安盛環球基金  
(簡稱「基金」)

2022年12月31日之年報

## 查核報告

### 致安盛環球基金股東

#### 本事務所之意見

本所認為，後附之財務報表符合盧森堡有關財務報表編制及表達之法律及監管規定，真實且公允地表達安盛環球基金及其旗下各子基金（下稱「本基金」）截至 2021 年 12 月 31 日之財務狀況、經營成果及該年度結束時之淨資產變動。

#### 本事務所查核之事項

包含下列報表之本基金財務報表：

- 截至 2022 年 12 月 31 日之淨資產表；
- 截至 2022 年 12 月 31 日之投資與其他淨資產表；
- 該年度結束時之營運與淨資產變動表；及
- 財務報表附註，包括重大會計政策之摘要。

#### 意見之基礎

本事務所依據西元 2016 年 7 月 23 日有關審計專業之法律（「2016 年 7 月 23 日法」）及盧森堡金融業監管委員會（CSSF）所採用之國際審計準則（ISA）進行查核。本所依據此等 2016 年 7 月 23 日法及 CSSF 所採用之 ISA 責任，載於本報告之「會計師對查核財務報表的責任」一節。

本所相信所取得之查核憑證作為本所意見之基礎已屬充份且適當。

本所依 CSSF 於盧森堡所採用之國際會計師倫理標準委員會之專業會計師倫理守則及查核會計報表所要求的相關倫理規範係獨立於本基金。本所已履行此等倫理規範下之其他倫理責任。

#### 其他資訊

本基金董事會應對其他資訊負責。其他資訊包括年報內的訊息，但不包括財務報表及本事務所之查核報告。

本所對財務報表的意見並不涵蓋其他資訊，亦不對該等其他資訊表達任何形式的保證。

就財務報表的查核，本所有責任閱讀上述其它資訊，並考慮其它資訊是否與財務報表或本所在查核過程中所了解的情況存有重大歧異或者存在重大錯誤陳述的情況。倘基於本所執行的工作，本所認為其它資訊存在重大錯誤陳述，本所應報告此事實。就此，本所無需報告之事項。

### **本基金董事會對財務報表的責任**

本基金董事會負責財務報表的編制及允當表達，以符合盧森堡有關財務報表編制及表達之法律及監管要求，並負責必要的內部控制，使財務報表的編制無詐欺或錯誤所致的重大錯誤陳述。

在編制財務報表時，本基金董事會負責評估本基金持續經營的能力，並在適用情況下揭露與持續經營有關的事項，以及使用持續經營為會計基礎，除非基金董事會有意將本基金清算或停止運作，或別無其他實際的替代方案。

### **會計師對查核財務報表的責任**

本所查核的目標係對財務報表整體是否不存在因詐欺或錯誤所致之重大錯誤陳述取得合理確信，並出具包括本所意見的查核報告。合理確信係高度的確認，但不能保證凡依 2016 年 7 月 23 日法及盧森堡金融業監管委員會所採用的國際審計準則所執行的審查均可查到的重大錯誤陳述。錯誤陳述可能來自於詐欺或錯誤，且倘就個別或整體而言，可合理的預期會影響到財務報表使用者所作的投資決策之情況，應認為係屬重大。

根據 2016 年 7 月 23 日法及盧森堡金融業監管委員會所採用的國際審計準則，本所在查核過程中，全程落實專業判斷並保持專業懷疑的態度。本所同時：

- 辨別並評估由於詐欺或錯誤而導致財務報表存在重大錯誤陳述的風險，設計和執行查核程序以因應該等風險，並取得充足與適當的查核證據，作為本所表達意見的基礎。由於詐欺可能涉及串謀、偽造、蓄意遺漏、虛假陳述，或忽視內控，因此，未能發現因詐欺而導致的重大錯誤陳述風險高於未能發現因錯誤而導致的重大錯誤陳述的風險；
- 瞭解審計相關的內部控制，俾以設計適當的查核程序，但目的並非對本基金內部控制的有效性發表意見；
- 評估本基金董事會所採用會計政策的適當性暨會計預估與相關揭露的合理性；
- 對本基金董事會採用持續經營會計基礎的適當性作出結論，並根據所獲得的查核證據，

