M&G Emerging Markets Bond Fund

a sub-fund of M&G Investment Funds (3)

Sterling Class I – Income shares ISIN no. GB00B4TL2D89

Managed by M&G Securities Limited, which is part of the Prudential Group

Objective and investment policy

The fund aims to provide income and capital growth.

Core investment: At least 70% of the fund is invested in bonds issued by the governments, government agencies or companies of emerging market nations*, which can be denominated in any currency.

Other investments: The fund also invests in currencies, focusing mainly on emerging market currencies and major currencies such as the US dollar and euro. It also holds cash or assets that can be turned into cash quickly.

Use of derivatives: Derivatives may be used to invest indirectly in bonds, to reduce risks and costs and to manage the impact of changes in currency exchange rates on the fund's investments.

Strategy in brief: The fund manager selects investments based on an assessment of global, regional, and country-specific macroeconomic factors, followed by in-depth analysis of individual bond issuers. The manager is assisted in the selection of individual bonds by the deputy fund manager and an in-house team of analysts. The fund is diversified by investing in a range of bonds from across the global emerging markets.

* M&G has the discretion to decide which countries qualify as emerging markets. Typically, these will be countries that the International Monetary Fund or World Bank defines as emerging or developing economies.

Glossary terms

Bonds: Loans to governments and companies that pay interest.

Derivatives: Financial contracts whose value is derived from other assets.

Other information

The fund may invest more than 35% in securities issued or guaranteed by a member state of the European Economic Area or other countries listed in the fund's Prospectus. This investment may be combined with the use of derivatives in pursuit of the fund's investment objective.

The fund manager has the freedom to decide which investments should be held in the fund.

You can buy and sell shares in the fund on any business day. Provided we receive your instructions before 12 noon, shares will be bought at that day's price.

Any income from the fund may be paid out to you semi-annually.

In addition to the charges set out in the charges section, the fund will incur portfolio transaction costs which are paid from the assets of the fund. These can be higher when investing outside Europe.

Risk and reward profile

• The above risk number is based on the rate at which the value of the fund has moved up and down in the past. It may not be a reliable indicator of the future risk profile of the fund.

- The risk number shown is not guaranteed and may change over time.
- The lowest risk number does not mean risk free.

The main risks that could affect performance are set out below:

• The value and income from the fund's assets will go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the fund will achieve its objective and you may get back less than you originally invested.

• Investing in emerging markets involves a greater risk of loss due to greater political, tax, economic, foreign exchange, liquidity and regulatory risks, among other factors. There may be difficulties in buying, selling, safekeeping or valuing investments in such countries.

• Investments in bonds are affected by interest rates, inflation and credit ratings. It is possible that bond issuers will not pay interest or return the capital. All of these events can reduce the value of bonds held by the fund.

• The fund can be exposed to different currencies. Movements in currency exchange rates may adversely affect the value of your investment.

• The fund may use derivatives to profit from an expected rise or fall in the value of an asset. Should the asset's value vary in an unexpected way, the fund will incur a loss. The fund's use of derivatives may be extensive and exceed the value of its assets (leverage). This has the effect of magnifying the size of losses and gains, resulting in greater fluctuations in the value of the fund.

• In exceptional circumstances where assets cannot be fairly valued, or have to be sold at a large discount to raise cash, we may temporarily suspend the fund in the best interest of all investors.

• The fund could lose money if a counterparty with which it does business becomes unwilling or unable to repay money owed to the fund.

Further details of the risks that apply to the fund can be found in the fund's Prospectus.

Charges

The charges shown in the table are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
The entry charge is the maximum that might be taken out of your money before it is invested.	
Charges taken from the fund over a year	
Ongoing charge	0.79%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are the maximum figures and, in some cases, you may pay less. You can find out the exact charges which apply to your investment by contacting your financial adviser or distributor or, if you have invested directly with us, you can contact us using the details given in the practical information section.

The ongoing charge is based on expenses for the year ending 30 June 2018. This figure may change from year to year. It excludes portfolio transaction costs.

For Income shares, the ongoing charge is taken from investments held in the fund's portfolio and not from the income these investments produce. The deduction of this charge will reduce the potential growth of your investment.

For more information on charges, please see the relevant sections of the Prospectus at www.mandg.co.uk/literature

Past performance

- Past performance is not a guide to future performance.
 - The past performance calculation excludes UK taxes from 01 January 2017. It does not take into account the entry and exit charges but does take into account the ongoing charge, as shown in the charges section.
 - The Fund launched on 15 October 1999 and the Sterling Class I Income share class launched on 19 April 2012.
 - Past performance is calculated using Sterling Class I Income shares.
- △ 19 April 2012. The fund changed its objective. The past performance shown before this change was therefore achieved under circumstances that no longer apply. For more information about this change, visit www.mandg.co.uk/objectivechange
