September 20, 2023

Dear Shareholders,

This report provides an update of AB FCPI (the “Fund”) for the annual reporting period ended August 31, 2023.

US, international and emerging-market stocks rose during the 12-month period ended August 31, 2023. Aggressive central bank tightening—led by the US Federal Reserve (the “Fed”)—created headwinds for global equity markets throughout the period. Despite bouts of increased volatility, equity markets rallied amid signs of easing inflationary pressures and as central banks began to pause or lower rate hikes. But resilient consumer spending and mostly strong global economic data raised concern that central banks would need to keep rates higher for longer, which caused equity markets to pull back at times.

In March, the collapse of select US regional banks triggered concerns about broader financial contagion and briefly drove stocks lower, as did the threat of a US government default and the Fitch US debt downgrade later in the period. China’s reopening impulse initially benefited equity markets, but its effect diminished—especially in emerging markets—as China’s economic recovery stalled.

Sentiment shifted at the end of the period, and markets rallied as US economic data showed signs of cooling while disinflation continued to gain traction—strengthening the likelihood of a soft landing. Within large-cap markets, both growth- and value-oriented stocks rose, but growth significantly outperformed value, led by a technology-sector rally—especially among companies closely related to artificial intelligence technologies.

Large-cap stocks outperformed small-cap stocks by a wide margin, although both rose in absolute terms.

Fixed-income government bond market yields were extremely volatile in all major developed markets, rising slightly in aggregate over the period. Government bond returns fell in all major markets except in Italy, Australia, Japan and Canada, while government bonds in the UK trailed other major developed-market treasury markets. Most central banks raised interest rates significantly to combat persistent inflation.

Developed-market investment-grade corporate bonds had positive returns overall and outperformed developed-market government bonds. Investment-grade corporates also rose and outperformed respective treasury markets in the US and eurozone. High-yield corporate bonds had positive returns and materially outperformed their respective treasury markets—especially in the US and eurozone. Emerging-market local-currency sovereign bonds led risk asset returns, even as the US dollar was mixed against developed- and emerging-market currencies. Emerging-market hard-currency sovereign bonds advanced and significantly outperformed developed-market treasuries. Investment-grade and emerging-market corporate bonds outperformed similar quality developed-market corporate bonds during the period.

We appreciate your investment in the Fund.

Sincerely,

AllianceBernstein (Luxembourg) S.à r.l., the management company of the Fund (the “Management Company”)

The share class performance of each Portfolio is based on the net asset value incorporating the impact of expenses reimbursed or waived by the Management Company as of August 31, 2023. No adjustment has been made for sales charges that may apply when shares are purchased or redeemed. Performance for distributing share classes includes the reinvestment of distributions paid during the year. Past performance is no guarantee of future results. Investment return and principal value may fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.

* 6 months period ending August 31, 2023.

Return calculated from inception date on:

- (1) July 18, 2023
- (2) October 5, 2022
- (3) July 6, 2023

NOTE A: General Information

AB FCP I (the “Fund”) is a mutual investment fund (*fonds commun de placement*) organized under the laws of the Grand Duchy of Luxembourg and registered under Part I of the Law of December 17, 2010 on undertakings for collective investment, as amended (the “Law of 2010”). The Fund is managed in the interest of its co-owners (the “Shareholders”) by AllianceBernstein (Luxembourg) S.à r.l. (the “Management Company”), a company organized under the laws of the Grand Duchy of Luxembourg and having its registered office in Luxembourg. The Fund qualifies as an Undertaking for Collective Investment in Transferable Securities (“UCITS”) within the meaning of Article 1(2) of the EC Directive 2009/65 of July 13, 2009, as amended.

The Fund comprises separate pools of assets currently consisting of 12 active portfolios (each, a “Portfolio”, and, collectively, the “Portfolios”). Each Class of Shares represents an interest

in each relevant Portfolio’s investment securities and other net assets. All Shares of a Class have equal rights to distributions and redemptions.

It was resolved by the Board of Managers to approve the transfer of all assets and liabilities (the “Restructuring”) of AB FCP I – Global Value Portfolio into AB SICAV I – Global Value Portfolio. The Restructuring was effective as of March 31, 2023, at the exchange ratio of 1:1.

The portfolio AB FCP I – Global Bond II Portfolio was liquidated. The last official Net Asset Value (“NAV”) was calculated on October 18, 2022. As of August 31, 2023, cash balance for the Portfolio amounted to \$42,157.

The following table lists each Portfolio’s commencement of operations as well as Share Classes funded as of August 31, 2023:

NOTE B: Significant Accounting Policies

The Financial Statements have been prepared in accordance with Luxembourg legal and regulatory requirements and on a going concern basis, except for Dynamic Diversified Portfolio whose financial statements have been prepared on a non-going concern basis as the Board of Managers have decided to liquidate this Portfolio on September 19, 2023. For Dynamic Diversified Portfolio, the significant accounting policies set out below have been applied consistently with the exception that the carrying values of the remaining assets as at August 31, 2023 are presented at their estimated net realizable values and all liabilities are presented at their estimated settlement amounts. The following is a summary of significant accounting policies followed by the Portfolios.

1. Valuation

1.1 Investments in Securities

Securities listed on a stock exchange or traded on any other regulated market are valued at the last available price on such exchange or market or, if no such price is available, at the mean of the closing bid and asked price quoted on such day. If a security is listed on several stock exchanges or markets, the last available price on the stock exchange or market which constitutes the main market for such security is used.

Securities traded in the over-the-counter market, including securities listed on an exchange whose primary market is believed to be over-the-counter (but excluding securities traded on The Nasdaq Stock Market, Inc. (“NASDAQ”)) are valued at the mean of the current bid and asked prices. Securities traded on NASDAQ are valued in accordance with the NASDAQ Official Closing Price.

Securities are valued at their current market value determined on the basis of market quotations or, if market quotations are not readily available or are deemed unreliable, at “fair value”

as determined in accordance with procedures established by, and under the general supervision of, the Board of Managers. Fair valuation procedures are designed to adjust closing market prices of Portfolio securities to reflect what is believed to be the fair value of those securities at the Portfolio’s Valuation Point.

When fair valuation procedures are employed with respect to a particular Portfolio security, various objective and subjective factors may be considered, including, among other things, developments affecting the security or involving an entire market since the security’s latest reported price, current valuations of relevant stock indices or pronouncements of certain governmental authorities. Fair value prices based on third party vendor modeling tools may be utilized to the extent available. Therefore, when fair valuation procedures are employed, the prices of individual Portfolio securities utilized to calculate the Portfolio’s Net Asset Value (“NAV”) may differ from quoted or published prices for the same securities. Currently, fair value adjustments are only applicable to certain equity securities and futures contracts.

Accordingly, as may also be the case with a previously reported stock exchange price, the price of any Portfolio security determined utilizing fair value pricing procedures may be materially different from the price to be realized upon the sale of such security.

For Portfolio securities primarily traded on U.S. exchanges, it is expected that fair value pricing procedures are employed only under very limited circumstances such as, for example, the early closing of an exchange on which a particular security is traded or the suspension of trading in a particular security. However, it is anticipated that fair value pricing procedures will be utilized frequently for securities traded on non-U.S. exchanges or other markets, particularly European and Asian markets excluding India, because, among other reasons, these markets close well before the Portfolio’s Valuation Point. Between the close of these markets and the relevant Portfolio’s Valuation Point, significant

events including broad market moves may occur. In particular events in the U.S. market on a trading day after the close of these other markets may affect the value of the Portfolio's securities. Japan Strategic Value Portfolio has adopted a policy to only fair value securities when deemed relevant based on the performance of a benchmark and relative capstock flows.

Fixed income securities (i), securities not listed on any stock exchange or traded on any regulated market (ii), and securities, trading of which on a stock exchange or a regulated market is thin (iii), are valued at the most recent bid price provided by the principal market makers. If there is no such market price, or if such market price is not representative of a security's fair market value, then the security is valued in a manner determined to reflect its fair value in accordance with procedures established by, and under the general supervision of, the Board of Managers.

U.S. Government securities and any other debt instruments having 60 days or less remaining until maturity are generally valued at market price by an independent pricing vendor, if a market price is available. If a market price is not available, the securities are valued at amortized cost. This methodology is commonly used for short-term securities that have an original maturity of 60 days or less, as well as short-term securities that had an original term to maturity that exceeded 60 days. In instances when amortized cost is utilized, the valuation committee (the "Committee") must reasonably conclude that the utilization of amortized cost is approximately the same as the fair value of the security. Such factors the Committee will consider include, but are not limited to, an impairment of the creditworthiness of the issuer or material changes in interest rates. The Committee decisions are made in accordance with procedures established by, and under general supervision of, the Board of Managers.