確定是否存在與事件或情況有關的重大不確定性，從而可能導致對基金持續經營能力產生重大疑慮。倘本所認為存在重大不確定性，則應在查核報告中提請注意財務報表中的相關揭露，倘若相關的揭露不恰當，則應修改本所之意見。本所的結論是基於截至查核報告日所取得的查核證據。然而，未來的事件或情況可能導致本基金或任何子基金(除 AXA World Funds- China Domestic Growth Equity <sup>1</sup>已決定清算)不能持續經營；

- 評價整體財務報表的表達、結構和內容，包括揭露，以及財務報表是否允當表述各項交易和事件。

我們與治理層溝通一些事項，其中包括對於查核的規畫範圍和時間安排，以及重大查核發現等，包括本所在查核過程中發現的任何內部控制重大缺失。

## Directors' Report

Dear Shareholders,

The Board of Directors of the Management Company is pleased to report on the progress of your SICAV for 2022.

### 2022 Global macro summary

#### Macroeconomic background

2022 was a historic year for all the wrong reasons. No sooner had the global economy started to recover from the Covid shock, than the invasion of Russia by Ukraine dramatically changed the scenario and in particular the outlook for inflation. Inflation skyrocketed as energy and wider commodity and food prices surged. As a result, central banks were forced to accelerate monetary policy tightening by raising rates and reversing direction to shrink balance sheets. Even if growth held up relatively well across 2022 as a whole, the outlook deteriorated and the risk of recessions were mounting by the close of the year.

In the Eurozone, the invasion of Ukraine by Russia triggered sanctions and retaliatory measures particularly on gas supply. Energy prices soared driving consumer prices to a high of 10.6% y/y in October, before retreating a little to 9.2% before year-end. Economic activity held up well in H1, with quarterly expansion of 0.6% and 0.8% in Q1 and Q2, due in a large part to pent up demand post Covid. However, growth had started to soften in H2, slowing to 0.3% in Q3 with a likelihood of outright contraction in Q4, which would leave annual growth around 3.25% for the year as a whole. This pattern was echoed across the larger Eurozone economies, with some variation earlier in the year reflecting the timing of COVID re-opening, particularly for Germany which recorded a 0.8% quarterly rise in Q1, on an earlier re-opening, a softer Q2 of 0.1% and still resilient growth of 0.4% in Q3. Preliminary official estimates of German GDP growth in 2022 were 1.8%, implying around a 0.5% contraction in Q4. The solid growth for the year as whole also underpinned a fall in unemployment from a high of 8.3% in January to 6.5% by November. This combination of surging inflation, falling unemployment and solid, if softening growth, drove the ECB to reverse its monetary policy accommodation, first by ending quantitative easing (QE), then by following a sharp pace of interest rate hikes (+250bps in 2022 to 2% in December) and ending the year with a promise of further hikes and a planned shrinkage of the balance sheet for 2023. On the political front, Emmanuel Macron was elected for a second mandate but lost his absolute majority in the Assembly. In Italy, Giorgia Meloni and her party Fratelli di Italia were elected and formed a coalition Government with the Lega and Forza Italia.

The UK was also impacted by the war in Ukraine and the surge in energy prices. Inflation surged reaching 9% in April and peaking at 11.1% in October as utility bill increases fed through to the consumer. The rising cost-of-living crisis began to weigh on economic activity in Q2, further slowing growth from a robust COVID rebound pace at the close of 2021, to see quarterly expansion of 0.6% in Q1 and 0.1% in Q2. Growth contracted by 0.3% in Q3 – the number somewhat distorted by impact of the funeral of Queen Elizabeth II. But further contraction is expected in Q4, marking a recession that we expect to last into mid-2023. Despite that the labour market remained tight, unemployment falling from 4% at the start of the year to 3.5% over the summer, before rising a little to 3.7% in the 3-months to October. Political chaos also impacted the economy with Prime Minister Boris Johnson finally compelled to leave office over numerous offences. His eventual replacement Liz Truss lasted just 45 days, but in that time prompted a bond-market crisis with an ill-advised fiscal stimulus package that required Bank of England intervention policy to avert a full blown crash. The Bank of England also continued to tighten policy, raising rates by 325bp to 3.50% over 2022 and shrinking its balance sheet with both passive and active gilt sales.

