Jupiter Japan Income Fund I-Class

I-Class Income Units, ISIN: GB00B6QC0Z69

The Manager is Jupiter Unit Trust Managers Limited.

Objectives and investment policy

Objective

The Fund objective is to provide income together with the prospect of capital growth in order to provide a return, net of fees, higher than that provided by the TOPIX Index over the long term (at least five years).

Policy

At least 70% of the Fund is invested in shares of companies based in Japan. Up to 30% of the Fund may be invested in other assets, including shares of companies based anywhere in the world, open-ended funds (including funds managed by Jupiter and its associates), cash and near cash.

Strategy

The fund manager takes a fundamental approach to selecting individual securities in order to construct a portfolio which gives investors broad exposure to Japanese equities.

The fund manager will apply a disciplined process to identify shares of companies which are well-managed, have competitive advantage and have the ability and willingness to grow shareholder pay-outs over time.

The Fund will tend to invest in a carefully selected number of companies where the manager has the highest conviction.

Benchmarks

Target benchmark – TOPIX Index

The TOPIX Index is an industry standard index and is one of the leading representations of Japanese stock markets. It is easily accessible and provides a fair reflection of the Fund Manager's investment universe and a good relative measure to assess performance outcomes.

Comparator benchmark - IA Japan Sector

Many funds sold in the UK are grouped into sectors by the Investment Association (the trade body that represents UK investment managers), to help investors to compare funds with broadly similar characteristics. This Fund is classified in the IA Japan Sector.

Active Management

The Fund is actively managed. This means the fund manager is taking investment decisions with the intention of achieving the Fund's investment objective; this may include decisions regarding asset selection, regional allocation, sector views and overall level of exposure to the market. The fund manager is not in any way constrained by the benchmark in their portfolio positioning, and will not hold all, or indeed may not hold any, of the benchmark constituents.

Any income arising in relation to this share class will be distributed to investors on a regular basis.

Investors are able to buy and sell units during any business day between 9am and 5.30pm. If you tell us to buy or sell units before 12pm on any business day we will make the transaction on the same day. If you tell us to buy or sell units after 12pm we will make the transaction on the following business day.

Recommendation

This fund may not be suitable for investors who plan to withdraw their capital within 5 years.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

- The lowest category does not mean 'no risk'.
- The Fund is in this category due to the nature of its investments and previous levels of volatility (how much the value of the Fund rises and falls).
- Market and exchange rate movements can cause the value of an investment to fall as well as rise, and you may get back less than originally invested.
- All the Fund's charges are taken from capital. Should there not be sufficient capital growth in the Fund this may cause capital erosion.
- The value of income payments will fluctuate.

Charges

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment.

Charges taken from the Fund over a year

Ongoing charges	0.98%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
- The ongoing charges figure excludes the costs of buying or selling assets for the Fund (unless those assets are shares of another fund). A change to the Fund's charging structure took effect on 29/05/2020. The ongoing charges figure with effect from that date is fixed. The annual report and accounts for the Fund will include details of the exact charges made.
- Further information about charges is available in sections 18 and 19 of the Scheme Particulars which are available from Jupiter on request.
