iShares € Corp Bond BBB-BB UCITS ETF

A sub-fund of iShares III plc

EUR (Dist) Share Class

ISIN: IE00BSKRK281

Exchange Traded Fund (ETF)

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Share Class is a share class of a Fund which aims to achieve a return on your investment through a combination of capital growth and income on the Fund's assets, which reflects the return of the Markit iBoxx EUR Corporates BBB-BB (5% Issuer Cap) Index (Index).
 - ▶ The Share Class, via the Fund, aims to invest so far as possible and practicable in the fixed income (FI) securities (such as bonds) that make up the Index and comply with its credit rating requirements. If the credit ratings of the FI securities are downgraded or upgraded, the Fund may continue to hold them until they cease to form part of the Index and it is practicable to sell them.
 - ▶ The Index measures the performance of fixed and floating rate Euro denominated corporate bonds rated BBB and BB or equivalent (which represent the lower end of investment grade to the higher end of subinvestment grade). The bonds will, at the time of inclusion in the Index, have a credit rating of between BBB+ and BB- (inclusive) or equivalent (which indicate that the companies have a moderate to low level of creditworthiness) based on the index provider's rating which uses the average of the ratings by the credit rating agencies Fitch, Moody's and S&P. They will also have a market-value weighted average rating of at least BBB- at each index rebalance. If the marketvalue weighted average rating of the bonds eligible for inclusion in the Index is lower than BBB-, the weighting of bonds with the lowest credit rating will be reduced and their allocations distributed to the bonds with the highest credit rating in proportion to their market values, subject to a cap on each company of 5%, until the desired credit rating is achieved.
 - ▶ The Fund uses optimising techniques to achieve a similar return to its Index. These may include the strategic selection of certain securities that make up the Index or other FI securities, including government bonds, which provide similar performance to certain constituent securities. These may also include the use of financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets). FDIs may be used for direct investment purposes. The use of FDIs is expected to be limited for this Share Class.
 - ▶ The Fund may also engage in short-term secured lending of its investments to certain eligible third parties to generate additional income to off-set the costs of the Fund.
 - ▶ Recommendation: This Fund may not be appropriate for short-term investment.
 - ▶ Your shares will be distributing shares (i.e. dividend income will be paid on the shares semi-annually).
 - ▶ Your shares will be denominated in Euro, the Fund's base currency.
 - ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded.
- For more information on the Fund, Share Class, risks and charges, please see the Fund's prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

- ▶ The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Share Class.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Share Class is rated three due to the nature of its investments which include the risks listed below. These factors may impact the value of the Share Class or expose the Share Class to losses.
 - Changes to interest rates, credit risk and/or issuer defaults will have a significant impact on the performance of fixed income securities. Non-investment grade fixed income securities can be more sensitive to changes in these risks than higher rated fixed income securities. Potential or actual credit rating downgrades may increase the level of risk.
- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.
 - Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due. If a financial institution is unable to meet its financial obligations, its financial assets may be subject to a write down in value or converted (i.e. "bail-in") by relevant authorities to rescue the institution.
 - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

*Authorised participants dealing directly with the Fund will pay related transaction costs.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund's prospectus. This figure excludes portfolio trade related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

| One-off charges taken before or after you invest | |
