# Notes to the Financial Statements as at 31 December 2022

## Note 1: General (continued)

### d) Share Classes List (continued)

During the year ended 31 December 2022, the following share classes became dormant:

**AXA World Funds - ACT Green Bonds (note 1b)**

- LU2289861358: Class "M" - Distribution quarterly in EUR

**AXA World Funds - ACT Social Progress (note 1b)**

- LU2014480698: Class "M" - Distribution in EUR Hedged

**AXA World Funds - Emerging Markets Euro Denominated Bonds (note 1b)**

- LU2096754713: Class "G" - Capitalisation in EUR

The share classes presented below correspond to the different type of classes currently available in the SICAV.

**Class "A" Shares**

Class "A" shares (including A FXO) are for all investors.

**Class "AX" Shares**

Class "AX" shares are only offered to AXA Group.

**Class "BR" Shares**

BR share classes are only offered to funds domiciled in Brazil.

**Class "BL" Shares**

BR share classes are for all investors. Only available through distributors that entered into specific distribution arrangements with the Management Company subject to a Contingent Deferred Sales Charge ("CDSC").

**Class "BX" Shares**

BX share classes of the Sub-Funds AXA World Funds - Global Optimal Income and AXA World Funds - Euro Bonds are dedicated to AXA Luxembourg Fund's shareholders following the merger effective on 12 December 2014.

**Class "E" Shares**

Class "E" shares are for all investors.

On top of the annual management fee, an annual distribution fee is charged to E shares accordingly depending on the concerned Sub-Fund (from 0.25% up to 1.00% of the Net Asset Value of class E shares). Shareholders cannot convert Class "E" Shares into another share class in the same or a different Sub-Fund without the prior approval of the SICAV.

**Class "EX" Shares**

Class "EX" shares are for AXA Investment Managers Chorus' staff (excluding directors) only. Shareholders cannot convert Class "EX" Shares into another share class in the same or a different Sub-Fund.

## Notes to the Financial Statements as at 31 December 2022

### Note 1: General (continued)

#### d) Share Classes List (continued)

##### **Class “F” Shares**

Class “F” shares are only offered (i) through financial intermediaries which according to either regulatory requirements or separate fee arrangements with their clients, are not allowed to keep trail commissions, and/or (ii) to Institutional investors investing on their own behalf.

##### **Class “G” Shares**

Class “G” Shares are for all investors. Class “G” Shares are only available through (i) certain distributors who have separate fee arrangements with their clients and (ii) to other investors at the Management Company’s discretion.

Class “G” Shares will be closed to subscriptions the day after the threshold of 100,000,000 in the share class currency is reached or exceeded. However, the Company reserves the right to close such “G” Share Class to subscriptions before the threshold of 100,000,000 in the share class currency is reached.

By exception, the threshold in all the Class “G” Shares currencies of AXA World Funds – US Enhanced High Yield Bonds is set at 150,000,000.

##### **Class “I” Shares**

The Directors reserve the right to issue Class “I” shares (including I FX0) at their sole discretion. Class “I” shares are only offered to Institutional investors investing directly or indirectly on their own behalf and/or financial intermediaries providing discretionary portfolio management service.

##### **Class “IX” Shares**

Class “IX” Shares are only offered to Institutional investors of AXA Group.

##### **Class “J” Shares**

The Directors reserve the right to issue Class “J” shares at their sole discretion. Class “J” shares are only offered to Institutional investors who are resident in Japan.

##### **Class “L” Shares**

Class “L” Shares are only offered through financial intermediaries in the United Kingdom which according to either regulatory requirements or separate fee arrangements with their clients, are not allowed to keep trail commissions.

##### **Class “M” Shares**

Class “M” shares are only offered with the prior approval of the Board and (i) held by AXA Investment Managers or its subsidiaries for use in institutional mandates or investment management agreements for a dedicated fund contracted with the AXA Group or (ii) held by Institutional Investors investing directly or indirectly on their own behalf and/or to financial intermediaries providing discretionary portfolio management service.

##### **Class “S” Shares**

Class “S” shares are only offered by the distributor “HSBC Private Bank (Suisse) S.A branch offices in Hong Kong and in Singapore” to investors who are resident in Asia.

# Notes to the Financial Statements as at 31 December 2022

## Note 1: General (continued)

### d) Share Classes List (continued)

#### **Class “SP” Shares**

Class “SP” shares are only offered to the employees’ savings funds managed by the AXA Group.

#### **Class “T” Shares**

Class “T” shares are only offered to Taiwan distributors and to Taiwan investors.

#### **Class “U” Shares**

Class “U” shares are only offered to distributors based in the Americas (South and North America regions, including the United States).

#### **Class “UA” Shares**

Offered only through larger financial intermediaries belonging to a financial group with a predominance of its business in the US and which are expressly prior authorized by the Management Company.

#### **Class “UF” Shares**

Class “UF” shares are offered only through larger financial intermediaries belonging to a financial group with a predominance of its business in the US and which (i) are expressly prior authorized by the Management Company and (ii) according to either regulatory requirements or separate fee arrangements with their clients, are not allowed to keep trail commissions.

#### **Class “UI” Shares**

Class “UI” shares are offered only to larger institutional investors investing directly or indirectly on their own behalf and/or as part of providing discretionary portfolio management services, where such investor belongs to a financial group with a predominance of its business in the US and which are expressly prior authorized by the Management Company.

