## UBS ETF - Bloomberg Barclays US Liquid Corporates Interest Rate hedged UCITS ETF, class (USD) A-dis (ISIN: LU1589326013)

a sub-fund of UBS ETF SICAV

This fund is managed by UBS Fund Management (Luxembourg) S.A., a part of UBS AG.

### Objectives and investment policy

The sub-fund is a feeder UCITS (the "Feeder Fund"). It invests at least 85% of its net assets in the (USD) A-dis share class of UBS ETF – Bloomberg Barclays US Liquid Corporates UCITS ETF (the "Master Fund"), a subfund of UBS ETF SICAV. The investment objective of this sub-fund shall therefore be read in conjunction with the investment objective of the Master Fund, which is to take proportionate exposure on the components of the Bloomberg Barclays US Liquid Corporates™ Index (Total Return) either through direct investments in all or substantially all of the component securities and/or through the use of derivatives in particular where it may not be possible or practicable to replicate the index through direct investments or in order to generate efficiencies in gaining exposure to the index. Exposure to the index through direct replication may be affected by rebalancing costs, while exposure to the index through derivatives may be affected by derivative trading costs. The use of OTC derivatives further engenders counterparty risk which is however mitigated by the UBS ETF SICAV's collateral policy.

In addition, the Feeder Fund hedges the portfolio of the Master Fund against the underlying interest rate risk of the US liquid corporate bonds in the form of US treasury bond yield risk. The Feeder Fund hedges against underlying interest rate risk by subtracting from the total return of the underlying index of the Master Fund, the return on a basket of US treasury bond futures contracts on a monthly basis. Therefore, the performance of the Feeder Fund will differ from the performance of the Master Fund accordingly.

- The Master Fund will invest its net assets predominantly in bonds, transferable securities, money market instruments, units of undertakings for collective investment, deposits with credit

institutions, structured notes listed or dealt in on a regulated market and other assets eligible under the prospectus.

- Currency hedged share classes may also be available in the sub-fund.

Investors other than Authorized Participants may not subscribe shares directly with the UBS ETF SICAV, but may purchase and sell shares, through an intermediary, on one of the stock exchanges listed for the share class on the website [www.ubs.com/etf](http://www.ubs.com/etf). Direct redemptions with the UBS ETF SICAV are however possible on each business day in Luxembourg. Authorized Participants may subscribe and redeem shares with the UBS ETF SICAV under the conditions detailed in the relevant Authorized Participant Agreement.

This class distributes its net income in order to maintain the maximum tracking accuracy of the Bloomberg Barclays US Liquid Corporates™ Duration hedged Index (Total Return).
