Schroder International Selection Fund Asian Bond Total Return

A Accumulation EUR Hedged | Data as at 30.06.2021

Fund objectives and investment policy

The fund aims to provide capital growth and income by investing in bonds issued by governments and companies in Asia.

This fund may use financial derivative instruments as a part of the investment process. Derivatives carry a high degree of risk and should only be considered by sophisticated investors.

Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall.

Performance over 5 years (%)

Past performance and any forecasts are not necessarily a guide to the future or likely performance.

The value of investments and income from them can go down as well as up and is not guaranteed. The distributions are not guaranteed. Ordinarily, they will be reviewed annually. In the event of the Fund's income and realised gains being less than indicated distribution amount per unit per annum, distributions will be made from capital. Investors should be aware that the distributions may exceed the income and realised gains of the Fund at times and lead to a reduction of the amount originally invested, depending on the date of initial investment. Where 'since inception' performance figures are stated, please note that the inception date is the same as the share class launch date under 'Fund Facts'.

Benchmark and corporate action information

Performance achieved during this period was achieved in circumstances that no longer apply. The fund's objectives and investment policy were changed in March 2018. On 01.03.2018 Schroder ISF Asian Bond Absolute Return changed its name to Schroder ISF Asian Bond Total Return. With effect from 01.08.2010 Schroder ISF Asian Bond changed its name to Schroder ISF Asian Bond Absolute Return. The fund does not have a target benchmark. The fund's performance should be compared against 50% Markit iBoxx Asian Local Currency index + 50% JP Morgan Asian Credit index. The comparator benchmark is only included for performance comparison purposes and does not have any bearing on how the investment manager invests the fund's assets. The fund's investment universe is expected to overlap materially with the components of the comparator benchmarks. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the comparator benchmark. The investment manager will invest in companies or sectors not included in the comparator benchmark. The comparator benchmark has been selected because the investment manager believes that the benchmark is a suitable comparison for performance purposes given the fund's investment objective and policy. On 01.12.2011 the LIBOR 3 Months replaced the Citi US Treasury / Agency TR. The full track record of the previous index has been kept and chainlinked to the new one. On 01.03.2018 the 50% Markit iBoxx Asian Local Currency + 50% JP Morgan Asian Credit replaced the LIBOR 3 Months. The full track record of the previous index has been kept and chainlinked to the new one.