#### **Class “X” Shares**

Class “X” shares are for larger Institutional Investors investing directly or indirectly on their own behalf and/or financial intermediaries providing discretionary portfolio management service and with a high amount of minimum initial subscription.

#### **Class “ZF” Shares**

Class “ZF” shares are only offered through larger financial intermediaries which (i) are expressly prior authorized by the Management Company and (ii) according to either regulatory requirements or separate fee arrangements with their clients, are not allowed to keep trail commissions.

#### **Class “ZI” Shares**

Class “ZI” shares are for larger Institutional Investors investing directly or indirectly on their own behalf and/or financial intermediaries providing discretionary portfolio management service.

## Notes to the Financial Statements as at 31 December 2022

### Note 1: General (continued)

#### d) Share Classes List (continued)

##### **Capitalisation and Distribution Shares**

Share classes can be further divided into Capitalisation Shares and Distribution Shares. These shares differ by their distribution policies, the first by accumulating income, and the other by distributing dividends. The assets of these two categories are gathered together.

##### **Redex (Reduction of Duration Exposure) Classes of Shares**

The underlying investment objective of the redex share classes is, as for the other share classes of the Sub-Funds, to achieve the investment objective of the Sub-Fund, while, only in the case of the relevant share class to mitigate the Fund's exposure to an increase or decrease of interest rates curves. Such an overlay strategy will be managed through the tracking of listed derivatives.

To the extent applicable, the Company is allowed, for the purposes of the Redex Classes of Shares to invest in the following financial instruments traded on regulated or OTC markets:

- Listed or OTC futures,
- Repurchase agreements, and
- Securities lending.

Following the opinion of the ESMA 34-43-296 on share classes of UCITS (the "Opinion"), the Directors ruled that the Redex share classes do not comply with the principles set out in the Opinion. In addition they do not intend to convert the Redex share classes in other share classes available. As a consequence, the Directors have further decided to close for subscription from any new investor the Redex share classes as from 31 July 2017 and to close for subscription to any investor, including existing investors, such share classes as from 31 July 2018.

##### **Share classes denominated "Hedged"**

Any Sub-Fund can issue any Share Class in currency hedged form, meaning that the hedged version of the Share Class is denominated in a currency that is different from the Sub-Fund's Reference Currency, and is hedged to that currency (with the exception of BR Share Classes that offer currency exposure to the BRL). The currency risk between the Sub-Fund's Net Asset Value and the currency of the hedged Share Class will be hedged at least at 95%. Hedged Share Classes are designated with a "Hedged".

All costs specifically associated with offering each hedged Share Class such as currency hedging and foreign exchange costs will be charged to that Share Class.

If investors invest in a hedged Share Class, they could experience losses from currency exchange fluctuations to the extent that the Share Class' hedging is incomplete, and they will give up any potential gains from currency exchange fluctuations to the extent that hedging is effective.

# Notes to the Financial Statements as at 31 December 2022

## Note 1: General (continued)

### e) Seed Money from AXA Group

Shares of a Sub-Fund may be held either by a French fund in which AXA Investment Managers is a majority shareholder (hereinafter the “AXA IM Fund”) or by companies which are part of the AXA group of companies or by investment funds which are managed by investment management companies in which AXA IM group directly or indirectly holds a shareholding (“AXA IM Group Managed Funds”) for the purposes of building a track record or a specific marketing action on the Sub-Fund.

AXA IM Fund and/or companies of the AXA IM group and/or AXA IM Group Managed Funds may, at any time, choose to redeem their Shares in the Sub-Fund which may result in a material decrease in the total assets of the Sub-Fund and/or a restructuring of the Sub-Fund including but not limited to restructuring causing the winding up of the Sub-Fund or its merger with another fund. Specific rules have been established by the Management Company with a view to preserve a equal treatment between the Shareholders of the Sub-Fund and will be applied in such case.

The foregoing does not prevent Shares of a Sub-Fund from being held by other investors including external seed investors.

### f) Distribution

Distribution Shares may pay a dividend to their holders. In such case, dividends shall be paid out of the investment income gains and/or realised capital gains, or out of any other funds available for distribution. No Sub-Fund will make a dividend payment if the assets of the SICAV are below the minimum capital requirement, or if paying the dividend would cause that situation to occur.

## Note 2: Significant Accounting Policies

### a) Presentation of the Financial Statements

The Financial statements have been prepared on a going-concern basis of accounting, except for the sub-funds which have been liquidated during the year ended 31 December 2022. As such, the financial statements for these sub-funds have been prepared on a non-going concern basis.

At 31 December 2022, the total of cross Sub-Funds' investments amounts to EUR 287,834,143 and therefore total combined Net Asset Value at the end of the year without cross-investments would amount to EUR 36,182,170,329.

### b) Foreign Currency Translation

The accounting records and the financial statements are denominated in the reference currencies of each Sub-Fund.

Transactions in currencies other than that in which the Sub-Fund is denominated are converted into the respective currency of the portfolio based on the exchange rate in effect at the date of the transaction.

## Notes to the Financial Statements as at 31 December 2022

### Note 2: Significant Accounting Policies (continued)

#### b) Foreign Currency Translation (continued)

Assets and liabilities denominated in other currencies are converted into the respective currency of the Sub-Fund at the last available rate of exchange at each balance sheet date.

