Lyxor iBoxx EUR Liquid High Yield BB UCITS ETF - Acc (the "Fund")

ISIN: LU1215415214 - A sub-fund of the investment company named MULTI UNITS LUXEMBOURG (the "Company") domiciled in Luxembourg. Managed by Lyxor International Asset Management S.A.S. ("LIAM")

Objectives and investment policy

The investment objective is to track both the upward and the downward evolution of the "Markit iBoxx EUR High Yield Corporates BB Top 50 Mid Price TCA- Total Return" (Bloomberg Code: IBXXCBB1) ("Benchmark Index") denominated in EUR, representative of the performance of the 50 largest and most liquid corporate bonds issued in Euro rated from BB- to BB+.

The Fund seeks to achieve its objective via indirect replication by entering into an over-the-counter swap contract (financial derivative instrument, the "FDI"). The Fund may also invest in a diversified portfolio of international debt securities, whose performance will be exchanged against the performance of the benchmark Index via the FDI. Updated composition of the Fund holdings is available on www.lyxoretf.com.

In addition, the indicative net asset value is published on the Reuters and Bloomberg pages of the Fund, and might also be mentioned on the websites of the stock exchanges where the Fund is listed.

The share currency is the Euro (EUR).

- **Invested financial instruments:** bonds, FDI, UCITS, other financial instruments.
- **Dividend policy:** the Fund's amounts available for distribution (if any) shall not be distributed to Shareholders, but reinvested.
- **Net Asset Value:** is daily calculated providing that the relevant stock exchanges are open for trading and orders can be covered.

Risk and reward profile

The risk-return category shown above is based on the historical performance of the assets included in the Fund, or of its benchmark index. This risk estimate may therefore not represent a reliable indicator of future risk, and may be subject to change over time. The lowest category does not mean risk free investment.

Resulting from its exposure to the Benchmark Index, the Fund has been classified within category 3. Category 3 indicates that under normal market conditions a small capital loss is possible ; the value of your investment may have slight and very low daily upside or downside variations.

Main risks not covered by the above indicator which could lead to a decrease in the net asset value of the Fund and which the Fund is authorized to disclose in this document (for more details about risks, please refer to the Risk Profile section of the prospectus):

- **Counterparty risk:** the Fund is exposed to the risk of bankruptcy, or any other type of default of the counterparty related to any trading transaction entered into by the Fund.
- **Risk of using FDI:** in order to reach its investment objective, the Fund enters into over-the-counter FDI which provide the performance of the Benchmark Index. The FDI could be affected by various risks such as change in law or tax events.
- **Issuer credit risk:** the Fund could be affected by the change in an issuer credit quality which would modify the risk of issuer default and affect the bond's value.
