## Lyxor CAC MID 60 UCITS ETF - Dist (the "Fund")

ISIN: FR0011041334 - Sub-fund of the MULTI UNITS FRANCE investment company (the "Company") domiciled in France.  
Managed by Lyxor International Asset Management S.A.S. ("LIAM")

### Investment objectives and policies

The Sub-Fund's management objective is to expose itself to the rise and fall of the 60 best-ranked stocks listed on Euronext Paris that are not part of the CAC Large 60 index, by replicating the upward and downward movement of the CAC Mid 60 Gross Total Return Index (the "Benchmark Indicator") denominated in euros (EUR), and representing 60 mid-cap stocks listed on the regulated markets of Euronext Paris.

The Fund intends to achieve its objective via direct replication, that is, by investing primarily in Benchmark Index components.

The Fund may use a sampling technique to optimize Benchmark Index replication, temporary guaranteed security transfers. Any use of these techniques is indicated at [www.lyxoretf.com](http://www.lyxoretf.com). The current composition of the securities portfolio held by the Fund is available at [www.lyxoretf.com](http://www.lyxoretf.com).

The net asset value is also indicated on the Reuters and Bloomberg pages of the Fund and may also be stated on the websites of stock markets where the Fund is listed.

The Fund is eligible for the French Equity Savings Scheme (PEA), and as a consequence, a minimum of 75% of its assets are invested in diversified equities issued in the European Union.

The share currency is the Euro (EUR).

### Risk and return profile

The risk and return category given above is based on the historical performance of the Fund's component assets or the performance of its benchmark index or the simulated performance of a portfolio model. As such, this risk estimation cannot be a reliable indicator of future risk, and it could change over time. The lowest category does not mean a risk-free investment. The Fund has been classified in category 5. The Fund has been classified as category 5 given its exposure to the Benchmark Index. Category 5 means that there is a potential for moderate losses in capital under normal market conditions. The value of your investment can change in a wide band, both upwards and downwards, very quickly each day.

The significant risks for the UCITS not taken into account in the above-mentioned indicator and which could result in a decrease in the Fund's net asset value and which the Fund is authorised to include in this document (see the Risk Profile section of the prospectus for more information concerning the risks):

- **Counterparty:** the Fund is exposed to the risk of bankruptcy or any other type of default by any counterparty with which it has concluded an agreement or transaction. In accordance with UCITS regulations, this risk may not exceed 10% of the Fund's total assets, for a given counterparty.
- **Fund Liquidity Risk:** The Fund's liquidity and/or value may be affected if, when rebalancing its exposure it is unable to execute trades in line with the index.
