

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Class B Accumulation Shares (GBP) (ISIN GB00BJHPXB21)

Objective and investment policy

- The investment objective of the Fund is to achieve capital growth over a period of at least five years.

- The Fund seeks to achieve its investment objective by investing, either directly or indirectly through collective investment schemes that it holds, in shares of companies that have their registered office, conduct the majority of their business, or have business development prospects in the European Union, or Turkey and Russia. There is no particular emphasis on business sector.

- The Fund will typically invest between 80% – 95% in shares (as outlined above), however, on rare occasions, such as when the markets are experiencing heavy turmoil, the Fund may decrease its exposure to company shares to no less than 51% and invest a greater proportion (up to 40%) in debt instruments (as outlined below).

- The Fund may also invest, either directly or indirectly, through collective investment schemes that it holds, up to 40% of its Net Asset Value in debt instruments (including fixed-rate bonds, floating-rate bonds, negotiable debt, and up to 10% in contingent convertible bonds) and money market instruments without restrictions in terms of allocation by sectors, regions, countries, including emerging countries.

- The Fund may frequently (meaning more than once a quarter) use financial derivatives instruments and financial instruments with embedded derivatives (investments whose value is linked to another investment, or the performance of a stock exchange or to some other variable factor, such as interest rates) for efficient portfolio management (including hedging) to reduce costs and/or the overall risk of the Fund) and/or investment purposes.

The Fund may invest up to 10% of its Net Asset Value in units of other collective investment schemes (including collective investment schemes managed by the ACD). The Fund may also use securities lending for the purposes of efficient portfolio management.

- In addition, the fund seeks to invest sustainably and implements a socially responsible investment approach. Details on how the socially responsible investment approach is

applied can be found on the following website:
www.carmignac.co.uk/en_GB/responsible-investment/.

- The Fund is actively managed.

For the purpose of providing comparable indicative returns only, investors should refer to the MSCI Daily TR Net Europe Ex UK Index - USD ("Comparator Benchmark").

The Comparator Benchmark has been chosen by the ACD as it measures the performance of large and mid-capitalisation stocks across developed markets countries in Europe, excluding the United Kingdom. The Comparator Benchmark does not represent, or act as, a constraint in the selection of individual investments in the Fund or the management of the Fund's portfolio.

- If you hold accumulation shares, income from investments in the Fund will be rolled up into the value of your shares;

- You can buy and sell shares between 9am and 5pm on most business days when the London Stock Exchange is open for a full range of services;

- We carry out investors' requests, to buy, sell or switch, at midday on each business day (which excludes UK public holidays). If we receive a request after midday, we deal with it on the next business day;

- The Fund's base currency is Pounds Sterling;

- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years;

- There can be no guarantee that the objective of the Fund will be achieved;

- On encashment, particularly in the short-term, you may receive less than the original amount invested;

- The charges applicable to the Fund accrue daily, therefore an equivalent rise in the value of shares is required before the original investment can be recovered.

- The risk category shown is not guaranteed to remain unchanged and may shift over time.

- The lowest category does not mean 'risk free'.

- The Class B Shares above appear as a '6' on the scale. This is because the Fund's simulated return has experienced high rises and falls historically.

- The risk indicator figure is not related to the risk scale number of the Fund.

- The Fund does not provide its investors with any guarantee on performance, nor on monies invested in it.

The indicator does not take account of the following risks of investing in the Fund:

- **Retail investors may choose to seek advice before investing.**

- Derivatives can carry a high degree of risk - a relatively small movement in the price of the underlying security may result in a disproportionately large movement, unfavourable or favourable, in the price of the derivative. **Please do not invest if you do not have the level of knowledge required in order to assess and evaluate the risks associated with the use of derivatives by the Fund or the impact of derivatives on your investment.**

- **Counterparty Risk** - The Fund could lose money if an entity with which it interacts becomes unwilling or unable to meet its obligations to the Fund.

- **Liquidity Risk** - Certain securities could become hard to value, sell at a desired time and price, or cease to trade altogether.