Over-the-counter ("OTC") swaps and other derivatives are valued daily, primarily using independent pricing services, independent pricing models using market inputs, as well as third party broker-dealers or counterparties.

1.2 Warrant Valuation

A listed warrant is valued at the last traded price provided by approved vendors. If there has been no sale on the relevant business day, the warrant is valued at the last traded price from the previous day. On the following days, the security is valued in good faith at fair value. All unlisted warrants are valued in good faith at fair value. Once a warrant has expired, it will no longer be valued.

1.3 Financial Futures Contracts

Initial margin deposits are made upon entering into futures contracts. During the period the futures contract is open, changes in the value of the contract are recognized as unrealized gains or losses by "marking-to-market" on a daily basis to reflect the market value of the contract at the end of each day's trading. Variation margin payments are made or received, depending upon whether unrealized losses or gains are incurred. When the contract is closed, a realized gain or loss is recorded. This realized gain or loss is equal to the difference between the proceeds from (or cost of) the closing transaction and the Portfolio's basis in the contract.

Open futures contracts are valued using the closing settlement price or, in the absence of such a price, the most recent quoted bid price. If there are no quotations available for the day of valuations, the last available closing settlement price is used.

1.4 Forward Foreign Currency Contracts

The unrealized gain or loss on open forward foreign currency contracts is calculated as the difference between the contracted rate and the rate to close out the contract. Realized profit or loss includes net gains or losses on forward foreign currency contracts which have been settled or offset by other contracts with the same counterparty.

1.5 Options Purchased and Options Written

When an option is purchased, an amount equal to the premium paid is recorded as an investment and is subsequently adjusted to the current market value of the option purchased. Premiums paid for the purchase of options which expire unexercised are treated on the expiration date as realized losses. If a purchased put option is exercised, the premium is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining whether the relevant Portfolio has realized a gain or loss. If a purchased call option is exercised, the premium increases the cost basis of the security or foreign currency purchased by the relevant Portfolio. When an option is written, an amount equal to the premium received by the relevant Portfolio is recorded as a liability and is subsequently adjusted to the current market value of the option written. Premiums received from written options which expire unexercised are treated by the relevant Portfolio on the expiration date as realized gains. If a written call option is exercised, the premium is added to the proceeds from the sale of the underlying security or foreign currency in determining whether the relevant Portfolio has realized a gain or a loss. If a written put option is exercised, the premium reduces the cost basis of the security or foreign currency purchased by the relevant Portfolio. Listed put or call options by a portfolio are valued at the last sale price. If there has been no sale on that day, such securities are valued at the closing bid prices on that day.

1.6 Investments in other Undertakings for Collective Investment ("UCIs")

Investments in other UCIs are valued at the last available NAV for the UCI in question.

1.7 Swap Agreements

The Portfolios accrue for interim payments on swap contracts on a daily basis, within income and expenses. Swap contracts are marked to market on a daily basis with fluctuations in value recorded in "Unrealized appreciation (depreciation) on swaps" in the Statement of Assets and Liabilities and "Changes in unrealized gains and (losses) on swaps" in the Statement of Operations and Changes in Net Assets. Once a swap contract has matured or is sold, the net amount is recorded as "Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency" in the Statement of Operations and Changes in Net Assets. The upfront premiums paid or received are recognized as cost or proceeds in the Statement of Assets and Liabilities and are amortized on a straight line basis over the life of the contract. Accruals of amortized upfront premiums on credit default swaps are included in "Swap income" until the position is sold, thereafter the amortized upfront premiums are included in "Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency". On all other swap types the amortized upfront premiums are included within "Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency". Fluctuations

in the value of swap contracts are recorded as a component of “Changes in unrealized gains and (losses) on swaps” in the Statement of Operations and Changes in Net Assets.

“Upfront premiums paid (received) on swap contracts” disclosed in the Statement of Assets and Liabilities include premiums paid (received) on the OTC credit default swaps and a margin that is yet to be settled on the centrally cleared credit default swaps.

2. Organization Expenses

The organization expenses of all existing Portfolios have been fully amortized in prior years.

3. Allocation Method

Income and expenses (except for class-specific management and distribution fees) for the “fixed income” and “balanced” Portfolios are allocated on a daily basis utilizing a hybrid allocation model. This model allocates based upon each class’ proportionate percentage of the combined value of settled shares for those classes which accrue a daily dividend and the value of the shares outstanding for those classes which accrue a monthly dividend or no dividend at all. Income and expenses for the “equity” Portfolios are allocated on a daily basis by each class’ value of their proportionate shares outstanding. For all of the Portfolios, realized and unrealized gains and losses are allocated on a daily basis by each class’ value of their proportionate shares outstanding. Class-specific management, management company, distribution fees and realized and unrealized gains and losses on forward foreign currency contracts related to the Currency Hedged Share Classes are charged /allocated directly to the respective class.

Due to the distinct institutional nature of all types of Class S shares of the Portfolios, certain fund expenses, where applicable, are allocated to the respective Class S shares based upon minimum shareholder activity and account level requirements.

4. Currency Translation

Values expressed in a currency other than the currency in which a Portfolio is denominated as determined by the Management Regulations are translated at the average of the last available buying and selling price. Transactions in foreign currencies are translated into the currency of each Portfolio at the exchange rate ruling at the date of the transactions.

The Combined Statement of Assets and Liabilities is presented in U.S. Dollars at the exchange rates ruling at the date of the combined Statement of Assets and Liabilities, while the Combined Statement of Operations and Changes in Net Assets is presented in U.S. Dollars at the average exchange rates ruling during the year.

Exchange rates applied in the financial statements are: spot rate 1.0844 and average rate 1.0613 for EUR to USD, spot rate 0.0069 and average rate 0.0072 for JPY to USD.

The “Currency translation adjustment” presented in the Combined Statement of Operations and Changes in Net Assets

is the result of the difference in exchange rates used to translate Combined net assets at the beginning of the year, the Statement of Assets and Liabilities and the Statement of Operations and Changes in Net Assets.

5. Investment Income and Investment Transactions

Dividend income is recorded on the ex-dividend date. Interest income is accrued daily. Investment gains and losses for the Portfolios are determined on an average cost basis. The Fund accretes discounts and amortizes premiums as adjustments, if applicable, to interest income. Investment transactions are recorded on trade date plus one day.

6. Estimates

The preparation of the Financial Statements in conformity with accounting principles generally accepted in Luxembourg requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Financial Statements and the reported amounts of income and expenses during the reporting year. Actual results may differ from those estimates.

7. Swing Pricing Adjustment

(The following applies to all Portfolios except Global Equity Blend Portfolio, Global Value Portfolio, Short Duration Bond Portfolio and Global Bond II Portfolio)

The Fund implemented a NAV Adjustment Policy, also known as “swing pricing” policy, effective from November 2, 2015. Under this policy, a Portfolio’s NAV may be adjusted to reflect the impact of estimated transaction costs, deal spreads and charges generated by shareholders’ purchase and redemption activity. Swing pricing is automatically applied when daily net subscriptions or redemptions exceed a threshold specified by the Swing Pricing Committee under the supervision of the Board of Managers.

When swing pricing is applied, the NAV of the relevant Portfolio’s shares will be adjusted up or down, in an amount generally not to exceed 2% of the relevant NAV, so that the transaction costs incurred due to the purchase and redemption activity are borne by the investors transacting in the Portfolio’s shares, rather than the Portfolio itself. This adjustment is intended to minimize dilution of the value of shareholders’ investment in shares of a Portfolio brought on by transactions in the Portfolio’s shares.

The NAV per Share and the total net assets as disclosed in the Statistical Information are the published NAV per Share and the total net assets, whereas the total net assets disclosed in the Statement of Assets and Liabilities and Statement of Operations and Changes in Net Assets is the total NAV excluding any period end swing adjustments.

All Portfolios subject to swing pricing except European Income Portfolio and Emerging Markets Debt Portfolio swung their NAVs during the reporting year and as of August 31, 2023, none of such Portfolios swung their NAVs.