## Directors' Report

### 2022 Global macro summary (continued)

The US also saw a sharp rise in inflation, led by supply-chain disruptions and energy and commodity costs, but compounded over the year by a further tightening of the domestic labour market. Annual inflation peaked in June at 9.1% and subsequently fell back to 6.5% on a headline basis in December (core from 6.6% in September to 5.7% in December). US unemployment fell from 4% in January to a joint 50-year low of 3.5% in December as strong employment gains met subdued labour supply. This was despite US GDP contracting in the first two quarters of the year by quarterly 0.4% and 0.1% respectively, before rebounding by 0.8% in Q3. Q4 is also expected to be relatively solid, likely to leave annual growth around 2% for the year as a whole. The Federal Reserve was forced to accelerate its monetary response in the face of rising inflation and a tight labour market as it first ended QE, then embarked on its fastest pace of tightening since the 1980s, including four successive 75bp increases, taking the Fed Funds Rate (upper limit) to 4.50% by year end from 0.25% at the start of the year. The Fed also began a faster pace of quantitative tightening from June. On the political front, President Biden and the Democratic party did better than expected at the mid-terms, but still lost the majority holding in the House, although improved their majority in the Senate.

China had a challenging year with an ongoing severe correction of the property sector alongside economic difficulties caused by the continuation of its zero Covid strategy, which led to restrictions being reimposed in various regions across the year. This looks set to slow growth to around 3% for 2022, which barring 2020, would be the weakest annual year's growth for China on records back to 1980. The Chinese government provided a raft of measures to bolster economic activity, including fiscal and modest monetary policy supports. However, the most impactful changes came late in the year with a rapid exit from the zero Covid policy and further support for the property sector, alongside a shift in other regulatory areas. These measures are expected to be positive for growth in the medium term across 2023, but the short term outlook remains highly uncertain as infections and mortality rates have soared.

In Japan, inflation also hit record highs – albeit that nationwide CPI was expected to only reach 4% by year-end, this was still the highest rate of inflation since 1990 - with again the primary cause being energy prices. Japan had been slower to recover from COVID with Q1 GDP contracting by a quarterly 0.5%, before a strong 1.1 rebound was recorded in Q2. Growth fell by 0.2% again in Q3 and is expected to come in around 1.5% for the year as a whole. The supply-side nature of the inflation shock and Japan's decades of combatting deflationary risks saw the Bank of Japan remain the only major central bank to be providing monetary policy accommodation. This led to a sharp depreciation of the yen, compounding the inflation issue. The Bank of Japan left policy unchanged throughout most of 2022, unexpectedly widening the parameters of its yield curve control to 50bps from 25bps late in 2022.

### Financial markets

Against this background, equity markets corrected sharply whilst also experiencing strong bouts of volatility. At the beginning of the year, equity markets dropped as the war began and interest rates rose before recovering somewhat especially in the Eurozone from mid-October. Over the year (31 December 2021 – 30 December 2022), the MSCI AC World declined by -1.6% in local currency and by -12.8% in Euros. However, this hides some large differences between countries. The US has a terrible year (-20.7%) as did the Swiss markets at -17.1%. Eurozone equities fell a little less at -12.5% and individual country performance was disparate (France -7.7%, Germany -17.3%, Italy -8.8%, Spain -1.2% and Portugal +6.8%). The UK market rose by 7% which the Pacific region was flat in Euros. Emerging markets had a poor year, falling -14.9% in Euros and -20.1% in USD. In terms of sector performance, energy, utilities, healthcare, and consumer staples outperformed. Telecoms, consumer discretionary, technology and real estate had the worst performance (MSCI World sectors). Large caps outperformed small caps and the MSCI Europe in Euro declined by -9.5% versus -22.5% for the MSCI Europe Small Caps.