For all AXA World Funds Sub-Funds, the exchange rates applied for the Net Asset Value calculation and to combine all Sub-Funds' Net Asset Value are as follows:

| 30/12/2022 |           |     |         |            |     |         |          |     |
|------------|-----------|-----|---------|------------|-----|---------|----------|-----|
| 1 EUR =    | 1.57377   | AUD | 1 EUR = | 88.29355   | INR | 1 EUR = | 1.06725  | USD |
| 1 EUR =    | 1.44607   | CAD | 1 EUR = | 140.81824  | JPY | 1 EUR = | 18.15925 | ZAR |
| 1 EUR =    | 0.98742   | CHF | 1 EUR = | 1349.53703 | KRW |         |          |     |
| 1 EUR =    | 909.24323 | CLP | 1 EUR = | 20.79776   | MXN |         |          |     |
| 1 EUR =    | 7.4192    | CNY | 1 EUR = | 10.51348   | NOK |         |          |     |
| 1 EUR =    | 24.15399  | CZK | 1 EUR = | 1.68748    | NZD |         |          |     |
| 1 EUR =    | 7.43643   | DKK | 1 EUR = | 4.68122    | PLN |         |          |     |
| 1 EUR =    | 0.88723   | GBP | 1 EUR = | 11.12021   | SEK |         |          |     |
| 1 EUR =    | 8.32983   | HKD | 1 EUR = | 1.4314     | SGD |         |          |     |
| 1 EUR =    | 400.44985 | HUF | 1 EUR = | 36.96419   | THB |         |          |     |
| 1 EUR =    | 3.76579   | ILS | 1 EUR = | 32.80245   | TWD |         |          |     |

#### c) Combined Figures

The combined Statement of Net Assets and the combined Statement of Operations and Changes in Net Assets are expressed in EUR and are presented for information purposes only.

#### d) Valuation of Investments

The assets of the SICAV are valued as follows:

Liquid assets are valued at their face value with interest accrued; in the case of short-term instruments (especially discount instruments) with maturities of less than 90 days, the value of the instrument based on the net acquisition cost, is gradually adjusted to the repurchase price thereof while the investment return calculated on the net acquisition cost is kept constant. In the event of material changes in the market conditions, the valuation basis of the investment is adjusted to the new market yields.

Transferable securities which are admitted to an official exchange listing or dealt on another regulated market are valued at the closing price on such market. If the investments are listed or traded on several markets, the closing price at the market, which constitutes the main market for such investments, will be determining.

Transferable securities not admitted to an official listing nor dealt on another regulated market are valued at their last available market price.

Investments for which no price quotation is available or for which the price referred to first and third paragraphs above is not representative of the fair market value, are valued prudently and in good faith by the Board of Directors of the SICAV on the basis of their reasonably foreseeable sales prices.

Those investments are identified distinctly in the Schedule of Investments.

# Notes to the Financial Statements as at 31 December 2022

## Note 2: Significant Accounting Policies (continued)

### d) Valuation of Investments (continued)

The financial statements are presented on basis of the Net Asset Value calculated on 30 December 2022.

### e) Acquisition Cost of Investments

The acquisition cost of investments expressed in currencies other than the reference currency of the Sub-Fund is translated into the reference currency of the Sub-Fund on the basis of the exchange rates prevailing on the purchase date.

### f) Realised Gains/(Losses) on Sales of Investments

Realised gains/(losses) on sales of investments are determined on the basis of the average cost of the investments sold.

### g) Valuation of the Forward Foreign Exchange Contracts

Outstanding forward foreign exchange contracts are valued at the closing date using the forward rates of exchange applicable to the outstanding life of the contract. The Net unrealised appreciation/(depreciation) on forward foreign exchange contracts is included in the Statement of Net Assets.

### h) Valuation of Financial Futures and Options

Outstanding futures contracts and exchange traded options contracts are valued at the closing date using the last available market price of the instrument. The Net unrealised appreciation/(depreciation) on open futures contracts is included in the Statement of Net Assets.

### i) Valuation of Contracts for Difference

Contracts For Difference ("CFD") are valued on the basis of the difference between the price of their underlying on the valuation date and on the acquisition date. The Net unrealised appreciation/(depreciation) is included in the Statement of Net Assets.

### j) Valuation of Swap Agreements

A swap is an agreement that obliges two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset. The payment flows are usually netted against each other, with the difference being paid by one party to the other. Risks may arise as a result of the failure of another party to the swap contract to comply with the terms of the swap contract. The loss incurred by the failure of a counterparty is generally limited to the net payment to be received by the SICAV, and/or the termination value at the end of the contract.

Therefore, the SICAV considers the creditworthiness of each counterparty to a swap contract in evaluating potential credit risk. Additionally, risks may arise from unanticipated movements in interest rates or in the value of the underlying securities or indices.

## Notes to the Financial Statements as at 31 December 2022

### Note 2: Significant Accounting Policies (continued)

#### j) Valuation of Swap Agreements (continued)

The SICAV entered into performance swap agreements pursuant to which the SICAV receives or pays interest on a notional amount and receives or pays the performance of the underlying index based on the same notional amount. The interest is accrued and the performance of the index is valued on a daily basis. The net receivable or payable amount is recorded in the Statement of Net Assets under the headings “Net unrealised appreciation on swap contracts” and “Net unrealised depreciation on swap contracts”.

The Swap Agreements are valued at fair market value as determined prudently and in good faith by the SICAV. All unrealised appreciation/(depreciation) are included in the Statement of Net Assets.