NOTE C: Taxes

As a Luxembourg *fonds commun de placement* (“FCP”), the Fund is not subject, under present tax laws, to income, withholding or capital gains taxes in Luxembourg. The Fund is subject to the Luxembourg *taxe d’abonnement* at the rate of 0.05% per annum calculated and payable quarterly as the

aggregate total net assets on the last day of each calendar quarter. The rate is 0.01% for share classes reserved to institutional investors within the meaning of Article 174 of the Law of 2010. Interest, dividends and capital gains on securities may be subject to withholding or capital gains taxes in certain countries.

In connection with an investment by a Portfolio into a separate Portfolio, *taxe d'abonnement* is waived in an amount equal to

the Portfolio's pro rata share of the *taxe d'abonnement* accrued within the respective share class of the separate Portfolio.

NOTE D: Distributions

The Management Company does not currently intend to pay dividends with respect to the shares for the Global Equity Blend Portfolio. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective NAV of the Shares.

For Dynamic Diversified Portfolio:

- For Class AR shares (and corresponding H shares), the Management Company intends to declare and make annual distributions. Distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.
- For Class A, C, I, S, S1, SP, S1P, AX, BX, CX and IX shares (and corresponding H shares), the Management Company currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective NAV of the Shares.

For Global Value Portfolio:

- For Class A, B, C, I, S, S1, SA GB, SB GB, S1A GB and S1B GB shares (and corresponding H shares), the Management Company currently does not intend to pay distributions with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective NAV of the Shares.
- For Class AD and SD shares (and corresponding H shares), the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Emerging Markets Growth Portfolio:

- For Class A, B, C, I, N, S, S1 and W shares (and corresponding H shares), the Management Company currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective NAV of the Shares.
- For Class AD and ED shares (and corresponding H shares), the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross

income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Asia Ex-Japan Equity Portfolio:

- For Class A, C, I, S and S1 shares (and corresponding H shares), the Management Company currently does not intend to pay distributions with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective NAV of the Shares.
- For Class AY and class BY shares, the Management Company has discretion to declare and pay distributions based on the Portfolio's net income attributable to each class of Shares.
- For Class AD, ED, ID and SD shares (and corresponding H shares), the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Japan Strategic Value Portfolio:

- For Class A, C, I, S, S1 and 2 shares (and corresponding H shares), the Management Company currently does not intend to pay distributions with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective NAV of the Shares.
- For Class AD and SD shares (and corresponding H shares), the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For China Low Volatility Equity Portfolio:

- For Class A, B, C, I, S and S1 shares, the Management Company currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to such Shares will be reflected in the respective NAV of such Shares.
- For Class AD shares (and corresponding H shares), the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross

income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Short Duration Bond Portfolio:

- For Class A, AX, C, I, S and S1 shares (and corresponding H shares, unless noted otherwise), the Management Company intends to declare daily and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For Class AJ, AT, CT, IT and NT shares (and corresponding H shares), the Management Company intends to declare and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For Class AA and SA shares (and corresponding H shares), the Management Company intends to declare and make monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes. For class AR shares (and corresponding H shares), the Management Company intends to declare and make annual distributions. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of Shares. Since fees and expenses do not reduce the distribution rate, the NAV per share of the relevant classes will be reduced by such fees and expenses.
- For Class A2, C2, I2, N2, S2 and S1 2 shares (and corresponding H shares) and S EUR H, S1 EUR H, S SGD H shares, the Management Company currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective NAV of the Shares.

For Global High Yield Portfolio:

- For Class A, B, C, I, JA, J and W shares (and corresponding H shares), the Management Company intends to declare daily and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For Class AT, BT, CT, IT, NT, S1D, S1D2 and WT shares (and corresponding H shares), the Management Company intends to declare and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For Class IQD and S1QD shares, the Management Company intends to declare and pay quarterly dividends equal to all or substantially all of the Portfolio's net income attributable to the class of Shares. For class SK shares, the Management Company may declare and pay dividends at its discretion.
- For Class AK and CK shares (and corresponding H shares), the Management Company intends to declare and pay bi-annually dividends equal to all or substantially all of the Portfolio's net income attributable to the relevant class of Shares.

- For Class AA, EA, IA and SA shares (and corresponding H shares), the Management Company intends to declare and make monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes. For class AR shares (and corresponding H shares), the Management Company intends to declare and make annual distributions. For class SHK shares, the Management Company intends to declare daily and make monthly distributions. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of Shares. Since fees and expenses do not reduce the distribution rate, the NAV per share of the relevant classes will be reduced by such fees and expenses.
- For class S1L shares (and corresponding H shares), the Management Company intends to declare and make monthly dividends equal to all or substantially all of the Portfolio's net income attributable to the class of Shares. Such dividends will not be paid out of capital attributable to the share class of Shares.
- For Class A2, B2, C2, E2, I2, N2, S, S1 and W2 shares (and corresponding H shares), the Management Company currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective NAV of the Shares.

For American Income Portfolio:

- For Class A, B, C, I, JA, J and W shares (and corresponding H shares), the Management Company intends to declare daily and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For Class AT, BT, CT, IT, LT, NT, S1D, S1D2, WT and ZT shares (and corresponding H and DUR PH shares), the Management Company intends to declare and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For Class AK and CK shares (and corresponding H shares), the Management Company intends to declare and pay bi-annually dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For Class AA, EA, IA and SA shares (and corresponding H and DUR PH shares), the Management Company intends to declare and make monthly distributions. For class SHK shares (and corresponding H shares), the Management Company intends to declare daily and make monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes. For class AR shares (and corresponding H shares), the Management Company intends to declare and make annual distributions. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of Shares. Since fees and expenses do not reduce the distribution rate, the NAV per share of the relevant classes will be reduced by such fees and expenses.

- For Class S1QD shares (and corresponding H shares), the Management Company intends to declare and pay quarterly dividends equal to all or substantially all of the Portfolio's net income attributable to the class of Shares.
- For Class A2, B2, C2, E2, I2, L2, N2, S, S1 and W2 shares (and corresponding H and DUR PH shares), the Management Company currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective NAV of the Shares.
- For Class AA, EA and SA shares (and corresponding H shares), the Management Company intends to declare and make monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes. For class AR shares, the Management Company intends to declare and make annual distributions. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of Shares. Since fees and expenses do not reduce the distribution rate, the NAV per share of the relevant classes will be reduced by such fees and expenses.

For European Income Portfolio:

- For Class A, B, C and I shares, the Management Company intends to declare daily and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For Class AT, CT, IT, NT, S1D and WT shares (and corresponding H shares), the Management Company intends to declare and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For Class AK and CK shares, the Management Company intends to declare and pay bi-annually dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For Class AA, IA, SA and WA shares (and corresponding H shares), the Management Company intends to declare and make monthly distributions. For class SHK shares (and corresponding H shares), the Management Company intends to declare daily and make monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes. For class AR shares (and corresponding H shares), the Management Company intends to declare and make annual distributions. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of Shares. - For class S1L shares, the Management Company intends to declare and make monthly dividends equal to all or substantially all of the Portfolio's net income attributable to the class of Shares. Such dividends will not be paid out of capital attributable to the share class of Shares.
- For Class A2, C2, E2, I2, N2, S, S1 and S1 2 shares (and corresponding H shares), the Management Company currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective NAV of the Shares.
- For Class A2, B2, C2, E2, I2, S, S1 and W2 shares (and corresponding H shares), the Management Company currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective NAV of the Shares.
- For Class AI and EI shares (and corresponding H shares), the Management Company intends to declare and make monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes. Distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and, potentially to a significant extent from capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such, may result in a decrease in the NAV per share for the relevant class. If the NAV per share falls below, respectively USD 1 and AUD 1, the Management Company will contemplate at its full discretion, either (i) the restructuring of the Share Class including through the merger with a Share Class with similar features or (ii) the liquidation of the Share Class. Distributions may be automatically reinvested at the election of the Shareholder.
- For Class S1QD shares (and corresponding H shares), the Board intends to declare and pay quarterly dividends equal to all or substantially all of the Portfolio's net income attributable to the class of Shares.

