(A SUB-FUND OF CSOP LEVERAGED AND INVERSE SERIES II)**

**CONDENSED NOTES TO THE FINANCIAL STATEMENTS**

**30 June 2021**

**1. GENERAL INFORMATION**

CSOP Leveraged and Inverse Series II (the “Trust”) is an umbrella unit trust governed by its trust deed dated 24 April 2020, as amended by the supplemental deeds on 24 April 2020 and 19 May 2020 (collectively, the “Trust Deed”) between CSOP Asset Management Limited (the “Manager”) and Cititrust Limited (the “Trustee”). It is authorised by the Securities and Futures Commission of Hong Kong (the “SFC”) pursuant to Section 104(1) of the Securities and Futures Ordinance of Hong Kong.

CSOP CSI 300 Index Daily (2x) Leveraged product (the “Sub-Fund”) is one of the sub-funds of the Trust, which commenced trading under the stock code 7233 on the Stock Exchange of Hong Kong Limited (“SEHK”) on 27 July 2020.

The investment objective of the Sub-Fund is to provide investment results that, before fees and expenses, closely correspond to the twice (2x) of the daily performance of the CSI 300 Index (the “Index”).

To achieve the investment objective of the Sub-Fund, the Manager will adopt a swap-based synthetic replication strategy, pursuant to which the Product will enter into more than one partially-funded Swap (which are over-the counter financial derivative instruments entered into with more than one swap counterparty) whereby the Product will provide a portion of the net proceeds from subscription from the issue of the Units as initial margin (“Initial Amount”) to the swap counterparties which will be held by the custodian appointed by the Trustee in a segregated account and will only be transferred to the swap counterparties when the product defaults and in return the swap counterparties will provide the Product with an exposure to the Index (net of transaction costs).

As of 30 June 2021, the Trust had six sub-funds, namely CSOP Gold Futures Daily (2x) Leveraged Product, CSOP NASDAQ-100 Index Daily (2x) Leveraged Product, CSOP CSI 300 Index Daily (2x) Leveraged Product, CSOP CSI 300 Index Daily (-1x) Inverse Product, CSOP FTSE China A50 Index Daily (2x) Leveraged Product and CSOP FTSE China A50 Index Daily (-1x) Inverse Product (collectively, the “Sub-Funds”).

These financial statements relate to CSOP CSI 300 Index Daily (2x) Leveraged Product only. The remaining Sub-Funds are being presented in separate financial statements.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

**(a)(i) Basis of preparation**

The financial statements of the Sub-Fund have been prepared in accordance with International Financial Reporting Standards (“IFRSs”) as issued by the International Accounting Standards Board (“IASB”), and interpretations issued by the International Financial Reporting Interpretations Committee of the IASB and the relevant disclosure provisions of the Trust Deed and the relevant disclosure provisions specified in Appendix E of the *Code on Unit Trusts and Mutual Funds* of the SFC (the “SFC Code”).

The financial statements have been prepared under the historical cost convention, except for financial assets and liabilities classified as at fair value through profit or loss (“FVPL”) that have been measured at fair value. The financial statements are presented in Renminbi (“RMB”) for the Sub-Fund. All values are rounded to the nearest RMB except where otherwise indicated.

The Sub-Fund has adopted for the first time all applicable and effective IFRSs.

**CSOP CSI 300 INDEX DAILY (2X) LEVERAGED PRODUCT  
(A SUB-FUND OF CSOP LEVERAGED AND INVERSE SERIES II)**

**CONDENSED NOTES TO THE FINANCIAL STATEMENTS**

**30 June 2021**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(a)(ii) Significant accounting judgements, estimates and assumptions**

The preparation of financial statements, in conformity with IFRSs, requires the management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts recognised in the financial statements and disclosure of contingent liabilities. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

**(a)(iii) Issued but not yet effective IFRSs**

The Sub-Fund has not early applied any of the new and revised IFRSs that have been issued but are not yet effective for the accounting period ended 30 June 2021 in these financial statements. Among the new and revised IFRSs, the following is expected to be relevant to the Sub-Fund's financial statements upon becoming effective:

Amendments to IAS 1 *Classification of Liabilities as Current or Non-current*<sup>1</sup>

<sup>1</sup>Effective for annual periods beginning on or after 1 January 2023

Amendments to IAS 1 clarify the requirements for classifying liabilities as current or non-current. The amendments specify that if an entity's right to defer settlement of a liability is subject to the entity complying with specified conditions, the entity has a right to defer settlement of the liability at the end of the reporting period if it complies with those conditions at that date. Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement of the liability. The amendments also clarify the situations that are considered a settlement of a liability. The amendments are effective for annual periods beginning on or after 1 January 2023 and shall be applied retrospectively. Earlier application is permitted. The amendments are not expected to have any significant impact on the Sub-Fund's financial statements.

