Risk Considerations

INVESTMENT INVOLVES RISKS. The value of the Fund can be volatile and investors may not get back the amount originally invested. Past performance is not indicative of future results.

- Templeton Asian Growth Fund invests primarily in transferable equity securities as well as depositary receipts of companies incorporated in, or with principal business activities in, or listed on recognized exchanges in the Asia Region (excluding Australia, New Zealand and Japan).
- The Fund is subject to market risk, equity risk, emerging markets risk, frontier markets risk, foreign currency risk, liquidity risk, concentration risk, counterparty risk, private companies risk, securities lending risk, warrants risk and derivative instruments risk.
- Further, the Fund is also subject to Chinese market risk, qualified foreign investor ("QFI") risk, Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect risk and Chinese short swing profit rule risk.
- The Fund may at its discretion pay dividends out of the capital or out of gross income of the Fund while paying all or part of the Fund's fees and expenses out of the capital of the Fund, which results in effectively paying dividends out of capital. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of the Fund's capital or payment of dividends effectively out of the Fund's capital (as the case may be) may result in an immediate reduction of the net asset value per share.
- Investors should not invest based on this marketing material alone. Offering documents should be read for further details, including the risk factors. Before you decide to invest, you should make sure the intermediary has explained to you that the Fund is suitable to you.