## Directors' Report

### 2022 Global macro summary (continued)

Fixed Income markets also suffered from the rise in inflation and the change of Central Bank monetary policy. As the Federal Reserve hiked rates to 4.25%, 10-year Treasury yields rose by 236bp to 3.87% after hitting a peak of 4.33% in the Autumn. In the Eurozone, the ECB tightened rates to 2.5% which also led to much higher bond yields. 10-year Bund yields surged to end at 2.57% and to 3.12% in France. Peripheral yields also rose sharply. BPT 10-year yields ended at 4.72%. UK 10-year Gilts closed at 3.67% but hit a high of 4.64% in October. Credit performance was also hit; spreads widened sharply up until the Autumn before tightening again somewhat as inflation data seemed to slow and expectations of even higher discount rates faded. The Bloomberg Global Aggregate index – representative of a global investment grade universe fell by -14.5% (performance hedged in Euros). Index linked bonds outperformed nominal bonds.

2022 was also a year of extreme currency movement. Most of the year was dominated by a surge in the US dollar, which rose by nearly 20% against a basket of currencies. The dollar's surge was a combination of the Fed's more proactive monetary tightening and the support that usually accompanies the world's reserve currency when risk appetite diminishes sharply. Yet this dollar surge reversed at the end of Q3 and the final quarter of the year saw a near 10% fall as policy tightening from other central banks accelerated and risk sentiment began to level out. The dollar's surge was marked against a number of currencies where the central banks were slower to adjust monetary policy, including the euro (which fell by 15.6% to \$0.96 in September), the yen (23.3% to ¥150) and the Swiss Franc (10% to CHF 1.01). However, from these lows, each has recovered somewhat in the last few months of the year (the euro up 11.6% to \$1.07, the yen up 14.5% to ¥131 and the Swiss franc up 9.6% to CHF 0.92), compounded by growing expectations of Federal Reserve rate cuts next year.

On the commodity front, oil appreciated by 9.7% (Brent in USD) whilst Gold was flat. On the agricultural side, corn rose by 23% but coffee fell 25% whilst within metals, copper fell -14%, Aluminium -15% but nickel gained +45%.

### Main SICAV's events during the year ending 31 December 2022

We inform you that the assets under management of the SICAV amount to EUR 36,470,004,472 as at 31 December 2022.

#### **I. Update of the performance fee mechanism disclosures**

Following the latest ESMA Guidelines on performance fees in UCITS and certain types of AIFs which apply to the Company as from 1 January 2022, it has been decided to enhance the disclosures relating to the performance fee in accordance with the CSSF practice and with the aforementioned ESMA Guidelines.

The Prospectus has been amended accordingly and is effective since 1 January 2022.

#### **II. Update of the disclosures regarding the use of SFTs in light of CSSF FAQ on the use of securities financing transactions by UCITS**

Based on the recent CSSF FAQ on the use of securities financing transactions by UCITS (the "FAQ"), a review of the Prospectus has been conducted to respond to the objective of the FAQ to bring further clarity and transparency to the disclosures to investors, revenues and costs/fees, conflict of interest (if any) and best execution concerning the use by the Company's relevant sub-funds of securities financing transactions ("SFTs"), thereby taking into account the applicable regulatory framework.

As a consequence, it has been decided to enhance the disclosures with respect to the use of SFTs both in the general part of the Prospectus and in the Sub-Funds' descriptions, where applicable, in order to increase the transparency and align the level of disclosure with the new regulatory and legal requirements.

These changes took effect on the date of the publication of the prospectus dated January 2022.

