owners, the general partner and the limited partners. Limited partners own the remainder of the partnership, through ownership of common units, and have a limited role in the operations and management.

The fair value of an investment in MLP is determined in the same manner as for other securities. The changes in the fair value is recorded as an unrealised gain or loss.

(aa) Interest income and interest expense

Interest income and interest expense include interest income and interest expense on cash, cash equivalents, time deposits and margin cash. Interest income and interest expense are disclosed in the Statement of Comprehensive Income.

(ab) Margin accounts and restricted cash

"Margin accounts and restricted cash" in the Statement of Financial Position represent margin deposits, cash collateral and realised gains and losses on futures contracts not yet delivered.

Margin deposits are held or pledged with / to brokers in respect of open exchange-traded and over-the-counter derivative contracts. Cash collateral provided or received by the Funds for derivatives trading are likewise identified in the Statement of Financial Position within margin accounts and restricted cash and are not included as components of cash and cash equivalents. Cash collateral balances are amounts relating to derivatives trading and are held at the year end with brokers. Cash collateral balances received in relation to derivatives trading are held with The Bank of New York Mellon SA/NV, Dublin Branch and any sub-custodians and are payable to brokers at the year end.

(ac) Receivable for investments / redeemable participating shares sold and payable for investments purchased / redeemable participating shares reacquired

Receivable for investments / redeemable participating shares sold represents receivables for securities / redeemable participating shares sold that have been contracted for but not yet settled or delivered on the Statement of Financial Position date. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

Payable for investments purchased / redeemable participating shares reacquired represents payables for securities purchased / redeemable participating shares reacquired that have been contracted for but not yet settled or delivered on the Statement of Financial Position date. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

(ad) Distributions to holders of redeemable participating shares

Distributions to holders of redeemable participating shares are recognised on an ex-dividend date and presented as "finance costs" in the Statement of Comprehensive Income.

3. Efficient Portfolio Management

Subject to the conditions and within the limits from time to time laid down by the Central Bank of Ireland (the "Central Bank"), and except as otherwise stated in the investment objective and policies of a Fund, the Investment Managers and/or Sub-Investment Managers may employ investment techniques and instruments such as futures, options, forward foreign currency contracts and other derivatives for efficient portfolio management purposes. Furthermore, new techniques and instruments may be developed which may be suitable for use by a Fund in the future and a Fund may employ such techniques and instruments subject to the prior approval of, and any restrictions imposed by, the Central Bank.

For UCITS which have engaged in efficient portfolio management techniques and instruments, disclosures are required under the Central Bank UCITS Regulations. A UCITS is required to disclose the revenues arising from efficient portfolio management techniques and instruments for the entire reporting year together with the direct and indirect operational costs and fees incurred. Please refer to the table below.

Details of open financial derivative instruments at the financial year end are disclosed in the Portfolio of Investments of the Funds. All realised gains and losses arising from the use of derivative contracts for efficient portfolio management purposes are included in net gains/(losses) on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

During the financial year, reverse repurchase agreements were entered into for the purpose of efficient portfolio management. Details of all reverse repurchase agreements at the financial year end are disclosed in the Portfolio of Investments.

Reverse repurchase agreements

A portion of each Fund's assets may be held in ancillary liquid assets. For efficient portfolio management purposes, each Fund may enter into repurchase agreements and reverse repurchase agreements.

The table below shows the revenue earned from reverse repurchase agreements during the financial years ended 28 February 2022 and 28 February 2021:

Fund Name	28 February 2022 (000's)	28 February 2021 (000's)
Legg Mason Western Asset US Government Liquidity Fund	\$70	\$176
Legg Mason Western Asset US Core Plus Bond Fund	\$–	\$30

Amounts designated as "–" are either \$0 or less than \$1,000.

There have been no transaction costs on the purchases and sales of reverse repurchase agreements.

Stocklending transactions

Certain Funds may also utilise stocklending agreements for efficient portfolio management purposes as described above. In such transactions the Fund may temporarily transfer its securities to a borrower, with agreement by the borrower to return equivalent securities to the Fund at a preagreed time. In entering into such transactions the Fund will endeavour to increase the returns on its portfolio of securities by receiving a fee for making its securities available to the borrower. There were no stocklending transactions on any of the Funds for the financial years ended 28 February 2022 and 28 February 2021.

4. Operating Expenses and Other Related Party Transactions

Pursuant to the management agreement between Franklin Templeton International Services S.à r.l. (the "Manager" or "FTIS") and the Company (the "Management Agreement"), the Manager shall be entitled to receive a management fee out of the assets of the relevant Fund for its investment management and distribution services, which shall accrue on each dealing day and be payable monthly in arrears (the "Management Fees"). The Company shall also be responsible for the prompt payment or reimbursement to the Manager of any commissions, transfer fees, registration fees, taxes and similar liabilities, costs and out-of-pocket expenses properly payable or incurred by FTIS.

In the tables above, the Management Fees provided for each Fund apply to any of the share classes listed in the relevant column that are offered by the Fund. Not all share classes are offered by each Fund and not all share classes were in issue as at 28 February 2022. The Prospectus, as it may be amended or supplemented from time to time, indicates which share classes are offered by each Fund.

Pursuant to each Investment Management Agreement, the Manager shall be responsible for paying the fees and out-of-pocket expenses of the relevant Investment Manager.

The Manager has voluntarily agreed to waive a portion of their fees and/or reimburse for certain expenses so that the total expenses would not exceed certain voluntary expense limitations established for the Funds. The Manager, at its discretion, may revise or discontinue the voluntary waivers and/or expense reimbursements at any time.

For the financial years ended 28 February 2022 and 28 February 2021, the Management Fees waived, reimbursed and other expenses recouped were as follows:

Pursuant to each Investment Management Agreement, each Investment Manager is entitled to receive an investment management fee and each Investment Manager shall be responsible for paying the fees and out-of-pocket expenses of any Sub-Investment Managers out of its own Investment Management Fee (which may include “performance fees”).

Under the terms of the Master Distribution Agreement between the Manager, the Company and Franklin Distributors, LLC (formerly known as Legg Mason Investor Services, LLC) (the “Master Distributor”), the Master Distributor is authorised to market, promote, offer and arrange for the sale and redemption of Shares of the Company (collectively, “distribution services”). In addition, the Master Distributor is authorised at its own costs and expenses to engage one or more distributors for the purpose of assisting it with carrying out its duties and responsibilities, provided the appointments of such other firms are made in accordance with the requirements of the Central Bank Rules. Under the terms of the Master Distribution Agreement between the Manager, the Company and the Master Distributor, the Master Distributor in such instances shall remain responsible to the Manager for the performance of its obligations under such agreement. The Master Distributor, in accordance with the requirements of the Central Bank, has appointed Legg Mason Asset Management Hong Kong Limited (“LMAMHK”) and Legg Mason Asset Management Singapore Pte. Limited as additional Distributors of the Funds. The Manager has also appointed itself and Franklin Templeton Securities Investment Consulting (Sino-Am) Inc to provide certain distribution services.

The Company shall also be responsible for the prompt payment or reimbursement to the Manager of any commissions, transfer fees, registration fees, taxes and similar liabilities, costs and out-of-pocket expenses properly payable or incurred by the Manager.

Shareholder Services Fee

Pursuant to the Management Agreement between the Company and the Manager, the Manager shall be entitled to receive a shareholder services fee out of the assets of the relevant Funds for its services, which shall accrue on each dealing day and be payable monthly in arrears (the “Shareholder Services Fees”). The Shareholder Services Fees shall be payable monthly in arrears and shall accrue on each dealing day. Under the Master Shareholder Servicing Agreement between the Manager, the Company and Franklin Distributors, LLC (the “Master Shareholder Servicing Agent”), the Master Shareholder Servicing Agent shall be entitled to receive from the Manager a shareholder services fee from certain of the share classes for their services as Shareholder Servicing Agent.

Under the terms of the Master Shareholder Servicing Agent Agreement, the Master Shareholder Servicing Agent is authorised at its own costs and expenses to engage one or more parties for the purpose of assisting it with carrying out its duties under the agreement, provided that the Master Shareholder Servicing Agent shall remain responsible to the Manager for the performance of its obligations under such agreement. Pursuant to this, the Master Shareholder Servicing Agent has appointed Legg Mason Asset Management Hong Kong Limited and Legg Mason Asset Management Singapore Pte. Limited as additional Shareholder Servicing Agents of the Company. The Manager has authorised Franklin Templeton Securities Investment Consulting (Sino-Am) Inc to provide shareholder services in respect of Taiwan.

