FSSA Indian Subcontinent Fund

- The Fund invests primarily in equity securities and equity related securities in Indian subcontinent which may expose to potential changes in tax, political, social and economic environment.
- The Fund invests in emerging markets which may have increased risks than developed markets including liquidity risk, currency risk/control, political and economic uncertainties, high degree of volatility, settlement risk and custody risk. Investing in small /mid-capitalisation securities may have lower liquidity and their prices are more volatile to adverse economic developments. The Fund's investments may be concentrated in a single country/ sector, specific region or small numbers of countries/ companies which may have higher volatility or greater loss of capital than more diversified portfolios.
- The Fund may use FDIs for hedging and efficient portfolio management purposes, which may subject the Fund to additional liquidity, valuation, counterparty and over the counter transaction risks.
- It is possible that a part or entire value of your investment could be lost. You should not base your investment decision solely on this document. Please read the offering document including risk factors for details.

Investment objective & strategy

The Fund aims to achieve long term capital appreciation and invests primarily in a diversified portfolio of equity securities and equity related securities issued by companies of the Indian subcontinent. Countries of the Indian subcontinent include India, Pakistan, Sri Lanka and Bangladesh. The Fund concentrates on securities that are listed, traded or dealt in on regulated markets in the Indian subcontinent and offshore instruments issued by companies established or operating or have significant interests in the Indian subcontinent and listed on other regulated markets.