- **Market Fluctuations** - The investments of the Fund are subject to normal market fluctuations and other risk inherent in investing in securities. Appreciation in the value of investments is not guaranteed.

- Fixed interest securities are particularly affected by trends in interest rates and inflation. If interest rates increase, capital values may fall and vice versa. Inflation will erode the real value of capital.

- **Exchange Rate Risk** - Fluctuations in exchange rates may cause the value of your investment to rise or fall.

- Investments in emerging markets may be more volatile or risky than investments in more developed markets because of: relatively unstable governments; economies based on only a few industries; limited number of securities traded on securities markets; less developed regulatory systems; or less stringent disclosure standards.

- **Interest Rate Risk** - Interest rate movements affect the value of bonds. Bonds with a longer maturity period are more sensitive to changes in interest rates.

- Overseas bonds and currencies - From time to time, a Fund may invest in overseas bonds and currencies. These markets may respond to different influences to those that affect the underlying funds and accordingly carry a higher degree of risk.

- A portfolio that excludes companies deemed unattractive in their environmental, social and Governance Risk (ESG) characteristics might underperform a portfolio that is run without regard to ESG characteristics. Data constraint is a big challenge and there are limitations on the types of sustainability and ESG-related data currently provided to the market. Disclosures and ESG-related information are subject to change due to ongoing improvements in such data.

- See the Fund's Prospectus (Section 18) for more risk information.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Class B Acc (GBP)	
Entry charge	0.00%
Exit charge	0.00%

The entry and exit charges shown are maximum figures. In some cases (including when switching to other funds) you might pay less. You can find out actual entry and exit charges from your financial adviser.

The ongoing charges figure is based on expenses for the year ended 30 June 2023. Ongoing charges may vary from year to year. The ongoing charges figure includes any portfolio transaction costs which the Fund pays to its service providers (e.g. to the Fund's custodian) and any entry/exit charges the Fund pays when buying/selling units in another fund. In general, however, the figure excludes other portfolio transaction costs.

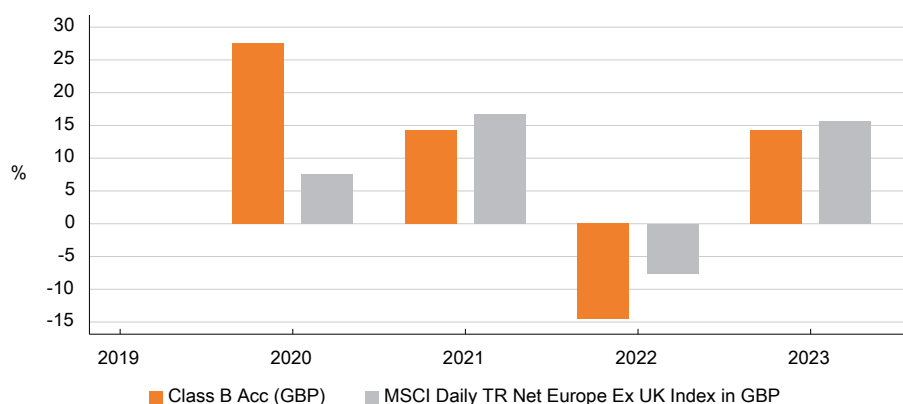

Fee Cap

The ACD currently pays all fees and expenses chargeable to the Fund (other than the Annual Management Charge) so that the ongoing charges figure does not exceed 0.55% for Class B Shares (the "Fee Cap").

Subject to providing 60 days' prior notice to Shareholders, the ACD reserve the right to remove the Fee Cap and if the ACD does so, all costs, charges, fees or expenses payable out of the scheme property of the Fund will be charged to the Fund without reference to the Fee Cap.

For more information about charges please see Section 33 of the Fund's Prospectus, which is available from the ACD at FundRock Partners Limited – Carmignac, PO Box 12729, Chelmsford, CM99 2FB, or, during normal business hours on 0203 975 1236. For more details please see the Supplementary Information Document (SID) which is available at www.FundRock.com or on the above number.