**(b) Financial instruments**

**(i) *Classification***

In accordance with IFRS 9, the Sub-Fund classifies its financial assets and financial liabilities at initial recognition into the categories of financial assets and financial liabilities discussed below.

In applying that classification, a financial asset or financial liability is considered to be held for trading if:

- (a) It is acquired or incurred principally for the purpose of selling or repurchasing in the near term;
- (b) On initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking; or
- (c) It is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

**CSOP CSI 300 INDEX DAILY (2X) LEVERAGED PRODUCT  
(A SUB-FUND OF CSOP LEVERAGED AND INVERSE SERIES II)**

**CONDENSED NOTES TO THE FINANCIAL STATEMENTS**

**30 June 2021**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Financial instruments (continued)

(i) *Classification* (continued)

***Financial assets***

The Sub-Fund classifies its financial assets as subsequently measured at amortised cost or measured at FVPL on the basis of both:

- The entity's business model for managing the financial assets; and
- The contractual cash flow characteristics of the financial assets

*Financial assets measured at amortised cost*

A debt instrument is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. The Sub-Fund includes in this category short-term non-financing receivables including interest receivable, other receivables, and cash and cash equivalents.

*Financial assets measured at FVPL*

A financial asset is measured at FVPL if:

- (a) Its contractual terms do not give rise to cash flows on specified dates that are SPPI on the principal amount outstanding;
- (b) It is not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell; or
- (c) At initial recognition, it is irrevocably designated as measured at FVPL when doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

The Sub-Fund includes in this category debt securities, investment funds and derivative contracts in an asset position held for trading.

***Financial liabilities***

*Financial liabilities measured at amortised cost*

This category includes all financial liabilities other than those measured at FVPL. The Sub-Fund includes in this category amounts due to a broker, management fee payable, formation fee payable, and other payables and accruals.

*Financial liabilities measured at FVPL*

This category includes derivative contracts in a liability position since they are classified as held for trading.

**CSOP CSI 300 INDEX DAILY (2X) LEVERAGED PRODUCT  
(A SUB-FUND OF CSOP LEVERAGED AND INVERSE SERIES II)**

**CONDENSED NOTES TO THE FINANCIAL STATEMENTS**

**30 June 2021**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Financial instruments (continued)

(ii) **Recognition**

The Sub-Fund recognises a financial asset or a financial liability when, and only when, it becomes a party to the contractual provisions of the instrument. Purchases and sales of financial assets at FVPL are accounted for on the trade date basis.

(iii) **Initial measurement**

Financial assets at FVPL are recorded in the statement of net assets at fair value. All transaction fees for such instruments are recognised directly in profit or loss.

Financial assets and liabilities (other than those classified as at FVPL) are measured initially at their fair value plus any directly attributable incremental costs of acquisition or issue.

(iv) **Subsequent measurement**

After initial measurement, the Sub-Fund measures financial instruments which are classified as at FVPL at fair value. Subsequent changes in the fair values of those financial instruments are recorded in “Net change in unrealised gain/loss on financial assets at FVPL”. Interest earned on these instruments is recorded separately in “interest income” in the statement of profit or loss and other comprehensive income.

Debt instruments, other than those classified as at FVPL, are measured at amortised cost using the effective interest method less any allowance for impairment. Gains and losses are recognised in profit or loss when the debt instruments are derecognised or impaired, as well as through the amortisation process.

Financial liabilities, other than those classified as at FVPL, are measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, as well as through the amortisation process.

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset or financial liability to the gross carrying amount of the financial asset or to the amortised cost of the financial liability. When calculating the effective interest rate, the Sub-Fund estimates cash flows considering all contractual terms of the financial instruments, but does not consider expected credit losses. The calculation includes all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction fee and all other premiums or discounts.

(v) **Derecognition**

A financial asset is derecognised when the rights to receive cash flows from the financial asset have expired, or where the Sub-Fund has transferred its rights to receive cash flows from the financial asset, or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement and either the Sub-Fund has transferred substantially all the risks and rewards of the asset or the Sub-Fund has neither transferred nor retained substantially all the risks and rewards of the financial asset, but has transferred control of the asset.

