# Vanguard Global Corporate Bond Index Fund

Managed by Vanguard Global Advisers, LLC.

## Investment Objective

The fund seeks to provide returns consistent with the performance of the Bloomberg Global Aggregate Float Adjusted Corporate Index Hedged, a market-weighted index of global corporate fixed income investments with maturities greater than 1 year.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Market sentiment was buoyant in the first part of 2021. COVID-19 vaccines were rolled out, which helped lift the outlook for the global economy, especially the sectors hardest-hit by restrictions and lockdowns. Governments and central banks in developed markets continued to provide extensive support through central bank asset purchases, fiscal stimulus packages and relief to workers through enhanced unemployment benefits and job retention programmes.
- The investment environment grew a little more challenging later in the period, however. COVID-19 variants emerged, pushing up the number of new cases even as vaccination rates increased. Supply disruptions and labour shortages in some sectors drove inflation higher across much of the globe. In response, the United Kingdom raised its benchmark rate, the US Federal Reserve began tapering its bond purchases and pencilled in rate hikes in 2022 and the European Central Bank announced its intention to wind down its pandemic crisis bond purchases.
- Fixed income securities struggled amid concerns about inflation and the outlook for monetary policy, which generally pushed yields higher and prices lower.
- In this environment, the fund's hedged benchmark returned -0.79% for the 12 months ended 31 December 2021.
- By country, the United States, which has the largest weighting in the index, underperformed the index as a whole, as did China, the United Kingdom, Switzerland and Canada. Among the index heavyweights that fared better were Spain, Italy and Germany.
- By sector, bonds issued by industrial companies and financial institutions outperformed those issued by utility companies.
- By maturity, results were mixed, but short-dated bonds tended to hold up the best. From a credit-quality perspective, BBB-rated bonds fared better than their higher-rated counterparts.

Benchmark returns in the commentary above are in US dollars.

Sources: Vanguard Global Advisers, LLC, and Bloomberg.

Performance is based on NAV with income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

<sup>1</sup> Since-inception returns: CHF Hedged Acc, EUR Hedged Acc and GBP Hedged Dist, 21 January 2021; Institutional Plus EUR Hedged Acc, 7 February 2018; GBP Hedged Acc, Institutional Plus GBP Hedged Acc and USD Hedged Acc, 2 November 2017.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard Global Credit Bond Fund

Managed by Vanguard Global Advisers, LLC.

## Investment Objective

This fund seeks to provide a moderate and sustainable level of current income by investing in a diversified portfolio of global credit fixed income bonds.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements. The fund is actively managed and seeks to invest as described in the prospectus. The following performance information shows how the fund's returns compare with those of the Bloomberg Global Aggregate Credit Index Hedged, a market index that has investment characteristics similar to those of the fund.

- Market sentiment was buoyant in the first part of 2021. COVID-19 vaccines were rolled out, which helped lift the outlook for the global economy, especially the sectors hardest-hit by restrictions and lockdowns. Governments and central banks in developed markets continued to provide extensive support through central bank asset purchases, fiscal stimulus packages and relief to workers through enhanced unemployment benefits and job retention programmes.
- The investment environment grew a little more challenging later in the period, however. COVID-19 variants emerged, pushing up the number of new cases even as vaccination rates increased. Supply disruptions and labour shortages in some sectors drove inflation higher across much of the globe. In response, the United Kingdom raised its benchmark rate, the US Federal Reserve began tapering its bond purchases and pencilled in rate hikes in 2022 and the European Central Bank announced its intention to wind down its pandemic crisis bond purchases.
- Fixed income securities struggled amid concerns about inflation and the outlook for monetary policy, which generally pushed yields higher and prices lower.
- In this environment, the fund performed better than its hedged benchmark, which returned -0.95% for the 12 months ended 31 December 2021.
- Sector allocation and security selection within emerging markets and North American corporate issuers drove the fund's performance.
- The fund's overweight allocation to credit sectors detracted slightly.

Benchmark returns in the commentary above are in US dollars.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard Global Short-Term Bond Index Fund

Managed by Vanguard Global Advisers, LLC, and sub-managed by Vanguard Investments Australia Ltd.

## Investment Objective

This fund seeks to provide returns consistent with the performance of the Bloomberg Global Aggregate Ex US MBS 1–5 Year Float Adjusted and Scaled Index, a market-weighted index of global government, government-related agency, corporate and securitised bonds, excluding US mortgage-backed securities, with maturities between 1 and 5 years.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Market sentiment was buoyant in the first part of 2021. COVID-19 vaccines were rolled out, which helped lift the outlook for the global economy, especially the sectors hardest-hit by restrictions and lockdowns. Governments and central banks in developed markets continued to provide extensive support through central bank asset purchases, fiscal stimulus packages and relief to workers through enhanced unemployment benefits and job retention programmes.
- The investment environment grew a little more challenging later in the period, however. COVID-19 variants emerged, pushing up the number of new cases even as vaccination rates increased. Supply disruptions and labour shortages in some sectors drove inflation higher across much of the globe. In response, the United Kingdom raised its benchmark rate, the US Federal Reserve began tapering its bond purchases and pencilled in rate hikes in 2022 and the European Central Bank announced its intention to wind down its pandemic crisis bond purchases.
- Fixed income securities struggled amid concerns about inflation and the outlook for monetary policy, which generally pushed yields higher and prices lower.
- In this environment, the fund's hedged benchmark returned –0.52% for the 12 months ended 31 December 2021.
- By country, the United States, which has the largest weighting in the index, underperformed the index as a whole, as did Australia and Canada. Index heavyweights that fared better included Japan, Spain and South Korea.
- By sector, corporate bonds, noncorporate bonds and securitised debt held up better than treasuries.
- From a credit-quality perspective, bonds on the lowest rung of the investment-grade ladder fared better than their higher-rated counterparts.

Benchmark returns in the commentary above are in US dollars.

Sources: Vanguard Global Advisers, LLC, and Bloomberg.

Performance is based on NAV with income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

<sup>1</sup> Since-inception returns: CHF Hedged Acc, Institutional Plus CHF Hedged Acc, EUR Hedged Acc, Investor EUR Hedged and Institutional Plus EUR Hedged Acc, 31 March 2014; GBP Hedged Acc and GBP Hedged Dist, 31 January 2014; Institutional Plus GBP Hedged Acc and Institutional Plus GBP Hedged Dist, 2 September 2014; USD Hedged Acc, 31 January 2014; USD Hedged Dist, 17 November 2020; Institutional Plus USD Hedged Acc, 10 March 2015.

<sup>2</sup> Bloomberg Global Aggregate Ex US MBS 1–5 Year Float Adjusted Index Hedged through 28 April 2019; Bloomberg Global Aggregate Ex US MBS 1–5 Year Float Adjusted and Scaled Index Hedged thereafter.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard Global Short-Term Corporate Bond Index Fund

Managed by Vanguard Global Advisers, LLC.

## Investment Objective

This fund seeks to provide returns consistent with the performance of the Bloomberg Global Aggregate Corporate 1–5 Year Float Adjusted Index, a market-weighted index of global corporate fixed income investments with maturities of between 1 and 5 years.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Market sentiment was buoyant in the first part of 2021. COVID-19 vaccines were rolled out, which helped lift the outlook for the global economy, especially the sectors hardest-hit by restrictions and lockdowns. Governments and central banks in developed markets continued to provide extensive support through central bank asset purchases, fiscal stimulus packages and relief to workers through enhanced unemployment benefits and job retention programmes.
- The investment environment grew a little more challenging later in the period, however. COVID-19 variants emerged, pushing up the number of new cases even as vaccination rates increased. Supply disruptions and labour shortages in some sectors drove inflation higher across much of the globe. In response, the United Kingdom raised its benchmark rate, the US Federal Reserve began tapering its bond purchases and pencilled in rate hikes in 2022 and the European Central Bank announced its intention to wind down its pandemic crisis bond purchases.
- Fixed income securities struggled amid concerns about inflation and the outlook for monetary policy, which generally pushed yields higher and prices lower.
- In this environment, the fund's hedged benchmark returned 0.01% for the 12 months ended 31 December 2021.
- By country, the United States, which has the largest weighting, underperformed the overall index, as did Canada, China and Switzerland. Index heavyweights that fared better included Ireland, Italy, Spain and Germany.
- By sector, bonds issued by utilities, industrial companies and financial institutions turned in roughly comparable performances.
- From a credit-quality perspective, bonds on the lowest rung of the investment-grade ladder returned the most.

Benchmark returns in the commentary above are in US dollars.

Performance is based on NAV with income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

<sup>1</sup> Since-inception returns: EUR Hedged Acc, 11 September 2019; Institutional Plus EUR Hedged Acc, 7 February 2018; Institutional Plus GBP Hedged Acc, GBP Hedged Acc and USD Hedged Acc, 2 November 2017.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard Japan Government Bond Index Fund

Sub-managed by Vanguard Investments Australia Ltd.

## Investment Objective

This fund seeks to provide returns consistent with the performance of the Bloomberg Japan Government Float Adjusted Bond Index, a market-weighted index designed to reflect the total universe of Japanese yen-denominated treasury and Japan government-related securities with maturities greater than 1 year.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Market sentiment was buoyant in the first part of 2021. The rollout of COVID-19 vaccines helped lift the outlook for the global economy, especially the sectors hardest-hit by restrictions and lockdowns. Governments and central banks in developed markets continued to provide extensive support through central bank asset purchases, fiscal stimulus packages and relief to workers through enhanced unemployment benefits and job retention programmes.
- The investment environment grew a little more challenging later in the period, however. COVID-19 variants emerged, pushing up the number of new cases even as vaccination rates increased. Supply disruptions and labour shortages in some sectors drove inflation higher across much of the globe. In response, the Bank of Japan announced that it would wind down pandemic crisis bond purchases, as did the European Central Bank. The Bank of England raised its benchmark rate and the US Federal Reserve began tapering its bond purchases and pencilled in rate hikes in 2022.
- Fixed income securities struggled amid concerns about inflation and the outlook for monetary policy, which generally pushed yields higher and prices lower.
- In this environment, Japanese government bonds ended the year lower overall. The fund's benchmark index returned -0.16% for the 12 months ended 31 December 2021.
- By maturity, shorter-dated bonds held up better. By sector, local government bonds held up better than treasuries and agency bonds.

Benchmark returns in the commentary above are in Japanese yen.

Each benchmark is in its respective currency.

Sources: Vanguard Global Advisers, LLC, and Bloomberg.

Performance is based on NAV with income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

<sup>1</sup> Since-inception returns: EUR Hedged Acc, 21 January 2021; Institutional Plus EUR Hedged Acc, 11 December 2019; GBP Hedged Acc, 31 January 2014; Institutional Plus GBP Hedged Dist, 11 December 2019; Institutional Plus JPY Acc, 2 September 2014; USD Acc, 10 March 2015; Institutional Plus USD Hedged Acc, 15 January 2020.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard SRI Euro Investment Grade Bond Index Fund

Managed by Vanguard Global Advisers, LLC.

## Investment Objective

This fund seeks to provide returns consistent with the performance of the Bloomberg EUR Non-Government Float Adjusted Bond Index, a market-weighted index of euro-denominated investment-grade fixed income securities excluding euro zone treasury and euro zone government-related securities, with maturities greater than 1 year.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Market sentiment was buoyant in the first part of 2021. COVID-19 vaccines were rolled out, which helped lift the outlook for the global economy, especially the sectors hardest-hit by restrictions and lockdowns. Governments and central banks in developed markets continued to provide extensive support through central bank asset purchases, fiscal stimulus packages and relief to workers through enhanced unemployment benefits and job retention programmes.
- The investment environment grew a little more challenging later in the period, however. COVID-19 variants emerged, pushing up the number of new cases even as vaccination rates increased. Supply disruptions and labour shortages in some sectors drove inflation higher across much of the globe. In response, the United Kingdom raised its benchmark rate, the US Federal Reserve began tapering its bond purchases and pencilled in rate hikes in 2022 and the European Central Bank announced its intention to wind down its pandemic crisis bond purchases.
- Fixed income securities struggled amid concerns about inflation and the outlook for monetary policy, which generally pushed yields higher and prices lower.
- In this environment, the fund's benchmark index returned -1.75% for the 12 months ended 31 December 2021.
- Corporate bonds, which accounted for more than half of the index, outperformed the index as a whole. Within corporates, bonds issued by financial institutions held up better than those issued by industrial companies and utilities. Noncorporate bonds and securitised debt underperformed.
- The United Kingdom, Spain and Italy were among the countries that held up better than the index as a whole, while supranationals were a significant detractor.
- Longer-dated bonds and higher-quality bonds weighed on performance.

Benchmark returns in the commentary above are in euros.