# Directors' Report

## Main SICAV's events during the year ending 31 December 2022 (continued)

### **III. SFDR Level I and Taxonomy disclosures**

The Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the "Taxonomy") requires certain financial products subject to the SFDR to also integrate pre-contractual disclosures regarding their alignment with the Taxonomy and other information in relation thereto.

This new transparency obligation applied as from 1 January 2022.

"Sustainable Investments and promotion of ESG characteristics" section has been amended in the introductory part of the Prospectus to add Taxonomy disclosures.

### **IV. Investment managers and sub-investment managers restructuring**

AXA Rosenberg Investment Management LLC merged into AXA Investment Managers Inc. due to an internal restructuring. In the process, AXA Investment Managers Inc has been renamed AXA Investment Managers US Inc. and all references to AXA Rosenberg Investment Management LLC have been deleted.

The restructuring was essentially an internal reorganization of activities and did not impact investors or the services provided by the relevant Investment Managers. This restructuring took effect on 1 January 2022.

In addition to the US restructuring, it has been decided to combine our Rosenberg and Framlington investment platforms to create the single "AXA IM Equity" platform. As part of this new set up, our equity quantitative investment approach has been renamed "AXA IM Equity QI" (Quant Investing).

As a result, all portfolio management activity that was previously done in the US have been conducted out of London by AXA Investment Managers UK Ltd as of 1 January 2022. It was not anticipated that this internal restructuring impact investors, or the services provided as the Investment Manager will provide substantially the same services as those previously provided by the prior relevant Sub-Investment Managers.

As a consequence, the sub-investment management delegation agreements from AXA Investment Managers UK Ltd. In the following sub-funds have been terminated:

- AXA World Funds – ACT Factors - Climate Equity Fund;
- AXA World Funds – Global Factors - Sustainable Equity;
- AXA World Funds – Global Income Generation.

The prospectus has been updated accordingly.

### **V. Renaming of sub-funds**

AXA World Funds - ACT Framlington Clean Economy to AXA World Funds - ACT Clean Economy on 10 January 2022;

AXA World Funds - ACT Framlington Social Progress to AXA World Funds - ACT Social Progress on 10 January 2022;

AXA World Funds - ACT Framlington Human Capital to AXA World Funds – ACT Human Capital on 10 January 2022;

AXA World Funds - ACT Global Green Bonds to AXA World Funds – ACT Green Bonds on 10 January 2022;

AXA World Funds - Framlington Eurozone RI to AXA World Funds - ACT Eurozone Impact on 18 February 2022;

AXA World Funds - Emerging Market Short Duration Bonds to AXA World Funds - ACT Emerging Market Short Duration Bonds Low Carbon on 18 February 2022;

## Directors' Report

### Main SICAV's events during the year ending 31 December 2022 (continued)

AXA World Funds - Global Credit Bonds to AXA World Funds - Global Sustainable Credit Bonds on 18 February 2022;

AXA World Funds - China Short Duration Bonds to AXA World Funds - China Sustainable Short Duration Bonds on 18 February 2022;

AXA World Funds - Framlington Global Convertible to AXA World Funds – Global Convertibles on 6 August 2022;

AXA World Funds - Framlington Next Generation to AXA World Funds - Next Generation on 6 August 2022;

AXA World Funds - Framlington Italy to AXA World Funds – Italy Equity on 6 August 2022;

AXA World Funds - Framlington Switzerland to AXA World Funds – Switzerland Equity on 6 August 2022.

AXA World Funds - Framlington UK to AXA World Funds – UK Equity on 26 August 2022.

AXA World Funds - Framlington All China Evolving Trends to AXA World Funds – China Sustainable Growth on 26 August 2022.

### **VI. Creation and launch of sub-funds**

AXA World Funds – ACT Dynamic Green Bonds. This new sub-fund was launched on 24 January 2022:

- the objective of the Sub-Fund is to seek both income and growth of investment, in USD, and a sustainable investment objective, from an actively managed bonds portfolio contributing to financing of the energy and ecology transition and demonstrating a positive environmental impact.
- the Sub-Fund will be actively managed without reference to any benchmark.