For Mortgage Income Portfolio:

The following table shows expenses borne by the Management Company during the year ended August 31, 2023, and reimbursement receivable at August 31, 2023:

AB FCPI-	Expenses borne	Reimbursement receivable
Dynamic Diversified Portfolio.....	\$ 274,877	–
Global Equity Blend Portfolio	\$ 94,369	–
Asia Ex-Japan Equity Portfolio	\$ 512	–
Japan Strategic Value Portfolio	¥ 20,623,556	–
China Low Volatility Equity Portfolio.....	\$ 52,779	–
Short Duration Bond Portfolio.....	\$ 133,049	–
American Income Portfolio.....	\$ 48	–
European Income Portfolio	€ 29	29
Mortgage Income Portfolio.....	\$ 2,064	–

Expenses borne by the Management Company are included in the Statement of Operations and Changes in Net Assets under “Expense reimbursed or waived”. Reimbursement receivable is included in the Statement of Assets and Liabilities in “Accrued expenses and other liabilities”.

The Fund also pays the Management Company a Management Company fee.

Specific share classes of each Portfolio pay the Distributor, a distribution fee, which is a compensation for providing distribution-related services to the Fund with respect to such shares.

All of the aforementioned fees are accrued at an annual rate on the average daily net assets of each Portfolio and paid monthly.

A list of each Portfolio’s annual rate for their applicable fees can be found in Table 1 (Pages 176 to 188).

Also, all types of Class B shares are subject to a contingent deferred sales charge at rates of between 0.00% and 4.50%, all types of Class C shares are subject to a contingent deferred sales charge at rates between 0.00% and 1.00%, all types of Class E shares are subject to a contingent deferred sales charge at rates between 0.00% and 3.00%. Class J shares are subject to a contingent deferred sales charge at rates between 0.00% and 3.00%. The actual rate will depend on the Portfolio and the period of time the shares are held.

The Fund compensates its registrar and transfer agent, AllianceBernstein Investor Services, a unit of the Management Company, for providing personnel and facilities to perform registrar and transfer agency services for the Fund. Such compensation amounted to \$14,390,047 for the year ended August 31, 2023.

The Fund compensates the Investment Manager for certain services provided to the Fund in connection with the registration of the Fund for sale in certain jurisdictions outside of Luxembourg, subject to certain conditions. Such compensation amounted to \$868,837 for the year ended August 31, 2023 and is included in “Professional fees” in the Statement of Operations and Changes in Net Assets.

The Fund compensates its legal adviser, Elvinger Hoss Prussen, *société anonyme* for legal services rendered to the Fund. Payments of €39,217 were made for the year ended August 31, 2023 and are included in “Professional fees” in the Statement of Operations and Changes in Net Assets.

The Investment Manager has not entered into transactions in relation to a placing and/or a new issue in which a connected person had a material interest as a member of the underwriting syndicate. All transactions executed on behalf of the Fund were entered into in the ordinary course of business and/or normal commercial terms. There was no commission paid for the year ended August 31, 2023 on securities transactions utilizing the services of the affiliated firms, Sanford C. Bernstein & Co., LLC and Bernstein Autonomous LLP. Several of the Management

Company’s managers are employees and/or officers of the Investment Manager and/or its affiliates.

Global High Yield Portfolio invests in AB SICAV I – Emerging Market Corporate Debt Portfolio, AB SICAV I – Sustainable Euro High Yield Portfolio, AB SICAV I – Asia Income Opportunities Portfolio, AB SICAV I – Emerging Market Local Currency Debt Portfolio, AB SICAV I – US High Yield Portfolio and AB SICAV I – Financial Credit Portfolio, which are managed by the Management Company. American Income Portfolio invests in AB SICAV I – US High Yield Portfolio, AB SICAV I – Asia Income Opportunities Portfolio, AB SICAV I – Global Income Portfolio and AB SICAV I – Sustainable Income Portfolio which are managed by the Management Company. Emerging Markets Debt Portfolio invest in AB SICAV I – Emerging Market Corporate Debt Portfolio which is managed by the Management Company.

The Fund may purchase securities from, or sell securities to, an affiliated fund provided the affiliation is due solely to having a common investment advisor, common officers, or common directors. For the year ended, there were no purchase and sale transactions with an affiliated fund.

NOTE F: Soft Commission Arrangements and Transaction Costs

During the year ended August 31, 2023, where permitted under applicable law, the Investment Manager and any Affiliated Sub- Investment Manager, if applicable, received and entered into soft-dollar commissions arrangements with brokers relating to Portfolios of the Fund that invest in equity securities, in respect of which certain goods and services used to support the investment decision making process were received. The soft commission arrangements were entered into on the basis that the execution of transactions on behalf of the Fund will be consistent with best execution standard and the Investment Manager considers many factors regarding best execution standards when entering into soft commission arrangements such as the size and nature of brokerage fees.

Additionally, due to the nature of the investment strategy of certain Portfolios, including where the Investment Manager delegates investment management services to AllianceBernstein Limited, all costs associated with soft commission arrangements may be “unbundled” and borne by the Investment Manager or its sub-delegates, if required by applicable law.

The goods and services received include specialist industry, company and consumer research, portfolio and market analysis and computer software used for the delivery of such services.

The nature of the goods and services received is such that the benefits provided under the arrangement must be those which assist in the provision of investment services to the Fund and may contribute to an improvement in the Fund’s performance.

For the avoidance of doubt, such goods and services do not include travel, accommodations, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employees’ salaries or direct money payments.

Transaction costs are costs incurred in the acquisition, issue or disposal of transferable securities, money market instruments, derivatives or other eligible assets. They can include bid-ask

spread, fees and commissions paid to agents, advisers, brokers and dealers, transaction related taxes and other market charges. They do not include debt premiums or discounts, financing costs or internal administrative or holding costs. Transaction costs are included within the cost of investments in the Portfolio of Investments as well as in the “Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency” and “Changes in unrealized gains and (losses) on investments” in the Statement of Operations and Changes in Net Assets. Transaction costs are excluded from the Total Expense Ratio and/or expense reimbursement calculation.

For the year ended August 31, 2023, the amount of transaction costs incurred by each Portfolio is detailed in the following table:

NOTE G: Forward Foreign Currency Contracts

A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contract and the closing of such contract is included in “Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency” in the Statement of Operations and Changes in Net Assets.

Fluctuations in the value of open forward foreign currency contracts are reflected for financial reporting purposes as a component of “Unrealized appreciation/(depreciation) on forward foreign currency contracts” in the Statement of Assets and Liabilities.

One or more of a Portfolio’s share classes offered in a particular currency (each, an “Offered Currency”) may be hedged to such Offered Currency. Any such share class will constitute a “Currency Hedged Share Class”. Currency Hedged Share Classes aim to provide investors a return more closely correlated to the Portfolio’s base currency return by reducing

the effect of exchange rate fluctuations between the Portfolio’s base currency and the relevant Offered Currency, taking into account practical considerations such as transaction costs.

The hedging strategy employed is designed to reduce, but may not eliminate, currency exposure between the Portfolio’s base currency and the relevant Offered Currency.

Risks may arise from the potential inability of a counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the hedged currency.

Given that there is no segregation of liabilities between the various share classes within a Portfolio, there is a remote risk that, under certain circumstances, currency hedging transactions in relation to a Currency Hedged Share Class could result in liabilities which might affect the NAV of the other share classes of the same Portfolio, in which case assets of the other share classes of the Portfolio may be used to cover the liabilities incurred by such Currency Hedged Share Class.

The securities in the Fund are used as collateral for forward foreign currency contracts.

NOTE H: Repurchase Agreements

Repurchase agreements are collateralized by obligations of the United States, its agencies or instrumentalities thereof. The securities underlying the repurchase agreement will be held by the Depository at all times in an amount at least equal to the repurchase price, including accrued interest.

At August 31, 2023, there were no repurchase agreements.

There was no interest income arising from repurchase agreements during the year ended August 31, 2023.

NOTE I: Reverse Repurchase Agreements

Reverse repurchase agreements are identical to repurchase agreements except that rather than buying securities for cash subject to their repurchase by the seller, a Fund sells portfolio assets concurrently with an agreement by the Fund to repurchase the same assets at a later date at a fixed price slightly higher than the sale price. During the reverse repurchase agreement period, the Fund continues to receive principal and interest payments on these securities. Generally, the effect of a reverse repurchase agreement is that the Fund can recover all or most of the cash invested in the portfolio securities involved during the term of the reverse repurchase agreement, while it will be able to keep the interest income associated with those portfolio securities.