## Benchmark: Bloomberg EUR Non-Government Float Adjusted Bond Index

	Total Returns Periods Ended 31 December 2021 (Annualised for periods over one year)	
	One Year	Ten Years or Since Inception <sup>1</sup>

Benchmark	-1.75	1.53
Tracking Difference*	-0.15	
Institutional Plus EUR Acc	-1.86%	1.13%
Benchmark	-1.75	1.25
Tracking Difference*	-0.11	

Sources: Vanguard Global Advisers, LLC, and Bloomberg.

Performance is based on NAV with income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

<sup>1</sup> Since-inception returns: EUR Acc, 18 July 2017; Institutional Plus Eur Acc, 14 December 2017.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard U.K. Government Bond Index Fund

Managed by Vanguard Global Advisers, LLC.

## Investment Objective

This fund seeks to provide returns consistent with the performance of the Bloomberg U.K. Government Float Adjusted Bond Index, a market-weighted index designed to reflect the total universe of pound sterling-denominated UK treasury and government-related securities with maturities greater than 1 year.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Market sentiment was buoyant in the first part of 2021. COVID-19 vaccines were rolled out, which helped lift the outlook for the global economy, especially the sectors hardest-hit by restrictions and lockdowns. Governments and central banks in developed markets continued to provide extensive support through central bank asset purchases, fiscal stimulus packages and relief to workers through enhanced unemployment benefits and job retention programmes.
- The investment environment grew a little more challenging later in the period, however. COVID-19 variants emerged, pushing up the number of new cases even as vaccination rates increased. Supply disruptions and labour shortages in some sectors drove inflation higher across much of the globe. In response, the United Kingdom raised its benchmark rate, the US Federal Reserve began tapering its bond purchases and pencilled in rate hikes in 2022 and the European Central Bank announced its intention to wind down its pandemic crisis bond purchases.
- Fixed income securities struggled amid concerns about inflation and the outlook for monetary policy, which generally pushed yields higher and prices lower.
- In this environment, the fund's benchmark returned -5.45% for the 12 months ended 31 December 2021.
- Shorter-dated bonds held up better, as did the highest-quality bonds. By sector, local government bonds held up better than treasuries and agency bonds.

Benchmark returns in the commentary above are in British pounds.

Performance is based on NAV with income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

<sup>1</sup> Since-inception returns: EUR Hedged Acc, 21 January 2021; Institutional Plus GBP Acc and Institutional Plus GBP Dist, 2 September 2014.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard U.K. Investment Grade Bond Index Fund

Managed by Vanguard Global Advisers, LLC.

## Investment Objective

This fund seeks to provide returns consistent with the performance of the Bloomberg GBP Non-Government Float Adjusted Bond Index, a market-weighted index designed to reflect the total universe of pound sterling-denominated, investment-grade fixed income securities, excluding government and government-related securities, with maturities greater than 1 year.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Market sentiment was buoyant in the first part of 2021. COVID-19 vaccines were rolled out, which helped lift the outlook for the global economy, especially the sectors hardest-hit by restrictions and lockdowns. Governments and central banks in developed markets continued to provide extensive support through central bank asset purchases, fiscal stimulus packages and relief to workers through enhanced unemployment benefits and job retention programmes.
- The investment environment grew a little more challenging later in the period, however. COVID-19 variants emerged, pushing up the number of new cases even as vaccination rates increased. Supply disruptions and labour shortages in some sectors drove inflation higher across much of the globe. In response, the United Kingdom raised its benchmark rate, the US Federal Reserve began tapering its bond purchases and pencilled in rate hikes in 2022 and the European Central Bank announced its intention to wind down its pandemic crisis bond purchases.
- Fixed income securities struggled amid concerns about inflation and the outlook for monetary policy, which generally pushed yields higher and prices lower.
- In this environment, the fund's benchmark returned -3.05% for the 12 months ended 31 December 2021.
- The lowest-rated investment-grade bonds fared better than their higher-rated counterparts. By maturity, shorter-dated bonds held up better.
- By sector, corporate bonds slightly underperformed the index overall, with utility company bonds lagging more than the debt of financial institutions and industrial companies. Noncorporate bonds and securitised debt fared better.

Benchmark returns in the commentary above are in British pounds.

Performance is based on NAV with income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

<sup>1</sup> Since-inception returns: Institutional Plus GBP Acc and Institutional Plus GBP Dist, 2 September 2014.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard U.K. Short-Term Investment Grade Bond Index Fund

Managed by Vanguard Global Advisers, LLC.

## Investment Objective

This fund seeks to provide returns consistent with the performance of the Bloomberg GBP Non-Government 1–5 Year 200MM Float Adjusted Bond Index, a market-weighted index of pound sterling-denominated, investment-grade bonds, excluding government bonds, with maturities between 1 and 5 years.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Market sentiment was buoyant in the first part of 2021. COVID-19 vaccines were rolled out, which helped lift the outlook for the global economy, especially the sectors hardest-hit by restrictions and lockdowns. Governments and central banks in developed markets continued to provide extensive support through central bank asset purchases, fiscal stimulus packages and relief to workers through enhanced unemployment benefits and job retention programmes.
- The investment environment grew a little more challenging later in the period, however. COVID-19 variants emerged, pushing up the number of new cases even as vaccination rates increased. Supply disruptions and labour shortages in some sectors drove inflation higher across much of the globe. In response, the United Kingdom raised its benchmark rate, the US Federal Reserve began tapering its bond purchases and pencilled in rate hikes in 2022 and the European Central Bank announced its intention to wind down its pandemic crisis bond purchases.
- Fixed income securities struggled amid concerns about inflation and the outlook for monetary policy, which generally pushed yields higher and prices lower.
- In this environment, the fund's benchmark returned –1.02% for the 12 months ended 31 December 2021.
- Lower-rated investment-grade bonds tended to fare better than higher-rated ones. By sector, corporate bonds held up better than noncorporate bonds dominated by foreign agency and supranational debt. In the corporate sector, the debt of financial institutions returned more than that of utilities and industrial companies. Securitised debt performed best.

Benchmark returns in the commentary above are in British pounds.

Performance is based on NAV with income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

<sup>1</sup> Since-inception returns: GBP Acc and GBP Dist, 22 May 2013; Institutional Plus GBP Acc and Institutional Plus GBP Dist, 2 September 2014.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard U.S. Government Bond Index Fund

Managed by Vanguard Global Advisers, LLC.

## Investment Objective

This fund seeks to provide returns consistent with the performance of the Bloomberg U.S. Government Float Adjusted Bond Index, a market-weighted index designed to reflect the total universe of US dollar-denominated US Treasury and US government-related securities with maturities greater than 1 year.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Market sentiment was buoyant in the first part of 2021. COVID-19 vaccines were rolled out, which helped lift the outlook for the global economy, especially the sectors hardest-hit by restrictions and lockdowns. Governments and central banks in developed markets continued to provide extensive support through central bank asset purchases, fiscal stimulus packages and relief to workers through enhanced unemployment benefits and job retention programmes.
- The investment environment grew a little more challenging later in the period, however. COVID-19 variants emerged, pushing up the number of new cases even as vaccination rates increased. Supply disruptions and labour shortages in some sectors drove inflation higher across much of the globe.
- In the United States, the annualised rate of inflation climbed from below the Federal Reserve's 2% target at the beginning of 2021 to levels not seen in decades by the end of the year. In response, monetary policy turned less accommodative, with the Fed starting to taper its bond purchases in November and pencilling in several rate hikes in 2022. For the time being, the Fed maintained its 0%–0.25% target for short-term interest rates.
- Fixed income securities struggled amid concerns about inflation and the outlook for monetary policy, which generally pushed yields higher and prices lower.
- In this environment, the fund's benchmark index returned –2.28% for the 12 months ended 31 December 2021.
- US Treasuries, which make up most of the index, underperformed US agency securities for the period. By maturity, results were mixed.

Benchmark returns in the commentary above are in US dollars.

Performance is based on NAV with income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard U.S. Investment Grade Credit Index Fund

Managed by Vanguard Global Advisers, LLC.

## Investment Objective

This fund seeks to provide returns consistent with the performance of the Bloomberg Global Aggregate USD Credit Float Adjusted Bond Index, a market-weighted index designed to reflect the total universe of US dollar-denominated, investment-grade fixed income securities, excluding US Treasury, US government-related and securitised securities, with maturities greater than 1 year.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Market sentiment was buoyant in the first part of 2021. COVID-19 vaccines were rolled out, which helped lift the outlook for the global economy, especially the sectors hardest-hit by restrictions and lockdowns. Governments and central banks in developed markets continued to provide extensive support through central bank asset purchases, fiscal stimulus packages and relief to workers through enhanced unemployment benefits and job retention programmes.
- The investment environment grew a little more challenging later in the period, however. COVID-19 variants emerged, pushing up the number of new cases even as vaccination rates increased. Supply disruptions and labour shortages in some sectors drove inflation higher across much of the globe.
- In the United States, the annualised rate of inflation climbed from below the Federal Reserve's 2% target at the beginning of 2021 to levels not seen in decades by the end of the year. In response, monetary policy turned less accommodative, with the Fed starting to taper its bond purchases in November and pencilling in several rate hikes in 2022. For the time being, the Fed maintained its 0%–0.25% target for short-term interest rates.
- Fixed income securities struggled amid concerns about inflation and the outlook for monetary policy, which generally pushed yields higher and prices lower.
- In this environment, the fund's benchmark returned –0.82% for the 12 months ended 31 December 2021.
- Corporate bonds, which accounted for more than two-thirds of the index, performed roughly in line with the index as a whole. By sector, bonds issued by utilities underperformed those of industrial companies and financial institutions. By maturity and quality, results were mixed.

Benchmark returns in the commentary above are in US dollars.

Performance is based on NAV with income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

<sup>1</sup> Since-inception returns: Institutional Plus EUR Acc, 19 December 2013; Institutional Plus EUR Hedged Acc, 24 September 2015; GBP Hedged Acc, 31 January 2014; Institutional Plus GBP Hedged Acc and Institutional Plus GBP Hedged Dist, 8 September 2016; Institutional Plus USD Acc, 6 December 2013; Institutional Plus USD Dist, 24 September 2015.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Vanguard U.S. Treasury Inflation-Protected Securities Index Fund

Managed by Vanguard Global Advisers, LLC.

## Investment Objective

This fund seeks to provide returns consistent with the performance of the Bloomberg U.S. Government Inflation-Linked 1–10 Year Index, a market-weighted index designed to measure the performance of US Treasury Inflation-Protected Securities ("TIPS") with maturities between 1 and 10 years.

## Performance Summary (unaudited)

The Performance Summary does not form part of the Financial Statements.

- Market sentiment was buoyant in the first part of 2021. COVID-19 vaccines were rolled out, which helped lift the outlook for the global economy, especially the sectors hardest-hit by restrictions and lockdowns. Governments and central banks in developed markets continued to provide extensive support through central bank asset purchases, fiscal stimulus packages and relief to workers through enhanced unemployment benefits and job retention programmes.
- The investment environment grew a little more challenging later in the period, however. COVID-19 variants emerged, pushing up the number of new cases even as vaccination rates increased. Supply disruptions and labour shortages in some sectors drove inflation higher across much of the globe.
- In the United States, the annualised rate of inflation climbed from below the Federal Reserve's 2% target at the beginning of 2021 to levels not seen in decades by the end of the year. In response, monetary policy turned less accommodative, with the Fed starting to taper its bond purchases in November and pencilling in several rate hikes in 2022. For the time being, the Fed maintained its 0%–0.25% target for short-term interest rates.
- The five-year break-even inflation rate, a gauge of the market's expectations for the annualised rate of inflation over the next five years, climbed from 1.95% at the end of 2020 to 2.87% at the end of 2021.
- In this environment of rising inflation expectations, the fund's benchmark index returned 5.69% for the 12 months ended 31 December 2021.

Benchmark returns in the commentary above are in US dollars.

Sources: Vanguard Global Advisers, LLC, and Bloomberg.

Performance is based on NAV with income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <http://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

\* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, swing pricing, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the year and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

# Notes to the Financial Statements

**1. General Information.** Vanguard Investment Series plc (the “Company”), an open-ended investment company with variable capital, was incorporated in Ireland as a public limited company on 4 March 1998. The Company is authorised by the Central Bank of Ireland (the “Central Bank”) as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the “UCITS Regulations”).

Where applicable, shares are listed on the Global Exchange Market of the Euronext Dublin Exchange.

