iShares S&P 500 Industrials Sector UCITS ETF

A sub-fund of iShares V plc

USD (Acc) Share Class

ISIN: IE00B4LN9N13

Exchange Traded Fund (ETF)

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Share Class is a share class of a Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's assets, which reflects the return of the S&P 500 Capped 35/20 Industrials Index, the Fund's benchmark index.
 - ▶ The Share Class, via the Fund, aims to invest in equity securities (e.g. shares) that, so far as possible and practicable, make up the benchmark index.
 - ▶ The benchmark index measures the performance of stocks from the S&P 500 Index which are within the Global Industry Classification Standard (GICS) industrials sector. The S&P 500 measures the performance of 500 stocks from top US companies in leading industries of the US economy which meet S&P's size, liquidity and free-float criteria. The GICS industrials sector currently comprises companies which businesses are dominated by one or more of the following activities: the manufacture and distribution of capital goods, including aerospace and defence, construction, engineering and building products, electrical equipment and industrial machinery. Secondly the provision of commercial services and supplies, including printing, employment, environmental and office services and the provision of transportation services, including airlines, couriers, marine, road and rail and transportation infrastructure. The benchmark index may not include and/or may not be limited to every category comprising the sector listed here. Companies are included in the benchmark index on a free float-adjusted market capitalisation weighted basis. Free float adjusted means that only shares available to international investors, rather than all of a company's issued shares, are used to calculate the benchmark index. Free float market capitalisation is the share price of a company multiplied by the number of shares available to international investors. The benchmark index caps the weight of the largest companies at each rebalance to ensure index diversification. The weight of the largest group entity in the benchmark index is capped at 33% and the remaining group entities at 19%.
 - ▶ The Fund intends to replicate the benchmark index by holding the equity securities which make up the benchmark index, in similar proportions to it.
 - ▶ The Fund may also engage in short-term secured lending of its investments to certain eligible third parties to generate additional income to off-set the costs of the Fund.
 - ▶ The investment manager may use financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) to help achieve the Fund's investment objective. FDIs may be used for direct investment purposes. The use of FDIs is expected to be limited for this Share Class.
 - ▶ Recommendation: This Fund may not be appropriate for short-term investment.
 - ▶ Your shares will be accumulating shares (i.e. dividend income will be included in their value).
 - ▶ Your shares will be denominated in US Dollar, the Fund's base currency.
 - ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded.
- For more information on the Fund, Share Class, risks and charges, please see the Fund's prospectus, available on the product pages at www.blackrock.com

Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

*Authorised participants dealing directly with the Fund will pay related transaction costs.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund's prospectus. This figure excludes portfolio trade related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.