The aggregate amount of Shareholder Services Fees paid by each share class shall be or has been equal to the following:

- 0.15 per cent, per annum of the net asset value of Legg Mason Western Asset US Core Bond Fund, Legg Mason Western Asset US Core Plus Bond Fund, Legg Mason Western Asset Euro Core Plus Bond Fund, Legg Mason Western Asset Short Duration High Income Bond Fund, Legg Mason Western Asset Global Multi Strategy Fund, Legg Mason Western Asset US High Yield Fund, Legg Mason Western Asset Emerging Markets Total Return Bond Fund, Legg Mason Western Asset Emerging Markets Corporate Bond Fund*, Legg Mason Western Asset Global High Yield Fund, Legg Mason Western Asset Global Inflation Management Fund, Legg Mason Western Asset Asian Opportunities Fund, Legg Mason Western Asset Short Duration Blue Chip Bond Fund, Legg Mason Western Asset Global Core Plus Bond Fund^, Legg Mason Western Asset Global Credit Fund^, Legg Mason Western Asset Euro High Yield Fund*, Legg Mason Western Asset Macro Opportunities Bond Fund^, Legg Mason Western Asset Multi-Asset Credit Fund^, Legg Mason Western Asset Structured Opportunities Fund^, Legg Mason Western Asset US Mortgage-Backed Securities Fund^, Legg Mason Western Asset US Corporate Bond Fund^, Legg Mason Brandywine Global Fixed Income Fund, Legg Mason Brandywine Global Fixed Income Absolute Return Fund^, Legg Mason Brandywine Global High Yield Fund^, Legg Mason Brandywine Global Opportunistic Fixed Income Fund, Legg Mason Brandywine Global Income Optimiser Fund, Legg Mason Brandywine Global Credit Opportunities Fund^, and Legg Mason Brandywine Global Enhanced Absolute Return Fund^; and

Performance Fee

In addition to the Investment Management Fees described above, the Investment Manager may be entitled to receive a fee (a “Performance Fee”) depending on the performance of the PF Class Shares (Performance Fee Classes, as indicated by “(PF)” in the name of the share class).

For each Calculation Period for each PF Class Share, the Investment Manager has been entitled to a Performance Fee equal to 20 per cent of the amount, if any, by which the performance of the net asset value per share during that period exceeds the High Water Mark (as defined below) as at the end of the previous Calculation Period. For distributing share classes, for purposes of measuring the performance of the net asset value per share during a Calculation Period, any distributions that were paid during the period were to be added back in to the net asset value. For each PF Share Class, once payable in respect of a Calculation Period, a Performance Fee was not to be affected by any losses experienced by the Funds or the PF Share Class in any subsequent Calculation Period. Any Performance Fee was accrued on each dealing day and would have been normally paid within 21 days of the end of the relevant Calculation Period, after verification by the Depositary. If the Investment Management Agreement was terminated before the last dealing day in any fiscal year, for each PF Share Class the Performance Fee in respect of the then current Calculation Period would have been calculated and paid as though the date of termination was the end of the Calculation Period. In the event that a shareholder was to redeem their PF Class Shares prior to the end of a Calculation Period, any accrued Performance Fee attributable to their shares was to be crystallised and be paid to the Investment Manager.

Performance Fees charged during the financial years ended 28 February 2022 and 28 February 2021 are disclosed in the Statement of Comprehensive Income.

Administrator and Depositary Fees

The Bank of New York Mellon SA/NV, Dublin Branch acts as depositary (the “Depositary”) and BNY Mellon Fund Services (Ireland) Designated Activity Company acts as administrator (the “Administrator”) to all Funds in the Company. For administration, accounting, shareholder, trustee and depositary services, they collectively receive from the Funds a fee of up to 0.15% of the net asset value of each Fund.

Directors’ Remuneration

Directors’ fees and out-of-pocket expenses charged through profit and loss in the Statement of Comprehensive Income and which pertain to the financial year ended 28 February 2022 were \$140,000 (28 February 2021: \$125,000).

Auditors’ Remuneration

Fees paid to the auditors, PricewaterhouseCoopers of €1,068,650 (excluding VAT), in respect of the financial year, relate to statutory audit of the financial statements of the Company (28 February 2021: €1,055,300 (excluding VAT)). The total audit fee for the Company as detailed within the Statement of Comprehensive Income on page 246 is inclusive of VAT at 23% and is presented in the presentational currency of the Company (US Dollar).

There have been no out-of-pocket expenses paid to the auditors for the financial year ended 28 February 2022 (28 February 2021: €11,735 (excluding VAT)).

5. Distributions to Holders of Redeemable Participating Shares

Distributing Share Classes

The letter in parentheses at the end of the name of each Distributing Share Class indicates a particular frequency of dividend declarations and dividend payments, as detailed in the following table.

Distributing Share Class Designation	Frequency of Dividend Declarations	Frequency of Dividend Payments
(D)	Daily	Monthly
(M)	Monthly	Monthly
(Q)	Quarterly	Quarterly (March, June, September, December)
(S)	Semi-Annually	Semi-Annually (March, September)
(A)	Annually	Annually (March)

For each Distributing Share Class of each Fixed Income Fund (Fixed Income Fund as defined on page 15), at the time of each dividend declaration: (1) all, or some portion of, net investment income, if any, will be declared as a dividend; and (2) all, or some portion, of realised and unrealised capital gains net of realised and unrealised capital losses may be, but is not required to be, declared as a dividend.

For each Distributing Share Class of each Equity Fund (Equity Fund as defined on page 15), at the time of each dividend declaration: all, or some portion of, net investment income, if any, will be declared as a dividend. For each Shareholder of each Distributing Share Class, distributions will be made in the currency in which the Shareholder subscribed for shares, unless the Shareholder requests otherwise.

For each Distributing Share Class of each Multi-Asset Fund (Multi-Asset Fund as defined on page 15), at the time of each dividend declaration, all, or some portion of, net investment income, if any, will be declared as a dividend. For each Shareholder of each Distributing Share Class, distributions will be made in the currency in which the Shareholder subscribed for shares, unless the Shareholder requests otherwise.

The Distributing Plus Share Classes may declare and pay distributions out of capital. Investors in these share classes should be aware that payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or of capital gains attributable to that original investment, and such distributions will result in a corresponding immediate decrease in the net asset value per share of the share class. The payment of distributions out of capital will accordingly lead to capital erosion and may be achieved by forgoing the potential for future capital growth.

During the financial year, the following Funds have paid distributions out of capital on Distributing Plus Share Classes:

The Distributing Plus (e) and Distributing Plus (u) Share Classes offered by certain of the Funds may charge certain fees and expenses to capital rather than income. Charging all or part of the fees and expenses to capital will result in income being increased for distribution; however, the capital that these Distributing Plus (e) and Distributing Plus (u) Share Classes have available for investment in the future, and capital growth, may be reduced. Shareholders should note that there is an increased risk that on the redemption of shares of Distributing Plus (e) and Distributing Plus (u) Share Classes, shareholders may not receive back the full amount invested. For investors in Distributing Plus (e) and Distributing Plus (u) Share Classes, this may result in the erosion of investors' capital investment notwithstanding the performance of the relevant Fund, or capital gains attributable to that original investment, which will likely diminish the value of future returns. The increased dividend payout as a result of charging fees and expenses to capital effectively amounts to a return or withdrawal of an investor's original capital investment or of capital gains attributable to that original investment. The higher level of dividend payout under this charging mechanism will result in a corresponding immediate decrease in the net asset value of the share classes on the ex-dividend date. Shareholders should note that to the extent expenses are charged to capital, some or all of the distributions made by the Distributing Plus (e) and Distributing Plus (u) Share Classes should be considered to be a form of capital reimbursement. All expenses of the Distributing Plus (e) Share Classes have been charged to capital.

Accumulating Share Classes

With respect to Accumulating Share Classes, it is intended that, in the normal course of business, distributions will not be declared and that any net investment income attributable to each Accumulating Share Class will be accumulated daily in the respective net asset value per share of each respective share class.

