The Fund may also invest in other financial instruments and hold cash on deposit. **Financial derivatives may be used for the purpose of optimising returns, hedging and/or efficient portfolio management. The NAV of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

- The Manager is Schroder Investment Management (Singapore) Ltd.
- The Trustee is HSBC Institutional Trust Services (Singapore) Limited.

KEY RISKS

WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:

Refer to the “Risks, Financial Derivatives, Risk Management Process and Supplementary Information” section of the Prospectus for further information on risks of the product.

Market and Credit Risks

You are exposed to market risk in Asia (excluding Japan).

- The value of investments by the Fund may go up and down due to changing economic, political or market conditions, or due to an issuer’s individual situation.

Liquidity Risks

There is no secondary market for the Fund. All redemption requests should be submitted to the Manager or its appointed agents.

Product-Specific Risks

You are exposed to small cap liquidity risk.

- Investments in small companies can be difficult to sell quickly which may affect the value of the Fund and, in extreme market conditions, its ability to meet redemption requests upon demand.

You are exposed to risks relating to distributions.

- The Manager has the absolute discretion to determine whether a distribution is to be declared. The Manager also reserves the right to review and make changes to the distribution policy from time to time. Where the income generated by the Fund is insufficient to pay distributions as declared, the Manager may at its discretion make such distributions out of the capital of the relevant Class(es). Distributions out of capital may only be made with the Trustee’s consent. You should note that in the circumstances where distributions are paid out of capital of the relevant Class(es), the NAV of the relevant Class(es) will be reduced.

You are exposed to risks associated with investing through the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect.

- The Fund may invest in China A-Shares of mainland China through the Shanghai-Hong Kong Stock Connect and/or the Shenzhen-Hong Kong Stock Connect (as further described in section (A) of the Annex to the Prospectus).

You are exposed to financial derivatives risk.

- **The Fund may use financial derivatives.** The use of futures, options, warrants, forwards, swaps or swap options involves increased risk. The Fund’s ability to use such instruments successfully depends on the Manager’s ability to accurately predict movements in stock prices, interest rates, currency exchange rates or other economic factors and the availability of liquid markets. If the Manager’s predictions are wrong, or if the financial derivatives do not work as anticipated, the Fund could suffer greater losses than if the Fund had not used the financial derivatives.

You are exposed to risks relating to China A-shares and China B-shares.

- The mainland China markets on which China A-shares and China B-shares are traded have in the past experienced significant price volatility and there can be no assurance that such volatility will not occur in the future. These markets may be more volatile and unstable (for example, due to the risk of suspension of a particular stock or government intervention) than markets in more developed countries. Market volatility and potential lack of liquidity (for example, low liquidity in respect of China B-shares due to low trading volume) may result in prices of securities traded on the mainland China markets to fluctuate significantly. As a result, the NAV of the Fund may be adversely affected.

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

The NAV per Unit of each Class is published on the Manager's website at <http://www.schroders.com.sg> one (1) Business Day after the relevant Dealing Day and is also available directly from the Manager.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may at any time during the life of the Fund request in writing (a "Realisation Request") to realise all or any Units held by you, subject to the minimum holding and the minimum realisation amount for the relevant Class and the payment of any applicable Realisation Charge. The Realisation Request must specify the Units of the relevant Class to be realised.

The realisation proceeds are paid to you within seven (7) Business Days (or such other period as may be prescribed by the Monetary Authority of Singapore) following the receipt of the Realisation Request.

Your realisation price is determined as follows:

- If you submit the Realisation Request on or before 5 pm on a Dealing Day, you will be paid a price based on the NAV of the relevant Class at the close of that Dealing Day.
- If you submit the Realisation Request after 5 pm on a Dealing Day, you will be paid a price based on the NAV of the relevant Class at the close of the next Dealing Day.

The realisation proceeds that you will receive will be the realisation price per Unit of the relevant Class multiplied by the number of Units realised, less any applicable Duties and Charges. An example is as follows:

1000	x	S\$1.100	=	S\$1,100.00
Number of Units realised		Notional realisation price (NAV per Unit of the relevant Class)		Gross sale proceeds

This example is on the assumption that there is no Realisation Charge or Duties and Charges imposed presently.

If applicable to you as provided in the trust deed of the Fund, you may cancel your subscription for Units by giving written notice or by submitting the cancellation form to the Manager or its distributors within 7 calendar days from the date of your subscription. However, you will have to take the risk for any price changes in the NAV of the relevant Class since the time of your subscription.

Refer to the "Subscription/Cancellation of Units", "Realisation of Units" and "Obtaining Prices of Units" sections of the Prospectus for further information on valuation and exiting from the product.
