# Notes to the Financial Statements

## 1. Organisation

BlackRock Strategic Funds (the “Company”) is a public limited company (*société anonyme*) established under the laws of the Grand Duchy of Luxembourg as an open-ended variable capital investment company (*société d’investissement à capital variable*). The Company has been authorised by the *Commission de Surveillance du Secteur Financier* (the “CSSF”) as a UCITS pursuant to the provisions of Part I of the 2010 Law and is regulated pursuant to such law.

The Company has appointed BlackRock (Luxembourg) S.A. as its Management Company.

As at 30 November 2023, the Company offered shares in 31 Funds (each a “Fund”, together the “Funds”). The Company is an umbrella structure comprising separate Funds with segregated liability. Each Fund shall have segregated liability from the other Funds and the Company shall not be liable as a whole to third parties for the liabilities of each Fund. Each Fund shall be made up of a separate Portfolio of Investments maintained and invested in accordance with the investment objectives applicable to such Fund. Each Fund is a separate pool of assets and is represented by separate shares of each Fund which are divided into share classes as detailed in Appendix I.

The classes of shares have equivalent rights in the Company but carry different features and charging structures which are more fully described in the Company’s Prospectus.

## 2. Summary of Significant Accounting Policies

The financial statements have been prepared in accordance with generally accepted accounting principles in Luxembourg and with the legal and regulatory requirements relating to the preparation of the financial statements as prescribed by the Luxembourg authorities for Luxembourg UCITS and include the following significant accounting policies:

### (a) Valuation of Investments, Other Assets and Other Liabilities

The Company’s investments, other assets and other liabilities are valued as follows:

- ▶ transferable securities which are admitted to an official exchange listing or dealt in on another regulated market, are valued on the basis of the latest available price prevailing on the valuation date. For securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used. Where such securities or other assets are quoted or dealt in, on or by more than one stock exchange or regulated market, the Board may in its discretion select one of such stock exchanges or regulated markets for such purposes. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the NAV of certain Funds or where governments chose to impose fiscal or transaction charges on foreign investment. As a result, the Board have implemented fair value techniques in order to estimate the fair value of these investments. Such securities and derivatives shall be valued at their probable realisation value as determined by the competent persons (the Directors). Because of the inherent uncertainty in the fair value process, these estimated values may significantly differ from the values that would have been used had a ready market for the securities existed, and from the values that may be ultimately recovered;
- ▶ for non-quoted securities or securities not traded or dealt in on any stock exchange or other regulated market (including securities of closed-ended investment funds), as well as quoted or non-quoted securities on such other markets for which no valuation price is available, or securities for which the quoted prices are, in the opinion of the Board, not representative of the fair market value, the value shall be determined prudently and in good faith by the Board, on the basis of their expected disposal or acquisition price;
- ▶ as at 30 November 2023, the adjusted fair value applied to certain securities and/or derivatives are disclosed in the table below:

| Fund   | Currency | Fair value | % of Net Assets |
|--|----------|------------|-----------------|
| BlackRock Dynamic Diversified Growth Fund          | EUR      | 113,423    | 0.02            |

<sup>(1)</sup> Fund name changed during the period, see Note 1 for further details.

► if in any case a particular value is not ascertainable by the methods outlined above, or if the Board considers that some other method of valuation more accurately reflects the fair value of the relevant security or other asset for the purpose concerned, the method of valuation of the security or other asset will be such as the Board in their absolute discretion decides. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the NAV of certain Funds. In such cases the Board may set specific thresholds, that, where exceeded, result in an adjustment to the NAV by applying a specific index adjustment. Additionally, where governments choose to impose fiscal or transaction charges on foreign investment, the Board may adjust the NAV to reflect such charges;

► as at 30 November 2023, BlackRock Emerging Markets Absolute Return Fund (terminated on 6 May 2022) and BlackRock Latin American Opportunities Fund (terminated on 8 March 2019) held open illiquid positions, which together accounted for less than 1.00% of the net asset value of the Funds as at the last Valuation Point prior to each Fund's date of termination. If the illiquid securities are subsequently disposed of, or a value is realised, this will be distributed to the shareholders of the respective Funds proportionate to each shareholder's holding in the Fund as at the date of termination;

► investments in open-ended collective investment schemes are valued on the basis of the last available NAV of the units or shares of such collective investment scheme;

► securities lending: securities are delivered to a third party broker in accordance with lending agent instructions and continue to be valued as part of the portfolios of the Funds;

► liquid assets such as time deposits and money market instruments are valued at amortised cost which approximates their fair value;

► cash at bank and other assets are valued at their nominal amount;

► assets which include, in particular, cash owned to bank, interest and dividends receivable, receivable for investments sold and receivable for Fund shares subscribed are valued at nominal value unless it appears unlikely that such nominal amount is obtainable;

► liabilities which include, in particular, interest and dividends payable, income distribution payable, payable for investments purchased and payable for Fund shares redeemed are valued at their nominal value.

(b) Net realised gains and losses on Investments

Net realised gains and losses on sales of investments have been determined on the basis of the average cost method.