The Company is organised as an umbrella fund with segregated liabilities between sub-funds. During the year ended 31 December 2021 the Company had 31 constituent funds and 3 funds that are not operational (2 closed and 1 that has not yet commenced trading) (each a “Fund”, collectively the “Funds”):

	Commenced Operations
Vanguard Emerging Markets Stock Index Fund (the “Emerging Markets Stock Index Fund”)	7 June 2006
Vanguard ESG Developed World All Cap Equity Index Fund (the “ESG Developed World All Cap Equity Index Fund”)	7 February 2011
Vanguard ESG Emerging Markets All Cap Equity Index Fund (the “ESG Emerging Markets All Cap Equity Index Fund”)	9 June 2020
Vanguard European Stock Index Fund (the “European Stock Index Fund”)	14 September 1998
Vanguard Eurozone Stock Index Fund (the “Eurozone Stock Index Fund”)	25 October 2001
Vanguard Global Enhanced Equity Fund (the “Global Enhanced Equity Fund”) <sup>1</sup>	18 April 2007
Vanguard Global Small-Cap Index Fund (the “Global Small-Cap Index Fund”)	10 December 2009
Vanguard Global Stock Index Fund (the “Global Stock Index Fund”)	4 August 1998
Vanguard Japan Stock Index Fund (the “Japan Stock Index Fund”)	22 October 2003
Vanguard Pacific ex-Japan Stock Index Fund (the “Pacific ex-Japan Stock Index Fund”)	22 July 2005
Vanguard SRI European Stock Fund (the “SRI European Stock Fund”)	29 June 2010
Vanguard U.S. 500 Stock Index Fund (the “U.S. 500 Stock Index Fund”)	4 November 1998
Vanguard U.S. Opportunities Fund (the “U.S. Opportunities Fund”)	8 April 2002
Vanguard 20+ Year Euro Treasury Index Fund (the “20+ Year Euro Treasury Index Fund”)	29 August 2007
Vanguard Emerging Markets Bond Fund (the “Emerging Markets Bond Fund”)	3 December 2019
Vanguard Euro Government Bond Index Fund (the “Euro Government Bond Index Fund”)	29 September 2000
Vanguard Euro Investment Grade Bond Index Fund (the “Euro Investment Grade Bond Index Fund”)	29 September 2000
Vanguard Eurozone Inflation-Linked Bond Index Fund (the “Eurozone Inflation-Linked Bond Index Fund”)	31 May 2005
Vanguard Global Bond Index Fund (the “Global Bond Index Fund”)	31 March 2008
Vanguard Global Corporate Bond Index Fund (the “Global Corporate Bond Index Fund”)	2 November 2017
Vanguard Global Credit Bond Fund (the “Global Credit Bond Fund”)	14 September 2017
Vanguard Global Short-Term Bond Index Fund (the “Global Short-Term Bond Index Fund”)	31 January 2014
Vanguard Global Short-Term Corporate Bond Index Fund (the “Global Short-Term Corporate Bond Index Fund”)	2 November 2017
Vanguard Japan Government Bond Index Fund (the “Japan Government Bond Index Fund”)	1 April 2004
Vanguard SRI Euro Investment Grade Bond Index Fund (the “SRI Euro Investment Grade Bond Index Fund”)	18 July 2017
Vanguard U.K. Government Bond Index Fund (the “U.K. Government Bond Index Fund”)	23 June 2009
Vanguard U.K. Investment Grade Bond Index Fund (the “U.K. Investment Grade Bond Index Fund”)	20 March 2007
Vanguard U.K. Short-Term Investment Grade Bond Index Fund (the “U.K. Short-Term Investment Grade Bond Index Fund”)	22 May 2013
Vanguard U.S. Government Bond Index Fund (the “U.S. Government Bond Index Fund”)	31 January 2002
Vanguard U.S. Investment Grade Credit Index Fund (the “U.S. Investment Grade Credit Index Fund”)	16 December 2004
Vanguard U.S. Treasury Inflation-Protected Securities Index Fund (the “U.S. Treasury Inflation-Protected Securities Index Fund”)	24 October 2016

<sup>1</sup> The Fund was liquidated on 14 January 2021. Financial information related to this Fund has been presented hereafter on a basis other than going concern.

The following Funds are currently approved by the Central Bank but have either been liquidated or not yet commenced trading:

	Central Bank Approval
Vanguard ESG Global Corporate Bond Index Fund	6 January 2021
Vanguard U.S. Fundamental Value Fund <sup>1</sup>	10 February 2004
Vanguard U.S. Ultra-Short-Term Bond Fund <sup>1</sup>	25 March 1998

<sup>1</sup> The Fund liquidated.

**2. Basis of Presentation.** The financial statements are prepared in accordance with accounting standards generally accepted in Ireland, including Financial Reporting Standard (“FRS”) 102, Irish statute comprising the Companies Act 2014, as amended, the UCITS Regulations, the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the “CBI UCITS Regulations”) and the Listing Rules of the Euronext Dublin Exchange. Accounting standards generally accepted in Ireland in preparing financial statements which present a true and fair view are those published by the Institute of Chartered Accountants in Ireland and issued by the Financial Reporting Council (the “FRC”).

The Company has determined that the headings and sub-headings of the financial statements require adaptation from the requirements in the Companies Act 2014 to more appropriately reflect the Company’s business as an investment fund.

A Statement of Changes in Net Assets has been presented in place of a Cash Flow Statement due to the exemption contained in FRS 102, Section 7.1A.

The information required by FRS 102 to be included in a statement of comprehensive income is contained in the Statement of Operations of each Fund and the Company.

With the exception of the Global Enhanced Equity Fund the financial statements have been prepared on a going concern basis, subject to the historical cost convention, as modified by the revaluation of financial assets and liabilities at fair value through profit or loss ("FVTPL"). The Global Enhanced Equity Fund has liquidated and is no longer considered a going concern.

### 3. Significant Accounting Policies.

**(a) Critical Accounting Estimates and Judgements.** The preparation of these financial statements requires the use of certain accounting estimates and requires the Company to exercise judgement when applying the Funds' accounting policies. The estimates and associated judgements are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements concerning the classification of financial assets and liabilities, the carrying values of financial instruments, as well as the fair value of certain financial instruments in instances where information is not readily apparent from other sources.

**(b) Revenue Recognition.** Dividends, whether cash or stock, are recognised when the securities are quoted ex-dividend. Special dividends are treated as either capital or revenue depending on the facts of each particular case.

In the case of debt securities, any difference between acquisition cost and maturity value is recognised as revenue over the life of the security using the effective yield basis of calculating amortisation. Any Funds holding inflation-linked bonds recorded net positive income during the year ended 31 December 2021 (31 December 2020: the Eurozone Inflation-Linked Bond Index Fund recorded net negative income). Such net negative income is presented as Negative Yield on Financial Assets in the Statement of Operations.

The treatment of returns from derivatives is dependent upon the nature of the transaction and considers both motives and circumstances to determine whether returns should be treated as capital or revenue. Where positions are undertaken to protect or enhance capital, the returns are considered capital. Similarly, where positions are undertaken for generating or protecting revenue, the returns are considered revenue.

Revenue is recognised gross of any withholding taxes incurred.

Bank interest is recognised on an accrual basis.

Securities lending revenue is accounted for on an accrual basis.

**(c) Taxation.** Current tax is recognised as the amount of income tax paid or payable in respect of the taxable overseas net profit. Deferred taxation is provided on all timing differences that have originated but not reversed by the reporting date. Deferred tax is measured at the rates expected to apply for the year in which the timing differences will reverse. Deferred taxes are not discounted to reflect the time value of money and are only recognised to the extent they are expected to crystallise.

Withholding taxes on foreign dividends and capital gains have been provided for in accordance with the Funds' understanding of the applicable countries' tax rules and rates. Foreign capital gains tax is accounted for based upon net unrealised gains.

**(d) Financial Assets and Financial Liabilities.** FRS 102 requires a reporting entity to apply either (a) the full requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments Issues; (b) the recognition and measurement provisions of International Accounting Standards ("IAS") 39, Financial Instruments: Recognition and Measurement ("IAS 39"), and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments; or (c) the recognition and measurement provisions of International Financial Reporting Standards ("IFRS") 9, Financial Instruments, and the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments. The Company has elected to apply the recognition and measurement provisions of IAS 39 and the disclosure requirements of FRS 102.

**Classification and Measurement.** Financial assets and financial liabilities, including financial derivative investments, are classified and measured at FVTPL from the launch date. Obligations for net assets attributable to holders of redeemable shares are presented at the redemption amount, which approximates their fair value. All other financial assets and liabilities are measured at amortised cost, which approximates fair value.

**Recognition and Derecognition.** Purchases and sales of financial instruments are recognised on the trade date, being the date on which the Fund commits itself to the purchase or sale. Financial instruments at FVTPL are initially recognised when the Funds become party to the contractual provisions of the instrument. Financial instruments are derecognised when the contractual rights to the cash flows from the instruments expire, or when substantially all the risks and rewards of ownership have been transferred. Realised gains and losses are specifically identified when securities are derecognised. Premiums received on expired options are realised as gains, while premiums paid on expired options are realised as losses. Premiums on exercised options will result in gains or losses by either increasing the proceeds received when selling the underlying security or decreasing the cost basis when purchasing the underlying security.

**Equities.** Equities (including warrants and rights) are valued at the latest available last traded value at year-end. Instruments traded on a recognised market are valued on the basis of valuations provided by a principal market maker or a pricing service. When applicable, unlisted and suspended instruments are based on the Investment Manager's assessment of their net realisable value or the last traded price from broker-dealers for non-exchange-trade purposes.

**Fixed Income.** Fixed income securities traded in recognised markets are valued using the latest bid prices on the securities exchange in which they are principally traded or using valuations based on a matrix system (which considers such factors as security prices, yields, maturities and ratings), both as furnished by independent pricing services.

**Financial Derivative Instruments.** Futures contracts are valued in an active market if quoted prices are readily and regularly available; this represents the amount that would be required to close the position. Forward currency contracts are valued at the closing prices of the forward currency contract rates in the London foreign exchange markets on a daily basis as provided by a reliable bank or dealer. Credit default swaps are valued using a pricing service provider; where no pricing service provider is available, contracts are marked-to-market daily based upon quotations received from counterparties or based upon calculations using valuation models. Option contracts are valued at their quoted daily settlement prices. Interest rate swaps are valued in an active market if quoted prices are readily and regularly available; otherwise contracts are marked-to-market daily based upon quotations received from counterparties or based upon calculations using valuation models.

**(e) Fair Value Measurement.** The Funds classify financial instruments measured at fair value using a three-level hierarchy. Instruments are categorised in their entirety based on the lowest level input that is significant to the fair value measurement. Assessing the significance and observability of a particular input requires significant judgement specific to an asset or liability. Inputs are considered to be observable when they are readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

**Level 1**—Quoted prices in active markets for identical securities.

**Level 2**—Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

**Level 3**—Significant unobservable inputs (including the Fund's own assumptions used to determine the fair value of investments).

**(f) Transaction Costs.** Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of an investment. These costs include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs incurred in the purchase and sale of securities designated at FVTPL are expensed on an accrual basis.

**(g) Foreign Currency.** All transactions in foreign currencies are translated into each Fund's functional currency at the exchange rates prevailing on the date of the transaction. At the reporting date, monetary assets and liabilities denominated in foreign currencies are translated at the prevailing exchange rates. Gains and losses arising on translation are included in total return and are reported on a net basis.

In preparing the aggregate Company financial statements, all transactions have been translated into USD at the prevailing exchange rates in effect.

The functional currency of each Fund is:

Fund	Currency	Fund	Currency
Emerging Markets Stock Index Fund	US dollar (US\$)	U.S. Investment Grade Credit Index Fund	US dollar (US\$)
ESG Developed World All Cap Equity Index Fund	US dollar (US\$)	U.S. Treasury Inflation-Protected Securities Index Fund	US dollar (US\$)

U.S. Government Bond Index Fund	US dollar (US\$)		

<sup>1</sup> The Fund liquidated during the year. See Note 1.

**(h) Cash and Bank Overdrafts.** Cash is composed of demand deposits with financial institutions or bank overdrafts. Bank overdrafts, when applicable, are presented as current liabilities. Cash held or pledged as collateral against financial transactions or financial derivative instruments is not included within Cash and Bank Overdrafts but is segregated and presented separately on the Statement of Assets and Liabilities as Cash Collateral.

In respect to share issuances or redemptions, the Company operates an umbrella cash account. Monies received or proceeds due will be held and transmitted through this account and are included in Cash and Bank Overdrafts.

**Margin.** Upon entering into futures contracts and centrally cleared swap contracts, cash deposits are required (initial margin) in an amount equal to a certain percentage of the contract value. Subsequent payments (variation margin) are made or received by the Funds each day. Margin against these financial derivative instruments is not included within Cash or Bank Overdrafts but is segregated and presented separately as Margin Cash Due from Broker or Margin Cash Due to Broker, as applicable.

**(i) Redeemable Participating Shares.** Redeemable participating shares provide Shareholders with the right to redeem their shares for cash and are classified as financial liabilities.

**(j) Trade Date Reporting.** Investment transactions for financial statement purposes as at 31 December 2021 are accounted for on the trade date. This is different from the basis used for the daily dealing net asset value, which is accounted for using the trade date plus one business day.

**(k) Offsetting.** Financial assets and liabilities are offset and the net amount reported when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liability simultaneously. As at 31 December 2021, there were no financial assets or liabilities offset.