The different types of Swaps held by the SICAV and their specifics are as follows:

Credit Default Swaps (“CDS”) are bilateral financial contracts in which one counterparty (the protection buyer) pays a periodic fee in return for a contingent payment by the protection seller following a credit event of a reference issuer. The protection buyer acquires the right to sell a particular bond or other designated reference obligations issued by the reference issuer for its par value or the right to receive the difference between par value and market price of the said bond or other designated reference obligations (or some other designated reference or strike price) when a credit event occurs.

A Total Return Swap (“TRS”) is an agreement to exchange the total performance of a bond or other underlying asset (share, index, etc.) for a benchmark rate plus a spread. The total performance includes the interest coupons, dividends and profits and losses on the underlying asset over the life of the agreement, depending on the type of underlying concerned. The risk in this type of agreement is linked to the fact that the benefit for each counterparty will depend on how the underlying asset performs over time, which is unknown at the time at which the agreement is entered into.

Interest Rate Swaps (“IRS”) are swap agreements whereby parties exchange fixed income (sum of the notional amount and the fixed rate) for variable income (sum of the notional amount and the floating rate) and vice versa.

#### k) Dividend Income

Dividends are accounted for on an ex-dividend date basis, net of any irrecoverable withholding tax.

#### l) Interest Income

Interest income is recognised on a daily accrual basis, net of any irrecoverable withholding tax (interest on investment portfolio, interest on deposits and interest on call accounts and security lending income). Interest income is disclosed net of any amortization.

# Notes to the Financial Statements as at 31 December 2022

## Note 2: Significant Accounting Policies (continued)

### m) Swing Pricing

If the net subscriptions and redemptions based on the last available Net Asset Value on any Valuation Day exceed a certain threshold of the value of a Sub-Fund or a Share Class on that Valuation Day, as determined and reviewed on a periodic basis by the Management Company, the Net Asset Value may be adjusted respectively upwards or downwards to reflect the dealing and other costs that may be deemed to be incurred in buying or selling assets to satisfy net daily transactions. The Management Company may apply a swing pricing mechanism across any Sub-Fund or Share Class. The extent of the price adjustment will be set by the Management Company and does not exceed 2% of the Net Asset Value.

During the year, the swing pricing mechanism was applied across all Sub-Funds.

The following Sub-Fund has adjusted its Net Asset Value at the year-end:

AXA World Funds - US Credit Short Duration IG

### n) Capital Gain Tax

Some governments exercise substantial influence over the private economic sector and investments may be affected by political and economic instability. In adverse social and political circumstances, governments have been involved in policies of expropriation, confiscatory taxation, nationalisation, intervention in the securities market and trade settlement and imposition of foreign investment restrictions and exchange controls, and these could be repeated in the future. In addition to withholding taxes on investment income, some markets may impose differential capital gain taxes on foreign investors. The related amounts are accounted as "Other payables" under the Statement of Net Assets.

## Note 3: Taxation

The SICAV is a registered investment fund domiciled in Luxembourg and is, as a result, exempt from tax, except for subscription tax ("Taxe d'Abonnement"). Under current legislation and regulation, the SICAV is subject to a subscription tax calculated and payable quarterly on the Net Asset Value of the SICAV at the end of the respective quarter. The SICAV pays a tax rate equal to 0.05% for assets related to the shares reserved for retail investors. This tax is reduced to 0.01% for assets related to the shares reserved for institutional investors and/or for the cash and money market Sub-Funds.

The "Taxe d'abonnement" is waived for that part of the SICAV invested in units of other undertakings for collective investment that have already paid the "Taxe d'abonnement" in accordance with the statutory provisions of the Luxembourg law. This tax is part of the Applied Service Fees in the Financial Statements.

## Note 4: Distribution Fees

The distribution fees are calculated as a percentage of the Net Asset Value per share class. As at 31 December 2022, the maximum distribution fees applied are the following:

|   | Distribution Fees |
|---|-------------------|
| <b>AXA World Funds - ACT Biodiversity (note 1b)</b> |                   |
| E Capitalisation EUR Hedged                         | 0.75%             |

# Notes to the Financial Statements as at 31 December 2022

The share classes not charging distribution fees as at 31 December 2022 are not disclosed.

## Note 5: Management Fees

The Management Company is entitled to receive, from the assets of the relevant Sub-Funds, a management fee in an amount to be specifically determined for each Sub-Fund or share class. The annual management fee is calculated as a percentage of the Net Asset Value of each Sub-Fund. The details and the percentage of this fee, per share class, are described in the Full and Simplified Prospectuses and in the table presented hereinafter. This fee is calculated and accrued daily. The Management Company will remunerate the Investment Managers out of the management fee in accordance with the contracts signed with the different parties. The management fees are used in part to pay remuneration (trailer fees) for distribution activities concerning the Fund.

Retrocession on management fee levied on the assets invested in other UCITS or UCIs is calculated and accrued daily and refunded to each share class. This retrocession represents a partial discount or a full refund of the management fees levied by each underlying UCITS or UCIs. The retrocessions on management fees are disclosed for each Sub-Fund in the Statement of Operations and Changes in Net Assets under the caption "Reimbursement of Management Fees".

As foreseen in the Prospectus, the Sub-Funds will not invest in underlying UCIs which are themselves submitted to a management fee exceeding 3%.