(c) Income/Expense from Investments, Cash Accounts and financial derivatives instruments

The Company takes credit for income from its investments on the following basis:

- interest income/expense is accrued daily and includes the amortisation on a straight line basis of premiums and accretion on a straight line basis of discounts;
- bank interest, fixed deposit and money market deposit interest income are recognised on an accrual basis;
- dividend income is accrued on the ex-dividend date and is shown net of withholding tax;
- securities lending income is recognised on an accrual daily basis;
- negative yield expense on financial assets relating to interest from a negative effective interest rate on assets held is accrued daily and is recognised in the Statement of Operations and Changes in Net Assets over the life of the underlying instrument;
- when a bond has been identified as being in default, the interest accrual on the defaulted security is stopped. On confirmation of default from relevant parties, the amount receivable is written off;
- the interest rate of any perpetual bonds in the Portfolio of Investments disclosed under the description is the interest rate applicable at the period end and is for information only as these are bonds with a variable interest rate.

(d) Financial Derivative Instruments

During the period, the Funds have entered into a number of forward foreign exchange transactions and futures contracts. Open forward foreign exchange transactions and futures contracts are valued at the fair market value to close the contracts on the valuation date. Surpluses/deficits arising from these and unsettled contracts are taken to unrealised appreciation/(depreciation) and are included under assets or liabilities (as appropriate) in the Statement of Net Assets. The net change in unrealised appreciation or depreciation and the net realised gains or losses on settlement or closing transactions of forward foreign exchange transactions and futures contracts are presented in the Statement of Operations and Changes in Net Assets.

The Funds can write covered call and put options or swaptions and purchase call and put options or swaptions. When the Funds write and/or purchase an option or a swaption, an amount equal to the premium received or paid by the Funds is reflected as a liability or an asset. The liability for a written option or swaption and the asset for a purchased option or

# Notes to the Financial Statements continued

swaption is subsequently marked to market to reflect the current value of the option or the swaption. When a security is sold or bought through an exercise of an option or a swaption, the premium received (or paid) is deducted from (or added to) the basis of the security sold or bought. When an option or a swaption expires (or the Funds enter into a closing transaction), the Funds realise a gain or loss on the option or the swaption to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transactions exceeds premium paid or received). For futures-style options, the Funds do not prepay the premium. The Funds post margin as in a futures contract, and the option premium is marked to market daily. The purchased options/swaptions at market value and written options/swaptions at market value are included under assets or liabilities (as appropriate) in the Statement of Net Assets. The net change in unrealised appreciation or depreciation and the net realised gains or losses on expiration or closing transactions of options or swaptions are presented in the Statement of Operations and Changes in Net Assets.

During the period, the Funds have entered into Contracts for difference ("CFDs"). CFDs allow investors to take synthetic long or synthetic short positions with a variable margin. Unlike shares, with CFDs the buyer is potentially liable for far more than the amount they paid on margin.

CFDs positions are entered into subject to a daily financing charge, applied at a previously agreed rate above or below the applicable benchmark. The related interest income or expense is accrued daily and disclosed as Contracts for difference interest in a net position in the Statement of Operations and Changes in Net Assets. Interest income receivable and expense payable is disclosed in a net position as "Interest and dividends receivable" or "Interest and dividends payable" in the Statement of Net Assets.

CFDs positions are subject to dividend receipts or payments in such cases where a position is held on the day a dividend has been declared. The related dividend income or expense is accrued on the ex-dividend date and disclosed net of withholding tax as Contracts for difference dividends, net of withholding taxes in the Statement of Operations and Changes in Net Assets. Dividend income receivable and expense payable is disclosed in a net position as "Interest and dividends receivable" or "Interest and dividends payable" in the Statement of Net Assets.

The fair market value of the CFDs is determined by the traded price on the exchange on which the underlying securities or other assets are traded or admitted for trading. For underlying securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used.

The net unrealised appreciation and net unrealised depreciation on Contracts for difference is included under assets or liabilities (as appropriate) in the Statement of Net Assets.

The change in market value, if any, is recorded as net change in unrealised appreciation or depreciation in the Statement of Operations and Changes in Net Assets. Net realised gains or losses on reset or termination of the CFDs are presented in the Statement of Operations and Changes in Net Assets.

Net realised gains and losses on sales of CFDs have been determined on the basis of the First In First Out ("FIFO") cost method.

The Funds had unsettled CFD transactions as of 30 November 2023, which are included within "Receivable for investments sold" and "Payable for investments purchased" in the Statement of Net Assets. CFDs are separately disclosed in the Portfolio of Investments.

The Funds may enter into Swap transactions ("swaps"), in which the Funds and a counterparty agree to make periodic net payments on a specified notional amount. Swap transactions are privately negotiated in the OTC market and may be entered into as a bilateral contract ("OTC swaps") or centrally cleared ("centrally cleared swaps"). These periodic payments received or made are recorded in the Statement of Operations and Changes in Net Assets as net realised gains or losses, respectively. Swaps are valued utilising quotes received daily by the Funds' pricing service, central clearing houses or brokers, which are derived using daily swap curves and models that incorporate a number of market data factors, such as discounted cash flows, trades and values of the underlying reference instruments. In a centrally cleared swap, immediately following execution of the swap agreement, the swap agreement is novated to a clearing counterparty and the Fund faces the clearing counterparty through a broker. Upon entering into a centrally cleared swap, the Fund is required to deposit initial margin with the broker in the form of cash or certain eligible securities in an amount that varies depending on the size and risk profile of the particular swap. Any upfront payments made or received upon entering a swap contract are treated as part of the swap's net realised gain or loss. The daily change in valuation of centrally cleared swaps is recorded as a receivable or payable for variation margin in "Cash at bank" or "Cash owed to bank" position of the Statement of Net Assets until the centrally cleared swap is terminated at which time a net realised gain or loss is recorded. The net change in unrealised appreciation or depreciation and the net realised gains or losses on Swap transactions are disclosed in Statement of Operations and Changes in Net Assets. Interest income receivable and expense payable on swaps is accrued on a daily basis and disclosed in a net position as "Interest and dividends receivable" or "Interest and dividends payable" in the Statement of Net Assets. The Funds had unsettled swap transactions as of 30 November 2023, which are included within "Receivable for investments sold" and "Payable for investments purchased" in the Statement of Net Assets. Swaps are separately disclosed in the Portfolio of Investments.

Net realised gains and losses on sales of swaps have been determined on the basis of the First In First Out ("FIFO") cost method.

Funds may purchase "To Be Announced" securities contracts ("TBAs"). This refers to the common trading practice in the mortgage-backed securities market whereby a contract is purchased which entitles the buyer to a security from a mortgage pool for a fixed price at a future date. At the time of purchase the exact security is not known, but its main characteristics are specified. Although the price has been established at the time of purchase, the principal value has not been finalised. As a TBA is not settled at the time of purchase, this may lead to leveraged positions within a Fund. Purchasing a TBA involves a risk of loss if the value of the security to be purchased declines prior to the settlement date. Risks may also arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts. TBAs are separately disclosed at the end of the Portfolio of Investments.

# Notes to the Financial Statements continued

The Funds may dispose of a commitment prior to settlement if it is deemed appropriate to do so. Proceeds of TBA sales are not received until the contractual settlement date. During the time a TBA sale commitment is outstanding, equivalent deliverable securities, or an offsetting TBA purchase commitment (deliverable on or before the sale commitment date), are held as cover for the transaction.

If the TBA sale commitment is closed through the acquisition of an offsetting purchase commitment, the Fund realises a gain or loss on the commitment without regard to any unrealised gain or loss on the underlying security. If the Fund delivers securities under the commitment, the Fund realises a gain or loss from the sale of the securities upon the unit price established at the date the commitment was entered into.

The Funds had unsettled TBA transactions as of 30 November 2023, which are included within "Receivable for investments sold" and "Payable for investments purchased" in the Statement of Net Assets.

The market values of the TBAs are presented in the Statement of Net Assets. The net change in unrealised appreciation or depreciation and the net realised gains or losses on sales of the TBAs are presented in the Statement of Operations and Changes in Net Assets.

Net realised gains and losses on sales of TBA have been determined on the basis of the First In First Out ("FIFO") cost method.

## (e) Foreign Exchange

The cost of investments in currencies other than the currency of denomination of the respective Fund has been translated at the rates of exchange ruling at the time of purchase. Investments and other assets and liabilities in currencies other than the currency of denomination of the respective Fund have been translated at the exchange rate prevailing at the respective Fund valuation point in Luxembourg on 30 November 2023. The net change in unrealised appreciation or depreciation and the net realised gains or losses on disposal or settlement of other assets or liabilities in currencies other than the currency of denomination of the respective Fund are presented in the Statement of Operations and Changes in Net Assets.

## (f) Combined Financial Statements

The accounts of each Fund are expressed in the Fund's base currency. The combined figures of the Company are expressed in USD and include the total of the financial statements of the different Funds, translated if necessary. For the translation of the Statement of Net Assets, the exchange rate prevailing at the Funds' valuation point in Luxembourg as at 30 November 2023 for all Funds expressed in EUR excluding BlackRock Dynamic Diversified Growth Fund is:

|     | EUR    |
|-----|--------|
| USD | 0.9167 |

# Notes to the Financial Statements continued

For the BlackRock Dynamic Diversified Growth Fund, the exchange rate prevailing at the Fund's valuation point in Luxembourg as at 30 November 2023 is:

|     | EUR    |
|-----|--------|
| USD | 0.9165 |

For the BlackRock Emerging Companies Absolute Return Fund and BlackRock UK Equity Absolute Return Fund, the exchange rate prevailing at the Fund's valuation point in Luxembourg as at 30 November 2023 is:

|     | GBP    |
|-----|--------|
| USD | 0.7920 |

For the Statement of Operations and Changes in Net Assets, the following exchange rate is the average rate calculated over the period for all Funds expressed in EUR excluding BlackRock Dynamic Diversified Growth Fund:

|     | EUR    |

| USD | 0.9250 |

For the BlackRock Dynamic Diversified Growth Fund, the following exchange rate is the average rate calculated over the period:

|     | EUR    |
|-----|--------|
| USD | 0.9251 |

For the BlackRock Emerging Companies Absolute Return Fund and BlackRock UK Equity Absolute Return Fund, the following exchange rate is the average rate calculated over the period:

|     | GBP    |
|-----|--------|
| USD | 0.7979 |

The combined figures in the Statement of Operations and Changes in Net Assets have been calculated using the average exchange rates throughout the period. The resulting Foreign exchange adjustment of USD 206,351,383 represents the movement in exchange rates between 1 June 2023 and 30 November 2023. This is a notional amount, which has no impact on the Net Assets of the individual Funds.

## (g) Income Equalisation

The Company operates Income Equalisation arrangements with a view to ensure that the level of net income accrued within a Fund and attributable to each share is not affected by the issue, conversion or redemption of Fund shares during an accounting period.

The Income Equalisation is included in the Movements in share capital in the Statement of Operations and Changes in Net Assets.

## (h) Dilution

The Directors may adjust the NAV per Share for a Fund in order to reduce the effect of "dilution" on that Fund. Dilution occurs when the actual cost of purchasing or selling the underlying assets of a Fund deviates from the carrying value of these assets in the Fund's valuation, due to factors such as dealing and brokerage charges, taxes and duties, market movement and any spread between the buying and selling prices of the

underlying assets. Dilution may have an adverse effect on the value of a Fund and therefore impact Shareholders. By adjusting the NAV per Share this effect can be reduced or prevented and Shareholders can be protected from the impact of dilution. The Directors may adjust the NAV of a Fund if on any Dealing Day the value of the aggregated cash flows of all Share Classes of that Fund results in a net increase or decrease which exceeds one or more thresholds that are set by the Directors for that Fund. The amount by which the NAV of a Fund may be adjusted on any given Dealing Day is related to the anticipated cost of market dealing for that Fund. In such circumstances the NAV of the relevant Fund may be adjusted by an amount not exceeding 1.50%, or 3% in the case of bond Funds, of that NAV. Under exceptional circumstances the Directors may, in the interest of Shareholders, decide to temporarily increase the maximum swing factor indicated above and inform investors thereof. The adjustment will be an addition when the net movement results in an increase in the value of all Shares of the Fund and a deduction when it results in a decrease.

As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, particularly in relation to duties and taxes, the resulting adjustment may be different for net inflows than for net outflows. In addition, the Directors may also agree to include extraordinary fiscal charges in the amount of the adjustment. These extraordinary fiscal charges vary from market to market and are currently expected not to exceed 2.5% of that NAV. Where a Fund invests primarily in certain asset types, such as government bonds or money market securities, the Directors may decide that it is not appropriate to make such an adjustment. In accordance with the Prospectus, such dilution adjustment was applied as at 30 November 2023 to BlackRock Systematic Asia Pacific Equity Absolute Return Fund, BlackRock Systematic ESG World Equity Fund and BlackRock Systematic Global Equity Absolute Return Fund.

During the financial period from 1 June 2023 to 30 November 2023 dilution adjustments were applied to all Funds except BlackRock Health Sciences Absolute Return Fund, BlackRock Managed Index Portfolios – Conservative, BlackRock Managed Index Portfolios – Growth, BlackRock Managed Index Portfolios – Moderate, BlackRock Systematic Sustainable Global Equity Fund.

The published/dealing NAV per share is disclosed in the Three Year Summary of Net Asset Values (on pages 22 to 33) and may include a dilution adjustment. This adjustment is not recognised in the Statement of Net Assets or the Statement of Operations and Changes in Net Assets.

## (i) Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of securities and derivatives. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the security. When a security is recognised initially, it is measured at its market value, plus transaction costs that are directly attributable to the acquisition or issue of the security.

Transaction costs excluding depositary transaction fees on purchases or sales of securities are included within net realised gain/(loss) or net change in unrealised appreciation/(depreciation) within the Statement of Operations and Changes in Net Assets of each Fund. Depositary

# Notes to the Financial Statements continued

transaction fees are included in Depository fees in the Statement of Operations and Changes in Net Assets of the Fund. Refer to Note 6 for further information.

## (j) Foreign currencies on other transactions

Foreign currencies on other transactions relate to realised and unrealised appreciation or depreciation on cash balances and spot contracts and are disclosed in the Statement of Operations and Changes in Net Assets.

### 3. Management Company

BlackRock (Luxembourg) S.A. (the "Management Company") has been appointed by the Company to act as its Management Company. The Management Company is authorised to act as a fund management company in accordance with Chapter 15 of the 2010 Law.

The Company has signed a management company agreement with the Management Company. Under this agreement, the Management Company is entrusted with the day-to-day management of the Company, with responsibility for performing directly or by way of delegation all operational functions relating to the Company's investment management, administration and marketing of the Funds.