**(l) Equalisation.** Equalisation occurs to reflect the pro rata payment of distributions based on the time period over which shares have been owned by an investor. If shares are purchased when the Funds have accrued income but not yet declared a distribution, the Funds will credit to the equalisation account the portion of the purchase price representing income accrued but directly attributable to those shares. Conversely, if shares are redeemed when the Funds have accrued income but not yet declared a distribution, the Funds will deduct from the equalisation account the portion of the redemption price representing income accrued but directly attributable to those shares. Equalisation is reflected on the Statement of Operations as a finance cost.

**(m) Swing Pricing.** The Funds employ swing pricing as a means to prevent dilution. Swing pricing results from the Company's determination to adjust the Funds' net asset value, on any dealing day, following a consideration of dealing activity (i.e. level of subscriptions and redemptions) and the level of costs associated with such activity. A dilution adjustment is exercised only for the purpose of reducing the negative effects of transaction charges in the interest of the non-dealing shareholders in the Funds and is applied consistently in respect of the Funds, and in respect of all assets of the Funds. The direction of the swing depends on whether there are net subscriptions or net redemptions in the Funds on the relevant dealing day, while the magnitude of the swing is based on pre-determined estimates of the average execution costs in the relevant asset classes in which the Funds are invested.

The dilution adjustment did not exceed 2% of the original net asset value per share of the Funds during the year (31 December 2020: none).

#### 4. Risk Management Policies.

**Price Risk.** Price risk is the risk that the value of financial instruments will fluctuate because of changes in the market. The Investment Manager considers the asset allocation of the portfolio in order to minimise the risk associated with particular countries or industry sectors while continuing to follow the stated investment objective.

The investment objective for an index fund is to seek to track as closely as reasonably possible the performance of the benchmark. In order to achieve this objective, an index fund invests primarily in securities held in the relevant benchmark index. In order to achieve this objective, an index fund invests primarily in securities held in the relevant benchmark index. An index fund places limitations on the amount by which a holding may deviate from the proportion in the benchmark to limit the market risk from mismatched positions.

All investments present a risk of loss of capital. The Investment Manager assesses market risk volatility to ensure that the effect of using financial derivative instruments is not significant enough to cause disproportionate losses to overall value. The Investment Manager moderates this risk through careful selection of financial instruments.

**Currency Risk.** Currency risk is the risk that the value of the Funds' investments will fluctuate as a result of changes in currency exchange rates. Local interest rates and monetary policy, as well as other government fiscal and labour policies, can also adversely impact currency values. The Funds may enter into foreign currency contracts for hedging purposes, which can include the economic hedging of all or a portion of the currency exposure of an investment or group of investments. The Funds may also enter into these contracts for non-hedging purposes, which can include increasing the exposure to a foreign currency, or the shifting of exposure to foreign currency fluctuations from one country to another.

All currency-hedged share classes for the year ended 31 December 2021 are listed in the following table:

<sup>1</sup> Share class name changed during the year.

Each hedged share class incorporates a currency hedge, which acts as a buffer against the impact of currency fluctuations for investors for whom the base currency is hedge share class-specific currency.

**Interest Rate Risk.** Revenue on fixed income securities may be affected by changes in interest rates relevant to particular securities or as a result of the Investment Manager being unable to secure similar returns on the expiry of contracts or sale of securities. The value of fixed rate securities may be affected by interest rate movements or the expectation of such movements in the future. Interest receivable on bank deposits or payable on bank overdraft positions will also be affected by fluctuations in interest rates.

For Funds with exposure to interest rate risk, the tables below summarise the percentage of each Fund's holdings by maturity:

Fund	31 December 2021						
	Under 1 Year	1-5 Years	5-10 Years	10-15 Years	15-20 Years	20-25 Years	Over 25 Years
20+ Year Euro Treasury Index Fund	0.08%	—	—	—	—	36.18%	63.74%

**Management of Market Risk (Including Price, Currency and Interest Rate Risks).** The Investment Manager performs daily reviews of portfolio attributes, such as sector diversification, maturity and credit quality, and makes adjustments where necessary to ensure that the risk components closely match those of the respective benchmarks. In addition, the Investment Manager and Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator") perform daily checks of performance against the respective benchmarks. Potential tracking errors are raised and discussed by the Investment Manager and the Administrator for investigation and resolution. Market impact, currency discrepancies and interest rate exposure are investigated as possible causes. Currency positions are reconciled daily and discrepancies are immediately resolved. Procedures are established with the Investment Manager to trade currency as closely as possible to the close of the markets, so as to obtain exchange rates that closely approximate the rates used in the daily valuation. Certain Funds enter into swaptions to adjust the Fund's sensitivity to interest rates or to adjust its exposure to the underlying investments.

Market disruptions associated with the COVID-19 pandemic have had a global impact, and uncertainty exists as to the long-term implications. Such disruptions can adversely affect assets of the Funds and thus performance of the Funds.

**Market Risk Sensitivity Analysis.** Market risk exposures to the Funds are measured using value at risk (VaR), which estimates the maximum expected loss over a defined period given a specified confidence level. The VaR methodology is a statistically defined, probability-based approach that takes into account estimates for market volatilities and correlations between assets in the portfolio. Risks can be measured consistently across markets and products, and risk measures can be aggregated to arrive at a single risk number. For the purpose of this annual report, a one-year historical (ex-post) absolute VaR calculation has been completed for each Fund as set out below. The calculation includes a 95% confidence interval with a 260-trading-day (one-year) VaR period, or since the Fund's inception if it does not have 260 trading days of performance history. That is, under normal market conditions and assuming no changes to Fund holdings, there is a 95% probability that the value of Fund assets will not decrease by more than the calculated value over a one-year period.

VaR as presented is based on historical performance through 31 December 2021 and does not reflect the effects of any market volatility since that date.

	31 December 2021	31 December 2020

<sup>1</sup> The Fund launched during the prior year. See Note 1.

<sup>2</sup> The Fund liquidated during the year. See Note 1.

Global exposure is measured using the commitment approach, which considers the full constituents of the portfolio. The Investment Manager will observe the regulatory limit and any internal risk limits which may be appropriate for the portfolio.

Funds may trade in financial derivative instruments such as exchange traded futures and options contracts (to manage cash flows on a short term basis and to achieve cost efficiencies), warrants, swap agreements and equity-linked notes (to gain market exposure or exposure to a particular asset class) and currency forwards and interest rate futures (to protect against currency fluctuations). The use of financial derivative instruments may expose the Funds to a higher degree of risk. In particular, financial derivative instruments contracts can be highly volatile, and the initial investment is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on financial derivative instruments than on standard securities. Leveraged financial derivative instruments positions can therefore increase Fund volatility. Leverage will not exceed 100% of the net asset value of the relevant Fund and will be done in accordance with regulations applicable to the Funds.

**Liquidity Risk.** Liquidity risk is the risk that sufficient cash cannot be raised to meet liabilities when due. One of the key liquidity factors influencing the Funds is exposure to cash redemptions of redeemable participating shares. Hence the Funds invest the large majority of their assets in investments that are traded in active markets and can ordinarily be readily disposed. However, liquidity risk will occur if an issuer becomes credit-impaired or if the relevant market becomes illiquid. In such a case, it may not be possible to initiate or liquidate a position at a price deemed by the Investment Manager to be demonstrating fair value. Liquidity risk may be temporary or may last for extended periods. The Funds invest in securities that form part of the benchmark indices. Benchmark indices are constructed from index rules requiring securities to have a specified minimum trading volume, which, although not guaranteeing liquidity, provides indication of the liquid nature of the securities underlying the Funds. The Funds are exposed to withdrawals and contributions that are invested to ensure that exposures to the benchmark indices are maintained in order to meet the investment objective of the Funds.

Shareholders owning greater than 25% of the net assets of a Fund may further expose the Fund to concentration risks that could impact liquidity should one or more of these shareholders submit redemption requests.

<sup>1</sup> The Fund liquidated during the year. See Note 1.

**Management of Liquidity Risk.** In order to meet redemption requests and raise cash from the portfolio, the Investment Manager receives daily reports of share capital activity from the Administrator. The Investment Manager incorporates cash forecasts into the daily management of the portfolio and monitors cash balances daily.

Index futures contracts also support liquidity and may be used to a limited extent, to maintain full exposure to the index, maintain liquidity and minimise transaction costs. The Funds may equitise cash holdings by purchasing or selling futures contracts in response to cash inflows and outflows, thereby simulating a fully invested position in the underlying index while maintaining a cash balance for liquidity purposes.

Subject to certain circumstances as detailed in the Prospectus, negative impacts to liquidity or transaction costs caused by significant shareholder redemptions may be mitigated through the Funds' available liquidity measures including, but not limited to, the use of (a) its swing pricing policies, (b) distribution of underlying investments rather than cash, subject to certain conditions, in which case the shareholder may bear the cost of charges incurred in connection with the sale of such underlying investments, (c) limiting the maximum amount of daily redemptions when total redemption requests for the day exceed 10%, or (d) temporary suspension of dealing in shares. Should the Funds require, they also have access to a syndicated line of credit for temporary or emergency purposes (as disclosed in Note 9).

**Credit Risk.** Credit risk is the risk that a counterparty to a transaction or an issuer of a financial instrument will fail to pay interest and principal when due, or that perceptions of the issuer's ability to make such payments will cause the price of an investment to decline. Significant investment in debt securities or use of over-the-counter derivative contracts to a material degree will generally increase credit risk.

Credit risk exposure is also created through interactions with brokers and custodians. However, transactions in listed securities are settled and paid for upon delivery of securities using only approved brokers. The risk of default is therefore considered minimal because securities are delivered only when the broker has made payment and the broker is paid for purchases only once the securities have been received by Brown Brothers Harriman Trustee Services (Ireland) Limited (the "Depositary").

Credit risk may also arise from assets of the Funds which are substantially all held by the Depositary. Bankruptcy or insolvency of the Depositary may cause certain rights with respect to securities and other positions held to be delayed or limited. As of 31 December 2021, the Depositary has a long-term credit rating of A+ from Fitch (31 December 2020: A+). Additionally, the Depositary ensures there is legal separation of non-cash assets held in custody, that such assets are held on a fiduciary basis, and that appropriate internal control systems are maintained such that records clearly identify the nature and amount of all assets under custody. All securities held in custody by the Depositary are segregated from the Depositary's own assets, whether in a vault, in segregated accounts on the books of sub-custodians, or in an account maintained at a central securities depository. The Depositary maintains segregated accounts per client on its own books as well as on the books of sub-custodians in local markets, where possible.

Certain Funds may use credit default swaps to a limited extent, for efficient replication of credit risk exposure or to transfer default protection on an underlying fixed income security. Credit protection purchased results in an asset which may increase credit risk, while credit protection sold results in a liability which may increase liquidity risk.

For Funds invested in debt securities the following is an analysis of the concentration of issuer credit ratings:

31 December 2021:

Fund	AAA	AA	A	BBB	Less than BBB	NR

**Management of Credit Risk.** Credit risk is managed by investment policies which restrict or place limits on acceptable portfolio and net asset concentrations as well as exposure to certain instruments, credit institutions, and counterparties. The Investment Manager performs daily reviews of portfolio attributes, such as sector diversification and credit quality, and makes adjustments where necessary to ensure that the credit risk components closely match those of the respective benchmarks. Credit ratings of debt instruments and counterparties are monitored and evaluated periodically by the Investment Manager; an approved counterparty list is maintained, and trading with approved counterparties is enforced. The Funds also enter into master netting arrangements with their counterparties and require the transfer of collateral to secure performance. The value of securities pledged or received as collateral against derivative contracts is disclosed in Note 11. Securities received as collateral from counterparties are not reflected in the Statement of Assets and Liabilities of the Funds.

**Interest Rate Benchmark Reform.** Certain Funds are exposed to specific interest rate benchmarks subject to reform and whose publication has already, or will, cease in the future. While the Funds are transitioning to alternative benchmark rates, any existing investment in floating rate securities referencing these rates can introduce an element of pricing and liquidity risk, should the market for these securities become

less liquid. The Funds' investment manager actively monitors and manages the transition to alternative rates by continually reviewing the total amounts of contracts that have yet to transition, reducing or eliminating exposure to these contracts, or ensuring these contracts contain appropriate fallback clauses. The transition away from benchmark rates to which the funds have exposure has largely been completed.

**5. Taxation.** Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to shareholders, any encashment, redemption, cancellation or transfer of shares, or appropriation or cancellation of shares of a shareholder by the Company for the purposes of meeting the amount of tax payable on a gain arising on a transfer. Any tax arising on a chargeable event is a liability of the shareholders, albeit it is paid by the Company (although if the Company fails to deduct the correct amount of tax it becomes ultimately a liability of the Company).

No Irish tax will arise on the Company in respect of chargeable events in respect of:

(a) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and

(b) certain exempted Irish tax resident shareholders who have provided the necessary signed statutory declarations.