## Notes to the Financial Statements as at 31 December 2022

### Note 5: Management Fees (continued)

As at 31 December 2022, maximum management fees rates, as charged, at target fund level, are the following:

|   | Annual Management Fee |
|---|-----------------------|

## Note 6: Performance Fees

For the below listed Sub-Funds and share classes, the Management Company is entitled to receive a performance fee in addition to the management fees, based on the Sub-Fund's performance in excess of the benchmark return, calculated as described in the Notes on Sub-Fund's Costs section of the prospectus or in the related Sub-Fund's appendices in the Full Prospectus dated July 2022.

The performance fee is calculated in respect of each reference year as described in the Full Prospectus dated July 2022, accrued daily and paid at the end of each accounting year.

# Notes to the Financial Statements as at 31 December 2022

## Notes to the Financial Statements as at 31 December 2022

### Note 7: Redex Fees

The Redex fees are payable to the Investment Manager in charge of the management of the Redex Class and calculated as a percentage of the net assets of the relevant Class.

The maximum annual fee linked to the reduction of the duration exposure of the Redex share classes applied is 0.05%.

### Note 8: Withholding Tax Reclaim Income/Withholding Tax Reclaim Fees

The withholding tax reclaim income and fees are linked to the tax-reclaim processes. These income and fees are disclosed for each Sub-Fund in the Statement of Operations and Changes in Net Assets.

### Note 9: Applied Service Fee

In order to pay its ordinary operating expenses, the SICAV will pay an Applied Service Fee to the Management Company out of the assets of the relevant Share Class. To seek to protect the Shareholders from fluctuations in these ordinary operating expenses, the yearly total amount of these expenses to be charged to each Share Class by the Management Company (the "Applied Service Fee"), will be at a maximum level of 0.50% of the Net Asset Value in respect of each Share Class (the "Maximum Level"). The level of effective Applied Service Fee might be set-out below this Maximum Level with different fixed effective Applied Service Fee rates applicable across Share Classes. The level of the Applied Service Fee per Sub-Fund and per Share Class is defined taking into account different criteria such as, but not limited to, the costs charged to the Share Class and the variation of costs linked to a change of the Net Asset Value in respect of the relevant Share Class that might be due to market effects and/or dealing in shares.

By way of a resolution, the Directors (i) may modify in its sole discretion the level of effective Applied Service Fee and (ii), may amend at any time upon prior notice to relevant Shareholders, the Maximum Level of the Applied Service Fee applicable to all Share Classes.

The Applied Service Fee is fixed in the sense that the Management Company will bear the excess in actual ordinary operating expenses to any such Applied Service Fee charged to the Share Classes. Conversely, the Management Company will be entitled to retain any amount of Applied Service Fee charged to the Share Classes exceeding the actual ordinary operating expenses incurred by the respective Share Classes.

The effective Applied Service Fee is accrued at each calculation of the Net Asset Value and included in the ongoing charges of each Share Class disclosed in the relevant KIID.

In counterparty of the Applied Service Fee received from the SICAV, the Management Company then provides and/or procures, on behalf of the Company the following services and bears all expenses (including any reasonable out of pocket expenses) incurred in the day to day operations and administration of the Share Classes, including but not limited to:

- Depository fees except transaction related fees;
- Auditor's fees;
- directors' fees and expenses, and remuneration of officers and employees of the SICAV: any director of the SICAV will be entitled to a fee in remuneration for his services as a director or in his capacity as a member of any committee of the Board;

## Notes to the Financial Statements as at 31 December 2022

### Note 9: Applied Service Fee (continued)

- the Luxembourg 'Taxe d'abonnement';
- Share Class currency hedging cost;
- the fees of the registrar agent and administrator (including the calculation of the Net Asset Value), any paying agent and of any representatives in jurisdictions where the Shares are qualified for sale, and of all other agents employed on behalf of the SICAV; such remuneration may be based on the net assets of the SICAV or on a transaction basis or may be a fixed sum;
- the cost of preparing, printing and publishing in such languages as are necessary, and distributing offering information or documents concerning the SICAV (including shareholder notification), annual and semi-annual reports and such other reports or documents, as may be required under the applicable laws or regulations of the jurisdictions or the authorities where the Shares are qualified for sale;
- registrar's fees;
- the cost of printing certificates and proxies;
- the cost of preparing and filing the Management Regulations and all other documents concerning the SICAV, including registration statements and offering circulars with all authorities (including local securities dealers' associations) having jurisdiction over the SICAV or the offering of Shares;
- the cost of qualifying the SICAV or the sale of Shares in any jurisdiction or of a listing on any stock exchange;
- the cost of accounting and bookkeeping;
- legal fees;
- the cost of preparing, printing, publishing and distributing public notices and other communications to the Shareholders;
- the cost of calculating the Net Asset Value of each Share Class;
- insurance, postage, telephone and telex and any communication mean;
- distribution and sales support costs (including costs charged by local routing order platforms, local transfer agent costs, local representative agent and the translation costs); and
- all similar charges and expenses.

### Note 10: Soft Commissions

Since the new European regulation MIFID II came into force on 3 January 2018, the Equity CSAs that AXA IM had with brokers are no longer valid and are being replaced by new contracts with selected brokers aiming to cover the research needs of AXA IM front office teams. The cost of research is borne directly by AXA IM.