In agreement with the Company, the Management Company has decided to delegate several of its functions as is further described in the Prospectus. The Management Company is also authorised to act as an Alternative Investment Fund Manager in accordance with the Law of 12 July 2013.

The Management Company is a wholly owned subsidiary within the BlackRock Group. It is regulated by the CSSF.

### 4. Management and Distribution Fees

During the period, the Company paid management fees to the Management Company.

The Company pays management fees at an annual rate as shown in Appendix F of the Prospectus. The level of management fee varies from 0.30% to 1.80% of the NAV, with the exception of Class X shares, which do not pay a management fee but rather a fee to the Investment Advisers or affiliates under an agreement. The level of management fee varies according to which Fund and Share Class the investor buys. These fees accrue daily, are based on the NAV of the relevant Fund and are paid monthly. Certain costs and fees are paid out of the management fees, including the fees of the Investment Advisers.

Where a Fund invests a substantial proportion of its net assets in other UCITS and other Undertakings for Collective Investment ("UCIs"), the Investment Adviser will ensure that the total management fee (excluding any performance fee, if any) charged to such Fund (including management fees from other UCITS and UCIs in which it invests) shall not exceed 3.75% of the NAV of the Fund.

During the period, the following Funds were subject to management fee rebate linked to investments into target funds managed by BlackRock disclosed in the Statement of Operations and Changes in Net Assets under the caption "Management fee rebate":

BlackRock Dynamic Diversified Growth Fund, BlackRock Emerging Markets Flexi Dynamic Bond Fund, BlackRock Global Absolute Return Bond Fund, BlackRock Macro Opportunities Fund, BlackRock Managed Index Portfolios – Conservative, BlackRock Managed Index Portfolios – Defensive, BlackRock Managed Index Portfolios – Growth and BlackRock Managed Index Portfolios – Moderate, BlackRock Sustainable Fixed Income Credit Strategies Fund, BlackRock Sustainable Fixed Income Strategies Fund.

During the period, all Funds disclosed below were subject to fee reimbursement from the Management Company, as disclosed in the Statement of Operations and Changes in Net Assets under the caption "Reimbursement of expenses":

BlackRock European Select Strategies Fund, BlackRock Global Absolute Return Bond Fund, BlackRock Global Equity Absolute Return Fund, BlackRock Managed Index Portfolios – Conservative, BlackRock Managed Index mPortfolios – Defensive, BlackRock Managed Index Portfolios – Growth, BlackRock Managed Index Portfolios – Moderate, BlackRock Sustainable Euro Corporate Bond Fund, BlackRock Sustainable Euro Short Duration Bond Fund, BlackRock Sustainable Fixed Income Credit Strategies Fund, BlackRock Systematic Asia Pacific Equity Absolute Return Fund, BlackRock Systematic Global Equity Absolute Return Fund.

During the period, the Company paid distribution fees to BlackRock Investment Management (UK) Limited who acted as Principal Distributor.

The Company pays annual distribution fees between 1.25% and 1.00% of the NAV for Class C Shares and 0.50% of the NAV for Class E Shares. These fees accrue daily, are based on the NAV of the relevant Fund reflecting, when applicable, any adjustment to the NAV of the relevant Fund, and are paid monthly.

The management and distribution fees per Share Class per Fund are disclosed in detail in the Prospectus of the Company and the relevant KIID. Management and distribution fees payable at 30 November 2023 are included in the Statement of Net Assets under the caption "Accrued expenses and other liabilities".

### 5. Annual Service Charge

The Company pays an Annual Service Charge to the Management Company.

The level of Annual Service Charge may vary at the Board's discretion, as agreed with the Management Company, and will apply at different rates across the various Funds and Share Classes issued by the Company. However, it has been agreed between the Board and the Management Company that the Annual Service Charge currently paid shall not exceed 0.30% per annum. It is accrued daily, based on the NAV of the relevant Share Class and paid monthly.

The Directors and the Management Company set the level of the Annual Service Charge at a rate which aims to ensure that the ongoing charge of each Fund remain competitive when compared across a broad market of similar investment products available to investors in the Funds, taking into account a number of criteria such as the market sector of each Fund and the Fund's performance relative to its peer group. The Annual Service Charge is used by the Management Company to meet all fixed and variable operating and administrative costs and expenses incurred by the Company,

# Notes to the Financial Statements continued

with the exception of the Depositary fees, Distribution fees, any fees arising from borrowings (including for the avoidance of doubt any commitment fee that may be due to the lender), any professional services costs relating to withholding tax reclaims (plus any taxes or interest thereon), and any taxes at an investment or Company level. Any commitment fees arising from borrowings or any professional services costs relating to withholding tax reclaims will be allocated between the relevant Funds on a fair and equitable basis.

These operating and administrative expenses include all third party expenses and other recoverable costs incurred by or on behalf of the Company from time to time, including but not limited to, fund accounting fees, transfer agency fees (including sub-transfer agency and associated platform dealing charges), all professional costs, such as consultancy, legal, tax advisory and audit fees, Directors' fees (for those Directors who are not employees of the BlackRock Group), travel expenses, reasonable out-of-pocket expenses, printing, publication, translation and all other costs relating to shareholder reporting, regulatory filing and licence fees, correspondent and other banking charges, software support and maintenance, operational costs and expenses attributed to the Investor Servicing teams and other global administration services provided by various BlackRock Group companies.