Dividends, interest and capital gains received on investments may be subject to withholding or other taxes imposed by the country from which the investment income/gains are received, and such taxes may not be recoverable. Funds subject to foreign withholding taxes on dividends and interest are recognised when such taxes are not recoverable and are included in Taxation. Funds may also be subject to tax on the realised and unrealised portion of their capital gains.

The Funds have filed tax reclaims for previously withheld taxes on dividends earned in certain European Union countries. These filings are subject to various administrative and judicial proceedings within these countries. Such tax reclaims received during the year, if any, are included in Taxation. No other amounts for additional tax reclaims are reflected in the financial statements due to the uncertainty as to the ultimate resolution of proceedings, the likelihood of receipt of these reclaims and the potential timing of payment.

Below is an analysis of the tax charge for the year ended 31 December 2021:

**6. Distribution Policy.** The Directors intend to distribute all, or substantially all, of the net income (interest and dividends, less expenses) to distributing share class holders. Should expenses exceed revenue, no distribution is made. Dividend distributions are payable to shareholders of record on the date on which the dividend is declared. Dividends on other equity funds are paid on a quarterly basis and dividends on fixed income funds are paid on a monthly basis, unless otherwise detailed. The Directors do not intend to declare dividends on accumulating shares.

The following table presents the payment frequency with respect to distributing share classes. If a dividend has not been declared, income and gains of such Fund will be reflected in the net asset value per share.

1 The Fund launched during the year. See Note 1.

**7. Net Asset Value Per Share.** The net asset value per share of each share class is calculated by dividing the total net assets of each share class by the number of shares in issue.

**8. Share Capital.** The Company has variable share capital consisting of 500,000,030,000 authorised shares divided into 30,000 subscriber shares and 500,000,000,000 redeemable participating shares (no par value).

The Directors may issue shares of any class and create new classes of shares on such terms as the Directors may from time to time determine in relation to any Fund and in accordance with the requirements of the Central Bank. Shares may be divided into different classes to accommodate different subscription, redemption or fee arrangements, dividend provisions, or charges.

**Subscriber Shares.** There are two Subscriber Shares in issue, which are held by nominees for the Investment Manager. Subscriber Shares do not entitle the holders thereof to any dividend and on a winding-up entitle the holder to receive the amount paid up thereon but not otherwise to participate in the assets of the Company. The Subscriber Shares do not form part of the Shareholders' funds and are not included in the net asset value of the Company.

Members who are individuals may attend and vote at general meetings in person or by proxy. Members who are corporations may attend and vote at general meetings by appointing a representative or proxy. Subject to any special terms as to voting upon which any shares may be issued or may for the time being be held, at any general meeting on a show of hands every Shareholder who (being an individual) is present in person or (being a corporation) is present by duly authorised representative shall have one vote. On a poll every such holder presents as aforesaid or by proxy shall have one vote for every share held.

Movement in shares for the year ended 31 December 2021:

**9. Credit Facility.** The Funds and certain other funds managed by the Manager or its affiliates participate in an annually renewable USD \$4.3 billion (2020: \$4.3 billion) committed credit facility. Each participating Fund is individually liable for its borrowings under the credit facility. Borrowings may be utilised for temporary or emergency purposes and are subject to the participating fund's regulatory and contractual borrowing restrictions. Participating Funds are allocated an annual commitment fee of 0.10% of the undrawn facility amount as well as certain administrative fees. Any fees allocated to the Funds are paid by the Manager. Interest and direct borrowing costs associated with draws on the credit facility are charged to the Funds and recorded in the Statement of Operations.

Any borrowings under this facility denominated in euros bear interest at the Euro Interbank Offered Rate plus an applicable margin, while borrowings under this facility in denominations other than euros bear interest at a rate equal to the higher of the one-month London Interbank Offered Rate (or an acceptable alternate rate, if necessary), federal funds effective rate or overnight bank funding rate plus an agreed-upon spread.

The Global Stock Index Fund made one borrowing in the amount of \$1,000,000 to test the operational readiness of the credit facility process. The borrowing was outstanding for three business days and the related Interest Expense is recorded in the Statement of Operations; the Global Stock Index Fund had no amounts outstanding as at 31 December 2021 (31 December 2020: none).

No other funds had amounts outstanding as at 31 December 2021 or at any time during the year then ended (31 December 2020: none).

**10. Efficient Portfolio Management.** Investment techniques and financial derivative instruments (FDIs) may be employed for efficient portfolio management purposes, including hedging against market movements, currency exchange or interest rate risks. Any investment technique or use of FDIs must be one which is reasonably believed by the Investment Manager to be economically appropriate in that it is realised in a cost-effective way. Realised and unrealised gains or losses arising from financial derivative instrument transactions are accounted for through the Statement of Operations as Net Gain/(Loss) on Investment Instruments.

Securities lending is also used for efficient portfolio management. The securities lending agent is Brown Brothers Harriman & Co. All operational costs in support of the lending programme are borne by the lending agent and paid directly out of any lending agent fees. Securities lending revenue is net of any lending agent fees paid.

Securities on loan by the Funds and the value of collateral held in respect of the securities as at 31 December 2021:

Fund	Value of Outstanding Securities on Loan	Value of Collateral
Emerging Markets Stock Index Fund	\$97,288,688	\$103,326,150

U.S. Opportunities Fund	\$392,643	\$39,986

**11. Collateral.** The Funds pledge and receive non-cash collateral against financial derivative transactions but such collateral cannot be sold, re-invested or re-pledged. As a result, pledged collateral remains an asset of the Fund and is included in the Statement of Investments. Equally, securities received as collateral are not considered assets of the Fund and will not appear in the Statement of Investments. The Funds may also be required to maintain cash collateral in margin accounts with certain counterparties. This cash is segregated on the Statement of Assets and Liabilities and presented separately as "Cash Collateral". In addition, the Funds receive other non-cash collateral in relation to securities lending transactions which is separately disclosed in Note 10. Counterparties to financial derivative transactions where collateral was required to be exchanged included Barclays Bank plc, BNP Paribas, Citi Bank NA, Goldman Sachs International, HSBC Holdings plc, JPMorgan Chase Bank, Morgan Stanley, Standard Chartered Bank, State Street Bank, Toronto Dominion Bank and UBS.

As of 31 December 2021 and 31 December 2020, non-cash collateral pledged or received by the Funds for financial derivative instrument transactions was:

## 12. Related Party Transactions.

**Manager.** Vanguard Group (Ireland) Limited is the Funds' Manager and acts as a principal in respect of all transactions of shares in the Funds. For its services, the Manager receives a fixed single fee per share class (the "Management Fees") calculated on a daily basis and paid monthly. Out of the fees received, the Manager pays for any sub-advisers, as well as the costs of administration including audit, depositary, legal, registration and regulatory fees associated with the Funds. As a result, the Manager anticipates that the ongoing charges figure ("OCF") of each share class will closely track the Management Fees. In the event that the costs and expenses of the Company or any Fund exceed the OCF, the Manager will be responsible for discharging any excess out of its own assets. The Manager, in its sole discretion, may voluntarily waive all or part of its fee, and any such waiver could be discontinued at any time and without notice.

Any amounts due from or to the Manager at the end of the year are disclosed in the Statement of Assets and Liabilities. Amounts paid to the Manager in respect to fees for the year are disclosed in the Statement of Operations.

The Annual Management Fees for each share class as at 31 December 2021:

1 The Management Fee was reduced during the year.

2 The Fund launched during the year. See Note 1.

3 The Fund liquidated during the year. See Note 1.

**Directors' Fees.** Aggregate director fees paid by the Manager out of the management fees on behalf of the Funds and other funds managed by the Manager for the year ended 31 December 2021 were US\$371,994 (31 December 2020: US\$350,020), of which US\$0 (31 December 2020: US\$0) was outstanding at the year-end.

The Company had eight Directors as at 31 December 2021:

Director <sup>1</sup>	Independent Director	Director of other Vanguard funds or affiliates
Peter Blessing	Yes	Yes
William Slattery	Yes	Yes
Michael S. Miller	No	Yes
Sean Hagerty	No	Yes
Tara Doyle	Yes	Yes
Robyn Laidlaw	No	Yes
Ann Stock <sup>2</sup>	No	Yes
Karin A. Risi <sup>3</sup>	No	Yes

1 Richard Wayne resigned as a Director on 31 March 2021.

2 Appointed on 1 April 2021.

3 Appointed on 22 July 2021.

**Investment Manager.** Vanguard Global Advisers, LLC, is the Investment Manager to the Company and is compensated by the Manager. PRIMECAP Management Company sub-manages the U.S. Opportunities Fund.

The Investment Manager or the Manager, at their discretion, may appoint other companies from within the Vanguard Group of Companies to provide investment management and advisory services with respect to the Funds.

**18. Auditors' Remuneration.** The statutory audit fee (including out-of-pocket expenses incurred by the auditors in connection with their work) paid by the Manager out of the OCF on behalf of the Company for the year amounted to US\$551,840 (31 December 2020: US\$547,561). The Auditors also charged for Swiss reporting services provided to the Funds, which amounted to US\$22,473 for the year ended 31 December 2021 (31 December 2020: US\$23,248). The Auditors provided no other services to the Company.

**19. Events Since the Statement of Assets and Liabilities Date.**

Market disruptions associated with current geopolitical events have had a global impact, and uncertainty exists as to their implications. Such disruptions can adversely affect assets and thus performance of the Funds; at this time, an aggregate effect on assets and performance cannot be reasonably estimated. Management is continuing to monitor these developments and evaluate impacts they may have on the Funds.

There were no other events subsequent to year-end requiring recognition or disclosure in the financial statements.

**20. Approval of Financial Statements.** The Financial Statements were approved by the Directors on 25 April 2022.

# Report From the Directors

The Board of Directors (the "Directors") submits its annual report together with the audited financial statements for Vanguard Investment Series plc (the "Company") for the year ended 31 December 2021.

## Directors' responsibilities statement

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with Irish law and regulations.

Irish company law requires the Directors to prepare financial statements giving a true and fair view of the state of affairs of the Company and the profit or loss of the Company for each year. Under that law the Directors have elected to prepare the financial statements in accordance with Irish Generally Accepted Accounting Practice (accounting standards issued by the Financial Reporting Council and promulgated by the Institute of Chartered Accountants in Ireland and Irish law).

In preparing those financial statements, the Directors are required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgements and accounting estimates that are reasonable and prudent;
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business; and
- State whether the financial statements have been prepared in accordance with applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards.

The Directors are responsible for keeping adequate accounting records that disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements are prepared in accordance with accounting standards generally accepted in Ireland and comply with the Companies Act, 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations"). They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors have the power, under the Memorandum and Articles of Association of the Company, to determine the time and place at which payment for shares must be made. Accordingly, the Directors in exceptional circumstances have discretion to accept subscription monies after the dealing time specified in the Prospectus. In exercising this discretion, the

Directors will take into account legal considerations, timing considerations and other relevant considerations.

The financial statements are published at [www.vanguard.co.uk](http://www.vanguard.co.uk). The Directors together with the Manager and Investment Manager are responsible for the maintenance and integrity of the website as far as it relates to Vanguard Investment Series plc. The work carried out by the auditors does not involve consideration of the maintenance and integrity of the website, and accordingly, the auditors accept no responsibility for any changes that have occurred to the financial statements presented on the website. Legislation in the Republic of Ireland governing the presentation and dissemination of the financial statements may differ from legislation in other jurisdictions.

## Statement of Relevant Audit Information

The Directors in office at the date of this report have each confirmed that:

- As far as they are aware, there is no relevant audit information of which the Company's auditor is unaware; and
- They have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

## Directors' Compliance Statement

It is the policy of the Company to comply with its relevant obligations (as defined in the Companies Act 2014). As required by Section 225(2) of the Companies Act 2014, the Directors acknowledge that they are responsible for securing the Company's compliance with the Relevant Obligations. The Directors have drawn up a compliance policy statement as defined in Section 225(3)(a) of the Companies Act 2014 and a compliance policy which refers to the arrangements and structures that are in place and which are, in the Directors' opinion, designed to secure material compliance with the Company's Relevant Obligations. In discharging their responsibilities under Section 225, the Directors relied upon, among other things, the services provided, advice and/or representations from third parties whom the Directors believe have the requisite knowledge and experience in order to secure material compliance with the Company's Relevant Obligations.

## Accounting records

The measures taken by the Directors to secure compliance with the Company's obligations to keep adequate accounting records are the use of appropriate systems and procedures, appointment of an administrator and employment of competent persons. The accounting records are kept at the Administrator, 30 Herbert Street, Dublin 2, Ireland.

## Review of the business and future developments

The Company is organised as an investment company with variable capital under the laws of Ireland as a public limited company pursuant to the Companies Act 2014 and the UCITS Regulations. There was no change in the nature of the Company's business during the year.

A complete list of Funds can be found in Note 1 of the Notes to the Financial Statements.

## Results and dividends

The results and dividends for the year are stated in the Statement of Operations.

## Directors

The names of the persons who were Directors for all or part of the year ended 31 December 2021 are set out below.