## Notes to the Financial Statements as at 31 December 2022

### Note 10: Soft Commissions (continued)

Also, regarding some compartments of the SICAV mainly invested in US High Yield. AXA IM may enter into arrangements with an independent third-party counterparty, in case of cross trade events, in line with AXA IM policies and procedures, as well as regulation. In such a case, soft dollar arrangement does not involve the payment of any direct commissions to the executing broker. Rather, a predetermined schedule of "commissions" has been documented and approved, which are then built into the prices of the cross trades.

### Note 11: Transaction Fees

The transaction fees are disclosed for each Sub-Fund in the Statement of Operations and Changes in Net Assets under the caption "Transaction fees". Those fees are also detailed in the Additional Appendix.

### Note 12: Futures

The unrealised appreciation/(depreciation) on futures is included in the Statement of Net Assets under the headings "Net unrealised appreciation/(depreciation) on open futures contracts".

### Counterparty information

The sole counterparty for the Futures transactions as at 31 December 2022 is Goldman Sachs International with the following cash held at broker per Sub-Fund (those amounts are included in the Cash in Statement of Net Assets):

| Sub-Fund's name  | Currency of the Sub Fund | Type of collateral (Cash/Securities) | Total collateral (in Sub-Fund currency) |

### Note 16: Securities Lending

The SICAV may lend positions of its securities portfolio to third parties. In general, lending may only be effected via recognised clearing houses, or through the intermediary of prime financial institutions that specialise in such activities and where collateral is received as guarantee.

The Management Company did not receive any commissions on securities lending transactions.

The Management Company has appointed AXA Investment Managers GS Limited as the stock lending and repurchase agent pursuant to a delegation agreement dated 15 February 2013. AXA Investment Managers GS and the management company are affiliates companies belonging to AXA IM group. In order to prevent any conflicts of interest and ensure Best Execution, AXA IM group has put in place a conflicts of interest policy and a Best Execution policy, details of which are available on <https://www.axa-im.lu/mifid>, and which provides respectively that (i) conflict of interests are mitigated in maintaining appropriate analyses mechanisms, controls and in ensuring that Securities Lending Agent is kept separate from the Portfolio Manager teams and (ii) that best execution is ensured by not typically using the same execution venues for securities lending transactions as for other transactions to ensure that the particular characteristics of such Securities lending transactions are taking into account.

Any revenues from efficient portfolio management techniques will be returned to the SICAV, minus direct and indirect operational costs.

Direct operational cost is defined as the cost directly attributable to the implementation of EPM techniques (e.g. agent lender staff cost, trading platform cost, market data, custody and safekeeping costs, collateral management and SWIFT messaging costs).

Indirect cost is defined as the operational cost not directly attributable to the implementation of EPM techniques (e.g. insurance fee, premises and facilities).

Repurchase and reverse repurchase: 100% of the gross revenue generated by the repurchase (if any) and the reverse repurchase activities will benefit to the SICAV.

Securities lending: Each Sub-Fund pays 35 % of the gross revenues generated from securities lending activities as costs / fees to AXA Investment Managers GS Limited in its capacity of lending agent and retain 65% of the gross revenues generated from securities lending activities. All costs / fees of running the programme are paid from the lending agent's portion of the gross income (35%). This includes all direct and indirect costs / fees generated by the securities lending activities. AXA Investment Managers GS Limited is a related party to the Management Company and the Investment Manager of the Sub-Fund.

The accruals on securities lending income/expenses are booked daily in accounting and paid on a monthly basis.

Some sub-funds have been subject to adjustment on security lending Income accruals, from previous years , that have been registered in other expenses from the statement of Operations.

## Notes to the Financial Statements as at 31 December 2022

### Note 16: Securities Lending (continued)

Please find below details on the market value of securities on loan and related collateral information as at 31 December 2022:

| Sub-Fund's name  | Currency | % of investments | Amount lent | Amount of collateral received securities | Amount of collateral received cash | Total collateral |

- AXA World Funds - Framlington Global Real Estate Securities
- AXA World Funds - Framlington Longevity Economy
- AXA World Funds - Global High Yield Bonds
- AXA World Funds - Global Inflation Bonds
- AXA World Funds - Global Strategic Bonds

### Note 21: Sustainable Finance Disclosure regulation ("SFDR")

Information on environmental and/or social characteristics and/or sustainable investments are available in the unaudited Sustainable Finance Disclosure Regulation Section and its relevant annexes where applicable.

### Note 22: Subsequent Events

AXA Investment Managers has decided to proceed with the restructuring of AXA Funds Management S.A. ("AFM"), its Luxembourg subsidiary and the current management company of the Fund, into a Luxembourg branch of AXA Investment Managers Paris ("AXA IM Paris"), another of its subsidiaries.

The contemplated restructuring has essentially been effected via the merger of AFM into AXA IM Paris (the "Merger") and the creation of a Luxembourg branch from where the Luxembourg employees of AXA IM Paris would continue to operate. The Merger has been effective on 28 February 2023.

**AXA World Funds – Framlington Global Real Estate Securities** has been renamed **AXA World Funds – Global Real Estate** on 1 January 2023.

**AXA World Funds – China Sustainable Growth** has been renamed **AXA World Funds – China Responsible Growth** on 1 January 2023.

(1) The TERs above represent, as indicated in the prospectus, a weighted average of administrative expenses which shareholders could normally have expected to pay when being invested in the chosen share class as indicated in the prospectus. This methodology is in line with accepted standard market practices and represents a fair view of publications to be made in the market.

(2) Please refer to note 9 for more details on the Applied Service Fee.

(3) The Ongoing charges are based on historical expense data, as well as anticipated material budget changes for the period. For certain classes of shares and Sub-Funds where there is no relevant expense history, Ongoing charge figures are based on estimates. The figures represent the situation at 31 December 2022. The Ongoing charges calculation excludes the Performance fees.

### Eligibility for the “Plan Epargne en Actions” (PEA and PEA/PME)

Owing to their eligibility for French share savings schemes “Plan d’épargne en actions” (PEA), the Sub-Funds of the AXA World Funds listed below permanently invest at least 75% of their net assets in securities and rights that are eligible for the PEA such as equities, equivalent securities, investment certificates and cooperative investment certificates issued by companies having their registered office in the European Economic Area.

The Sub-Fund AXA World Funds - Framlington Europe Ex-UK Microcap is being eligible to the French savings plan called “PEA/PME” meaning that the Sub-Fund is permanently invested for a minimum of 75% in securities or rights eligible to the PEA/PME issued by companies having their registered office in the European Economic Area, and complying with criteria indicated in Article L.221-32-2-2° of the French Monetary and Financial Code, of which a minimum of 50% is invested in equities or rights.

| Please find below the PEA ratio as at 31 December 2022: | Market Value of European Economic Area securities | Market Value of European Economic Area securities (PME) |
|---|---|---|
| AXA World Funds - ACT Eurozone Impact (note 1b)         | 95.39%  | -   |
| AXA World Funds - Framlington Europe Ex-UK Microcap     | 89.57%  | 82.40%  |
| AXA World Funds - Italy Equity (note 1b)                | 96.54%  | -   |
| AXA World Funds - Framlington Sustainable Eurozone      | 96.94%  | -   |

### Remuneration policy

According to regulatory requirements on remuneration disclosure applicable to asset management companies, this disclosure provides an overview of the approach on remuneration taken by AXA Funds Management, which has adopted the group policy of AXA Investment Managers (hereafter “AXA IM”). Further information on the composition of the Remuneration Committee and driving principles of the Remuneration Policy is available on AXA IM website: [www.axa-im.com/en/remuneration](http://www.axa-im.com/en/remuneration). A copy of this information is available upon request free of charge.

**Governance** - AXA IM's Remuneration Policy, which is reviewed and approved by the AXA IM Remuneration Committee every year, sets out the principles relating to remuneration within all entities of AXA IM and takes into account AXA IM's business strategy, objectives, and risk tolerance, as well as the long-term interests of AXA IM's shareholders, clients and employees. The AXA IM Remuneration Committee, in line with the remuneration policies and procedures set and validated at AXA Group level, ensures consistency and fair application of the Remuneration Policy within AXA IM, as well as compliance with applicable regulations.

The central and independent review that the effective implementation of the AXA IM's Remuneration Policy complies with the procedures and policies adopted by AXA IM Group level, is performed by the AXA IM Internal Audit Department, who presents each year its conclusions to the AXA IM Remuneration Committee to enable it to perform its diligences.

These conclusions did not mention any particular comments regarding the compliance of the effective implementation of the AXA IM's Remuneration Policy.

The result of the annual exam by the AXA IM Remuneration Committee is presented to the Board of Directors of AXA Funds Management S.A. along with the amendments implemented into the AXA IM's Remuneration Policy.

These changes primarily relate to the global principles of the deferred remuneration policy, the removal of the allocation of AXA IM Performance Shares and AXA group stock options, a reminder of rules to ensure fair allocation of remuneration (neutrality in terms of sex, religion, age, sexual orientation, marital status, etc.) and the introduction of a section on the incorporation of sustainability risk in order to guarantee compliance with all regulations in force, in particular Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector and their alignment with sales and human resources strategies within the AXA Investment Managers Group.

The Global Remuneration Policy has been reviewed to factor the proposed deferral structure in and ensure compliance with all governing regulations and alignment with the AXA IM business and Human Resource strategies.

### Remuneration policy (continued)

**Quantitative information** - Data provided below are those of AXA Investment Managers covering all subsidiaries of the AXA Investment Managers Group and types of portfolios as at 31 December 2022 after application on remuneration data of the Fund's weighted Asset Under Management allocation key.

| Total amount of remuneration paid and/or awarded to staff for the year ended 31 December 2022, prorated to the Fund's assets <sup>1</sup> |                                |
|---|--------------------------------|
| Fixed Pay <sup>2</sup> ('000 EUR)   | 13,040                         |
| Variable Pay <sup>3</sup> ('000 EUR)  | 16,232                         |
| Number of employees <sup>4</sup>  | 2,675 incl. 14 AFM's employees |

<sup>1</sup> Excluding social charges.

<sup>2</sup> Fixed Pay amount is based on Fixed Pay effective for all staff at AXA IM during the financial year under review prorated to the Fund's assets.

<sup>3</sup> Variable Pay, prorated to the Fund's assets, composed of discretionary, upfront and deferred items, includes :

- Amounts awarded for the performance of the previous year and fully paid over the financial year under review (non-deferred variable pay);
- Amounts awarded for the performance of previous years and the performance of the year under review (deferred variable pay);
- Long-Term Incentives awarded by the AXA Group.