The Management Company bears the risk of ensuring that the Funds' ongoing charges remain competitive. Accordingly the Management Company is entitled to retain any amount of the Annual Service Charge paid to it which is in excess of the actual expenses incurred by the Company during any period whereas any costs and expenses incurred by the Company in any period which exceed the amount of Annual Service Charge that is paid to the Management Company, shall be borne by the Management Company or another BlackRock Group company.

Annual Service Charge payable at 30 November 2023 is included in the Statement of Net Assets under the caption "Accrued expenses and other liabilities".

Directors of the Company who are not employees of the BlackRock Group receive a fee in the range of EUR 30,000 to EUR 33,500 per annum gross of taxation. Directors who are employees of the BlackRock Group are not entitled to receive a Director fee.

## 6. Depositary Fees

The Depositary receives an annual fee, based on the value of securities, which accrue daily, plus transaction fees. The annual safekeeping fees range from 0.0073% to 0.5062% per annum and the transaction fees range from USD 1.73 to USD 111.36 per transaction on average.

Safekeeping fees and transaction fees may vary depending on market conditions and are subject to change without notice. The rates for both categories of fees will vary according to the country of investment and, in some cases, according to asset class.

Trading volumes for each Fund will vary according to the investment strategy of each Fund.

Depositary fees payable at 30 November 2023 are included in the Statement of Net Assets under the caption "Accrued expenses and other liabilities".

## 7. Performance Fees

A performance fee may be payable out of each Share Class of each Fund with the exception of Class X shares, Vermögenanlage99 shares, Vermoegenstrategie shares, IndexInvest Chance shares which do not pay a performance fee, in addition to other fees and expenses mentioned in the Prospectus. The performance fee accrues on each Valuation Day and is equal to 8%, 15%, 20% or 30% (as applicable to the relevant Fund, as stated in Appendix E of the Prospectus) of the amount by which the NAV per share return exceeds the appropriate benchmark return described in further detail in Appendix E of the Prospectus. Two methods of calculation are used and are referred to as Type A and Type B – the method applicable to each Fund is indicated in Appendix E of the Prospectus. Further details may be obtained from the Local Investor Servicing team and the registered office of the Company.

Crystallisation of the performance fee occurs on the last day of each Performance Period ('each Performance Period as defined in the prospectus of the Company') or where a shareholder redeems or converts all or part of his shares before the end of a Performance Period.

Performance fees payable at 30 November 2023 are included in the Statement of Operations and Changes in Net Assets under the caption "Performance fees".

During the financial period ended 30 November 2023, performance fees charged to funds were as follows:

## 8. Taxes

Luxembourg subscription tax, Belgian tax, realised and unrealised Capital Gain Tax are disclosed in the Statement of Operations and Changes in Net Assets under caption "Taxes". For the period ended 30 November 2023, USD 4,057,005 was charged in relation to Taxes. In relation to Capital Gain tax, the realised capital gain tax was USD 1,207,356 and the unrealised capital gain tax was USD 293,400.

### Luxembourg

The Company is registered under Luxembourg law as an investment company. Accordingly, no Luxembourg income or capital gains tax is at present payable by the Company. However, it is subject to an annual subscription tax ("*taxe d'abonnement*") calculated at an annual rate of 0.05% of the NAV of each Fund at the end of each quarter, and in the case of all Class I, Class IA, Class J, Class T, Class X and Class ZI Shares, of 0.01% of the NAV of each Fund at the end of each quarter. For the period ended 30 November 2023, USD 2,497,046 was charged in relation to Luxembourg subscription tax.

### Belgium

The Company is registered with the financial services and markets authorities in Belgium in accordance with Article 154 of the amended Law of 3 August 2012 relating to financial transactions and the financial markets.

### United Kingdom

#### Reporting Funds

The UK Reporting Funds regime applies to the Company. Under this regime, investors in UK Reporting Funds are subject to tax on the share of the UK Reporting Funds income attributable to their holdings in the Fund, whether or not distributed, but any gains on disposal of their holdings are subject to capital gains tax. A list of the Funds which currently have UK Reporting Fund status is available at:

<https://www.gov.uk/government/publications/offshore-funds-list-of-reporting-funds>.

## Other transaction taxes

Other jurisdictions may impose taxes, financial transactions taxes ("FTT") or other transaction taxes on certain assets held by the Funds (for example UK stamp duty, French FTT).

## Withholding tax

Dividends, interest and capital gains (if any) received by the Company on its investments may be subject to withholding taxes in the countries of origin which are generally irrecoverable as the Company itself is exempt from income tax. Recent European Union case law may, however, reduce the amount of such irrecoverable tax. Investors should inform themselves of, and when appropriate consult their professional advisers on, the possible tax consequences of subscribing for, buying, holding, redeeming, converting or selling Shares under the laws of their country of citizenship, residence or domicile. Investors should note that the levels and bases of, and reliefs from, taxation can change. The potential of withholding tax charges is further described in the Prospectus.