Such transactions are advantageous only if the “interest cost” to the Fund of the reverse repurchase transaction, *i.e.*, the difference between the sale and repurchase price for the securities, is less than the cost of otherwise obtaining the cash invested in portfolio securities.

At August 31, 2023, there were no reverse repurchase agreements.

There was no interest income arising from reverse repurchase agreements during the year ended August 31, 2023.

NOTE J: Financial Futures Contracts

The Fund may buy or sell financial futures contracts. The Fund bears the market risk that arises from changes in the value of these financial instruments. The Fund’s activities in financial futures contracts are conducted through regulated exchanges, which do not result in counterparty credit risk.

Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as the variation margin and are recorded by the Fund as unrealized gains or losses. When the contract is closed, the Fund records a realized gain or (loss) equal to the difference between the value of the contract at the time it was opened and the time it was closed.

At the time the Fund enters into a financial futures contract the Fund deposits and maintains with the broker as collateral an initial margin as required by the exchange on which the transaction is effected.

NOTE K: Swap Transactions

A swap is an agreement that obliges two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset or otherwise determined notional amount. Realized gains and (losses) and

changes in unrealized gains and (losses) on swaps are included in the Statement of Operations and Changes in Net Assets respectively under “Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency” and as a component of “Changes in unrealized gains and (losses) on swaps”.

Centrally Cleared Credit Default Swaps

The buyer in a centrally cleared credit default swap agreement is obliged to pay the seller a periodic stream of payments over the term of the contract in return for a contingent payment upon the occurrence of a credit event with respect to an underlying reference obligation.

Centrally Cleared Interest Rate Swaps

A centrally cleared interest rate swap is a bilateral agreement in which each of the parties agree to exchange a series of fixed or floating interest rate payments based on a notional amount that serves as a computation basis.

Total Return Swaps

A total return swap is a bilateral agreement in which each of the parties agree to exchange the total performance of an underlying asset for a series of interest payments based on a notional amount that serves as a computation basis.

Credit Default Swaps

The buyer in a credit default swap agreement is obliged to pay the seller a periodic stream of payments over the term of the contract in return for a contingent payment upon the occurrence of a credit event with respect to an underlying reference obligation.

Interest Rate Swaps

An interest rate swap is a bilateral agreement in which each of the parties agree to exchange a series of fixed or floating interest rate payments based on a notional amount that serves as a computation basis.

Inflation Swaps

An inflation swap is a bilateral agreement in which each of the parties agree to exchange fixed rate payments for floating, inflation index linked payments based on a notional amount that serves as a computation basis.

NOTE L: Option Transactions

The Fund may purchase and write (sell) put and call options on securities. The risk associated with purchasing an option is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of the premium and a change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as Portfolio securities. The cost of securities acquired through the exercise of call options is increased by the premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current market value of the option written.

Premiums received from written options which expire unexercised are recorded by the Fund on the expiration date as realized gains from options written. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium received is less

than the amount paid for the closing purchase transaction, as a realized loss.

If a call option is exercised, the premium received is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium received reduces the cost basis of the security or currency purchased by the Fund. In writing an option, the Fund bears the market risk of an unfavorable change in the price of the security or currency underlying the written option. Exercise of an option written by the Fund could result in the Fund selling or buying a security or currency at a price different from the current market value.

The Fund may also invest in options on swap agreements, also called swaptions. A swaption is an option that gives the buyer the right, but not the obligation, to enter into a swap on a future date in exchange for paying a market-based premium. A receiver swaption gives the owner the right to receive the total return of a specified asset, reference rate, or index. A payer swaption gives the owner the right to pay the total return of a specified asset, reference rate, or index. Swaptions also include options that allow an existing swap to be terminated or extended by one of the counterparties.

NOTE N: Loans of Portfolio Securities

A Portfolio may make secured loans of its securities. The risk in lending securities, as with other extensions of credit, consists of possible loss of rights in the collateral should the borrower fail financially. In addition, a Portfolio will be exposed to the risk that the sale of any collateral realized upon the borrower’s default will not yield proceeds sufficient to replace the loaned securities.

In determining whether to lend securities to a particular borrower, the Investment Manager will consider all relevant facts and circumstances, including the creditworthiness of the borrower.

While securities are on loan, the borrower may pay a Portfolio concerned any income from the securities. A Portfolio may invest any cash collateral in money market instruments, thereby earning additional income, or receive an agreed upon amount of income from a borrower who has delivered equivalent collateral.

A Portfolio may have the right to regain record ownership of loaned securities or equivalent securities in order to exercise

ownership rights such as voting rights, subscription rights and rights to dividends, interest or distributions. The Portfolio may pay reasonable finders’, administrative and other fees in connection with a loan.

For making secured loans of its securities, a Portfolio receives gross fee income, of which 20% is paid to the securities lending agent for providing securities lending services.

For the year ended August 31, 2023, the Portfolios earned a net fee income, which is presented in Statement of Operations and Changes in Net Assets under “Securities lending income, net”.

For the year ended August 31, 2023, Brown Brothers Harriman & Co. (acting as securities lending agent) earned a fee of \$77,999 for providing securities lending services. This is included in the Statement of Operations and Changes in Net Assets under “Securities lending income, net”. The value of loaned securities and related collateral outstanding as of August 31, 2023, are as below. The collateral relates to securities held on the Portfolios.

NOTE O: Bank Facility

The Fund has access to an overdraft facility (the “Facility”), established with the Depository, intended to provide for short-term/temporary financing if necessary, subject to certain restrictions, in connection with abnormal redemption activity.

Each Portfolio of the Fund is limited to borrowing 10% of its respective net assets. Borrowings pursuant to the Facility are subject to interest at a mutually agreed upon rate and security by the underlying assets of each Portfolio.

NOTE P: Co-Management of Assets

For the purpose of effective management, where the investment policies of a Portfolio so permit, the Management Company may choose to co-manage assets of certain Portfolios within or outside the Fund. In such cases, assets of different Portfolios will be managed in common. The assets which are co-managed shall be referred to as a “pool”. These pooling arrangements are an administrative device designed to reduce operational and other expenses and do not change the legal rights and obligations of Shareholders. The pools do not constitute separate entities and are not directly accessible to investors. Each of the co-managed Portfolios shall remain entitled to its specific assets.

of the Asset Pool which is attributable to each respective participating Portfolio, with a reference to the Portfolio’s original participation in this Pool and will change in the event of additional allocation or withdrawals. The entitlements of each participating Portfolio to the co-managed assets apply to each and every line of investments of such pool.

Additional investments made on behalf of the co-managed Portfolios shall be allotted to such Portfolios in accordance with their respective entitlement, whereas assets sold shall be levied similarly on the assets attributable to each participating Portfolio.

Where assets of several Portfolios are pooled for the purposes of collective management, a record is maintained of the proportion

As of August 31, 2023, the Fund co-manages the assets of certain Portfolios within the Fund utilizing the following Pools:

Asset Pool	Participating Portfolios
ACM Bernstein-Global Growth Pool	Global Equity Blend Portfolio
ACM Global Investments-Global Value Pool.....	Global Equity Blend Portfolio

INDEPENDENT AUDITOR'S REPORT

To the Unitholders of AB FCPI

Opinion

We have audited the financial statements of AB FCP I (the “Fund”) and of each of its Portfolios, which comprise the statement of assets and liabilities and the portfolio of investments as at August 31, 2023, and the statement of operations and changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its Portfolios as at August 31, 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for opinion

We conducted our audit in accordance with the Law of July 23, 2016, on the audit profession (the “Law of July 23, 2016”) and with International Standards on Auditing (“ISAs”) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (“CSSF”). Our responsibilities under the Law of July 23, 2016, and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the *“réviseur d’entreprises agréé”* for the audit of the financial statements” section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (“IESBA Code”) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Managers of the Management Company (the “Board of Managers”) is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the *“réviseur d’entreprises agréé”* thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Managers for the financial statements

The Board of Managers is responsible for the preparation and fair presentation of these financial statements in accordance

with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Managers determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Managers is responsible for assessing the Fund’s and each of its Portfolios’ ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Managers either intends to liquidate the Fund or any of its Portfolios or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the *“réviseur d’entreprises agréé”* for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of *“réviseur d’entreprises agréé”* that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Law of July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of July 23, 2016, and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Managers.
- Conclude on the appropriateness of the Board of Managers’ use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund’s or any of its Portfolios’ ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of *“réviseur d’entreprises agréé”* to the related disclosures in the financial statements or, if

such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of report of “réviseur d’entreprises agréé”. However, future events or conditions may cause the Fund or any of its portfolios (except for the portfolio where a decision or an intention to close exists) to cease to continue as a going concern.

- In respect of the portfolio where a decision or an intention to close exists, we conclude on the appropriateness of the Board of Managers’ use of the non-going concern basis of accounting. We also evaluate the adequacy of the disclosures describing the non-going basis of accounting and reasons for its use. Our conclusions are based on the audit evidence obtained up to the date of our report of the “réviseur d’entreprises agréé”.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

As from January 1, 2023 information in relation to facilities for investors related to Article 92 1. b) to f) of the UCITS Directive for Austria, Croatia, Czech Republic, Denmark, Finland, France, Germany, Hungary, Iceland, Liechtenstein, Luxembourg, The Netherlands, Norway, Portugal, Romania, Slovakia and Sweden is available at www.eifs.lu/alliancebernstein. Facilities requirements for investors related to Article 92 1. a) of the UCITS Directive will be processed by AllianceBernstein (Luxembourg) S.à r.l.

The key information documents (KIDs) of the Fund are made available at www.alliancebernstein.com/go/kid.

Notice to Shareholders

If required by law and applicable regulations, notice to shareholders will be published in the *Recueil Electronique des Sociétés et Associations* (formerly the *Mémorial*) and in such other newspaper(s) in such countries as the Management Company may from time to time determine.

Changes in the Investment Portfolio

Changes in the Portfolio of Investments during the reporting year are available free of charge to the Shareholders at the registered office of the Management Company.

Controversial Weapons Policy

The Management Company arranges for the screening of companies globally for their corporate involvement in anti-personnel mines, cluster munitions and/or munitions made with depleted uranium. Where such corporate involvement has been verified, the Management Company's policy is not to permit the Fund to invest in securities issued by such companies.

Value at Risk

For UCITS the Value at Risk (VaR) can be measured on an absolute or a relative basis. VaR is a widely used risk measure of the risk of loss on a specific portfolio of financial assets.

For the Fixed Income Portfolios, the Investment Manager monitored the global exposure (market risk) utilizing the VaR

calculated on an absolute basis (pursuant to which the VaR of the relevant Portfolio may not exceed 20% of its NAV).

During the aforementioned fiscal year, the low, high and average VaR of the Portfolios measured on an absolute basis were as follows:

Portfolio	Low	High	Average
Dynamic Diversified Portfolio.....	5.23%	14.32%	6.20%
Short Duration Bond Portfolio.....	0.44%	2.24%	0.93%
Global High Yield Portfolio.....	2.73%	5.18%	3.65%
American Income Portfolio.....	3.18%	4.67%	3.84%
European Income Portfolio.....	3.02%	4.89%	3.79%
Emerging Markets Debt Portfolio.....	1.79%	4.95%	4.41%
Mortgage Income Portfolio.....	0.44%	2.12%	0.69%

The VaR of the Portfolios and the VaR of the benchmarks were calculated based on a “historical” model with a 99%

confidence level and an observation period of one month or 20 days.

Leverage

For the Portfolios listed below, the Investment Manager does not expect to utilize bank borrowing in implementing the Portfolios' investment strategy.

As a result of using the sum of notionals approach the average leverage of the Portfolios for the year ended August 31, 2023 was:

The expected level of leverage is calculated as the sum of the notionals of the financial derivative instruments held by the Portfolio. Pursuant to the CSSF Circular 11/512 dated May 30, 2011, this calculation methodology neither takes into account the fact that a particular financial derivative instrument increases or decreases the Portfolio's investment risks nor permits to net financial derivative instruments with reverse positions. Shareholders should be aware that (i) a higher level of expected leverage does not automatically imply a higher level of investment risk and (ii) the expected level of leverage disclosed above is mainly generated by the use of derivatives for hedging purposes or for efficient portfolio management. In addition, the actual leverage of the Portfolio may deviate from the below mentioned expected level of leverage:

Portfolio	Leverage
Dynamic Diversified Portfolio.....	97.06%
Short Duration Bond Portfolio.....	113.66%
Global High Yield Portfolio.....	34.22%
American Income Portfolio	42.43%
European Income Portfolio.....	56.74%
Emerging Markets Debt Portfolio.....	20.68%
Mortgage Income Portfolio.....	14.18%

- Dynamic Diversified Portfolio
0%-300% range of the NAV of the Portfolio
- Short Duration Bond Portfolio
0%-150% range of the NAV of the Portfolio
- Global High Yield Portfolio
0%-100% range of the NAV of the Portfolio
- American Income Portfolio
0%-100% range of the NAV of the Portfolio
- European Income Portfolio
0%-100% range of the NAV of the Portfolio
- Emerging Markets Debt Portfolio
0%-100% range of the NAV of the Portfolio
- Mortgage Income Portfolio
0%-100% range of the NAV of the Portfolio

For the Portfolios listed below the Investment Manager used the commitment approach pursuant to the CSSF Circular 11/512 dated May 30, 2011 to monitor global exposure (market risk) resulting from the use of financial derivative instruments. Consequently, the net derivatives exposure created by derivative transactions combined with cash and other assets will closely approximate the NAV of the Portfolio.

As a result of using the commitment approach, the average leverage of the Portfolios for the year ended August 31, 2023 was:

Portfolio	Leverage
Global Equity Blend Portfolio	5.01%
Emerging Markets Growth Portfolio	1.07%
Asia Ex-Japan Equity Portfolio.....	0.97%
Japan Strategic Value Portfolio.....	0.03%
China Low Volatility Equity Portfolio.....	0.00%

Remuneration

From January 1, 2022 until December 31, 2022 (the “Reference Period”), the total amount of remuneration paid—in cash and/or restricted securities—by the Management Company to its entire staff (composed during the Reference Period in average of 99 employees) was EUR 21,184,729.

Company whose actions may have a material impact on the risk profile of the Management Company or falling within the remuneration bracket of senior management and risk takes (during the Reference Period, none) and c) control functions (during the Reference Period, one).

In particular, during the Reference Period, the total amount of remuneration mentioned above was split into fixed and variable remuneration as follows:

No fees based on the performance of the Fund or carried interest are used to remunerate employees of the Company.

- Fixed remuneration: EUR 11,214,290
- Variable remuneration: EUR 9,970,439

During the Reference Period, no remuneration was paid by the Fund and/or the Company to the identified staff of the Investment Manager.

During the Reference Period, the total amount of remuneration paid to identified staff, which is composed during the Reference Period, by 5 employees, was EUR 1,285,268 (split as follows: fixed remuneration EUR 905,584 and variable remuneration EUR 379,684) - representing less than 6% of the total remuneration.

Please note that above figures are provided for all services provided by the Company, and they do not represent a breakdown at the level of the Fund.

Identified staff mentioned above are composed by the following categories of employees: a) senior management (during the Reference Period, four), b) members of staff of the Management

Detailed information relating to—amongst others—the financial and non-financial criteria of the remuneration policies and practices, on decision-making process used to determine the remuneration policy, and on how pay and performance are linked are available in the Remuneration Statement published on AB Global website at the following address: www.alliancebernstein.com/go/remuneration_policy

Over the Reference Period, a review of the Remuneration Policy and of its implementation has been carried out and it did not evidence any irregularity. Finally, no material changes on

the Remuneration Policy as it was initially designed occurred over the Reference Period.

Securities Financing Transaction Regulation

The Securities Financing Transaction Regulation (“the SFTR”) introduces reporting requirements for securities financing transactions (“SFTs”) and total return swaps.

A SFT is defined as per Article 3(11) of the SFTR as:

- a repurchase/reverse repurchase agreement;
- securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction; or
- a margin lending transaction.

As at August 31, 2023 the Fund was engaged in securities lending and held total return swaps (TRS) as type of transaction in scope of the SFTR.

Taxonomy disclosure

The following Funds have been categorised as Article 6 financial products for the purposes of the Sustainable Finance Disclosure Regulation. For the purpose of the Taxonomy Regulation, it should be noted that the investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Portfolio in scope:

- Emerging Markets Debt Portfolio

Sustainability-Related Disclosures

Product name: Asia Ex-Japan Equity Portfolio

Legal entity identifier: 5493000X8WIUONC9A180

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective 		
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments		

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- The environmental and/or social characteristics (“E/S Characteristics”) promoted by the Portfolio included:
- ESG Integration: AB used fundamental research, including the consideration of ESG Factors, to assess target issuers.
 - Engagement: AB encouraged companies to undertake actions that may promote better outcomes for environmental and social objectives as well as benefits to financial outcomes of the issuer and/or the Portfolio.
 - Exclusions: The Portfolio was in compliance with the exclusions mentioned in the prospectus.

