### OBJECTIVES AND INVESTMENT POLICY

#### Objective

To grow capital over a five year period.

#### Investment policy

##### What the fund invests in

- 80% to 100% in company shares.
- Up to 20% in bonds, cash and near cash, other transferable securities, other funds (up to 10%) managed by Artemis and third party funds, money market instruments, and derivatives.

##### Use of derivatives

The fund may use derivatives

- for investment purpose to achieve the fund objective, including by taking long and short positions
- to produce additional income or growth
- for efficient portfolio management purposes to reduce risk and
- manage the fund efficiently.

##### Where the fund invests

- At least 80% in Europe (excluding the United Kingdom)
- Up to 20% in other countries.

##### Industries the fund invests in

- Any

##### Other limitations specific to this fund

- None

##### Investment strategy

- The fund is actively managed.
- The manager pursues a fundamental equity strategy with the following investment process:
  - Bottom-up research and financial analysis is conducted to assess business models, prospective returns and risk
  - The manager has a long-term investment horizon when assessing companies
  - The manager focuses on businesses with competitive advantages (conditions or circumstances that put a company in a superior business position relative to its peers) that are expected to continue into the future
  - Opportunistic investments may be made in companies that are in recovery, need re-financing or are suffering from investor indifference (also known as 'special situations') and turnarounds
  - Engagement with management teams on capital allocation and governance
  - The end result is a concentrated portfolio, typically 30-60 holdings, depending on opportunity set and the manager's conviction.

#### Benchmarks

##### FTSE World Europe ex UK TR (hedged to GBP)

A widely-used indicator of the performance of European stockmarkets, in which the fund invests. It acts as a 'comparator benchmark' against which the fund's performance can be compared. Management of the fund is not restricted by this benchmark.

##### IA Europe Excluding UK NR

A group of other asset managers' funds that invest in similar asset types as this fund, collated by the Investment Association. It acts as a 'comparator benchmark' against which the fund's performance can be compared. Management of the fund is not restricted by this benchmark.

#### Other information

**Class hedging:** The costs and benefits of currency hedging transactions will apply to hedged classes. This includes the costs of hedging and the allocation of any gains and losses resulting from the hedging transactions.

**Dealing frequency:** Normally Monday to Friday except UK public holidays and non-dealing days.

Visit [www.artemisfunds.com/non-dealing-days](http://www.artemisfunds.com/non-dealing-days) for more information. Instructions received before 12 noon UK time will be processed at 12 noon on the same day.

**Distribution policy:** This is a distribution class. Any income this fund receives will be paid out to investors every 12 months.

### RISK AND REWARD PROFILE

- The fund is in the category shown due to historic volatility (how much and how quickly the value of shares in the fund may have risen and fallen in the past due to movements in markets, currencies and interest rates). It may not be a reliable indication of the future risk profile of the fund.

- The risk category has been calculated using historic data and may not be a reliable indicator of the fund's future risk profile.

- A risk indicator of “1” does not mean that the investment is “risk free”.

Risk indicator number is accurate as at: 31 December 2023.

**The risk indicator may not fully take into account the following risks and the following may affect fund performance:**

**Market volatility risk:** The value of the fund and any income from it can fall or rise because of movements in stockmarkets, currencies and interest rates, each of which can move irrationally and be affected unpredictably by diverse factors, including political and economic events.

**Currency risk:** The fund's assets may be priced in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the fund's value

**Concentration risk:** The fund may have investments concentrated in a limited number of holdings. This can be more risky than holding a wider range of investments.

**Smaller companies risk:** Investing in small and medium-sized companies can involve more risk than investing in larger, more established companies. Shares in smaller companies may not be as easy to sell, which can cause difficulty in valuing those shares.

**Derivatives risk:** The fund may invest in derivatives with the aim of profiting from falling ('shorting') as well as rising prices. Should the asset's value vary in an unexpected way, the fund value will reduce.

**Leverage risk:** The fund may operate with a significant amount of leverage. Leverage occurs when the economic exposure created by the use of derivatives is greater than the amount invested. A leveraged portfolio may result in large fluctuations in its value and therefore entails a high degree of risk including the risk that losses may be substantial.

Please refer to the fund's prospectus for full details of these and other risks which are applicable to this fund.
