Dominion Global Trends – Managed Fund a sub-fund of Dominion Global Trends SICAV p.l.c.

Managed GBP I Class – (ISIN: MT7000005948). This Sub-Fund is self-managed.

Objectives and Investment Policy

The Investment Objective of Managed Fund is to achieve medium to long term capital growth. Managed Fund aims to achieve this primarily through investment in a diversified portfolio of securities which conforms to the Investment Manager's view of evolving global trends and which offer the potential for the greatest returns at any given time. Investments will not be limited to any particular sector or geographical region.

The securities used within the portfolio may include companies, funds, debt securities and cash (or near cash instruments). Up to 10% of the assets may be invested in securities which are unlisted, but which intend to list within 12 months of purchase or funds which are not authorised or recognised by the UK regulator. These are known as unregulated collective investment schemes.

Managed Fund may also use financial derivative instruments (financial instruments where the value is linked to the expected future price movements of the underlying assets) to protect the value of Managed Fund's assets. This is limited to a maximum of 10% of the total value of Managed Fund at any time. Managed Fund may also invest in other assets, such as cash (or near cash instruments) or debt securities.

The income in respect of shares in the Managed Fund is not distributed but is retained.

You can buy and sell the shares on any business day in Malta.
