

Key Investor Information

This document provides you with key investor information about this UCITS (the "Fund"). It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether or not to invest.

AMUNDI GLOBAL HYDROGEN ESG SCREENED UCITS ETF

ISIN code: (C/D) FR0010930644

This Fund is managed by Amundi Asset Management, an Amundi Group company

Objectives and investment policy

Classification by the AMF (Autorité des marchés financiers), the French financial market regulator: International equities.

By subscribing to AMUNDI GLOBAL HYDROGEN ESG SCREENED UCITS ETF, you are investing in a Fund that is managed passively, the objective of which is to replicate, as closely as possible, the performance of the 100% BLOOMBERG HYDROGEN ESG INDEX ("the Index"), whether the Index rises or falls. The euro-adjusted target for maximum tracking error between changes in the Fund's net asset value and that of the Index is specified in the Fund's prospectus.

The USD-denominated Index with net dividends reinvested (the net dividends paid by equities comprising the index are included in the index calculation) is calculated and published by index provider Bloomberg.

The shares included in the Index are (i) taken from a portfolio of companies in the hydrogen sector, whose securities are issued on the developed, Chinese and Korean markets, (ii) and meet environmental, social and governance (ESG) requirements through the application of negative ESG filters.

The limits of the approach adopted are described in the Fund's Prospectus in terms of risk factors such as sustainability risk.

More information about the composition of the index and its operating rules is available in the prospectus and at www.bloomberg.com.

The Index is available via Reuters (.BHJENEN) and Bloomberg (BHJENEN).

To replicate the 100% BLOOMBERG HYDROGEN ESG INDEX, the Management Company applies "passive" management, using the direct replication method, which consists of investing in the financial securities that make up the 100% BLOOMBERG HYDROGEN ESG INDEX in proportions very close to those of the Index.

In order to generate additional returns, the Fund may use guaranteed temporary purchases and sales of securities.

The Fund's net profit and net realised capital gains are reinvested or redistributed each year at the discretion of the Management Company.

You may resell your units during the trading hours of the various stock exchanges, provided that the Market Makers can maintain market liquidity.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

Particular risks for the UCITS not included in this indicator are:

- Counterparty risk: This is the risk that a market participant will default, preventing them from honouring their commitments in respect of your portfolio.

The occurrence of one of these risks may decrease the net asset value of your portfolio.

This Fund's risk category primarily reflects the market risk of the equities in which it is invested.

The initial capital invested is not guaranteed.

Historical data such as that used to calculate the synthetic indicator may not be a reliable indicator of the future risk profile of the Fund. The risk category associated with this Fund is not guaranteed and may evolve over time.

The lowest category does not mean "risk free".

Charges

The charges and fees paid are used to cover the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	1%
Exit charge	1%
The percentage indicated is the maximum that can be deducted from your capital before it is invested (entry) or redeemed (exit).	
Charges taken from the Fund over a year	
Ongoing charges	0.45% of average net assets
Charges taken from the Fund under certain specific conditions	
Performance fee	0

Purchases and sales on the secondary market do not incur any entry or exit fees. However, in addition to the fees shown, other fees may apply such as brokerage fees or stock exchange fees, over which the Management Company has no control.

The **ongoing charges** are based on the figures for the current year. This percentage may vary from year to year. It excludes:

- Performance fees,
- Brokerage fees, except for the entry and exit charges paid by the UCITS when buying or selling units in another Fund.

For more information about the charges of this Fund, please refer to the "Costs and Fees" section of the Fund's prospectus, which is available at amundiETF.com.

Past performance

A: Benchmark index up to 19 April 2016: MSCI Europe Energy

B: Benchmark index as of 20.04.2016: MSCI Europe Energy 20/35

C: Benchmark index as of 27.09.2023: Bloomberg Hydrogen ESG Index

Performance is not constant over time and is no guarantee of future performance.

The year-on-year performances presented on this chart are calculated after deduction of all fees charged by the Fund.

The Fund was launched on 28 September 2010.

The reference currency is the euro.

The benchmark index is: 100% BLOOMBERG HYDROGEN ESG INDEX.