6. Share Capital and Redeemable Participating Shares Share Capital

The Company was incorporated with an initial share capital of Euro 39,000 represented by 39,000 subscriber shares of no par value. All but three of the subscriber shares have been repurchased by the Company. Shareholders of these three subscriber shares are entitled to attend and vote at all of the meetings of the Company, but are not entitled to participate in the dividends or net assets of any Fund or of the Company.

Redeemable Participating Shares

The share capital of the Company shall at all times equal the net asset value. The Directors are empowered to issue up to five hundred billion shares of no par value in the Company at the net asset value per share on such terms as they may see fit. There are no rights of pre-emption upon the issue of shares in the Company.

Each of the shares entitles the Shareholder to participate equally on a pro rata basis in the dividends, where applicable, and net assets of the Fund in respect of which they are issued, save in the case of dividends declared prior to becoming a shareholder.

The proceeds from the issue of shares shall be applied in the books of the Company to the relevant Fund and shall be used in the acquisition on behalf of the relevant Fund of assets in which the Fund may invest. The records and accounts of each Fund shall be maintained separately.

Each Fund has different share classes offered as indicated in the Company's Prospectus. These different classes of shares differ principally in terms of their sales charges, fees, rates of expenses, distribution policy, and currency denomination. Investors are thus able to choose a share class that best suits their investment needs, considering the amount of investment and anticipated holding period.

Each share class is designated as a Distributing Share Class or an Accumulating Share Class. Accumulating Share Classes do not distribute net income, net realised or net unrealised capital gains whereas Distributing Share Classes will distribute at certain intervals, which will vary depending on the letter in parentheses at the end of the name of the Distributing Share Class, as explained under Note 5 Distributions to Holders of Redeemable Participating Shares. In addition, the Company has subscriber shares outstanding. The subscriber shares do not entitle the holders to participate in the assets of any Fund.

Each Fund may offer share classes designated in currencies other than the base currency of the Fund. For each such share class, unless indicated by “(Hedged)” in the name of the share class, the relevant Investment Manager and Sub-Investment Manager will not employ any techniques to hedge the share class's exposure to changes in exchange rates between the base currency of the Fund and the currency of the share class.

6. Share Capital and Redeemable Participating Shares Share Capital – (continued)

Class A Shares are available to all investors. Commission/rebate payments may be made by distributors to dealers or other investors who have an agreement with a distributor with respect to such shares. Class B, C, D and E Shares are available to all investors who are clients of dealers appointed by a distributor with respect to such shares. Commission payments may be made by distributors to dealers or other investors who have an agreement with a distributor with respect to such shares. Class F Shares are available to professional investors and investors with a discretionary investment agreement with a dealer appointed by the distributor with respect to such shares. Commission/rebate payments may be made by distributors to dealers or other investors who have an agreement with the distributor with respect to such shares. Class J Shares are for Japanese distribution, at the discretion of the Directors or distributors. Class M Shares are available to professional investors and investors with a discretionary investment agreement with a dealer or other entity appointed by a distributor with respect to such shares. Class R Shares are available to all investors who have a fee-based arrangement with an intermediary from whom they have received a personal recommendation in relation to their investment in the Funds. Class X Shares are available to dealers, portfolio managers or platforms which, according to regulatory requirements or based on fee arrangements with their clients, are not allowed to accept and retain trail commissions; and institutional investors (for investors in the European Union, this means “Eligible Counterparties” as defined under MIFID II) investing for their own account. Class U, Y and S Shares are available to institutional investors at the discretion of the Directors or distributors. BW LM Share Classes are available at the discretion of the Directors or distributors to qualifying investors who are members of the Franklin Templeton group or clients of such members. LM Share Classes are available at the discretion of the Directors or distributors to qualifying investors who are members of the Franklin Templeton group, retirement schemes and schemes of similar nature sponsored by members of the Franklin Templeton group, or clients of such members. For investors based in the European Union, BW Premier Share Classes are available at the discretion of the Directors or distributors to “Eligible Counterparties” as defined under MIFID II; for investors based outside the European Union, BW Premier Share Classes are available to institutional investors at the discretion of the Directors or distributors or to qualifying investors who are members of the Franklin Templeton group or clients of such members. For investors based in the European Union, Premier Share Classes are available to “Eligible Counterparties” as defined under MIFID II; for investors based outside the European Union, Premier Share Classes are available to institutional investors.

For share classes that include “(Hedged)” in their name after the currency denomination, it is intended that such share classes will be hedged against movements in exchange rates between the currency of the share class and the base currency of the relevant Fund. Certain share classes in Funds managed by Brandywine Global Investment Management, LLC are hedged relative to an index, as indicated by the inclusion of an “(IH)” in the Share Class name. The Funds managed by Brandywine Global Investment Management, LLC and the Legg Mason ClearBridge Infrastructure Value Fund managed by ClearBridge RARE Infrastructure International Pty Limited offers portfolio hedged share classes, as indicated by the inclusion of a “(PH)” in the share class name.

Certain Funds also have issued shares of Grandfathered Share Classes, as indicated by the inclusion of “GA”, “GE”, “GP” or “(G)” in the name of the share class. The Grandfathered Share Classes are available only to unitholders of the affiliated funds. The Grandfathered Class Shares are closed to any subsequent subscriptions, both by existing shareholders in the share class and by new investors, except that shares may continue to be acquired through (1) dividend reinvestment; (2) automatic conversions from a Class B (G) Share Class of the Fund to a Class A (G) Share Class of the same Fund; and (3) exchanges of shares of a Grandfathered Share Class with the same letter designation. Notwithstanding the foregoing, as indicated in the Fund Supplements, certain Grandfathered Share Classes for certain Funds may be made available for subsequent subscriptions by existing shareholders in the share class in the sole discretion of the Directors.

7. Taxation

Under current Irish law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997 (as amended). On that basis, the Company will not generally be liable to Irish tax in respect of its income and gains, other than on the occurrence of a chargeable event. Generally a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of shares or on the ending of a ‘Relevant Period’, a ‘Relevant Period’ being an eight year period beginning with the acquisition of the shares by the Shareholders and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- (i) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided an appropriate valid declaration is in place, or the Company has been authorised by Irish Revenue to make gross payments in the absence of appropriate declarations; and
- (ii) certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations.

In addition, any transaction (which might otherwise be a chargeable event) in relation to shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners will not constitute a chargeable event.

In the absence of an appropriate declaration, the Company will be liable to Irish tax on the occurrence of a chargeable event.

Capital gains, dividends and interest received may be subject to taxes, including withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Fund or its shareholders.

8. Cash and Cash Equivalents and Margin Accounts

Cash and cash equivalents are valued at their face value with interest accrued, where applicable. The cash and cash equivalents and cash overdraft balances of any Fund are held with the Depositary. “Margin accounts and restricted cash” in the Statement of Financial Position represent margin deposits, cash collateral and realised gains and losses on futures contracts not yet delivered. Margin deposits and cash collateral, held in relation to OTCs and exchange traded derivatives trading as at 28 February 2022, are held with the following brokers: Bank of America Merrill Lynch, Barclays, BNY Mellon, Citi, Goldman Sachs, HSBC, JP Morgan, Morgan Stanley and UBS (28 February 2021: Bank of America Merrill Lynch, Barclays, BNP Paribas, BNY Mellon, Citi, Goldman Sachs, HSBC, JP Morgan, Morgan Stanley and UBS.).

9. Commitments and Contingent Liabilities

There were no significant commitments or contingent liabilities as at 28 February 2022 and 28 February 2021.

10. Soft Commission Arrangements

The Company has policies designed to ensure that its service providers act in the Funds’ best interests when executing decisions to deal on behalf of those Funds in the context of managing the Funds’ portfolios. For these purposes, all reasonable steps must be taken to obtain the best possible result for the Funds, taking into account price, costs, speed, likelihood of execution and settlement, order size and nature, or any other consideration relevant to the execution of the order. Any cash rebates received from a broker or dealer in consideration of Fund brokerage transactions directed to that broker or dealer will not be retained by the Investment Manager, the Sub-Investment Manager or any of their connected persons. The Company will not bear the costs of external research obtained by the Investment Managers and the Sub-Investment Managers. Such costs will be borne by the relevant Investment Manager or Sub-Investment Manager. Information about the Funds’ execution policies is available to Shareholders at no charge upon request.

During the financial years ended 28 February 2022 and 28 February 2021, Royce & Associates, LP (“Royce”) entered into soft commission arrangements with brokers, but reimbursed the relevant Funds for any research costs incurred as part of such arrangements.

12. Risk Exposure and Risk Management

Following its appointment as the UCITS management company of the Company, with responsibility for managing the Company and for certain investment management, administration and distribution functions in respect of the Company as set out in the UCITS Regulations, FTIS (the “Manager”) has made the decision to delegate some, but not all investment management activities to relevant Investment Managers and/or Sub-Investment Managers, provided that the Manager remains responsible to the Funds for the performance of their agreed upon obligations (please refer to the General Information pages for the lineup of Investment Managers and Sub-Investment Managers for each Fund, as applicable, as per the Prospectus).

The Company, in conjunction with the Manager and the Investment Managers, has determined that certain of its material risks are market risk, credit risk and liquidity risk. In respect of the use of financial derivative instruments, the risks are counterparty risk, credit risk, increased margin calls and unlimited risk of loss. Further details of these and other risks are set out below and in the Prospectus under “Risk Factors”.

Market risk includes market price risk, foreign currency risk, interest rate risk and other price risk.

Market price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The maximum price risk resulting from the ownership of financial instruments is determined by the fair value of financial instruments. The Investment Managers or Sub-Investment Managers may consider the asset allocation of the portfolios in order to minimise the risk associated with particular countries, industry sectors or securities while continuing to follow each Fund's investment objective as outlined in the Directors' Report. Risk is managed by each Investment Manager or Sub-Investment Manager, as applicable, through careful selection of securities and other financial instruments within specified limits and investment mandates. Details of each Fund's investment policies are outlined in the Directors' Report. Details of each Fund's financial assets and financial liabilities are presented on the Statement of Financial Position.

Foreign currency risk is the risk that the value of a financial instrument will fluctuate because of changes in the rate of exchange between the currency in which the financial asset or financial liability is denominated and the functional currency of the Funds. The value of the investments of a Fund denominated in a currency other than the functional currency may rise and fall due to exchange rate fluctuations by the relevant currencies. There is a risk that large exchange rate fluctuations may have a significant impact on the performance of the Funds.

Where a Fund holds investments in a currency other than that Fund's functional currency, the relevant Investment Manager or Sub-Investment Manager may manage foreign currency risk by either hedging foreign currency into the functional currency of the Fund or alternatively by diversifying investments across multiple currencies using a multibank foreign exchange trading network.

Notes to Financial Statements – (continued)

12. Risk Exposure and Risk Management – (continued)

Interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rate. The Funds which hold fixed interest rate debt securities and overdraft positions are exposed to interest rate risk where the value of these securities or loans may fluctuate as a result of a change in interest rates. Holdings in floating and variable rate securities may also be subject to interest rate risk although to a lesser degree. Cash assets held via the Depositary have the potential to yield interest income, the level of which will fluctuate according to the prevailing level of market interest rates.

The Equity Funds generally do not invest in any interest bearing securities other than cash balances held with the Depositary. Cash assets yield interest income, the level of which will fluctuate according to the prevailing level of market interest rates. As a result, the Equity Funds are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates on its financial assets and financial liabilities.

The Fixed Income Funds and the Multi-Asset Funds invest in interest bearing financial assets and financial liabilities which expose them to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on their financial positions and cash flows. The value of investments in fixed rate interest bearing securities may be subject to price volatility due to changes in interest rates. Fluctuations in market interest rates will impact upon the level of interest received by a Fund.

An increase in interest rates will generally reduce the value of debt securities that are issued and outstanding, while a decline in interest rates will generally increase the value of debt securities that are issued and outstanding. The magnitude of these price fluctuations will be greater when the maturity of the outstanding securities is longer. Changes in the value of securities held by a Fund when interest rates change mean that a Fund's net asset value per share can go up or down because of the effect on the value of the Fund's portfolio of debt securities.

The relevant Investment Manager or Sub-Investment Manager to each Fixed Income Fund monitors the interest-rate environment and evaluates risks on major strategies. Interest rate risk is controlled by monitoring maturities and duration relative to the Funds' benchmarks. Techniques such as key rate duration measurement are used to evaluate portfolio curve exposures.

Details of each Fixed Income Fund's weighted average yield, weighted average years to maturity and an analysis of fixed and Non-Interest bearing securities are set out in Notes 12.1(b) and 12.1(c) below.

The risks involved with investing in Equity Funds include changing economic conditions, industry and company conditions and security selection. Fixed Income Funds and Multi-Asset Funds are also subject to interest rate risk, credit risk, maturity risk and market risk. International securities are subject to changing exchange rates, less liquid markets and political and economic instability depending on the country. Developing markets are subject to these same risks however it may be to a greater degree. For the purpose of efficient portfolio management, the Funds may enter into exchange traded or over-the-counter ("OTC") derivatives, including but not limited to, futures, swaps, forwards, options and warrants and may enter into stock lending agreements.

The Investment Management and Portfolio Oversight Committee ("IMPOC" or the "Committee") has been established within Franklin Templeton to oversee the delegation of investment management responsibilities for all Funds. The Committee is comprised of members who, as a group, have experience and specialised knowledge in such areas as investment management including equity, fixed income and derivatives; investment analysis and reporting; risk management; and compliance. The Committee, on behalf of the Manager, has been responsible for overseeing that the Funds are managed within the terms of the Funds' investment guidelines and limits set out in the Prospectus and the UCITS Regulations as well as the relevant Investment Manager's or Sub-Investment Manager's own internal investment guidelines and limits. The Committee generally meets once a month to oversee that the Funds are being managed in accordance with these limits and regulatory requirements. The respective Investment Managers and/or Sub-Investment Managers, as applicable, report to the Committee matters arising in relation to the monitoring of certain material risks arising from a Fund's investments in financial instruments.

12.1 Market Risk

Each Fund using financial derivative instruments ("FDI's") will seek to limit the market risk and leverage created through the use of derivatives by using either the commitment approach or by using a sophisticated risk measurement technique known as "value-at-risk" (the "VaR approach"). Each Fund using FDI (other than Legg Mason Western Asset Macro Opportunities Bond Fund[^], Legg Mason Western Asset Multi-Asset Credit Fund[^], Legg Mason Western Asset Structured Opportunities Fund[^], Legg Mason Brandywine Global Fixed Income Absolute Return Fund[^], Legg Mason Brandywine Global Income Optimiser Fund, Legg Mason Brandywine Global Credit Opportunities Fund[^] and Legg Mason Brandywine Global Enhanced Absolute Return Fund[^]) use the commitment approach. Legg Mason Western Asset Macro Opportunities Bond Fund[^], Legg Mason Western Asset Multi-Asset Credit Fund[^], Legg Mason Western Asset Structured Opportunities Fund[^], Legg Mason Brandywine Global Fixed Income Absolute Return Fund[^], Legg Mason Brandywine Global Income Optimiser Fund, Legg Mason Brandywine Global Credit Opportunities Fund[^] and Legg Mason Brandywine Global Enhanced Absolute Return Fund[^]) use or has used, respectively, the VaR approach.

The respective Investment Manager and/or Sub-Investment Managers, as applicable, of each Fund using FDI have employed a risk management process to enable them to accurately measure, monitor and manage the risks attached to FDI positions.

The commitment approach calculates leverage by measuring the market value of the underlying exposures of derivatives relative to the relevant Fund's Net Asset Value. VaR is a statistical methodology that seeks to predict, using historical data, the likely maximum loss that a Fund could suffer, calculated to a specific (e.g., "one tailed" 99 per cent) confidence level. Legg Mason Western Asset Macro Opportunities Bond Fund[^], Legg Mason Western Asset Multi-Asset Credit Fund[^], Legg Mason Western Asset Structured Opportunities Fund[^], Legg Mason Brandywine Global Fixed Income Absolute Return Fund[^], Legg Mason Brandywine Global Income Optimiser Fund, Legg Mason Brandywine Global Credit Opportunities Fund[^] and Legg Mason Brandywine Global Enhanced Absolute Return Fund[^]) use or has used, respectively, an "absolute" VaR model where the measurement of VaR is relative to the Net Asset Value of the Fund. A VaR model has certain inherent limitations and it cannot be relied upon to predict or guarantee that the size or frequency of losses incurred by a Fund will be limited to any extent. As the VaR model relies on historical market data as one of its key inputs, if current market conditions differ from those during the historical observation period, the effectiveness of the VaR model in predicting the VaR of a Fund may be materially impaired. Investors may suffer serious financial consequences under abnormal market conditions.