**CSOP CSI 300 INDEX DAILY (2X) LEVERAGED PRODUCT  
(A SUB-FUND OF CSOP LEVERAGED AND INVERSE SERIES II)**

**CONDENSED NOTES TO THE FINANCIAL STATEMENTS**

**30 June 2021**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Financial instruments (continued)

(v) *Derecognition* (continued)

When the Sub-Fund has transferred its rights to receive cash flows from an asset (or has entered into a pass-through arrangement), and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Sub-Fund's continuing involvement in the asset. In that case, the Sub-Fund also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Sub-Fund has retained. The Sub-Fund derecognises a financial liability when the obligation under the liability is discharged or cancelled, or expires.

Fair value measurement

The Sub-Fund measures its investments in financial instruments at fair value at the end of each reporting period.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Sub-Fund.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The fair value for financial instruments that are listed or traded on an exchange is based on quoted last traded market prices, that are within the bid-ask spread.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Sub-Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

**CSOP CSI 300 INDEX DAILY (2X) LEVERAGED PRODUCT  
(A SUB-FUND OF CSOP LEVERAGED AND INVERSE SERIES II)**

**CONDENSED NOTES TO THE FINANCIAL STATEMENTS**

**30 June 2021**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Financial instruments (continued)

Fair value measurement (continued)

Derivative financial instruments

Derivative financial instruments are recorded on a mark-to-market basis. Fair values are calculated by reference to changes in specified prices of an underlying asset or otherwise a determined notional amount for swap agreements. All derivatives are carried as assets when amounts are receivable by the Sub-Fund and as liabilities when amounts are payable by the Sub-Fund.

Unrealised gains and losses arising from changes in fair value, and realised gains and losses are recognised in profit or loss.

(c) Income

Interest income is recognised in profit or loss on a time-proportionate basis using the effective interest method.

(d) Expenses

Expenses are recognised on an accrual basis.

(e) Cash and cash equivalents

Cash and cash equivalents in the statement of net assets comprise short-term deposits in banks which are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts when applicable.

(f) Redeemable units

Redeemable units are classified as an equity instrument when:

- i. The redeemable units entitle the holder to a pro-rata share of the Sub-Fund's net assets in the event of the Sub-Fund's liquidation;
- ii. The redeemable units are in the class of instruments that is subordinate to all other classes of instruments;
- iii. All redeemable units in the class of instruments that is subordinate to all other classes of instruments have identical features;
- iv. The redeemable units do not include any contractual obligation to deliver cash or another financial asset other than the holder's rights to a pro-rata share of the Sub-Fund's net assets; or
- v. The total expected cash flows attributable to the redeemable units over the life of the instrument are based substantially on profit or loss, the change in the recognised net assets or the change in the fair value of the recognised and unrecognised net assets of the Sub-Fund over the life of the instrument.

In addition to the redeemable units having all the above features, the Sub-Fund must have no other financial instrument or contract that has:

- i. Total cash flows based substantially on profit or loss, the change in the recognised net assets or the change in the fair value of the recognised and unrecognised net assets of the Sub-Fund; and
- ii. The effect of substantially restricting or fixing the residual return to the redeemable unitholders.

**CSOP CSI 300 INDEX DAILY (2X) LEVERAGED PRODUCT  
(A SUB-FUND OF CSOP LEVERAGED AND INVERSE SERIES II)**

**CONDENSED NOTES TO THE FINANCIAL STATEMENTS**

**30 June 2021**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(f) Redeemable units (continued)**

The Sub-Fund's redeemable units meet the definition of puttable instruments classified as equity instruments under the revised IAS 32 and are classified as equity.

The Sub-Fund continuously assesses the classification of the redeemable units. If the redeemable units cease to have all the features or meet all the conditions set out to be classified as equity, the Sub-Fund will reclassify them as financial liabilities and measure them at fair value at the date of reclassification, with any differences from the previous carrying amount recognised in equity. If the redeemable units subsequently have all the features and meet the conditions to be classified as equity, the Sub-Fund will reclassify them as equity instruments and measure them at the carrying amount of the liabilities at the date of the reclassification.

The issuance, acquisition and cancellation of redeemable units are accounted for as equity transactions. Upon issuance of redeemable units, the consideration received is included in equity.

Transaction costs incurred by the Sub-Fund in issuing its own equity instruments are accounted for as a deduction from equity to the extent that they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

The Sub-Fund's own equity instruments which are reacquired are deducted from equity and accounted for at amounts equal to the consideration paid, including any directly attributable incremental costs.

No gain or loss is recognised in profit or loss on the purchase, sale, issuance or cancellation of the Sub-Fund's own equity instruments.

Redeemable units can be redeemed in cash equal to a proportionate share of the Sub-Fund's net asset value. The Sub-Fund's net asset value per unit is calculated by dividing the net assets attributable to unitholders with the total number of outstanding units of the Sub-Fund.

**(g) Segmental reporting**

Operating segments are reported in a manner consistent with the internal reporting used by the chief operating decision-maker. The Manager, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the chief operating decision-maker that makes strategic decisions.

**(h) Margin accounts and amounts due to a broker**

Margin accounts represent cash deposits held with brokers and Custodian as collateral against open swap contracts.

Amounts due to a broker is a sum payable for securities purchased (in a regular way transaction) that have been contracted for, but not yet delivered, on the reporting date.

**(i) Impairment of financial assets**

For financial assets measured at amortised cost, impairment allowances are recognised under the general approach where expected credit losses are recognised in two stages. For credit exposures where there has not been a significant increase in credit risk since initial recognition, the Sub-Fund is required to provide for credit losses that result from possible default events within the next 12 months (stage 1).

**CSOP CSI 300 INDEX DAILY (2X) LEVERAGED PRODUCT  
(A SUB-FUND OF CSOP LEVERAGED AND INVERSE SERIES II)**

**CONDENSED NOTES TO THE FINANCIAL STATEMENTS**

**30 June 2021**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Impairment of financial assets (continued)

For those credit exposures where there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure irrespective of the timing of the default (stage 2). The Sub-Fund considers a default has occurred when a financial asset is more than 90 days past due unless the Sub-Fund has reasonable and supportable information to demonstrate that a more appropriate default criterion should be applied.

(j) Net change in unrealised gains or losses on financial assets/liabilities at FVPL

This item includes changes in the fair value of financial assets/liabilities as at FVPL.

Unrealised gains and losses comprise changes in the fair value of financial instruments for the period and from reversal of prior period unrealised gains and losses for financial instruments which were realised in the reporting period.

(k) Net realised gains or losses on disposal of financial assets/liabilities at FVPL

Net realised gains or losses on disposal of financial assets/liabilities classified as at FVPL are calculated using the weighted average method. They represent the difference between an instrument's average cost and disposal amount.

(l) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of net assets if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

(m) Taxes

In some jurisdictions, investment income and capital gains are subject to withholding tax deducted from the source of the income. The Sub-Fund presents the withholding tax separately from the gross investment income in profit or loss. For the purpose of the statement of cash flows, cash inflows from investments are presented net of withholding taxes, when applicable.

(n) Distributions to unitholders

Distributions are at the discretion of the Manager. A distribution to the Sub-Fund's unitholders is accounted for as a deduction from net assets attributable to unitholders. A proposed distribution is recognised as a liability in the period in which it is approved by the Manager. No distribution will be paid out of or effectively out of the Sub-Fund's capital.

(o) Formation fee

The formation fee is recognised as an expense in the period in which it is incurred.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

(p) Transaction fees

Transaction fees are costs incurred to acquire financial assets/liabilities at FVPL. They include fees and commissions paid to agents, brokers and dealers. Transaction fees, when incurred, are immediately recognised in profit or loss as an expense.

(q) Related parties

A party is considered to be related to the Sub-Fund if:

- (a) the party is a person or a close member of that person's family and that person
  - (i) has control or joint control over the Sub-Fund;
  - (ii) has significant influence over the Sub-Fund; or
  - (iii) is a member of the key management personnel of the Sub-Fund or of a parent of the Sub-Fund;or
- (b) the party is an entity where any of the following conditions applies:
  - (i) the entity and the Sub-Fund are members of the same group;
  - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
  - (iii) the entity and the Sub-Fund are joint ventures of the same third party;
  - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
  - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Sub-Fund or an entity related to the Sub-Fund;
  - (vi) the entity is controlled or jointly controlled by a person identified in (a);
  - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
  - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Sub-Fund or the parent of the Sub-Fund.

(r) Foreign currency translations

Transactions during the period, including purchases and sales of securities, income and expenses, are translated at the rate of exchange prevailing on the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

Foreign currency translation gains and losses on financial instruments classified as at FVPL are included in profit or loss.