AXA World Funds – ACT Social Bonds. This new sub-fund was launched on 31 January 2022:

- the objective of the Sub-Fund is to seek both income and growth of investment, in EUR, and a sustainable investment objective, from an actively managed bonds portfolio contributing to financing of projects demonstrating a positive social impact. The Sub-Fund will be actively managed in reference to the ICE Social Bond benchmark index (the “Benchmark”) in order to capture opportunities in the investment grade government, institutions – such as supranational, agencies and quasi-government – and corporate bonds markets. The Sub-Fund invests at minimum one third of its net assets in the components of the Benchmark. Depending on its investment convictions and after comprehensive macroeconomic and microeconomic analysis of the market, the Investment Manager can take more active positioning in terms of duration (duration measures in numbers of years, the portfolio's sensitivity to interest rate variations), geographical allocation and/or sector or issuer selection compared to the Benchmark. Thus, the deviation from the Benchmark is expected to be significant.

AXA World Funds – ACT European High Yield Bonds Low Carbon. This new sub-fund was launched on 11 March 2022:

- the objective of the Sub-Fund is to seek a high level of income, in EUR, from an actively managed bond portfolio whose carbon footprint, measured as carbon intensity, is at least 30% lower than that of the ICE BofA European Currency High Yield index Hedged EUR (referred to in this resolution as the “Benchmark”). As a secondary ‘extra-financial objective’, the water intensity of the portfolio aims also at being at least 30% lower than the Benchmark.
- the Sub-Fund will be actively managed and references the Benchmark by seeking to achieve its extra-financial objectives and in order to capture opportunities in the European corporate debt market, primarily investing in securities that are part of the Benchmark universe. The deviation from the Benchmark is likely to be significant.

## Directors' Report

### Main SICAV's events during the year ending 31 December 2022 (continued)

AXA World Funds – Dynamic Optimal Income. This new sub-fund was launched on 1 April 2022:

- the objective of the Sub-Fund is to seek growth of investment in the long term, in USD, together with stable income.
- the Sub-Fund will be actively managed without reference to any benchmark.
- The Sub-Fund aims at not exceeding a 20% annual volatility.

AXA World Funds – Metaverse. This new sub-fund was launched on 7 April 2022:

- the objective is to seek long-term growth of shareholders' investment, in USD, from an actively managed listed equity and equity-related securities portfolio.
- the Sub-Fund will be actively managed and will reference MSCI AC World Total Return Net (the "Benchmark") for comparative purposes only. The Investment Manager will have full discretion over the composition of the portfolio of the Sub-Fund the deviation from the Benchmark is likely to be significant.

AXA World Funds – ACT Biodiversity. This new sub-fund was launched on 11 April 2022:

- the objective of the Sub-Fund is to seek both long-term growth of shareholders' investment, in USD, from an actively managed listed equity and equity-related securities portfolio of sustainable investments in issuers acting positively for the biodiversity by reducing or limiting negative impact of human's activities on biodiversity.
- the Sub-Fund will be actively managed and will reference MSCI AC World Total Return Net (the "Benchmark") for comparative purposes only. The Investment Manager will have full discretion over the composition of the portfolio of the Sub-Fund the deviation from the Benchmark is likely to be significant.

AXA World Funds - ACT Plastic & Waste Transition Equity QI. This new sub-fund was launched on 4 August 2022:

- The objective is to seek both long-term growth of its investors' investment, in USD, and a sustainable objective, from an actively managed listed equity and equity-related securities that act for a low plastic & waste economy by limiting or managing in a sustainable way their plastic use or by having an efficient waste management.
- the Sub-Fund will be actively managed and references MSCI World Total Return Net Index (the "Benchmark") for comparative purposes only. The Investment Manager (as defined below) will have full discretion over the composition of the portfolio of the Sub-Fund and will be authorised to take exposure to companies, countries or sectors not included in the Benchmark. There are no restrictions on the extent to which the Sub-Fund's portfolio and performance may deviate from the ones of the Benchmark.

AXA World Funds – ACT Global High Yield Bonds Low Carbon. This new sub-fund was approved by the CSSF but not yet launched:

- the objective of the Sub-Fund is to seek high income, in USD, from an actively managed bond portfolio whose carbon footprint, measured as carbon intensity, is at least 30% lower than that of the ICE BofA Developed Markets High Yield Constrained USD Hedged index (the "Benchmark"). As a secondary 'extra-financial objective', the water intensity of the portfolio aims also at being at least 30% lower than the Benchmark. Capital growth is a secondary objective.
- the Sub-Fund will be actively managed and references the Benchmark by seeking to achieve its extra-financial objectives and in order to capture opportunities in the international high yield corporate debt market, primarily investing in securities that are part of the Benchmark universe. The deviation from the Benchmark is likely to be significant.

## Directors' Report

### Main SICAV's events during the year ending 31 December 2022 (continued)

AXA World Funds – ACT US Short Duration High Yield Bonds Low Carbon. This new sub-fund was approved by the CSSF but not yet launched:

- the objective of the Sub-Fund is to seek high income, in USD, from an actively managed short duration bonds portfolio whose carbon footprint, measured as carbon intensity, is at least 30% lower than that of the ICE BofA US High Yield Index (the "Benchmark"). As a secondary 'extra-financial objective', the water intensity of the portfolio aims also at being at least 30% lower than the Benchmark.
- the Sub-Fund will be actively managed and references the Benchmark by seeking to achieve its extra-financial objectives. The deviation from the Benchmark is likely to be significant.

#### **VII. Liquidation of sub-funds**

AXA World Funds - Chorus Systematic Macro has been liquidated on 19 January 2022.

AXA World Funds - Emerging Markets Euro Denominated Bonds has been liquidated on 22 July 2022.

#### **VIII. Merger of sub-funds**

AXA World Funds - European High Yield Bonds sub-fund merged into the sub-fund AXA World Funds – ACT European High Yield Bonds Low Carbon on 11 March 2022;

AXA World Funds - Framlington Talents Global sub-fund merged into the sub-fund AXA World Funds – ACT Social Progress on 17 June 2022;

AXA World Funds - Optimal Absolute sub-fund merged into the sub-fund AXA World Funds – ACT Multi Asset Optimal Impact on 7 October 2022.

#### **IX. Composition of the Board of Directors**

We inform you that, as there were no changes since the beginning of the year 2022, your Board of Directors is still composed, as at 31 December 2022 as follows:

Geoffroy Reiss, Chairman

Anne-Laure Bénêteau

Martin Burke

Jean-Louis Laforge

Matthieu Tonneau

The Board of Directors

21 April 2023

Note: the figures stated in this report are historical and not necessarily indicative of future performance.

## Audit Report

To the Shareholders of  
**AXA World Funds**

---

### **Our opinion**

In our opinion, the accompanying financial statements give a true and fair view of the financial position of AXA World Funds (the “Fund”) and of each of its sub-funds as at 31 December 2022, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### *What we have audited*

The Fund’s financial statements comprise:

- the statement of net assets as at 31 December 2022;
  - the schedule of investments and other net assets as at 31 December 2022;
  - the statement of operations and changes in net assets for the year then ended; and
  - the notes to the financial statements, which include a summary of significant accounting policies.
- 

### **Basis for opinion**

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

---

### **Other information**

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

---

*PricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg  
T: +352 494848 1, F: +352 494848 2900, [www.pwc.lu](http://www.pwc.lu)*

*Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256)  
R.C.S. Luxembourg B 65 477 - TVA LU25482518*

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

---

**Responsibilities of the Board of Directors of the Fund for the financial statements**

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

---

**Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements**

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;

- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds (except for AXA World Funds - China Domestic Growth Equity where a decision to liquidate exists) to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

PricewaterhouseCoopers, Société coopérative