The effectiveness of the VaR model could be impaired in a similar fashion if other assumptions or components comprised in the VaR model prove to be inadequate or incorrect.

Western Asset Management Company Limited and Western Asset Management Company, LLC ("Western Asset") calculate VaR at a 99% confidence level for a 1 day time horizon using an appropriate sample of historical data. The table below indicates the absolute VaR for the Funds:

Fund	As at 28 February 2022	As at 28 February 2021
Legg Mason Western Asset Macro Opportunities Bond Fund [^]	2.66%	1.76%
Legg Mason Western Asset Multi-Asset Credit Fund [^]	1.02%	0.96%
Legg Mason Western Asset Structured Opportunities Fund [^]	0.51%	1.39%

Brandywine Global Investment Management, LLC ("Brandywine") calculates VaR at a 95% confidence level for a 1 day time horizon using 2 years of historical data. The table below indicates the absolute VaR for the Funds:

Fund	As at 28 February 2022	As at 28 February 2021
Legg Mason Brandywine Global Fixed Income Absolute Return Fund [^]	0.50%	1.59%
Legg Mason Brandywine Global Income Optimiser Fund [^]	0.52%	1.75%
Legg Mason Brandywine Global Credit Opportunities Fund [^]	0.53%	2.60%
Legg Mason Brandywine Global Enhanced Absolute Return Fund [^]	1.22%	2.58%

Where Legg Mason Western Asset Macro Opportunities Bond Fund[^], Legg Mason Western Asset Multi-Asset Credit Fund[^], Legg Mason Western Asset Structured Opportunities Fund[^], Legg Mason Brandywine Global Fixed Income Absolute Return Fund[^], Legg Mason Brandywine Global Income Optimiser Fund, Legg Mason Brandywine Global Credit Opportunities Fund[^] and Legg Mason Brandywine Global Enhanced Absolute Return Fund[^] use an absolute VaR model, in accordance with the requirements of the Central Bank each of these Funds is subject to an absolute VaR limit of 20% of the Fund's Net Asset Value. However, each of these Funds may from time to time experience a change in Net Asset Value over a 20 day holding period greater than 20% of Net Asset Value.

In addition to using the VaR approach, the respective Investment Managers and/or Sub-Investment Managers of Legg Mason Western Asset Macro Opportunities Bond Fund[^], Legg Mason Western Asset Multi-Asset Credit Fund[^], Legg Mason Western Asset Structured Opportunities Fund[^], Legg Mason Brandywine Global Fixed Income Absolute Return Fund[^], Legg Mason Brandywine Global Income Optimiser Fund, Legg Mason Brandywine Global Credit Opportunities Fund[^] and Legg Mason Brandywine Global Enhanced Absolute Return Fund[^] monitor or has been monitoring, as applicable, the leverage levels on a daily basis to monitor changes due to market movements. In addition, the respective Investment Managers and/or Sub-Investment Managers of each of these Funds shall carry out pretrade testing to consider the impact that the trade would have on the relevant Fund's overall leverage and to consider the risk/reward levels of the trade.

Stress testing is the examination of the potential effects on a Fund's financial condition of a set of specific changes in risk factors, relating to exceptional but possible events. Western Asset take a conservative approach by applying stress tests that are beyond the range of reasonably likely occurrences. Western Asset expect (although there is no assurance) that if Legg Mason Western Asset US Government Liquidity Fund is able to withstand stress tests that are beyond the range of reasonably likely occurrences, that the Net Asset Value per share (or any particular class of share) of this Fund, would remain stable in the event of reasonable negative market events.

A scenario based stress test can be used to meet the sensitivity analysis requirement of FRS 102. FRS 102 does not prescribe a specific basis point movement or percentage movement for sensitivity analyses. Accordingly for the purposes of this annual report, the currency impact on Legg Mason Western Asset US Government Liquidity Fund of an instantaneous 25 basis points increase in short-term interest rates is shown:

Legg Mason Western Asset US Government Liquidity Fund

As at 28 February 2021	(\$264,893)

(a) Market Price Risk

Each Fund's market price risk is monitored, but not managed, relative to an index. The indices As at 28 February 2022 and 28 February 2021 are outlined below.

The following tables set out the index for each Fund, except for Legg Mason Western Asset Macro Opportunities Bond Fund[^], Legg Mason Western Asset Multi-Asset Credit Fund[^], Legg Mason Western Asset Structured Opportunities Fund[^], Legg Mason Brandywine Global Fixed Income Absolute Return Fund[^], Legg Mason Brandywine Global Income Optimiser Fund, Legg Mason Brandywine Global Credit Opportunities Fund[^] and Legg Mason Brandywine Global Enhanced Absolute Return Fund[^]; and quantify the probable impact to the value of the net asset value for each Fund based on positive and negative movement in the index, including one year beta for each Fund. Beta is a measure of a Fund's holdings' volatility in relation to the market or index. While beta offers a clear, quantifiable measure, it does not incorporate new information, and past price movements are not accurate predictors of the future.

(b) Foreign Currency Risk – (continued)

A portion of the financial assets of the Funds are denominated in currencies other than the US Dollar, Euro and British Pound (the functional currencies of the Funds) with the effect that the Statement of Financial Position and total return can be significantly affected by currency movements.

Western Asset have a strong bias to hedge all foreign currencies into the functional currency of the Fund's portfolio. Western Asset will typically leave only a small portion of the portfolio unhedged, and then only if the outlook strongly suggests that currency risk is attractive. In other portfolios, hedges are implemented whenever a currency is seen to be at risk of depreciating by more than the cost of the hedge transaction. Western Asset may cross-hedge into non-functional currencies – when permitted by guidelines, under severe limits (typically less than 5% of the portfolio), and seeking to reflect an exposure relative to the benchmark.

The following tables set out the Funds' net exposure to foreign currency as at 28 February 2022 and 28 February 2021.

Amounts represented below primarily are monetary assets and monetary liabilities except for investments in Non-Interest bearing securities, which include equities, which are non-monetary assets. Amounts noted below for forward foreign currency contracts represent the values to be received under the currency contracts and include foreign exchange hedging transactions. Whilst amounts noted for other derivatives represent the unrealised appreciation/(depreciation) at year end.

Certain Funds also have share classes issued in foreign currencies. Certain Funds (as indicated in the relevant Supplement to the Prospectus) may enter into forward foreign currency contracts, both deliverable and non-deliverable, to hedge against exchange risk, to increase exposure to a currency, to shift exposure to currency fluctuations from one currency to another, or to enhance return. Each Fixed Income Fund may also enter into options on forward foreign currency contracts, both deliverable and non-deliverable, which in exchange for a premium gives the Fund the option, but not the obligation, to enter into such a contract at some time before a specified date.

(b) Foreign Currency Risk – (continued)

The following table sets out a sensitivity analysis in relation to foreign currency risk and its effect on the net asset value of the Funds where foreign currency risk is deemed significant. A snapshot of the underlying positions for all Funds was taken as at 28 February 2022 and 28 February 2021. Exchange rates were appreciated/depreciated by +/- 5% (given the nature of the markets that the Funds are invested in a 5% increase/decrease has been applied); the corresponding impact was estimated for the total net asset value. All other market parameters are also assumed unchanged.

Analysis is shown where significant foreign currency exposure is held on the Fund. Significant exposure is deemed to be in excess of 10% of net assets. Movements in all foreign currency exchange rates will have a direct impact on the net asset value. The foreign currency exchange rates as at 28 February 2022 and 28 February 2021 are listed in Note 11. This sensitivity analysis should not be used as a prediction of future performance.

The foreign currency risk sensitivity analysis for Legg Mason Western Asset Macro Opportunities Bond Fund[^], Legg Mason Western Asset Multi-Asset Credit Fund[^], Legg Mason Western Asset Structured Opportunities Fund[^], Legg Mason Brandywine Global Fixed Income Absolute Return Fund[^], Legg Mason Brandywine Global Income Optimiser Fund, Legg Mason Brandywine Global Credit Opportunities Fund[^], and Legg Mason Brandywine Global Enhanced Absolute Return Fund[^] has been incorporated into the calculation of the market risk using the VaR approach (Note 12.1 above).

(c) Interest Rate Risk

A sensitivity analysis for the Equity Funds has not been prepared as the majority of the Equity Funds' assets are Non-Interest bearing assets and therefore the risk is not sufficiently material.