Peter Blessing (Irish)  
William Slattery (Irish)  
Michael S. Miller (American)  
Sean Hagerty (American)  
Tara Doyle (Irish)  
Richard Wane<sup>1</sup> (British)  
Robyn Laidlaw (New Zealand)  
Ann Stock<sup>2</sup> (British)  
Karin A. Risi<sup>3</sup> (American)

<sup>1</sup> Resigned as Director on 31 March 2021.

<sup>2</sup> Appointed as Director on 1 April 2021.

<sup>3</sup> Appointed as Director on 22 July 2021.

## Directors' and Secretary's interests

The Directors and Secretary and their families had no interest in the shares of the Company at 31 December 2021. No Directors had at any time during the year a material interest in any contract of significance subsisting during or at the end of the year in relation to the business of the Company.

## Independent Auditors

As notified to shareholders on 28 March 2022, it is proposed that KPMG Ireland will replace the current auditors, PricewaterhouseCoopers, on or around 3 May 2022. Further details in respect of the rationale and selection process are available at <https://global.vanguard.com/portal/site/portal/ucits-fund-announcements>.

## Directors' disclosure on corporate governance

### Corporate governance

The Company is authorised in Ireland pursuant to the Companies Act 2014 and the UCITS Regulations. Accordingly, the Directors are obliged to carry out the business of the Company in accordance with the UCITS Regulations and in accordance with all of the relevant provisions of the Companies Act 2014. The Directors have also adopted the Corporate Governance Code issued by the Irish Funds Industry Association (the "IFIA Corporate Governance Code").

A copy of the IFIA Corporate Governance Code is available at <http://www.irishfunds.ie/publications/>.

## Shareholder meetings and voting rights

### General meetings

All general meetings of the Company shall be held in Ireland, and at least one general meeting of the Company shall be held in each year as the Company's annual general meeting. At least 21 days' notice (inclusive of the day on which the notice is served or deemed to be served and of the day for which the notice is given) shall be given to shareholders. The notice shall specify the place, day and hour of the meeting and the terms of the resolutions to be proposed. A proxy may attend on behalf of any shareholder.

### Voting rights

Each shareholder shall be entitled to such number of votes as shall be produced by dividing the aggregate net asset value of that shareholder's shareholding (expressed or converted into US dollars and calculated as of the "relevant record date") by one. The subscriber shareholders shall have one vote for each subscriber share held. The relevant record date for these purposes shall be a date being not more than 30 days prior to the date of the relevant general meeting of shareholders or written resolution as determined by the Directors. In relation to a resolution that in the opinion of the Directors gives or may give rise to a conflict of interest between the shareholders of any class, such resolution shall be deemed to have been duly passed only if, in lieu of being passed through a single meeting of the shareholders of such class, such resolution shall have been passed at a separate meeting of the shareholders of such classes. All votes shall be cast by a poll of shareholders present in person or by proxy at the relevant shareholder meeting or by unanimous written resolution of the shareholders.

### Class meetings—variation of class rights

Under the Articles of Association of the Company (the "Articles"), the rights attached to each class of shares may, whether or not the Company is being wound up, be varied with the consent in writing of the holders of three-fourths of the issued shares of that class or with the sanction of a Special Resolution passed at a separate general meeting of the holders of the shares of that class. The rights attaching to any class of shares shall not be deemed to be varied by the creation or issue of further shares ranking *pari passu* with shares already in issue, unless otherwise expressly provided by the terms of issue of those shares. The provisions of the Articles relating to general meetings shall apply to every such separate general meeting except that the necessary quorum at such a meeting shall be two persons present in person or by proxy holding shares of the class in question or, at an adjourned meeting, one person holding shares of the class in question or his or her proxy.

### **Directors of the company**

Unless otherwise determined by an ordinary resolution of the Company in a general meeting, the number of Directors may not be less than three nor more than nine. Currently there are eight Directors, being those listed in the directory in these financial statements.

The business of the Company is managed by the Directors, who exercise all such powers of the Company which are not required to be exercised by the Company in a general meeting in accordance with the Companies Acts and the Articles. A Director may, and the Company Secretary of the Company on the requisition of a Director will, at any time summon a meeting of the Directors. Questions arising at any meeting of the Directors are determined by a majority of votes. The quorum necessary for the transaction of business at a meeting of the Directors may be fixed by the Directors, and unless so fixed at any other number shall be two.

### **Internal controls and risk management**

The Directors are responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Directors have entrusted various delegates with responsibility for the oversight of the internal control and risk management systems. Separately, two Directors, Peter Blessing and Michael S. Miller, have been designated with the primary responsibility for evaluating the independent accountants, reviewing audit coverage and use of audit resources, and overseeing financial reporting and audit processes. The Company's internal audit function is carried out by the Internal Audit Department ("IAD") of The Vanguard Group, Inc. ("VGI"). The IAD is mandated to assist the Directors in reaching a conclusion about the overall effectiveness of internal controls and provide the Directors with the information necessary to discharge their responsibilities.

The Directors have procedures in place to ensure that all relevant books of account are properly maintained and are readily available, including production of annual and half yearly financial statements. The Directors are responsible for ensuring that the books of account disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that financial statements are prepared in accordance with accounting standards generally accepted in Ireland and comply with the Companies Act 2014 and the UCITS Regulations. The annual financial statements of the Company are required to be approved by the Directors. The statutory financial statements are required to be audited by the Company's independent auditors, PricewaterhouseCoopers, who report annually to the Audit Committee on their findings.

Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator") is appointed as an independent administrator to the Company to maintain the books and records and the Administrator is authorised and regulated by the Central Bank of Ireland and must comply with the rules imposed by the Central Bank of Ireland. In addition, the Administrator will prepare all financial statements and corresponding notes in respect of the Company together with its annual and semiannual reports.

From time to time the board also examines and evaluates the Administrator's financial accounting and reporting routines and monitors and evaluates the external auditors' performance, qualifications and independence. The Directors are also responsible for safeguarding the assets of the Company which involves the taking of reasonable steps for the prevention and detection of fraud and other irregularities.

On behalf of the Board of Directors of the Company,

Sean Hagerty  
Peter Blessing  
25 April 2022

# Additional Information From the Directors (unaudited)

## Potential Implications of Brexit

The United Kingdom is no longer a member state of the European Union. Despite the negotiation of the UK-EU Trade and Cooperation Agreement in December 2020, the future economic and political relationship between the United Kingdom and the European Union (and between the United Kingdom and other countries) remains uncertain and subject to further negotiation in many respects, and a period of economic and political uncertainty may therefore continue in the United Kingdom and the European Union.

Political and economic uncertainty may lead to speculation and subsequent market volatility, particularly for assets denominated in British pounds. Vanguard continues to encourage investors to follow its core investing principles, including maintaining long-term discipline.

The implications of Brexit extend beyond the UK economy and financial markets, affecting multinational organisations globally. The relevant regulatory authorities in the United Kingdom may in the future make changes to their rules which deviate from the standards applicable in the European Union. This could result in changes being made to the rules applicable in the European Union.

The nature and extent of the impact of these factors on the Funds are uncertain, but may be adverse. Vanguard remains committed to safeguarding our investors' assets and their long-term interests and has devoted significant resources to developing plans to manage the impact of Brexit.

## Coronavirus (COVID-19)

Market disruptions associated with the COVID-19 pandemic have had a global impact, and uncertainty exists as to the long-term implications. Such disruptions can adversely affect assets of the Funds and thus performance of the Funds. Vanguard continues to encourage investors to follow its core investment principles, including maintaining long-term discipline. Vanguard is committed to safeguarding the assets of investors and their long-term interests.

## Risk Management Objectives and Policies

Along with the risks described to Brexit and COVID-19, the Directors draw your attention to the principal risks affecting the Funds, which are outlined in Note 4 of the Notes to Financial Statements.

## Remuneration Disclosure

Vanguard personnel providing services to the Manager are subject to the Vanguard European Remuneration Policy (the "Remuneration Policy"). The Remuneration Policy includes the remuneration requirements of the UCITS V Directive (2014/91/EU). Details of the Remuneration Policy are available through <https://www.vanguard.co.uk/uk/portal/investment-information.jsp>, which will be updated periodically to reflect changes to the policy.

The governance of remuneration within Vanguard Europe is undertaken through a tiered structure, including Vanguard's Global Remuneration Committee and the European Leadership Team. The Global Remuneration Committee also operates at The Vanguard Group level and oversees the overall compensation programmes of The Vanguard Group. The European Leadership Team is responsible for implementing the remuneration programmes in accordance with Vanguard's total rewards philosophy and global organisation, including overseeing the Remuneration Policy.

The Remuneration Policy provides for an appropriate balance of fixed salary; benefits, such as pension; and annual bonus and long-term incentive arrangements. Incentives are based on the overall business performance of The Vanguard Group, or individual, team, business unit and fund performance. The incentive plans are reviewed and approved by the European Leadership Team (and other applicable groups) in order to ensure that plans appropriately assess financial and non-financial performance and do not encourage conflicts of interest, and to ensure that risk or compliance issues are appropriately reflected.

The European Leadership Team also reviews and approves the list of UCITS code staff annually. Identified code staff are notified and understand the code staff responsibilities.

Under the UCITS V Directive, the Manager is required to disclose information relating to the remuneration paid to its staff for the financial year, split into fixed and variable remuneration. The table below presents the aggregate total remuneration paid to staff who provide services to the Funds and the aggregate total remuneration paid to all relevant UCITS code staff.

	Headcount <sup>1</sup>	Total Remuneration (€000) <sup>2,3</sup>
<b>Funds, of which</b>	<b>54</b>	<b>11,800</b>
Fixed Remuneration	54	6,745
Variable Remuneration	54	5,055
Performance Fees	n/a	n/a
<b>Code Staff</b>	<b>5</b>	<b>2,590</b>
Fixed Remuneration	5	1,077
Variable Remuneration	5	1,513
Performance Fees	n/a	n/a

1 This is the total number of employees who are employed through VGIL (including branches).

2 The staff in this table provide services to the Irish Funds.

3 The remuneration disclosed is the total remuneration earned for the 2021 Irish Funds fiscal year.

Remuneration reflects fixed pay (salary) and performance-related pay (annual and long-term incentives). Individual incentive outcomes under the plans are based on performance assessed by reference to an appropriate balance of quantitative and qualitative measures, such as behaviour, including compliance with all applicable policies. The individual incentive outcome is fully discretionary and, if appropriate, outcomes based on financial performance can be overridden based on the qualitative measures.

## Connected Persons Disclosure

Transactions carried out with the Company by the Investment Manager, Manager, Depositary, Investment Adviser and/or associated or group companies of these ("Connected Persons") during the year ended 31 December 2021 were carried out as if negotiated at arm's length and were in the best interests of the Company's Shareholders. The Directors of the Company are satisfied that there are arrangements (evidenced by written procedures) in place to ensure that all transactions entered into by the Company with Connected Persons are carried out as if negotiated at arm's length and in the best interests of the Company's Shareholders.

## Securities Financing Transactions Regulation ("SFTR")

A Securities Financing Transaction (SFT) is defined as per Article 3(11) of the SFTR as:

- A repurchase/reverse repurchase agreement.
- Securities or commodities lending and securities or commodities borrowing.
- A buy-sell back transaction or sell-buy back transaction.
- A margin lending transaction.

As at 31 December 2021, the Company had a securities lending programme as a type of SFT under the scope of the SFTR.

## Global Data

### Return/Costs

The securities lending agent appointed is Brown Brothers Harriman & Co. All securities lending revenue, with the exception of a lending agent fee, is received directly into the Funds.

All operational costs in supporting the lending programme are borne by the lending agent and paid directly out of the agent lender fee received.

The current securities lending income split between the relevant Fund and the securities lending agent for the year ended 31 December 2021 is as follows:

Fund	Returns	Amount	% Overall Returns
Emerging Markets Stock Index Fund	To Fund:	\$2,790,473	94
	To Lending Agent:	\$172,895	6
ESG Developed World All Cap Equity Index Fund	To Fund:	\$254,967	93
	To Lending Agent:	\$18,962	7
ESG Emerging Markets All Cap Equity Index Fund	To Fund:	\$26,557	95
	To Lending Agent:	\$1,464	5
European Stock Index Fund	To Fund:	\$750,737	91
	To Lending Agent:	\$74,216	9
Eurozone Stock Index Fund	To Fund:	€177,591	92
	To Lending Agent:	€15,523	8
Global Small-Cap Index Fund	To Fund:	\$2,326,393	93
	To Lending Agent:	\$178,763	7
Global Stock Index Fund	To Fund:	\$1,321,906	92
	To Lending Agent:	\$109,135	8
Japan Stock Index Fund	To Fund:	€479,637	93
	To Lending Agent:	€34,174	7
Pacific ex-Japan Stock Index Fund	To Fund:	€482,860	95
	To Lending Agent:	€26,512	5
SRI European Stock Fund	To Fund:	€60,757	92
	To Lending Agent:	€5,535	8
U.S. 500 Stock Index Fund	To Fund:	\$43,023	92
	To Lending Agent:	\$3,918	8
U.S. Opportunities Fund	To Fund:	\$230,936	93
	To Lending Agent:	\$17,640	7

## EU Sustainable Finance

The following Funds promoted environmental and/or social characteristics during the financial period, however, the investments underlying these Funds may not take into account the EU criteria for environmentally sustainable economic activities.