Withholding tax is included in the Statement of Operations and Changes in Net Assets under the captions "Dividends, net of withholding taxes" and "Bond interests, net of withholding taxes".

Dividends received by the Company on CFDs may be subject to withholding tax: in particular, withholding tax for CFDs on US equity instruments is regulated pursuant to Section 871(m) of the Internal Revenue Code ("IRC"). Such withholding tax is included in the Statement of Operations and Changes in Net Assets under the caption "Contracts for difference dividends, net of withholding taxes".

## 9. Investment Advisers and Sub-Investment Advisers

## 10. Transactions with related parties

The ultimate holding company of the Management Company, the Principal Distributor and the Investment Advisers is BlackRock, Inc., a company incorporated in Delaware, USA.

During the period, there have been no significant transactions which were outside the ordinary course of business or which were not on normal commercial terms. There were no transactions of the Company effected through BlackRock companies.

The Company has appointed BlackRock Advisors (UK) Limited (the "Securities Lending Agent"), a related party to the Company, as securities lending agent. The Securities Lending Agent bears all operational costs directly related to securities lending transactions. The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. The Funds which undertake securities lending transactions receive at least 62.5%, while the Securities Lending Agent receives up to 37.5% of such income.

Some of the Funds use cross investment techniques, meaning that the Funds invest into other Funds within the Company's umbrella structure. The combined Statement of Net Asset and the combined Statement of Operations and Changes in Net Assets have not been adjusted to remove the impact of the cross investments. The commissions on subscriptions and redemptions, as well as management fees, were not applied to the assets of the fund that has cross-invested into other funds.

The table below provides the value of those cross-investments in the relevant Fund's Portfolio of Investments as at 30 November 2023:

| Fund   | Cross Investment Fund                                      | Currency | Market Value | % of Net Asset |
|--|--|----------|--------------|----------------|
| BlackRock Sustainable Fixed Income Strategies Fund | BlackRock ICS Euro Liquid Environmentally Aware Fund (Acc) | EUR      | 97,443,976   | 4.26           |

## Other reimbursements

During the financial period, certain Funds within the Company recorded receivables for reimbursements from a BlackRock Group affiliated entity for penalties charged to the Funds by Central Securities Depositories for delays in security settlements. The table below details the reimbursements earned for the financial period ended 30 November 2023.

## 11. Dividends

For the Non-Distributing Share Classes, the Directors' current policy is to retain and reinvest all net income.

For the Distributing Share Classes, the policy is to distribute substantially all the investment income (where available) for the year after deduction of expenses (or gross income in the case of Distributing (G) Shares). The Directors may also determine if and to what extent dividends may include distributions from both net realised and net unrealised capital gains. Where Distributing Share Classes pay dividends that include net realised capital gains or net unrealised capital gains, or, in the case of Funds which distribute income gross of expenses, dividends may include initially subscribed capital. Shareholders should note that dividends distributed in this manner may be taxable as income, depending on the local tax legislation, and should seek their own professional tax advice in this regard.

Where a Fund has UK Reporting Fund status and reported income exceeds distributions made then the surplus shall be treated as a deemed dividend and will be taxed as income, subject to the tax status of the investor.

The Company may operate income equalisation arrangements with a view to ensuring that the level of net income accrued within a Fund (or gross income in the case of Distributing (G) Shares) and attributable to each Share is not affected by the issue, conversion or redemption of those Shares during an accounting period.

## 13. Credit Facility

The Company entered into a credit facility with JPMorgan Chase Bank, N.A. ("JPMorgan") whereby JPMorgan, together with other syndicated lenders, will make a portion of a USD 1.23 billion credit facility available to the Luxembourg Funds.

This credit facility will be utilised by the Funds for temporary funding purposes, including, without limitation, the funding of investor redemptions. Any interest and commitment fees in relation to drawdowns from such credit facility are paid out of the assets of the relevant Funds. Any new Funds will not automatically be subject to a credit line and will therefore be required to be added by way of a joinder process. This process includes, inter alia, any necessary due diligence being carried out by the lenders in order to approve the addition of the new Funds. During this for the period ended, such Funds will not be subject to, or able to draw down on, any credit line. Furthermore, there is no guarantee that the addition of any new Funds will be approved by the lenders, or that credit will be available to a Fund since the credit line is subject to availability (on an equitable allocation basis) between the Funds and other BlackRock Funds participating in the credit agreement. As such, certain Funds may not be subject to the credit line and will not incur any fees with respect to the same.

# Notes to the Financial Statements continued

A loan commitment fee is charged in relation to this credit facility which is included in the Statement of Operations and Changes in Net Assets under caption "Loan commitment fees". The loan commitment fee is charged at 0.10% on the outstanding balance.

No portion of the credit facility was used during the period ended 30 November 2023.

## 15. Total Expense Ratio

Total Expense Ratio ("TER") is calculated as the total of all expenses (excluding bank interest, negative yield expense on financial assets and expense reimbursements), divided by the average net assets of the share classes, expressed as a percentage based on a twelve-month period ended 30 November 2023.

The Management fees may be used in part to pay remuneration for distribution activities concerning the Company. Reimbursement may be made to institutional investors which from a commercial perspective hold shares of the Company for third parties.

The TERs and the actual performance fees charged by unit class of Fund for the period from 1 June 2023 to 30 November 2023 are as follows:

<sup>(1)</sup> The performance fees shown are for the twelve-month period ended 30 November 2023. The performance fees for a number of share classes are negative due to the reversal of uncrystallised performance fees accrued in the period to 31 May 2023.

<sup>(2)</sup> Share Class launched during period, see Appendix I for further details.

<sup>(3)</sup> Fund invests in underlying target funds which do not publish a TER in accordance with the SFAMA guidelines.

<sup>(4)</sup> Fund launched during period, see Note 1 for further details.

<sup>(5)</sup> Fund name changed during the period, see Note 1 for further details.

The TERs were calculated in accordance with the Asset Management Association Switzerland ("AMAS") guidelines on the calculation and disclosure of the TER for collective investment schemes. The AMAS guidelines were last amended on 1 January 2022.

Certain Funds, as indicated above, invest a significant portion of their net assets in underlying target funds which do not publish a TER in accordance with the AMAS guidelines. Therefore, the prorated TER of the underlying target funds has not been included in the TER of the Funds disclosed above. This waiver provision complies with the AMAS guidelines.

# Efficient portfolio management and securities financing transactions

## Efficient Portfolio Management Techniques

The Directors may, on behalf of each Fund and subject to the conditions and within the limits laid down by the CSSF and the prospectus, employ techniques and instruments relating to transferable securities, including investments in OTC Financial Derivative Instruments (“FDIs”) provided that such techniques and instruments are used for efficient portfolio management purposes or to provide protection against exchange risk or for direct investment purposes, where applicable.

The underlying exposure obtained through FDIs and the identity of the counterparties to these FDIs at the financial period end are disclosed on the relevant Fund’s condensed schedule of investment.

## Securities Lending

All securities lending transactions entered into by the Funds are subject to a written legal agreement between the Funds and the Securities Lending Agent, BlackRock Advisors (UK) Limited, a related party to the Entity, and separately between the Securities Lending Agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depository on behalf of the Funds. Collateral received is segregated from the assets belonging to the Funds’ Depository or the Securities Lending Agent.

The following table details the value of securities on loan as a proportion of the Fund’s total lendable assets and as a proportion of the Fund’s NAV, as at 30 November 2023 and the income/returns earned for the period ended 30 November 2023. Total lendable assets represent the aggregate value of assets forming part of a Fund’s securities lending programme. This excludes any assets held by the Fund that are not considered lendable due to any market, regulatory, investment or other restriction.

The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. The Funds receive at least 62.5% while the Securities Lending Agent receives up to 37.5% of such income, with all operational costs borne out of the Securities Lending Agent’s share. Income earned during the period ended by the Funds from securities lending transactions is disclosed in the Funds’ Statement of Operations and Changes in Net Assets under caption “Securities lending”.

## Total return swaps (including CFDs)

All TRS (including CFDs) are entered into by the Funds under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Funds and a counterparty that governs OTC FDIs (including TRS and CFDs) entered into by the parties. The parties' exposures under the ISDA Master agreement are netted and collateralised together, therefore any collateral disclosures provided are in respect of all OTC FDIs entered into by the Funds under the ISDA Master Agreement, not just TRS and CFDs.

All collateral received/posted by the Funds under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

The collateral received/posted by BlackRock Dynamic Diversified Growth Fund, BlackRock Global Absolute Return Bond Fund, Systematic Style Factor Fund and BlackRock Sustainable Fixed Income Strategies Fund under the ISDA Master Agreement in respect of variation margin is transferred bilaterally under a title transfer arrangement. Collateral received by the Funds in respect of variation margin is held in an account in the name of the Depository on behalf of the Funds. As at 30 November 2023, part of cash collateral received by the Funds was re-invested in money market funds managed by the affiliates of the Management Company, as disclosed in the Funds' Portfolio of Investments. The Funds are the legal owner of inbound collateral and can sell the assets and withhold the cash in the case of default. All cash received or posted as collateral has an open maturity tenor as it's not subject to a contractual maturity date.

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions and OTC FDIs, cannot be sold, re-invested or pledged.

The returns earned by the Funds from the reinvestment of cash collateral in money market funds during the period ended 30 November 2023 is summarised below. These returns represent the accumulative total return of the respective money market fund for the period ended 30 November 2023. These returns do not take into account any interest payable to the counterparty under the relevant collateral arrangements.

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no five equities combined represent more than 60% of the total index.

The maturity tenor analysis for fixed income securities received or posted as collateral is based on the respective contractual maturity date, while for equity securities, ETFs and money market funds received or posted as collateral are presented as open transactions as they are not subject to a contractual maturity date.