As at 28 February 2022 and 28 February 2021, all of the cash held by the Funds is held with the Depositary or other brokers and have the potential to yield interest income, the level of which will fluctuate according to the prevailing level of market interest rates.

The analysis of fixed, variable and Non-Interest bearing securities is disclosed in Note 12.1(b) above.

The weighted average yield and weighted average years to maturity of each Fund on its fixed rate instruments per currency As at 28 February 2022 and 28 February 2021 are as follows:

Interest Rate Benchmark Reform

A fundamental reform of major interest rate benchmarks is being undertaken globally, including the replacement of some interbank offered rates (IBORs) with alternative nearly risk-free rates (referred to as 'IBOR reform'). The Funds have exposures to IBORs on its financial instruments that will be replaced or reformed as part of these market-wide initiatives. Certain jurisdictions are currently reforming or phasing out their benchmark interest rates, most notably the London Interbank Offered Rates ("LIBOR") across multiple currencies. Many such reforms and phase outs became effective at the end of calendar year 2021 with select U.S. dollar LIBOR tenors persisting through June 2023. These rate changes may have an impact on existing transactions and contractual arrangements. Management has taken steps to prepare for and mitigate the impact of changing base rates and continues to manage transition efforts and evaluate the impact of prospective changes on existing transactions and contractual arrangements.

(d) Other Price Risk – Fair Value of Financial Assets and Financial Liabilities

In addition to the Committee, Franklin Templeton has established the Valuation Committee to oversee the implementation of the valuation policies and procedures adopted by the Board of Directors (the "Board"). The Valuation Committee, including the Chairperson, is comprised of no fewer than four members and no more than ten members. Representatives of Franklin Templeton Legal and Compliance will serve the Valuation Committee in an advisory capacity. The Valuation Committee meets on a monthly basis to review all securities which are manually priced, broker priced, matrix priced, fair valued, illiquid or stale. A Valuation Committee meeting, however, may be called at any time to consider any question or issue that falls under their procedures. Valuation Committee meetings can be in person, or via email or other writing.

Some Funds entered into derivative contracts during the year. The value of derivatives is based on certain underlying stocks or bonds, interest rates, currencies or indices and includes futures, options, options on futures, contracts for difference and swap agreements. Derivatives may be hard to sell at an advantageous price or time and are sensitive to changes in the underlying security, interest rate, currency or index. Therefore, derivatives can be highly volatile and could result in a loss to the Fund. Refer to the respective Funds' Portfolio of Investments for details of open derivative positions as at 28 February 2022.

Fair Value Estimation

In accordance with FRS 102, the Company has elected to apply the recognition and measurement provisions of International Accounting Standards ("IAS") 39 "Financial Instruments: Recognition and Measurement" ("IAS 39") as adopted for use in the European Union and the disclosure requirements of Sections 11 and 12 of FRS 102.

The fair value of financial instruments traded in active markets (such as publicly traded derivatives and trading securities) is based on quoted market prices at the Statement of Financial Position date. When a "readily available market quotation" for a security is not available, the Company employs "fair value" methodologies to price securities. As a general principle, fair value is the price that the Fund might reasonably expect to receive upon a current sale. The fair valuation process requires the Valuation Committee to make a determination in good faith as to the value of a particular security or group of securities depending on the particular facts and circumstances involved.

Circumstances in which a market quotation is not readily available may include, trading suspensions prior to the close of the relevant market; events that unexpectedly close entire markets such as natural disasters, power blackouts, or similar major events; market holidays; or volume of trading in a security.

When determining the fair value of a portfolio security, the Valuation Committee may consider all relevant methods, including but not limited to any one or all of the following pricing methods:

- A multiple of earnings;
- A discount from market of a similar freely traded security;
- A discounted cash-flow analysis;
- The book value or a multiple thereof;
- A risk premium/yield analysis;
- Yield to maturity; and/or
- Fundamental investment analysis.

The Valuation Committee reviews the appropriateness and accuracy of the methods used in fair valuing securities on a monthly basis including a comparison of fair values against the last market price and the next available market price, such as the nextday opening price.

12.1 Market Risk – (continued)

(d) Other Price Risk – Fair Value of Financial Assets and Financial Liabilities – (continued)

The Company has classified fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:
Level 1 inputs are unadjusted quoted prices in an active market for identical assets or liabilities that the entity can access at the measurement date.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs (i.e. for which market data is unavailable) for the asset or liability.

An investment is always categorised as level 1, 2 or 3 in its entirety. In certain cases, the fair value measurement for an investment may use a number of different inputs that fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement requires judgement and is specific to the investment.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in these securities.

The following table analyses under the fair value hierarchy the Funds' financial assets and financial liabilities measured at fair value as at 28 February 2022

Securities which are fair valued by the Manager or the respective Investment Manager as at 28 February 2022 are noted on the Portfolio of Investments. In the event a price is not available from a Pricing Service, the Valuation Committee may obtain one or more indicative quotes from approved broker-dealers.

Matrix pricing is used for Funds when the Valuation Committee is unable to obtain one or more broker-dealer quotes for a security for which there is no price available from a pricing service. Matrix pricing estimates a US Dollar-denominated security's current market value by using the most recent quote received from a broker-dealer and adjusting the price by the change in the yield of the US treasury security most similar in duration to the security being valued.

The following tables set out the value of securities for each Fund which have been priced using single broker sources and fair valued by the Valuation Committee as at 28 February 2022 and 28 February 2021:

For details of derivative assets and liabilities held for trading which were fair valued as at 28 February 2022, please refer to the Portfolio of Investments.

In certain circumstances the Company employs ICE Data Services ("ICE") adjusted pricing in the valuation of non-US equities. ICE calculates and supplies an adjusted closing price to use as a fair value price.

As at 28 February 2022, ICE adjusted pricing was applied to Legg Mason Brandywine Global Income Optimiser Fund, Legg Mason Brandywine Global Dynamic US Equity Fund[^], Legg Mason ClearBridge Value Fund, Legg Mason ClearBridge US Appreciation Fund, Legg Mason ClearBridge US Large Cap Growth Fund, Legg Mason ClearBridge US Aggressive Growth Fund, Legg Mason ClearBridge Tactical Dividend Income Fund, Legg Mason ClearBridge US Equity Sustainability Leaders Fund[^], Legg Mason ClearBridge Global Growth Fund[^], Legg Mason ClearBridge Infrastructure Value Fund[^], Legg Mason ClearBridge Emerging Markets Infrastructure Fund[^], Legg Mason ClearBridge Global Infrastructure Income Fund[^], Legg Mason Royce US Small Cap Opportunity Fund, Legg Mason Royce US Smaller Companies Fund, Franklin MV European Equity Growth and Income Fund^{*}, Franklin MV Asia Pacific Ex Japan Equity Growth and Income Fund, Legg Mason Martin Currie Asia Long-Term Unconstrained Fund[^], Legg Mason Martin Currie Global Long-Term Unconstrained Fund[^], Legg Mason Martin Currie Asia Pacific Ex Japan Real Income Fund, Legg Mason Martin Currie Global Emerging Markets Fund[^] and Legg Mason Martin Currie European Unconstrained Fund[^] (As at 28 February 2021 ICE adjusted pricing was applied to Legg Mason Brandywine Global Income Optimiser Fund, Legg Mason Brandywine Global Dynamic US Equity Fund[^], Legg Mason ClearBridge Value Fund, Legg Mason ClearBridge US Appreciation Fund, Legg Mason ClearBridge US Large Cap Growth Fund, Legg Mason ClearBridge US Aggressive Growth Fund, Legg Mason ClearBridge Tactical Dividend Income Fund, Legg Mason ClearBridge US Equity Sustainability Leaders Fund[^], Legg Mason ClearBridge Global Growth Fund[^], Legg Mason ClearBridge Infrastructure Value Fund[^], Legg Mason ClearBridge Emerging Markets Infrastructure Fund[^], Legg Mason Royce US Small Cap Opportunity Fund, Legg Mason Royce US Smaller Companies Fund, Franklin MV European Equity Growth and Income Fund^{*}, Franklin MV Asia Pacific Ex Japan Equity Growth and Income Fund, Legg Mason Martin Currie Asia Long-Term Unconstrained Fund[^], Legg Mason Martin Currie Global Long-Term Unconstrained Fund[^], Legg Mason Martin Currie Asia Pacific Ex Japan Real Income Fund, Legg Mason Martin Currie Global Emerging Markets Fund[^] and Legg Mason Martin Currie European Unconstrained Fund[^]).

