

Fund Name	Global Insurance Fund , a sub-fund of Polar Capital Funds plc
Share Class	Class I GBP Accumulation Shares
ISIN	IE00B5339C57

Objectives and investment policy

Objectives

The objective of the Fund is to provide a total return (capital growth and income), by investing worldwide in the shares of insurance-related companies.

Investment policy

The Fund invests in the shares of companies that are involved in various sectors of the insurance industry. These may include general insurance, reinsurance, life assurance, insurance brokerages and support service companies.

The Fund seeks to outperform a benchmark index - the MSCI World Insurance Index.

The Fund may invest in financial derivative instruments for hedging, to reduce risk, to manage the Fund more efficiently, or to gain exposure to securities in a more efficient way.

There is no intention to pay dividends in respect of the Accumulation Share Classes.

You may sell your shares on days which banks are normally open

for business in Dublin and London.

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

Why is this fund in category 5?

The Fund has a high risk rating because it invests in equities, the value of which can move up and down over time to a greater extent than some other investments.

In addition to the risk captured by the indicator, the overall fund value may be considerably affected by:

Concentration Risk - the Fund invests in a relatively concentrated number of companies based on the insurance sector. This focused strategy can produce high gains but can also lead to significant losses. The Fund may be less diversified than other investment funds.

Investment Risk - the Fund invests in equities globally, and share prices can rise or fall due to a number of factors affecting global stock markets.

Derivative Risk - certain derivatives may result in gains or losses that are greater than the original amount invested. Derivatives also involve counterparty risk, which is the risk that a counterparty to the derivative contract cannot meet its contractual obligations.

Currency Risk - the Fund invests in assets denominated in currencies other than the Fund's base currency. Changes in exchange rates may have a negative impact on the Fund's investments.

What do these numbers mean?

The risk indicator was calculated using historical data and may not be a reliable indication of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time. A category 1 fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a category 7 fund, the risk of losing your money is high but there is also a chance of making high gains. The numerical scale is complex, for example, 2 is not twice as risky as 1.

More about this rating:

For a more detailed explanation of risks, please refer to the "Risk Factors" section of the Prospectus.

Charges

One-off charges taken before or after you invest

Entry charge	Up to 5.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charge	0.88%
----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	10.00% a year of any returns the Fund achieves above the benchmark for these fees, the MSCI World Insurance Index. No performance fee was charged in 2017.
-----------------	--

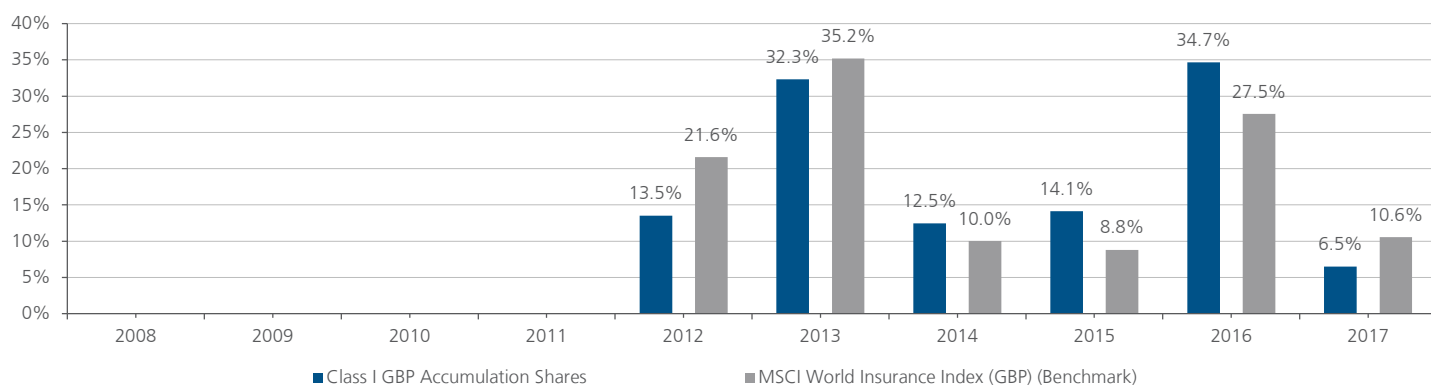

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The **entry** and **exit charges** shown are maximum figures. In some cases you might pay less. You can find this out from your financial adviser or distributor.

The ongoing charges figure shown here is an estimate of the charges. The Fund's annual report for each financial year will include detail on the exact charges made.

You can find out more details about the charges by looking at the "**Fees and Expenses**" section of the Fund's prospectus, which is available at www.polarcapital.co.uk.

Past performance

Past performance is not a reliable indicator of future performance.

The past performance shown does not take into account any entry, exit or switching charges but does take into account the ongoing charge, as shown in the Charges section.

The performance of this class is calculated in British Pounds.

The Fund launched on 16 October 1998. This class started to issue shares on 1 April 2011.

Practical information

Fund Depository: Northern Trust Fiduciary Services (Ireland) Limited.

About the Fund:

The net asset value of the fund is calculated in British Pounds. The unit prices are published in British Pounds, on each business day. The prices will be made public at the office of the Administrator, notified to the Irish Stock Exchange without delay and published by the Investment Manager, Polar Capital LLP, on each valuation day on the Investment Manager's website (www.polarcapital.co.uk).

This fund is subject to tax laws and regulations of Ireland. Depending on your home country of residence, this might have an impact on your investment. For further details, please speak to your financial adviser.

You are entitled to switch from one fund to another. Please refer to the "**Switching**" section of the Prospectus for further information.

Find out more:
