

Template pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Does this financial product consider principal adverse impacts on sustainability factors?

- Yes, the Sub-Fund considers principal adverse impacts on sustainability factors (“PAI”) as part of its investment decision process as specified in the PAI statement of the Management Company. The PAI statement is available at <https://cww.lu/downloads/esg-related-disclosures/>.

PAI’s are identified, prioritized, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on PAI indicators is applied. In addition, the Sub-Fund will consider PAI through active ownership.

PAI’s are considered as part of the investment process and regularly during the holding period of an investee company.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Reporting on how the Sub-Fund considered PAI will be disclosed in the annual accounts of the Fund pursuant to art. 11(2) of the Disclosure Regulation.

- No

What investment strategy does this financial product follow?

The investment strategy of the Sub-Fund includes the following elements:

Sector exclusions: Before an investment is made in an investee company and regularly during the holding period the Sub-Fund conducts screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities specified in the sector exclusions board. If the activities of an investee company exceed the level of involvement the shares in the investee company will be sold within a reasonable time-period and

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.

Asset allocation describes the share of investments in specific assets.

in accordance with the general obligation to execute all orders on terms most favourable to the client.

UN Global Compact: Before the initial investment in an investee company is made the Investment Manager of the Sub-Fund will evaluate whether the investee company is non-compliant with the 10 principles of the UN Global Compact. If this is the case, no investment will be made in the investee company. Additional information can be found on the website www.cww.lu/downloads/esg-related-disclosures/sustainability-related-disclosures/.

Active ownership: Engagement is an integral part of the investment process. It is anchored directly with the portfolio management team responsible for the Sub-Fund. Through engagement sustainable business conduct is encouraged.

The management of an investee company is engaged directly through meetings or collectively with other investors. This approach provides access to highly qualified specialists with a strong knowledge and a network that can be leveraged in the ongoing engagement with the investee companies on key issues, including ESG issues such as human rights, labour rights, and environmental issues.

The decision to engage an investee company in relation to a specific matter and the method of engagement is made based on a proportionality consideration of several factors, including the size of the shareholding in the investee company, the materiality of the matter, the reliability of the data, the possibility of effecting the behaviour of the investee company and the resources required to conduct the engagement.

All general meetings of investee companies are monitored and voting rights are exercised.

Norm-based screening: The investee companies are systematically screened and monitored prior to the initial investment and continuously during the holding period for violations of international conventions, norms and standards relating to ESG issues such as human rights, labour rights, the environment and business ethics.

- ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

The binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by the Sub-Fund are sector exclusions which are defined in the table above (page 2) and UN Global Compact. Please refer to the UN Global Compact paragraph above.

- ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

The Sub-Fund is not committed to a minimum rate to reduce the scope of investments considered prior to the application of that investment strategy.

- ***What is the policy to assess good governance practices of the investee companies?***

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

Norm-based screenings are performed prior to the initial investment and continuously during the holding period in order to ensure that the investee companies in which the Sub-Funds invest follow good governance practices. Furthermore the Sub-Fund will attempt to strengthen the good governance practices through active ownership

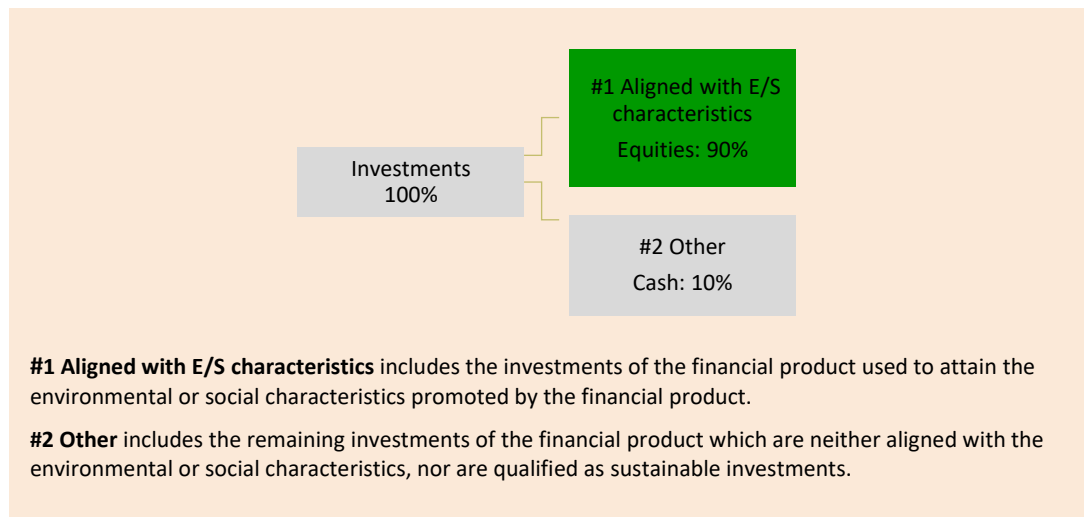

What is the asset allocation planned for this financial product?

The investments of the Sub-Fund mainly consist of equities. All equities are used to meet the environmental or social characteristics promoted by the Sub-Fund, in accordance with the binding elements of the investment strategy (#1).

The remaining investments of the Sub-Fund consist of cash held as ancillary liquidity (#2).

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

The Sub-Fund does not use derivatives.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund is not committed to a minimum of sustainable investments with an environmental objective aligned with the EU Taxonomy.

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?**

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.