More information on these characteristics can be found in AB’s Sustainability-Related Disclosures www.alliancebernstein.com/go/EQ8webdisclosures and more information on the AB Stewardship Approach can be found at www.alliancebernstein.com/go/ABGlobalStewardship

● **How did the sustainability indicators perform?**

AB measures the attainment of E/S Characteristics promoted through various quantitative and qualitative methodologies including the measurement of documented ESG research, engagement, and relevant investment exclusions, subject to satisfactory data and data sourcing.

In the year to 31 August 2023, 85 % of the securities held by the Portfolio was deemed to promote E/S Characteristics through documented ESG research and engagement on environmental and social issues. Specifically, in the year to 31 August 2023, there were 128 ESG engagement entries with 99 distinct companies held in the Portfolio. For these engagements, there were 90 discussions of environmental issues, and 69 discussions of social issues (for the avoidance of doubt, an engagement entry may include discussions on multiple topics). The most frequently discussed E/ S issues were Carbon Emissions, Net Zero, Employee Health & Safety, Diversity & Inclusion & Opportunities in Clean Tech.

AB has monitored the compliance with the exclusions listed in the prospectus and confirms they were met.

● **...and compared to previous periods?**

N/A

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

The Portfolio considered the following PAIs:

- Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises (#10)
- Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises (#11)
- Exposure to controversial weapons (#14)

For PAIs 10 and 11, AB monitored for breaches of the UN Global Compact principles for securities held by the Portfolio. As at 31 August 2023, 6% of the securities held by the Portfolio were in violation of the UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises. Over the same time period, 61% of the Portfolio had a lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises (this percentage also includes securities that have no data on these processes).

For PAI 14, the Portfolio excluded controversial weapons. As at 31 August 2023, 0% of the securities held by the Portfolio had exposure to controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: September 1, 2022 to August 31, 2023

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

- #1 Aligned with E/S characteristics: 85%
- #2 Other: 15%

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

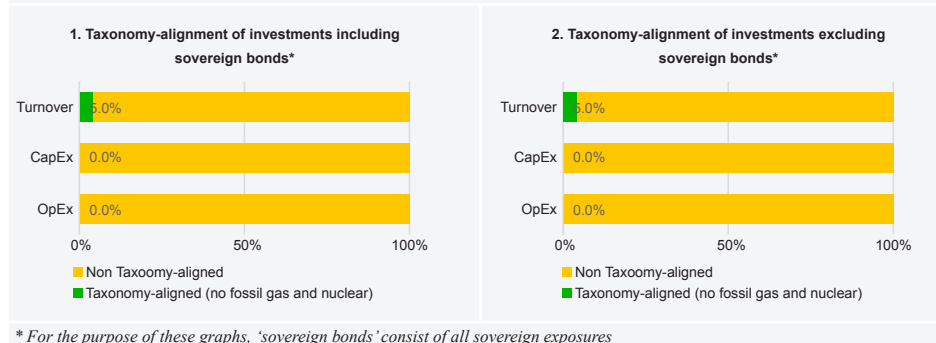

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?**

- Yes:
 In fossil gas In nuclear energy
 No

As of the date of this report, there is currently no data to measure whether the Portfolio has invested in fossil gas and/or nuclear energy related activities that comply with the EU taxonomy. It may, as a result of the implementation of its specific investment strategy, hold investments having a marginal exposure to such activities but until there is external vendor data enabling measurement of such exposure, the Portfolio does not commit to any minimum exposure.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

As of the data of this report, for Taxonomy alignment indicators Capex and Opex, AB does not have access to suitable data to accurately report on those indicators.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

As of the data of this report, AB does not have access to suitable data to accurately report on transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

N/A

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

This included:

- Securities that AB believed could be held by the Portfolio in order to achieve its investment objective but were not deemed to promote E/S Characteristics, subject to satisfaction of AB's Good Governance Policy.
- Cash and cash-equivalents held as liquidity, risk management purposes, or collateral management purposes.
- Derivatives used for the purposes outlined in the Prospectus.

For these assets, there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Portfolio promoted E/S Characteristics by holding securities that AB believed promoted E/S Characteristics. A security was deemed to promote one or more E/S Characteristics if the following binding elements were satisfied:

- Documented ESG integration via evidenced ESG research and Engagements. As of 31 August 2023, 89% of the Portfolio met this criteria.
- During the reference period, as applicable, all issuers of securities were compliant with AB's Good Governance Policy.
- The Portfolio's investment exclusions were all met.

How did this financial product perform compared to the reference benchmark?

The Portfolio did not use a designated reference benchmark for measuring sustainability or determining E/S Characteristics.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

As of the data of this report, for Taxonomy alignment indicators Capex and Opex, AB does not have access to suitable data to accurately report on those indicators.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

● **What was the share of investments made in transitional and enabling activities?**

As of the data of this report, AB does not have access to suitable data to accurately report on transitional and enabling activities.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

N/A

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

This included:

- Securities that AB believed could be held by the Portfolio in order to achieve its investment objective but were not deemed to promote E/S Characteristics, subject to satisfaction of AB’s Good Governance Policy.
- Cash and cash-equivalents held as liquidity, risk management purposes, or collateral management purposes.
- Derivatives used for the purposes outlined in the Prospectus.

For these assets, there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Portfolio promoted E/S Characteristics by holding securities that AB believed promoted E/S Characteristics. A security was deemed to promote one or more E/S Characteristics if the following binding elements were satisfied:

- Documented ESG integration via evidenced ESG research and Engagements. As of 31 August 2023, 91% of the Portfolio met this criteria.
- During the reference period, as applicable, all issuers of securities were compliant with AB’s Good Governance Policy.
- The Portfolio’s investment exclusions were all met.

How did this financial product perform compared to the reference benchmark?

The Portfolio did not use a designated reference benchmark for measuring sustainability or determining E/S Characteristics.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or lowcarbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

- Yes:
 In fossil gas In nuclear energy
 No

There is currently no data to measure whether the Portfolio has invested in fossil gas and/or nuclear energy related activities that comply with the EU taxonomy. It may, as a result of the implementation of its specific investment strategy, hold investments having a marginal exposure to such activities but until there is external vendor data enabling measurement of such exposure, the Portfolio does not commit to any minimum exposure.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Taxonomy-aligned activities are expressed as a share of:

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Portfolio promoted E/S Characteristics by holding securities that AB believed promoted E/S Characteristics. A security was deemed to promote one or more E/S Characteristics if the following binding elements were satisfied:

- Documented ESG integration via evidenced ESG research and Engagements. As of 31 August 2023, 88% of the Portfolio met this criteria.
- During the reference period, as applicable, all issuers of securities were compliant with AB’s Good Governance Policy.
- The Portfolio’s investment exclusions were all met.

How did this financial product perform compared to the reference benchmark?

The Portfolio did not use a designated reference benchmark for measuring sustainability or determining E/S Characteristics.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental and/or social characteristics (“E/S Characteristics”) promoted by the Portfolio included:

- ESG Integration: AB used fundamental research, including the consideration of ESG Factors, to assess target issuers. This included engagements where AB encouraged issuers to undertake actions that may promote better outcomes for environmental and social objectives as well as benefits to financial outcomes of the issuer and/or the Portfolio.
- ESG Scoring: AB used its proprietary scoring methodology to score issuers using ESG Factors.
- Exclusions: The Portfolio was in compliance with the exclusions mentioned in the prospectus.

● How did the sustainability indicators perform?

AB measured the attainment of E/S Characteristics promoted through various quantitative and qualitative methodologies including the measurement of documented ESG research, ESG scoring, engagement, and relevant investment exclusions, subject to satisfactory data and data sourcing.

As at 31st August 99% of the Portfolio possessed an ESG score based on AB’s proprietary methodology, and in the year to 31st August 92 % of the Portfolio was deemed to promote E/S Characteristics on the basis of this ESG research and scoring, as well as engagement on environmental and social issues.

Specifically, in the year to 31st August 2023, there were 176 ESG engagements with 123 distinct issuers held in the portfolio. For these engagements, there were 112 discussions of environmental issues, and 96 discussions of social issues (for the avoidance of doubt, an engagement entry may include discussions on multiple topics). The topics discussed most in these engagements were: Carbon emissions, Human Capital Development, Diversity & Inclusion, Net Zero and Opportunities in Renewable Energy.

AB has monitored the compliance with the exclusions listed in the prospectus and confirms they were met.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

The Portfolio considered the following PAIs:

- Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises (#10)
- Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises (#11)
- Exposure to controversial weapons (#14)

For PAIs 10 and 11, AB monitored for breaches of the UN Global Compact principles for securities held by the Portfolio. As at 31 August 2023, 1% of the securities held by the Portfolio were in violation of the UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises. Over the same time period, 32% of the Portfolio had a lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises (this percentage also includes securities that have no data on these processes).

For PAI 14, the Portfolio excluded controversial weapons. As at 31 August 2023, 0% of the securities held by the Portfolio had exposure to controversial weapons.

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

- **What was the asset allocation?**
 - #1 Aligned with E/S characteristics: 92%
 - #2 Other: 8%

● **In which economic sectors were the investments made?**

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?**

- Yes:
- In fossil gas
 - In nuclear energy
- No

As of the date of this report, there is currently no data to measure whether the Portfolio has invested in fossil gas and/or nuclear energy related activities that comply with the EU taxonomy. It may, as a result of the implementation of its specific investment strategy, hold investments having a marginal exposure to such activities but until there is external vendor data enabling measurement of such exposure, the Portfolio does not commit to any minimum exposure.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

As of the data of this report, for Taxonomy alignment indicators Capex and Opex, AB does not have access to suitable data to accurately report on those indicators.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

As of the data of this report, AB does not have access to suitable data to accurately report on transitional and enabling activities.

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

- #1 Aligned with E/S characteristics: 89%
- #2 Other: 11%

● **In which economic sectors were the investments made?**

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?**

- Yes:
- In fossil gas In nuclear energy
- No

As of the date of this report, there is currently no data to measure whether the Portfolio has invested in fossil gas and/or nuclear energy related activities that comply with the EU taxonomy. It may, as a result of the implementation of its specific investment strategy, hold investments having a marginal exposure to such activities but until there is external vendor data enabling measurement of such exposure, the Portfolio does not commit to any minimum exposure.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

As of the data of this report, for Taxonomy alignment indicators Capex and Opex, AB does not have access to suitable data to accurately report on those indicators.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

● **What was the share of investments made in transitional and enabling activities?**

As of the data of this report, AB does not have access to suitable data to accurately report on transitional and enabling activities.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

N/A

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

This included:

- Securities that AB believes can be held by the Portfolio in order to achieve its investment objective but are not deemed to promote E/S Characteristics, as outlined above, subject to satisfaction of AB’s Good Governance Policy.
- Derivatives used for hedging purposes.

For these assets, there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Portfolio promoted E/S Characteristics by holding securities that AB believed promoted E/S Characteristics.

A security was deemed to promote one or more E/S Characteristics if the following binding elements were satisfied:

- Documented ESG integration via evidenced ESG research and Engagements.
- ESG Scoring where issuers were scored using ESG Factors. As of 31 August 2023, 96% of the Portfolio had an ESG score.
- During the reference period, as applicable, all issuers of securities were compliant with AB’s Good Governance Policy.
- The Portfolio’s investment exclusions were all met.

How did this financial product perform compared to the reference benchmark?

The Portfolio did not use a designated reference benchmark for measuring sustainability or determining E/S Characteristics.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental and/or social characteristics (“E/S Characteristics”) promoted by the Portfolio included:

- ESG Integration: AB used fundamental research, including the consideration of ESG Factors, to assess target issuers. This included engagements where AB encouraged issuers to undertake actions that may promote better outcomes for environmental and social objectives as well as benefits to financial outcomes of the issuer and/or the Portfolio.
- ESG Scoring: AB used its proprietary scoring methodology to score issuers using ESG Factors.
- Exclusions: The Portfolio was in compliance with the exclusions mentioned in the prospectus.

More information on these characteristics can be found in AB’s Sustainability-Related Disclosures www.alliancebernstein.com/go/FI8webdisclosures and more information on the AB Stewardship Approach can be found at www.alliancebernstein.com/go/ABGlobalStewardship

● How did the sustainability indicators perform?

AB measured the attainment of E/S Characteristics promoted through various quantitative and qualitative methodologies including the measurement of documented ESG research, ESG scoring, engagement, and relevant investment exclusions, subject to satisfactory data and data sourcing.

As at 31st August 97% of the Portfolio possessed an ESG score based on AB’s proprietary methodology, and in the year to 31st August 90% of the Portfolio was deemed to promote E/S Characteristics on the basis of this ESG research and scoring, as well as engagement on environmental and social issues.

Specifically, in the year to 31st August 2023, there were 4 ESG engagements with 2 distinct issuers held in the portfolio. For these engagements, there were 4 discussions of environmental issues, and 2 discussions of social issues (for the avoidance of doubt, an engagement entry may include discussions on multiple topics). The topics discussed most in these engagements were: Opportunities in Financial Inclusion and Climate Change Vulnerability.

AB has monitored the compliance with the exclusions listed in the prospectus and confirms they were met.

How did the sustainability indicators perform?

AB measured the attainment of E/S Characteristics promoted through various quantitative and qualitative methodologies including the measurement of documented ESG research, ESG scoring, engagement, and relevant investment exclusions, subject to satisfactory data and data sourcing.

As at 31st August 64% of the Portfolio possessed an ESG score based on AB’s proprietary methodology, and in the year to 31st August 79% of the Portfolio was deemed to promote E/S Characteristics on the basis of this ESG research and scoring, as well as engagement on environmental and social issues.

Specifically, in the year to 31st August 2023, there were 450 ESG engagements with 260 distinct issuers held in the portfolio. For these engagements, there were 260 discussions of environmental issues, and 288 discussions of social issues (for the avoidance of doubt, an engagement entry may include discussions on multiple topics). The topics discussed most in these engagements were: Carbon Emissions, Diversity & Inclusion, Human Capital Development, Labor Management and Net Zero

AB has monitored the compliance with the exclusions listed in the prospectus and confirms they were met.

● ...and compared to previous periods?

N/A

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

The Portfolio considered the following PAIs:

- Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises (#10)
- Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises (#11)
- Exposure to controversial weapons (#14)

For PAIs 10 and 11, AB monitored for breaches of the UN Global Compact principles for securities held by the Portfolio. As at 31 August 2023, 0% of the securities held by the Portfolio were in violation of the UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises. Over the same time period, 12% of the Portfolio had a lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises (this percentage also includes securities that have no data on these processes).

For PAI 14, the Portfolio excluded controversial weapons. As at 31 August 2023, 0% of the securities held by the Portfolio had exposure to controversial weapons.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: September 1, 2022 to August 31, 2023

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● **What was the asset allocation?**

- #1 Aligned with E/S characteristics: 79%
- #2 Other: 21%

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?**

- Yes:
 - In fossil gas In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

As of the data of this report, for Taxonomy alignment indicators Capex and Opex, AB does not have access to suitable data to accurately report on those indicators.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

N/A

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

N/A

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

This included:

- Securities that AB believes can be held by the Portfolio in order to achieve its investment objective but are not deemed to promote E/S Characteristics, as outlined above, subject to satisfaction of AB’s Good Governance Policy.
- Cash and cash-equivalents held as liquidity, risk management purposes, or collateral management purposes.
- Derivatives used for the purposes outlined in Portfolio Details in the Prospectus. Exposure to securities that promote E/S Characteristics will be captured in #1 Aligned with E/S Characteristics.

For these assets, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Portfolio promoted E/S Characteristics by holding securities that AB believed promoted E/S Characteristics.

A security was deemed to promote one or more E/S Characteristics if the following binding elements were satisfied:

- Documented ESG integration via evidenced ESG research and Engagements.
- ESG Scoring where issuers were scored using ESG Factors. As of 31 August 2023, 64% of the Portfolio had an ESG score.
- During the reference period, as applicable, all issuers of securities were compliant with AB’s Good Governance Policy.
- The Portfolio’s investment exclusions were all met.

How did this financial product perform compared to the reference benchmark?

The Portfolio did not use a designated reference benchmark for measuring sustainability or determining E/S Characteristics.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.