12.2 Credit Risk

Credit risk is the risk that a counterparty to or issuer of a financial instrument will fail to discharge an obligation or commitment that it has entered into with a Fund. The Company will be exposed to credit risk on parties with whom it trades and will also bear the risk of settlement default. The relevant Investment Manager and/or Sub-Investment Managers minimise concentrations of credit risk by undertaking transactions with a large number of brokers and counterparties on recognised and reputable exchanges. All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

Each Fund will be exposed to credit risk on the counterparties with whom it trades in relation to options, forward contracts and other derivative financial instruments that are not traded on a recognised exchange. Such instruments are not afforded the same protections as may apply to participants trading swaps, futures or options on organised exchanges, such as the performance guarantee of an exchange clearing house. The Funds will be subject to the possibility of the insolvency, bankruptcy or default of a counterparty with whom the Funds trade such instruments, which could result in substantial losses to the Funds.

The Company is exposed to credit risk on the OTC counterparties with whom it trades. All OTC counterparties must meet the following criteria as set out in the Regulations namely:

- Be a credit institution in accordance with Regulation 7 of the Central Bank UCITS Regulations, or an investment firm authorised in accordance with the Markets in Financial Instruments Directive in an EEA Member State, or is an entity subject to regulation as a Consolidated Supervised Entity by the Securities and Exchange Commission, or
- Have a minimum credit rating of A2 or equivalent, or in the opinion of the relevant Investment Manager and/or Sub-Investment Managers, an implied credit minimum rating of A2 or equivalent.

Exposures to individual counterparties are normally limited to 10% of net asset value in the case of authorised credit institutions and 5% of net asset value in the case of other counterparties.

Transactions involving derivative financial instruments are usually with counterparties with whom the Company has signed master netting agreements. Master netting agreements provide for the net settlement of contracts for a particular Fund with the same counterparty in the event of default. The credit risk associated with derivative financial assets subject to a master netting arrangement is eliminated only to the extent that financial liabilities due to the same counterparty will be settled after the assets are realised.

Transactions resulting in large unrealised gains to a Fund may require a Fund to hold collateral received from a broker. In these instances, the credit risk to the Fund is reduced by the value of the collateral held. In the event a broker files for bankruptcy, in the U.S. (though regulations may vary by jurisdiction), collateral posted in connection with certain derivative financial instruments is exempt from the automatic stay implemented at the inception of a bankruptcy proceeding. This derivative financial instruments exemption would allow a Fund to immediately foreclose on collateral posted by the insolvent party in order to satisfy claims against such insolvent party.

The value of securities received as collateral in relation to derivatives trading held by the following Funds as at 28 February 2022 and 28 February 2021 was as follows:

Amounts designated as "\$–" are either \$0 or less than \$1,000.

The Company monitors its risk by periodically considering the credit quality and financial positions of the counterparties which the Funds use. The Funds may only trade with approved counterparties. A list of approved counterparties is maintained and the Funds may only trade with these approved counterparties. Additions to this list are reviewed quarterly and a thorough reevaluation of all counterparties is conducted annually. The review includes analysis of the counterparty's capital adequacy, profitability, liquidity and other factors as may be appropriate.

For efficient portfolio management purposes, each Fund may enter into repurchase agreements, reverse repurchase agreements and stock lending agreements subject to the conditions and limits set out in the Central Bank UCITS Regulations.

[^] Not authorised for sale to the public in Hong Kong.

^{*} sub-fund in liquidation.

Notes to Financial Statements – (continued)

12. Risk Exposure and Risk Management – (continued)

12.2 Credit Risk – (continued)

Until the expiry of the repurchase agreements, reverse repurchase agreements and the stock lending transactions, collateral obtained under such contracts or transactions:

- (i) must be marked to market daily;
- (ii) must equal or exceed, in value, at all times the value of the amount invested or securities loaned;
- (iii) must be transferred to the trustee, or its agent; and
- (iv) must be immediately available to the scheme, without recourse to the counterparty, in the event of a default by that entity.

Any non-cash collateral received by the Company cannot be sold or repledged; must be held at the credit risk of the counterparty; and must be issued by an entity independent of the counterparty. Credit risk is addressed through diversified use of counterparties and issuers, and through minimum security ratings and average portfolio ratings. The respective Investment Manager and/or Sub-Investment Managers may set portfolio limits and may invest based on internal parameters with mutually agreed limits set at a Fund's inception, including issue and issuer limitations, credit minimums, and an average credit quality, and the account is monitored on an on-going basis to ensure it continues to meet these parameters. Rigorous independent analysis of all credit securities before purchase, including financial modeling, scenario analysis, and monitoring changes in risk profile may also be performed. Generally no more than 5% of the portfolio may be invested in any single corporate issuer at the time of purchase.

The Valuation Committee meets at least monthly and whenever the circumstances so require, to review and deliberate on valuation concerns including credit risk. The respective Investment Manager and/or Sub-Investment Managers provide risk analysis to the Board and the Committee on a semiannual basis.

Substantially all of the cash and securities held by the Funds are held via the Depositary, who has a credit rating of AA- (28 February 2021: AA-). Bankruptcy or insolvency by the Depositary may cause the Funds' rights with respect to the cash held by the Depositary to be delayed or limited. The credit rating of the Depositary is highly rated by prominent rating agencies. If the credit quality or financial position of the Depositary deteriorates significantly, the respective Investment Manager and/or Sub-Investment Managers may move the cash holdings to another bank.

Any securities placed as collateral are disclosed on the Portfolio of Investments. Cash and cash equivalents held at the Depositary and margin accounts and restricted cash are disclosed in the Statement of Financial Position.

If a Fund has posted collateral to a counterparty, in a counterparty insolvency, that Fund may have the right under trading agreements with the counterparty to recall such posted collateral. In practice, however, the Fund may seek to reduce any amounts owed to the counterparty to settle any open transactions by setting off the amounts owed against the posted collateral. If the Fund was due back any collateral after setting off against the amounts owed (e.g., the Fund's position was over collateralised), it is likely the Fund would have an unsecured claim against the counterparty in the insolvency proceeding for the excess amount due to it.

The following table represents the market value of the securities which have been placed as collateral with brokers as at 28 February 2022 and 28 February 2021 in relation to derivatives trading:

Fund	Broker	As at 28 February 2022 Market Value of Collateral 000's	As at 28 February 2021 Market Value of Collateral 000's
Legg Mason Western Asset US Core Plus Bond Fund	Citi	\$280	\$46
Legg Mason Western Asset Global Multi Strategy Fund	Morgan Stanley	\$89	\$115
Legg Mason Western Asset Global Core Plus Bond Fund [^]	Citi	\$–	\$84
Legg Mason Western Asset Global Core Plus Bond Fund [^]	JP Morgan	\$314	\$331
Legg Mason Western Asset Macro Opportunities Bond Fund [^]	Citi	\$–	\$8,834

Amounts designated as "–" are either \$0 or less than \$1,000.

To mitigate counterparty credit risk, certain over-the-counter derivatives are cleared through central clearing houses. Under this arrangement, trades entered with counterparties are given up to clearing houses, which after acceptance effectively replace the counterparty for the risk aspects of the trade.

As at 28 February 2022 and 28 February 2021, margin accounts and restricted cash and other receivables were exposed to credit risk. The total amount of financial assets exposed to credit risk approximates to their carrying values on the Statement of Financial Position (excluding equities).

^β The portfolio is constructed on a bottom-up basis using Western Asset's fundamental value process. The investment team does not rely on rating agencies research; however, it evaluates their work and enhancement levels in securities. For securities that are not rated by a nationally recognized statistical rating organisation (NRSRO), the investment team assigns an internal credit rating based on the investment team's fundamental analysis.

Notes to Financial Statements – (continued)

12. Risk Exposure and Risk Management – (continued)

12.3 Liquidity Risk

The Company's Prospectus provides for the daily creation and cancellation of shares and the Company is therefore exposed to the liquidity risk of meeting shareholder redemptions at any time.

