## Key Investor Information

This document provides you with key investor information about this UCITS (the "Fund"). It is not a marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## AMUNDI ETF MSCI EUROPE BUYBACK UCITS ETF

ISIN code: (C/D) FR0012805687

This Fund is managed by Amundi Asset Management, an Amundi company

### Objectives and Investment Policy

Classification by the French Market Regulator (AMF): International equities.

By subscribing to AMUNDI ETF MSCI EUROPE BUYBACK UCITS ETF, you are investing in an index-tracking UCITS fund, the objective of which is to replicate, as closely as possible, the value of the MSCI Europe Equal Weighted Buyback Yield Strategy Index, whether the Strategy Index rises or falls. The target for maximum tracking error between changes in the Fund's net asset value and that of the Strategy Index is 2%.

The euro-denominated Strategy Index, net dividends reinvested (dividends net of tax paid by the equities in the Index are included in the calculation of the Index), is calculated and published by the index provider MSCI.

You are exposed to the exchange rate risk between the currencies in which the stocks of the Strategy Index are denominated and that of the Fund.

Equities included in the MSCI Europe Equal Weighted Buyback Yield Strategy Index are the equities of the MSCI Europe Index with the highest buyback ratio over the 12-month observation period preceding the strategy index's last rebalancing date. The equities that make up the MSCI Europe Index are drawn from the leading securities traded in the markets of the 15 European countries.

More information about the composition of the Strategy Index and its operating rules is available in the prospectus and at [msci.com](http://msci.com).

The Strategy Index is available via Reuters (.dMYEU0BUYENEU) and Bloomberg (M7EUQBY).

To track the Index, the UCITS swaps the performance of the assets held by the Fund for that of the Index through a derivative contract or total return swap (a "TRS" derivative instrument) (swap-based replication of the Index).

Through the Portfolio, you will be permanently invested at a level of at least 75% in stocks eligible for the Plan d'Epargne en Actions (PEA, tax wrapper reserved to residents in France).

The Fund's net profit and net realised capital gains are reinvested or redistributed each year at the discretion of the Management Company.

You may resell your units during the trading hours of the various stock exchanges, provided that the Market Makers can maintain market liquidity.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

### Risk and reward profile

Particular risks for the Fund not included in these indicator are:

- Counterparty risk: this is the risk of default by a market operator, including a total return swap counterparty, that prevents it from honouring its obligations to the Fund.

The occurrence of one of these risks may decrease the net asset value of your portfolio.

This Fund's risk category primarily reflects the market risk of the European stocks in which it is invested.

The initial capital invested is not guaranteed.

Historical data such as that used to calculate the synthetic indicator may not be a reliable indicator of the future risk profile of the Fund.

The risk category associated with this Fund is not guaranteed and may evolve over time.

The lowest category does not mean "risk free."

## Charges

The charges and fees paid are used to cover the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0
Exit charge	0
The percentage indicated is the maximum that can be deducted from your capital before it is invested (entry) or redeemed (exit).	
Charges taken from the Fund over a year