With exception of the Funds noted, the investments underlying the other Funds do not take into account the EU criteria for environmentally sustainable economic activities.

### Vanguard SRI European Stock Fund

The Fund promoted environmental and social characteristics by excluding fixed income securities from its portfolio based on the impact of the issuer's conduct or products on society and / or the environment. This was met by the Fund not holding equity securities in the Index of issuers that did not meet specific "socially responsible" criteria. The SRI screening process excluded Index constituents that are or have engaged in activities that result in serious violations of the United Nations Global Compact ("UNGC"). The UNGC is a strategic policy initiative for businesses that are committed to aligning their operations and strategies with universally accepted principles in the areas of human rights, labour, the environment and anti-corruption. The SRI screening process may also apply other criteria as necessary in developing the "socially responsible" screens, including avoidance of owning securities of issuers that are involved in the production of controversial weapons such as cluster munitions, land mines, biochemical and nuclear weapons and those involved in the manufacture and distribution of tobacco products.

The Investment Manager will remove securities of issuers identified by the SRI screening process from the list of Index securities eligible for investment by the Fund.

### Vanguard SRI Euro Investment Grade Bond Index Fund

The Fund promoted environmental and social characteristics by excluding fixed income securities from its portfolio based on the impact of the issuer's conduct or products on society and / or the environment. This was met by the Fund not holding fixed income securities in the Index of issuers that did not meet specific "socially responsible" criteria. The SRI screening process excluded Index constituents that are or have engaged in activities that result in serious violations of the United Nations Global Compact ("UNGC"). The UNGC is a strategic policy initiative for businesses that are committed to aligning their operations and strategies with universally accepted principles in the areas of human rights, labour, the environment and anti-corruption.

The SRI screening process may also apply other criteria as necessary in developing the “socially responsible” screens, including avoidance of owning securities of issuers that are involved in the production of controversial weapons such as cluster munitions, land mines, biochemical and nuclear weapons and those involved in the manufacture and distribution of tobacco products.

The Investment Manager will remove securities of issuers identified by the SRI screening process from the list of Index securities eligible for investment by the Fund.

#### **Vanguard ESG Developed World All Cap Equity Index Fund**

The Fund promoted environmental and social characteristics by excluding companies from its portfolio based on the impact of their conduct or products on society and / or the environment. This was met by the Fund tracking the Index. The Index excludes stocks of companies that the sponsor of the Index determines to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, the following activities: (a) Vice Products (i.e., adult entertainment, alcohol, gambling, tobacco, cannabis); (b) Non-Renewable Energy (i.e., nuclear power, fossil fuels (including power generation from oil, gas, and thermal coal)); and (c) Weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons). The Index methodology also excludes companies that, as determined by the Index provider, are involved in severe controversies (i.e., companies which do not meet the labour, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles).

#### **Vanguard ESG Emerging Markets All Cap Equity Index Fund**

The Fund promoted environmental and social characteristics by excluding companies from its portfolio based on the impact of their conduct or products on society and / or the environment. This was met by the Fund tracking the Index. The Index excludes stocks of companies that the sponsor of the Index determines to be engaged or involved in, and / or derive revenue (above a threshold specified by the Index provider) from, the following activities: (a) Vice Products (i.e., adult entertainment, alcohol, gambling, tobacco, cannabis); (b) Non-Renewable Energy (i.e., nuclear power, fossil fuels (including power generation from oil, gas, and thermal coal)); and (c) Weapons (chemical & biological weapons, cluster munitions, anti-personnel landmines, nuclear weapons, civilian firearms, and conventional military weapons). The Index methodology also excludes companies that, as determined by the Index provider, are involved in severe controversies (i.e., companies which do not meet the labour, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles).

# Report of the Depositary to the Shareholders

We have enquired into the conduct of the Vanguard Investment Series plc (“the Company”) for the year ended 31 December 2021 in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the Shareholders in the Company as a body, in accordance with Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (“the UCITS Regulations”), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

## Responsibilities of the Depositary

Our duties and responsibilities are outlined in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company’s Memorandum and Articles of Association, the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not complied we, as Depositary, must state why this is the case and outline the steps which we have taken to rectify the situation.

## Basis of Depositary opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Memorandum and Articles of Association and the appropriate regulations; and (ii) otherwise in accordance with the Company’s constitutional documentation and the appropriate regulations.

## Opinion

In our opinion, the Company has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (‘the Central Bank UCITS Regulations’); and
- (ii) otherwise in accordance with the provisions of the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

# Independent Auditors' report to the Members of Vanguard Investment Series plc

## Report on the audit of the financial statements

---

### Opinion

In our opinion, Vanguard Investment Series plc's financial statements:

- give a true and fair view of the Company's and Funds' assets, liabilities and financial position as at 31 December 2021 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report, which comprise:

- the Company Statement of Assets and Liabilities and the Statement of Assets and Liabilities for each of the Funds as at 31 December 2021;
- the Company Statement of Operations and the Statement of Operations for each of the Funds for the year then ended;
- the Company Statement of Changes in Net Assets and the Statement of Changes in Net Assets for each of the Funds for the year then ended;
- the Statement of Investments for each of the Funds as at 31 December 2021; and
- the notes to the financial statements for the Company and for each of its Funds, which include a description of the significant accounting policies.

---

### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### *Independence*

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASAs Ethical Standard as applicable to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

---

### Emphasis of matter - financial statements prepared on a basis other than going concern

In forming our opinion on the financial statements, which is not modified, we draw attention to note 2 to the financial statements which discloses that the financial statements of Vanguard Global Enhanced Equity Fund have been prepared on a basis other than going concern.

## Our audit approach

### Overview

---

#### Materiality

- Overall materiality: 50 basis points of Net Asset Value ("NAV") at 31 December 2021 for each of the Company's Funds.
- 

#### Audit scope

- The Company is an open-ended investment Company with variable capital and engages Vanguard Group (Ireland) Limited (the "Manager") to manage certain duties and responsibilities with regards to the day-to-day management of the Company. We tailored the scope of our audit taking into account the types of investments within the Funds, the involvement of the third parties referred to overleaf, the accounting processes and controls, and the industry in which the Company operates. We look at each of the Funds at an individual level.
- 

#### Key audit matters

- Existence and valuation of Financial Assets at Fair Value Through Profit or Loss.
- 

#### *The scope of our audit*

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example the selection of pricing sources to value the investment portfolio. As in all of our audits, we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

#### *Key audit matters*

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

#### **Key audit matter**

##### ***Existence and valuation of Financial Assets at Fair Value Through Profit or Loss***

Refer to the Statement of Investments for each of the Funds and the accounting policies set out in note 3 (a) Critical Accounting Estimates and Judgements and note 3 (d) Financial Assets and Financial Liabilities.

The financial assets at fair value through profit or loss included in the Statement of Assets and Liabilities as at 31 December 2021 are valued at fair value in line with Generally Accepted Accounting Practice in Ireland.

This is considered a key audit matter as it represents the principal element of the financial statements.

#### **How our audit addressed the key audit matter**

We obtained independent confirmation from the Depositary or other counterparties of the investment portfolios held as at 31 December 2021, agreeing the amounts held to the accounting records.

We tested the valuation of the investment portfolios by independently agreeing the valuation of investments to third party vendor sources.

No material misstatements were identified as a result of the procedures we performed.

---

### *How we tailored the audit scope*

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Company, the accounting processes and controls, and the industry in which it operates.

As at 31 December 2021 there are 30 Funds operating and 1 closed Fund. The Company's Company Statement of Assets and Liabilities, Company Statement of Operations, and Company Statement of Changes in Net Assets are an aggregation of the positions and results of the Funds.

The directors control the affairs of the Company and are responsible for the overall investment policy which is determined by them. The Company engages the Manager to manage certain duties and responsibilities with regards to the day to day management of the Company. The Manager has delegated certain responsibilities to Vanguard Global Advisers, LLC (the "Investment Manager") and to Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator"). The financial statements, which remain the responsibility of the directors, are prepared on their behalf by the Administrator. The Company has appointed Brown Brothers Harriman Trustee Services (Ireland) Limited (the "Depositary") to act as Depositary of the Company's assets. In establishing the overall approach to our audit we assessed the risk of material misstatement at a fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Company's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

### *Materiality*

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the Company's Funds as follows:

<b><i>Overall materiality and how we determined it</i></b>	50 basis points (2020: 50 basis points) of Net Asset Value ("NAV") at 31 December 2021 for each of the Company's operating Funds and 50 basis points of Average Net Assets for the one closed Fund, Vanguard Global Enhanced Equity Fund.
<b><i>Rationale for benchmark applied</i></b>	We have applied this benchmark because the main objective of the Company is to provide investors with a total return at a Fund level, taking account of the capital and income returns.

We agreed with the Audit Committee that we would report to them misstatements identified during our audit above 5 basis points of each operating Fund's NAV and 5 basis points of Average Net Assets for the one closed Fund, Vanguard Global Enhanced Equity Fund, for NAV per share impacting differences (2020: 5 basis points of each Fund's NAV, for NAV per share impacting differences) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

### **Conclusions relating to going concern**

With the exception of the Vanguard Global Enhanced Equity Fund where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, our evaluation of the directors' assessment of the Company's and Funds' ability to continue to adopt the going concern basis of accounting included:

The Company is an open-ended investment company. The Company has been structured as an umbrella fund with segregated liability between the Funds. The directors' assessment of going concern included an assessment of 1) Liquidity Risk; 2) Management Function Reporting; and 3) Product Development and Enhancement.

We have obtained an understanding of the liquidity and capital risks of the Company and Funds and the measures to mitigate and manage these risks (as disclosed in note 4 - Risk Management Policies - Liquidity Risk, Management of Liquidity Risk, Credit Risk and Management of Credit Risk) over the going concern period (12 months from the date of approval of the financial statements) by considering management's assessment of going concern (outlined in note 2 – Basis of Presentation) which has been approved by the directors.

We considered the appropriateness of the going concern assessment of the Company and Funds by:

- Reviewing the liquidity profile of the assets and liabilities of each of the Funds for any significant mismatches;

- Agreeing the liquidity terms surrounding the Company's ability to manage liquidity risk through redemption limits and redemptions, as per note 4 Risk Management Policies - Liquidity Risk, to the legal documents;
- Assessing the availability of access to the credit facility as outlined in note 9 – Credit Facility;
- Performing subsequent event testing around capital activity to determine whether material redemption requests have been presented to the Funds; and
- Discussing management's plans to assess if there is a plan to terminate any of the Funds.

With the exception of the Vanguard Global Enhanced Equity Fund where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's and Funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

With the exception of the Vanguard Global Enhanced Equity Fund where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, in auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's and Funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

---

## Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Report From the Directors, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Report From the Directors for the year ended 31 December 2021 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Report From the Directors.

---

## Responsibilities for the financial statements and the audit

### *Responsibilities of the directors for the financial statements*

As explained more fully in the Directors' responsibilities statement set out on page 1130, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

#### *Auditors' responsibilities for the audit of the financial statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

[https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description\\_of\\_auditors\\_responsibilities\\_for\\_audit.pdf](https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf).

This description forms part of our auditors' report.