The Administrator monitors subscription and redemption volumes on a daily basis and notifies the relevant Investment Manager or Sub-Investment Managers of significant movements and unusual trends as appropriate. If redemption requests on any dealing day (as defined in the Prospectus) exceed 10% of the shares in issue in respect of any Fund, the Company may elect to restrict the total number of shares redeemed on that dealing day to 10% of the outstanding shares of the Fund, in which case all the relevant redemption requests shall be scaled down pro rata. The Company shall defer the excess redemption requests, and shall treat the deferred requests as if they were received for each subsequent dealing day (in relation to which the Company has the same power of deferral at the then prevailing limit) until all the shares to which the original request relates have been redeemed. In such cases, the Company may reduce requests pro rata on the next and following dealing days so as to give effect to the above limitation.

The Company may temporarily suspend the determination of the net asset value and the sale or redemptions of shares in any Fund during any period:

- (i) when any market is closed which is the main market for a significant part of the Fund's investments, or when trading thereon is restricted or suspended;
- (ii) when any emergency exists as a result of which disposal by the Company of investments which constitute a substantial portion of the assets of the Fund is not practically feasible;
- (iii) when for any reason the prices of any investments of the Fund cannot be reasonably, promptly or accurately ascertained by the Fund;
- (iv) when remittance of monies which will, or may be, involved in the realisation of, or in the payment for, investments of the Fund cannot, in the opinion of the Directors, be carried out at normal rates of exchange; or
- (v) when proceeds of the sale or redemption of the shares cannot be transmitted to or from the Fund's accounts.

The Company has the ability to borrow in the short term to ensure settlement. In accordance with the UCITS Regulations a Fund may borrow money only as follows:

- (a) a Fund may acquire foreign currency by means of a "back-to-back" loan; and
- (b) a Fund may borrow:
 - (i) up to 10% of its net asset value provided that such borrowing is on a temporary basis; and
 - (ii) up to 10% of its net asset value provided that the borrowing is to make possible the acquisition of real property required for the purpose of its business;

provided that such borrowing referred to in subparagraph b (i) and b (ii) may not in total exceed 15% of the borrower's assets.

Global Credit Facility

Effective 5 February 2021, the Company together with other European and U.S. registered investment funds managed by Franklin Templeton Investments (individually, "Borrower", collectively, "Borrowers"), entered into a joint syndicated senior unsecured credit facility totalling US\$2,675 million (the "Global Credit Facility") to provide a source of funds to the Borrowers for temporary and emergency purposes, including the ability to meet future unanticipated or unusually large redemption requests.

Under the terms of the Global Credit Facility, the Company will, in addition to interest charged on any borrowings made by the Company and other costs incurred by the Company, pay its share of fees and expenses incurred in connected with the implementation and maintenance of the Global Credit Facility, based upon its relative share of the aggregate net assets of all of the Borrowers, including an annual commitment fee based upon the unused portion of the Global Credit Facility.

All of the Funds of the Company, with the exception of Legg Mason Western Asset US Government Liquidity Fund, are within the scope of the Global Credit Facility.

One of the responsibilities of the Valuation Committee is to review and deliberate on valuation concerns, including illiquid securities. The Company may from time to time invest in derivative contracts traded over-the-counter, which are not traded in an organised public market and may be illiquid. As a result, the Company may not be able to liquidate quickly its investments in these instruments at an amount close to their fair value in order to meet its liquidity requirements or to respond to specific events such as deterioration in the creditworthiness of any particular issuer.

The tables below have been prepared based on the undiscounted gross cash outflows relating to respective financial liabilities. The forward foreign currency contracts included in the tables below settle on a gross basis. Please refer to the relevant Portfolio of Investment for details of gross settlement amounts on these contracts

14. Significant Events – (continued)

During the financial year, the spread of COVID-19 continued to impact the global economy and financial markets. It is too early to determine the final impact from COVID-19. The length and depth of the downturn – as well as its impact of financial markets – will be driven by a number of factors, including efforts to “flatten the curve” through public lockdowns, quarantines and social distancing. In the meantime, there have been aggressive monetary and fiscal actions taken around the globe.

On 24 February 2022, Russia began military operations in the sovereign territory of Ukraine. The current political and financial uncertainty surrounding Russia and Ukraine may increase market volatility and the economic risk of investing in securities in these countries and other impacted countries within the region. Due to the sanctions, actions by governments, developments in Ukraine itself and other circumstances, the Manager continues to assess the impact on valuation and liquidity and will take any potential actions needed, in accordance with the Fund's valuation policies and procedures.

There have been no other significant events during the financial year ended 28 February 2022.

15. Segregated Liability

The Company is an umbrella fund with segregated liability between its Funds. As such, as matter of Irish law the assets of each of the Funds will not be exposed to the liabilities of the Company's other Funds. Notwithstanding the foregoing there can be no assurance that, should an action be brought against the Company in the court of another jurisdiction, the segregated nature of the Funds would necessarily be upheld.

16. Subsequent Events

With effect from 21 June 2022, Legg Mason Western Asset Emerging Markets Corporate Bond Fund* and Legg Mason Western Asset Euro High Yield Fund* are ceasing trading.

With effect from 11 July 2022, Franklin MV European Equity Growth and Income Fund* is ceasing trading.

The Board of Directors, based on restrictions introduced by Council Regulation (EU) No 833/2014 of 31 July 2014 concerning restrictive measures in view of Russia's actions destabilizing the situation in Ukraine, as amended, in particular by Council Regulation (EU) 2022/328 of 25 February 2022 amending Regulation No 833/2014, and the new restrictions imposed by the Council Regulation (EU) 2022/398 amending Regulation (EC) No 765/2006 concerning restrictive measures in view of the situation in Belarus and the involvement of Belarus in the Russian action against Ukraine extending the scope of the EU sanction to Belarus, have resolved to ban any subscription in the Fund by (i) any Russian/Belarusian national or natural person residing in Russia/Belarus or any legal person, entity or body established in Russia/Belarus (“Russian/Belarusian person”), (ii) any Russian/ Belarusian person residing in a non-EU Member State country and (iii) any investor whose ultimate beneficial owner is a Russian/Belarusian person.

There were no other material events subsequent to the Statement of Financial Position date which require disclosure in the financial statements.

17. Approval of the Annual Report and Audited Financial Statements

The Directors approved the Annual Report and Audited Financial Statements on 16 June 2022.

The method of calculation of the Total Expense Ratios (TER) is described on the website Asset Management Association Switzerland (AMAS, formerly Swiss Funds & Asset Management Association, SFAMA) (www.am-switzerland.ch).

(1) CU = Currency units in the Fund's accounting currency.

** Annualised for periods less than one year.

Statement of Major Portfolio Changes (unaudited)

For the year ended 28 February 2022

In accordance with the UCITS Regulations, a statement of significant changes in the composition of each Fund's Portfolio of Investments during the reporting year is provided to ensure that shareholders can identify changes in the investments held by each of the Funds. These are defined as the aggregate purchases and sales of an investment (including maturities but excluding reverse repurchase agreements, overnight discount notes and time deposits, which are employed chiefly as a mean of seeking to ensure efficient portfolio management) exceeding 1.00% of the total value of purchases and sales for the year. At a minimum the largest twenty purchases and sales are listed. If a Fund entered into less than twenty purchases or sales during the reporting year, then all transactions are presented.

UCITS V Remuneration Policy (unaudited)

Remuneration

Franklin Templeton International Services S.à.r.l. ("FTIS"), as UCITS licensed management company (the "Management Company") has a remuneration policy (the "Policy") in place which applies to all UCITS funds (each a "UCITS" and together the "UCITS") under its management. The Policy has been designed to discourage excessive risk taking, integrating in its performance management systems risk criteria specific to the business units it covers. The policy has a governance structure aimed at preventing internal conflicts of interest.

There are defined procedures in place for the creation, update, review and approval of the Policy as well as for communication and implementation of the Policy. Senior Management, Human Resources, Compliance and other functions are all involved in this process and the Policy is approved by Senior Management and the Board of Directors of the Management Company.

Fixed remuneration is defined as base salary plus other benefits which may include pension contributions, life assurance premiums or private medical insurance premiums. Levels of fixed remuneration are set with reference to job complexity, level of responsibility, performance and market benchmarking data. These levels are reviewed on a regular basis.

Variable remuneration is defined as annual bonuses, long term awards in the form of performance share grants or sales bonus payments. Levels of variable remuneration are set with reference to overall corporate and business unit performance as well as individual performance.

The full Policy is available at the registered office of the Management Company. Quantitative information relevant to the Funds is outlined below:
