

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

**UBS (Irl) ETF plc - Global Gender Equality UCITS ETF (the "Fund"), a sub-fund of UBS (Irl) ETF plc (the "Company"), class (hedged to GBP) A-acc (ISIN: IE00BDR5H297)**

This Fund's management company is UBS Fund Management (Ireland) Limited, a subsidiary of UBS AG.

## Objectives and investment policy

The Fund is passively managed and seeks to track performance of the The Solactive Equileap Global Gender Equality 100 Leaders Net Total Return hedged to GBP Index (the 'Index'). The Index is designed to generate exposure to the equity market performance of developed market companies which have a high gender diversity score while avoiding those with a low gender diversity score. This focus on companies with a high gender diversity score excludes at least 20% of the least well-rated securities as against the standard index universe. The Fund does not benefit from an SRI label.

The Fund will seek to hold all of the shares of the Index, in the same proportions as the Index, so that essentially the portfolio of the Fund will be a near mirror image of the Index. In seeking to implement its investment objective of tracking the performance of the Index, the Fund may also in exceptional circumstances hold securities which are not comprised in its Index, including, for example, securities in respect of which there has been an announcement or it is expected that they will shortly be included in the Index. The Fund may, for the purpose of reducing risk, reducing costs or generating additional capital or income, use derivative instruments. The use of derivative instruments may multiply the gains or losses made by the Fund on given investment or on its investments generally.

Currency hedged share classes may also be available in the Fund.

This sub-fund promotes environmental and/or social characteristics but does not have a sustainable investment objective.

The Fund will not enter into any securities lending. The return of the fund depends mainly on the performance of the tracked index.

Investors other than authorized participants may not subscribe for shares directly with UBS (Irl) ETF plc, but may purchase and sell shares, through an intermediary, on one of the stock exchanges listed for the share class on the

website [www.ubs.com/etf](http://www.ubs.com/etf). In exceptional circumstances, direct redemptions with UBS (Irl) ETF plc, are however possible on each dealing day (as set out in the relevant supplement to the prospectus). Authorized participants may subscribe and redeem shares with the UBS (Irl) ETF plc under the conditions detailed in the relevant authorized participant agreement.

Fund income is not paid out, but instead will be reinvested.

The impact of currency fluctuations between any foreign currency to the Index currency is reduced by selling foreign currency forwards at one month forward rate in line with the currency version of the Index. Hedging reduces the effect of the fluctuations in the exchange rate between the currencies of the equity securities (i.e. shares) that make up the Index and GBP, the currency of the Share Class.

## Risk and reward profile

### More about the risk category

- The risk category is based on the estimated future volatility of the Fund. The method used for this estimate depends on the fund type and historical data.
- Historical performance is not a reliable indicator for future performance.
- The risk category allocated is not static and may vary over time.
- Allocation to the lowest risk category does not mean that an investment in this fund is free of risk.

### Why is this Fund in this Category?

The Fund is in risk category 6 because the volatility of its returns is very high. The Fund invests in equities and may therefore be subject to high volatility. This requires an elevated risk tolerance and capacity. The value of a unit may fall below the purchase price. The value of a unit may be influenced by currency fluctuations.

### Further material risks

- The Fund may use derivatives which can reduce investor risks or give rise to market risks as well as potential loss due to failure of counterparty.
- Every fund reveals specific risks, a detailed and comprehensive list of risk descriptions can be found in the prospectus.
- Sustainability characteristics and risks are considered as part of the Index selection process.

# Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

## One-off charges taken before or after you invest<sup>1</sup>

Entry charge	0.00% <sup>2</sup>
Exit charge	0.00% <sup>2</sup>

## Charges taken from the fund over a year

Ongoing charges	0.23%
-----------------	-------

## Charges taken from the fund under certain specific conditions

Performance fee	none
-----------------	------

<sup>1</sup> This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

<sup>2</sup> Investors who deal on secondary markets will pay fees as charged by their stock brokers. These fees are publicly available on exchanges on which the shares are listed and traded and may also be obtained from the relevant stock brokers. Transaction costs related to dealing directly with the Fund will be payable by authorised participants.

The **ongoing charges** figure is based on the last twelve months prior to the preparation of this document. This figure may vary from year to year. It generally excludes:

- Portfolio transaction costs, except in the case of an entry/ exit charge paid by the Fund when buying or selling units in another collective investment undertaking

For more information, please see the charges section of the Fund's prospectus, which is available at [www.ubs.com/etf](http://www.ubs.com/etf).

# Past performance

**Performance in the past is not a reliable indicator of future results.**

The chart shows the class's investment returns calculated as percentage year-end over year-end change of the class net asset value. In general any past performance takes account of all ongoing charges, but not the entry charge. If the sub-fund is managed against a benchmark, its return is also shown.

The class was launched in 2018. The fund was launched in 2017

The past performance of this sub-fund is calculated in GBP.