#### *Use of this report*

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

## Other required reporting

---

### **Companies Act 2014 opinions on other matters**

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
  - In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
  - The financial statements are in agreement with the accounting records.
- 

### **Companies Act 2014 exception reporting**

#### *Directors' remuneration and transactions*

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Declan Murphy

THIS FUND IS NOT SPONSORED, ENDORSED, SOLD OR PROMOTED BY MSCI INC. ("MSCI"), ANY OF ITS AFFILIATES, ANY OF ITS DIRECT OR INDIRECT INFORMATION PROVIDERS OR ANY OTHER THIRD PARTY INVOLVED IN, OR RELATED TO, COMPILING, COMPUTING OR CREATING ANY MSCI INDEX (COLLECTIVELY, THE "MSCI PARTIES"). THE MSCI INDEXES ARE THE EXCLUSIVE PROPERTY OF MSCI. MSCI AND THE MSCI INDEX NAMES ARE SERVICE MARK(S) OF MSCI OR ITS AFFILIATES AND HAVE BEEN LICENSED FOR USE FOR CERTAIN PURPOSES BY VANGUARD. NONE OF THE MSCI PARTIES MAKES ANY REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, TO THE OWNERS OF THIS FUND OR ANY MEMBER OF THE PUBLIC REGARDING THE ADVISABILITY OF INVESTING IN FUNDS GENERALLY OR IN THIS FUND PARTICULARLY OR THE ABILITY OF ANY MSCI INDEX TO TRACK CORRESPONDING STOCK MARKET PERFORMANCE. MSCI OR ITS AFFILIATES ARE THE LICENSORS OF CERTAIN TRADEMARKS, SERVICE MARKS AND TRADE NAMES AND OF THE MSCI INDEXES WHICH ARE DETERMINED, COMPOSED AND CALCULATED BY MSCI WITHOUT REGARD TO THIS FUND OR THE ISSUER OR OWNER OF THIS FUND. NONE OF THE MSCI PARTIES HAS ANY OBLIGATION TO TAKE THE NEEDS OF THE ISSUERS OR OWNERS OF THIS FUND INTO CONSIDERATION IN DETERMINING, COMPOSING OR CALCULATING THE MSCI INDEXES. NONE OF THE MSCI PARTIES IS RESPONSIBLE FOR OR HAS PARTICIPATED IN THE DETERMINATION OF THE TIMING OF, PRICES AT, OR QUANTITIES OF THIS FUND TO BE ISSUED OR IN THE DETERMINATION OR CALCULATION OF THE CONSIDERATION INTO WHICH THIS FUND IS REDEEMABLE. NONE OF THE MSCI PARTIES HAS ANY OBLIGATION OR LIABILITY TO THE OWNERS OF THIS FUND IN CONNECTION WITH THE ADMINISTRATION, MARKETING OR OFFERING OF THIS FUND.

ALTHOUGH MSCI SHALL OBTAIN INFORMATION FOR INCLUSION IN OR FOR USE IN THE CALCULATION OF THE MSCI INDEXES FROM SOURCES WHICH MSCI CONSIDERS RELIABLE, NONE OF THE MSCI PARTIES WARRANTS OR GUARANTEES THE ORIGINALITY, ACCURACY AND/OR THE COMPLETENESS OF ANY MSCI INDEX OR ANY DATA INCLUDED THEREIN. NONE OF THE MSCI PARTIES MAKES ANY WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY LICENSEE, LICENSEE'S CUSTOMERS OR COUNTERPARTIES, ISSUERS OF THE FUNDS, OWNERS OF THE FUNDS, OR ANY OTHER PERSON OR ENTITY, FROM THE USE OF ANY MSCI INDEX OR ANY DATA INCLUDED THEREIN IN CONNECTION WITH THE RIGHTS LICENSED HEREUNDER OR FOR ANY OTHER USE. NONE OF THE MSCI PARTIES SHALL HAVE ANY LIABILITY FOR ANY ERRORS, OMISSIONS OR INTERRUPTIONS OF OR IN CONNECTION WITH ANY MSCI INDEX OR ANY DATA INCLUDED THEREIN. FURTHER, NONE OF THE MSCI PARTIES MAKES ANY EXPRESS OR IMPLIED WARRANTIES OF ANY KIND, AND THE MSCI PARTIES HEREBY EXPRESSLY DISCLAIM ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WITH RESPECT TO ANY MSCI INDEX AND ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL ANY OF THE MSCI PARTIES HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, SPECIAL, PUNITIVE, CONSEQUENTIAL OR ANY OTHER DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS) EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

The S&P 500 Index is a product of S&P Dow Jones Indices LLC, a division of S&P Global, or its affiliates ("SPDJI"), and has been licensed for use by Vanguard. Standard & Poor's®, and S&P® are registered trademarks of Standard & Poor's Financial Services LLC, a division of S&P Global ("S&P") and Dow Jones® is a registered trademark of Dow Jones Trademark Holdings LLC ("Dow Jones"). The trademarks have been licensed to SPDJI and have been sublicensed for use for certain purposes by Vanguard. Vanguard U.S. 500 Stock Index Fund is not sponsored, endorsed, sold or promoted by SPDJI, Dow Jones, S&P, any of their respective affiliates (collectively, "S&P Dow Jones Indices"). S&P Dow Jones Indices make no representation or warranty, express or implied, to the owners of Vanguard U.S. 500 Stock Index Fund or any member of the public regarding the advisability of investing in securities generally or in Vanguard U.S. 500 Stock Index Fund particularly or the ability of the S&P 500 Index to track general market performance. S&P Dow Jones Indices' only relationship to Vanguard with respect to the S&P 500 Index is the licensing of the Index and certain trademarks, service marks and/or trade names of S&P Dow Jones Indices and/or its licensors. The S&P 500 Index is determined, composed and calculated by S&P Dow Jones Indices without regard to Vanguard or Vanguard U.S. 500 Stock Index Fund. S&P Dow Jones Indices have no obligation to take the needs of Vanguard or the owners of Vanguard U.S. 500 Stock Index Fund into consideration in determining, composing or calculating the S&P 500 Index. S&P Dow Jones Indices are not responsible for and have not participated in the determination of the prices, and amount of Vanguard U.S. 500 Stock Index Fund or the timing of the issuance or sale of Vanguard U.S. 500 Stock Index Fund or in the determination or calculation of the equation by which Vanguard U.S. 500 Stock Index Fund is to be converted into cash, surrendered or redeemed, as the case may be. S&P Dow Jones Indices have no obligation or liability in connection with the administration, marketing or trading of Vanguard U.S. 500 Stock Index Fund. There is no assurance that investment products based on the S&P 500 Index will accurately track index performance or provide positive investment returns. S&P Dow Jones Indices LLC is not an investment advisor. Inclusion of a security within an index is not a recommendation by S&P Dow Jones Indices to buy, sell, or hold such security, nor is it considered to be investment advice.

S&P DOW JONES INDICES DOES NOT GUARANTEE THE ADEQUACY, ACCURACY, TIMELINESS AND/OR THE COMPLETENESS OF THE S&P 500 INDEX OR ANY DATA RELATED THERETO OR ANY COMMUNICATION, INCLUDING BUT NOT LIMITED TO, ORAL OR WRITTEN COMMUNICATION (INCLUDING ELECTRONIC COMMUNICATIONS) WITH RESPECT THERETO. S&P DOW JONES INDICES SHALL NOT BE SUBJECT TO ANY DAMAGES OR LIABILITY FOR ANY ERRORS, OMISSIONS, OR DELAYS THEREIN. S&P DOW JONES INDICES MAKE NO EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIMS ALL WARRANTIES, OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE OR AS TO RESULTS TO BE OBTAINED BY VANGUARD, OWNERS OF VANGUARD U.S. 500 STOCK INDEX FUND, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE S&P 500 INDEX OR WITH RESPECT TO ANY DATA RELATED THERETO. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT WHATSOEVER SHALL S&P DOW JONES INDICES BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES INCLUDING BUT NOT LIMITED TO, LOSS OF PROFITS, TRADING LOSSES, LOST TIME OR GOODWILL, EVEN IF THEY HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, WHETHER IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE. THERE ARE NO THIRD PARTY BENEFICIARIES OF ANY AGREEMENTS OR ARRANGEMENTS BETWEEN S&P DOW JONES INDICES AND VANGUARD, OTHER THAN THE LICENSORS OF S&P DOW JONES INDICES.

BLOOMBERG® is a trademark and service mark of Bloomberg Finance L.P (collectively with its affiliates, "Bloomberg"). BARCLAYS® is a trademark and service mark of Barclays Bank Plc (collectively with its affiliates, "Barclays"), used under license. Bloomberg or Bloomberg's licensors, including Barclays, own all proprietary rights in the Bloomberg Euro Treasury 20+ Year Bond Index, Bloomberg Euro Government Float Adjusted Bond Index, Bloomberg EUR Non-Government Float Adjusted Bond Index, Bloomberg Global Inflation-Linked: Eurozone – Euro CPI Index, Bloomberg Global Aggregate Float Adjusted Bond Index, Bloomberg Global Aggregate Float Adjusted Corporate Index Hedged, Bloomberg Global Aggregate Credit Index Hedged, Bloomberg Global Aggregate Ex US MBS 1–5 Year Float Adjusted Bond Index, Bloomberg Global Aggregate Corporate 1–5 Year Float Adjusted Index, Bloomberg Japan Government Float Adjusted Bond Index, Bloomberg U.K. Government Float Adjusted Bond Index, Bloomberg GBP Non-Government Float Adjusted Bond Index, Bloomberg GBP Non-Government 1–5 Year 200MM Float Adjusted Bond Index, Bloomberg U.S. Government Float Adjusted Bond Index, Bloomberg Global Aggregate USD Credit Float Adjusted Bond Index, and Bloomberg U.S. Government Inflation-Linked 1–10 Year Index (the Indices or Bloomberg Indices).

Neither Barclays Bank Plc, Barclays Capital Inc., or any affiliate (collectively Barclays) or Bloomberg is the issuer or producer of the Vanguard Funds and neither Bloomberg nor Barclays has any responsibilities, obligations or duties to investors in the Vanguard Funds. The Indices are licensed for use by The Vanguard Group, Inc. (Vanguard) as the sponsor of the Vanguard Funds. Bloomberg and Barclays' only relationship with Vanguard in respect of the Indices is the licensing of the Indices, which are determined, composed and calculated by BISL, or any successor thereto, without regard to the Issuer or the Vanguard Funds or the owners of the Vanguard Funds.

Additionally, Vanguard may for itself execute transaction(s) with Barclays in or relating to the Indices in connection with the Vanguard Funds. Investors acquire the Vanguard Funds from Vanguard and investors neither acquire any interest in the Indices nor enter into any relationship of any kind whatsoever with Bloomberg or Barclays upon making an investment in the Vanguard Funds. The Vanguard Funds are not sponsored, endorsed, sold or promoted by Bloomberg or Barclays. Neither Bloomberg nor Barclays makes any representation or warranty, express or implied regarding the advisability of investing in the Vanguard Funds or the advisability of investing in securities generally or the ability of the Indices to track corresponding or relative market performance. Neither Bloomberg nor Barclays has passed on the legality or suitability of the Vanguard Funds with respect to any person or entity. Neither Bloomberg nor Barclays is responsible for and has not participated in the determination of the timing of, prices at, or quantities of the Vanguard Funds to be issued. Neither Bloomberg nor Barclays has any obligation to take the needs of the Issuer or the owners of the Vanguard Funds or any other third party into consideration in determining, composing or calculating the Indices. Neither Bloomberg nor Barclays has any obligation or liability in connection with administration, marketing or trading of the Vanguard Funds.

The licensing agreement between Bloomberg and Barclays is solely for the benefit of Bloomberg and Barclays and not for the benefit of the owners of the Vanguard Funds, investors or other third parties. In addition, the licensing agreement between Vanguard and Bloomberg is solely for the benefit of Vanguard and Bloomberg and not for the benefit of the owners of the Vanguard Funds, investors or other third parties.

NEITHER BLOOMBERG NOR BARCLAYS SHALL HAVE ANY LIABILITY TO THE ISSUER, INVESTORS OR TO OTHER THIRD PARTIES FOR THE QUALITY, ACCURACY AND/OR COMPLETENESS OF THE BLOOMBERG INDICES OR ANY DATA INCLUDED THEREIN OR FOR INTERRUPTIONS IN THE DELIVERY OF THE BLOOMBERG INDICES. NEITHER BLOOMBERG NOR BARCLAYS MAKES ANY WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY THE ISSUER, THE INVESTORS OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE BLOOMBERG INDICES OR ANY DATA INCLUDED THEREIN. NEITHER BLOOMBERG NOR BARCLAYS MAKES ANY EXPRESS OR IMPLIED WARRANTIES, AND EACH HEREBY EXPRESSLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE WITH RESPECT TO THE BLOOMBERG INDICES OR ANY DATA INCLUDED THEREIN. BLOOMBERG RESERVES THE RIGHT TO CHANGE THE METHODS OF CALCULATION OR PUBLICATION, OR TO CEASE THE CALCULATION OR PUBLICATION OF THE BLOOMBERG INDICES, AND NEITHER BLOOMBERG NOR BARCLAYS SHALL BE LIABLE FOR ANY MISCALCULATION OF OR ANY INCORRECT, DELAYED OR INTERRUPTED PUBLICATION WITH RESPECT TO THE BLOOMBERG INDICES. NEITHER BLOOMBERG NOR BARCLAYS SHALL BE LIABLE FOR ANY DAMAGES, INCLUDING, WITHOUT LIMITATION, ANY SPECIAL, INDIRECT OR CONSEQUENTIAL DAMAGES, OR ANY LOST PROFITS AND EVEN IF ADVISED OF THE POSSIBILITY OF SUCH, RESULTING FROM THE USE OF THE BLOOMBERG INDICES OR ANY DATA INCLUDED THEREIN OR WITH RESPECT TO THE VANGUARD FUNDS.

None of the information supplied by Bloomberg or Barclays and used in this publication may be reproduced in any manner without the prior written permission of both Bloomberg and Barclays Capital, the investment banking division of Barclays Bank Plc. Barclays Bank Plc is registered in England No. 1026167. Registered office 1 Churchill Place London E14 5HP.
