## Lyxor MSCI Select OECD Emerging Markets GDP UCITS ETF - Acc (the "Fund")

ISIN: FR0011645605 - Sub-fund of the MULTI UNITS FRANCE investment company (the "Company") domiciled in France.

Managed by Lyxor International Asset Management S.A.S. ("LIAM")

### Investment objectives and policies

The investment objective is to replicate the upward and downward movement of the MSCI Select OECD Emerging Markets GDP Weighted Index (Bloomberg code: M1EFOEGD) ("the Benchmark Index") denominated in USD, representative of equities of mid- and large-caps in OECD emerging markets. The MSCI Select OECD Emerging Markets GDP Weighted Index is based on the Parent Index, the MSCI Select OECD Index, and measures the performance of large- and mid-cap companies in OECD emerging markets. OECD emerging markets include: Chile, the Czech Republic, Hungary, Korea, Mexico, Poland and Turkey. The weight of each country is allocated according to the size of its economy (on the basis of GDP), rather than on the size of its stock market. The MSCI internet site ([www.msci.com](http://www.msci.com)) contains more detailed information on MSCI indices.

The Fund aims to achieve its objective through indirect replication, namely by entering into one or more over-the counter swap agreements (financial futures).

The Fund may invest in a diversified portfolio of international equities, the performance of which will be swapped against that of the Benchmark Index via financial futures. An up-to-date breakdown of the Fund's securities portfolio is provided on the website [www.lyxoretf.com](http://www.lyxoretf.com).

The net asset value is also indicated on the Reuters and Bloomberg pages of the Fund and may also be stated on the websites of stock markets where the Fund is listed.

The share currency is the Euro (EUR).

### Risk and return profile

The risk and return category provided below is based on the historical performance of the assets included in the fund or of its benchmark index. This risk indicator may, therefore, not be a reliable indicator of future risk, and it may change over time. The lowest category does not mean that the investment is risk-free. Resulting from its exposure to the Benchmark Index, the Fund has been classified within category 6. Category 6 indicates that it is possible to suffer a severe loss of capital under normal market conditions; the value of your investment may change substantially and experience quite large daily upside or downside variations.

The significant risks for the UCITS not taken into account in the above-mentioned indicator and which could result in a decrease in the Fund's net asset value and which the Fund is authorised to include in this document (see the Risk Profile section of the prospectus for more information concerning the risks):

- **Counterparty:** the Fund is exposed to the risk of bankruptcy or any other type of default by any counterparty with which it has concluded an agreement or transaction. In accordance with UCITS regulations, this risk may not exceed 10% of the Fund's total assets, for a given counterparty.
- **Risk linked to the use of futures:** in order to achieve its investment objective, the fund uses OTC-traded futures to reach the performance of the Benchmark Index. These futures may be affected by various types of risks such as amendments to the law and/or regulations, including tax regulations.
- **Fund Liquidity Risk:** The Fund's liquidity and/or value may be affected if, when rebalancing its exposure it is unable to execute trades in line with the index.

## Costs

The fees you pay cover the Fund's management costs, including promotion and distribution costs. These fees are deducted from the potential performance of your investment.

For more information concerning costs, please refer to the Costs section of the Fund's prospectus, which is available at [www.lyxoretf.com](http://www.lyxoretf.com).

One-off fees deducted before or after investment	
<b>Entry fees only applicable on the primary market:</b>	at the most, the higher of (i) <b>€50,000</b> per subscription request and (ii) <b>5%</b> of the net asset value per share multiplied by the number of shares subscribed.
<b>Exit fees only applicable on the primary market:</b>	at the most, the higher of (i) <b>€50,000</b> per redemption request and (ii) <b>5%</b> of the net asset value per share multiplied by the number of shares redeemed.
On the primary market, the percentage given is the maximum that could be drawn on your capital before it is invested or before the income on your investment is distributed to you. In some cases the investor might pay less. The investor may ask his financial advisor or distributor for the exact amount of entry and exit fees. <b>For investments made via a stock market where the Fund is listed, no entry/exit fees apply but brokerage fees may be applied.</b>	
Fees deducted by the Fund over one year.	
<b>Ongoing fees:</b>	0.55%.
This percentage is calculated based on the expenditures incurred for the financial year ended in October 2017 (including all taxes, where applicable) and may vary from one year to another. It does not include performance commissions or transaction fees, except in case of entry and/or exit fees, paid by the Fund when it buys or sells units or shares of another collective management vehicle.