<sup>4</sup> Number of employees includes Permanent and Temporary contracts excluding internship as at 31 December 2022.

| Aggregate amount of remuneration paid and / or awarded to risk takers and senior management whose activities have a significant impact on the risk profile of portfolios, prorated to the Fund's assets <sup>1</sup> |                             |                            |                             |
|--|-----------------------------|----------------------------|-----------------------------|
|  | Risk Takers                 | Senior Management          | Total                       |
| Fixed Pay and Variable Pay ('000 EUR) <sup>2 3</sup>   | 8,080                       | 4,509                      | 12,589                      |
| Number of employees <sup>4</sup>   | 277 incl. 2 AFM's employees | 62 incl. 2 AFM's employees | 339 incl. 4 AFM's employees |

<sup>1</sup> Excluding social charges.

<sup>2</sup> Fixed Pay amount is based on Fixed Pay effective for all staff at AXA IM during the financial year under review prorated to the Fund's assets.

<sup>3</sup> Variable Pay, prorated to the Fund's assets, composed of discretionary, upfront and deferred items, includes:

- Amounts awarded for the performance of the previous year and fully paid over the financial year under review (non-deferred variable pay);
- Amounts awarded for the performance of previous years and the performance of the year under review (deferred variable pay);
- Long-Term Incentives awarded by the AXA Group.

<sup>4</sup> Number of identified employees within AXA IM Group level and AXA Funds Management SA as at 31 December 2022.

### Risk Disclosures

#### Risk disclosure linked to CSSF circular 11/512

The commitment approach is used in the majority of AXA World Funds Sub-funds to calculate the global exposure, except for the following 9 Sub-funds for which an Absolute VaR method is used to measure the global exposure:

- AXA World Funds – ACT Multi Asset Optimal Impact
- AXA World Funds - Chorus Equity Market Neutral
- AXA World Funds - Chorus Multi Strategy
- AXA World Funds - Defensive Optimal Income
- AXA World Funds - Dynamic Optimal Income (note 1b)
- AXA World Funds - Euro Credit Total Return
- AXA World Funds - Global Optimal Income
- AXA World Funds - Optimal Income
- AXA World Funds - US Enhanced High Yield Bonds

Please find below the parameters, features and results for the year from 1 January 2022 to 31 December 2022:

| Sub-fund name                                    | Method to calculate the global exposure | Type of Model | Parameters (1)      |         |                    |       | VaR levels over the period                 | VaR levels with ESMA parameters (2)        |        | Average Leverage level reached (3) |

#### Foreword

The SICAV may lend positions of its securities portfolio to third parties through different techniques whereas:

- Bilateral should be understood as trading executed directly with the counterparty and the collateral, managed by AXA Investment Managers GS Limited, is safe-kept at State Street Luxembourg S.C.A..
- Triparty should be understood as trading executed directly with the counterparty and collateral managed by a triparty agent who manages and safe-keep the collateral.
- CCP should be understood as Central Counterparties Clearing House.

#### Data on cost and return

The return from securities lending transactions is split between the relevant Fund and the agent lender. The Funds receive 65% while the agent lender receive 35% of the income, with all operational costs supported by the agent lender. The income earned by the Funds from securities lending transactions is disclosed in the Securities lending note (note 16).

#### Eligible collateral

Collateral received by a Sub-Fund may be used to reduce its counterparty risk exposure with a counterparty if it complies with the criteria listed in circulars issued by the CSSF from time to time in terms of liquidity, valuation, issuer credit quality, correlation, risks linked to the management of collateral and enforceability. In particular, collateral should comply with the following conditions:

- Any collateral received other than cash should be of high quality, highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation.
- It should be valued on a daily basis on a mark-to-market price basis and assets that exhibit high price volatility should not be accepted as collateral unless suitably conservative haircuts are in place. Margin calls will be implemented in accordance with the terms negotiated in the collateral arrangements.
- It should be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty.
- It should be sufficiently diversified in terms of country, markets and issuers and shall not entail on an aggregate basis an exposure to a given issuer for more than 20% of its Net Asset Value. By way of derogation, a Sub-Fund may be fully collateralised in different Transferable Securities or Money Market Instruments issued or guaranteed by any of the Member States, one or more of their local authorities, a third party sovereign country such as Canada, Japan, Norway, Switzerland and the United States of America, or any public international body to which one or more Member State(s) belong(s) such as the European Investment Bank, provided that it receives such securities from at least six different issues and that securities from any single issue should not account for more than 30% of such Sub-Fund's Net Asset Value. The collateral shall further comply with the limits set forth above under section "b) Limitations on Control".

## Additional Unaudited Appendix

### Securities Financing Transactions Regulation ("SFTR") Disclosures (continued)

#### Foreword (continued)

- The financial guarantees received by the Sub-Fund will be kept by the Depositary or, failing that, by any third party depositary (such as Euroclear Bank SA/NV) which is subject to a prudential supervision and that has no link with the guarantee provider. It should be capable of being fully enforced by the Company for the account of the Sub-Fund at any time without reference to or approval from the counterparty.

#### Eligible assets

As long as it complies with the above mentioned conditions, the collateral may consist of (i) sovereign OECD bonds; and/or (ii) direct investment in bonds issued or guaranteed by first class issuers offering an adequate liquidity or shares listed or dealt on a Regulated Market of a Member State of the European Union or on a stock exchange of a member state of the OECD provided that they are included in a main index.
